Pyralin Toilet Pieces

Mayflower Pattern

The charm of this graceful pattern is greatly enhanced by the pastel shades and colorings so popular today. A set for every room according to one's taste. We offer you the translucent white pearl color, the dainty rose pearl color, the delicate jade green color, or transparent amber color decorated with 22-karat gold. The pearl colors need no decoration to bring forth their beauty, but amber color becomes still more attractive when decorated.

The Best All Steel Wagon Made

$6.25 Postpaid

NOTE: Test made with men standing INSIDE (Not on Platform)

Note Strong Steel Gears Balloon Style 1-Inch Rubber Tires

The One We Recommend

Riveted 10-Inch Double Disc Steel Wide Hub Wheels. Extra Large Roller Bearings. Other Stores Would Charge You $8.50 for One Similar. Every Part Fully Guaranteed. A Wagon You Will Be Proud of. Made Special for Us.

Body, 33x14¾ Inches, Is All One Piece

Not a removable top that buckles, warps and is almost impossible to replace when once taken off, but a strong substantial body with a baked-on (not painted) enamel finish, that is always satisfactory.

Made of strong, heavy gauge automobile steel with large roll rim at top and double beaded sides and beaded bottom for strength, beauty and massive appearance. No sharp edges or corners. The entire body is beautifully enameled (baked on) not painted in bright red. Undergearing and axles are of strong steel construction, which will not break or wear. Wheels enameled in bright red with gilt striping. Fancy, new style rust-proof hub caps clamped to wheel. They cannot come off. One-inch size balloon type rubber tires.

79R7648.....We pay the postage.....**$6.25**

We Defy Competition on These Cheaper Wagons

These ALL Steel Wagons are not as strongly built as our De Luxe Wagon, but are offered to meet price competition and also the demand for less expensive wagons. Far superior to others offered at similar prices. Body made from automobile steel, has roll top and beaded sides, enameled in red (baked on). Curved tubular steel tongue and channel steel bolsters, enameled black; rustproof clamp-on hub caps.

Will Carry Two 10-Gallon Milk Cans

Sold Up to $6.00 Elsewhere

Body, 32¾x14¾ inches. Red enameled double disc steel, 9¾-inch diameter roller bearing wheels with gilt striping. ¾-inch rubber tires. We pay the postage.

79R7638.....**$4.22**

For the Youngster
Body, 24½x12¾ Inches

Handy for mother to take her child around in while shopping. 8-inch double disc steel wheels with plain bearings, enameled red striped in gilt, with ½-inch rubber tires. We pay the postage.

79R7636.....**$3.25**

All Steel Coasters for the Little Tots

The little tots need exercise and an outlet for their energy. One of these low built, all steel coasters, especially designed for their use, will make them happy and keep them in robust health. The tongue is of tubular steel slightly curved to make steering easier. Body made from heavy gauge automobile steel all in one piece; no sharp edges or corners; enameled red baked-on finish (not painted). Double disc steel wheels, enameled red and equipped with high grade rubber tires. Tongue and undergearing enameled black.

Body, 25x12 Inches
Wheels, 6½ in. in diameter, ⅝-in. rubber tires. We pay the postage.
79R7635.....**$2.69**

Body, 21x10 Inches
Wheels, 5¼ in. in diameter, ½-in. rubber tires. We pay the postage.

Built Strong and Sturdy

Buy from Us and Save

$6.48

Full 1½-In. Balloon Type Rubber Tires

The Best Built Ball Bearing Wood Coaster on the Market. Every Part Fully Guaranteed

We have compared our Hercules De Luxe Wagon with those offered by others up to $8.50, but could find none its equal.

Boys! It's a Peach!!

Points of Superiority and Great Importance

1—1½-in. balloon type rubber tires.
2—Nickel plated steel tongue.
3—Extra deep body—joints tight—a beautiful job.
4—Top rails of body beveled.
5—High grade roller brake.
6—Heavy steel bolsters and braces.
7—Steel double fifth wheel.
8—Take-up nut on king bolt.

Large, roomy body, 36x16 inches, made from clean and clear first class kiln dried hardwood lumber, with tight joints, not the common tongue and groove joint that is found in most wagons offered by others. Beautifully finished natural color, with heavy coat of durable coach varnish with all edges and the beveled top rails enameled red. (Not painted with cheap brick red paint.) The extra heavy channel steel bolsters are unusually sturdy with strong steel braces to body. The ball bearing wheels are of the double disc steel type, 10½ inches in diameter. You cannot go wrong when you select this wagon.

79R7695.....(We pay the postage).....**$6.48**

Here's Some Value!!

Roller Bearing $3.79 Postpaid

Ball Bearing $5.39 Postpaid

10-Inch Wheels
1-Inch Tires

The Best Wood Wagon Values on the Market

We guarantee that we will save you money and that you will get a much better constructed, better finished wagon, with all the details that it should have, and one that will give the boy or girl excellent service for a long time to come.

Sold Everywhere Up to $7.00

Every Part Fully Guaranteed

Only the best materials are used. The body is kiln dried hardwood with tight joints and both front and back end boards are mortised into the sides. Strong steel bumper to which the tongue is fastened. Channel steel undergearing with strong steel braces to body. Grooved steel double fifth wheel and castellated take-up nut on king bolt. Our wagons have the highest quality wide hub double disc steel wheel, stamped from extra heavy gauge steel with interlocking flange at rim forming a positive lock. (No chance for the wheel to come apart.) Body, 36x16 inches. Varnished natural finish; top rails enameled red, ½-inch steel axles, nickel plated hub caps. Each with steel brake.

Our New Ball Bearing Flying Arrow Coaster

Beautifully red enameled tubular steel tongue with rubber bumper. 10-inch ball-bearing wheels, full 1-inch balloon type rubber tires. We pay postage.

79R7671—Postpaid.....**$5.39**

This Roller Bearing Wagon at $3.79 Has All of Them Beat

Strong black enameled tubular steel tongue; no bumper. 10-inch wheels, ¾-inch balloon type rubber tires. We pay the postage.

79R7650—Postpaid.....**$3.79**

The Only Original Studebaker Jr. Toy Farm Wagon

$12.98

No Other Mail Order House Sells This Beautiful Wagon

Each Complete With Tongue and Seat

A perfect miniature of Dad's Studebaker. Features: Sides and ends are removable; gearing with bent hounds strongly ironed and braced; steel bushings in hubs; steel tires, 5/32 inch thick, welded together; staggered spokes; steel axles, ⅝-inch in diameter. Kiln dried hardwood, beautifully enameled in green and red, neatly striped with black and orange. Shipped by freight or express, not prepaid.

Studebaker Junior

(As Illustrated)—The One We Recommend

An especially high class, strong and substantial wagon well worth the difference in price over lower priced farm wagons. Body, 36x17 in. Front wheels, 12 in.; rear wheels, 18 in. Shipping weight, 62 lbs. Shipped by freight or express, not prepaid.

79R7685.....**$12.98**

The Harvard Jr. Wagon

Similar to the Studebaker Junior, illustrated above, but with plainer gears and less trimming and details. Will give good service. Do not confuse with many inferior farm wagons sold elsewhere at about the same price. Body, 36x18 in. Front wheels, 14 in.; rear wheels, 20 in. Shipped by freight or express only, not prepaid.

79R7675—Shipping weight, 62 pounds.....**$9.98**

These Cute, Sturdy Little Coasters Designed for the Little Folks. Rubber Tires Double Disc Steel Wheels

Made by the same skilled workmen who make our large size wood coasters.

The Flying Arrow Playmate

Cute, shiny coaster for the little tots. Hardwood body, 24x10⅝ inches without rails. Finished in bright red enamel. Steel axles, braces and undergearing enameled black. 6-inch red enameled double disc steel wheels with ½-inch rubber tires. Nickel plated hub caps, hardwood tongue.

79R7639 Postpaid..... **$2.45**

Flying Arrow Junior $3.45

For the girl or boy not big enough to handle a standard size coaster. Hardwood body, 28x12⅝ in., and tongue finished in natural color with durable varnish; top rails and all edges trimmed with bright red enamel. Red enameled 7½-in. double disc steel wheels; ⅝-in. rubber tires. Strong steel axles, braces and gears; nickel plated hub caps.

79R7640—Postpaid.....**$3.45**

Full Ball Bearing Fairy Velocipedes

$8.35 And Up Postpaid

The Famous Fairy Velocipedes Nationally Known for Almost 50 Years.

The "Ace" of Velocipedes

Every father, mother and child knows the name Fairy on a child's Bike means that it is one of the best money can buy. It is so different from the common, ordinary type, there is no comparison. Our tremendous purchasing power has made it possible for us to offer these wonderful bikes at prices even lower than those usually asked elsewhere for ordinary quality.

Points of superiority and great importance.

1—Frame of drawn steel tubing (not gas pipe).
2—All joints hand brazed, not just slipped in and riveted.
3—Tubular steel fork (not a casting).
4—Rustproof, heavily nickel plated bicycle spokes.
5—Enough spokes in each wheel to withstand jars.

Built just like brother's large bicycle; sturdy, best in construction and very practical. Heavy tubular steel frame and fork with nickel plated crown. Nickel plated bicycle spokes, cranks, adjustable handle bars, pedals and grips; padded leather seat with resilient nickel plated double coil springs and bicycle bell. Rims of wheels enameled red with black striping. Sizes given are shortest measurements. Measure child from crotch to heel. Always order next larger size. Seat may be raised 3½ in. **Two largest sizes shipped only by freight or express, not prepaid.**

79R8360	24 in.	23 in.	35 lbs.	12.67

New Bicycle Type Frame Velocipedes

Look, Dad! these Joy-Toy velocipedes have a full floating removable axle. Brother can stand on bar without doing any damage. The new bicycle type frame on these bikes is more like a real two wheeler. And speedy? Look at those big rear wheels, larger than ordinary type. See that center bar that holds up the seat? Notice how it goes straight back and turns down sharply; that construction means comfort. All joints are hand brazed with brass, guaranteed never to come apart. Frame, fork and rims of wheels enameled black with gold striping (baked on). Nickel plated fork, crown, handle bars and pedal arms.

Comfortable - Sturdy Strong - Speedy

Beautiful "Flossie Flirt"

Unbreakable Ma-Ma Dolls
With Those Wonderful Eyes

America's Best Known Ma-Ma Doll

"Flossie Flirt" is the most wonderful animated doll made. She gayly rolls her "Flirty" eyes from side to side in the most delightful, pleasing way, winks and blinks mischievously and can also close her eyes in sleep. She says Ma-Ma, too. **Has soft, flexible, flesh pink, rubber arms and hands** that are as pleasant to touch as a living baby's chubby arm. The beautiful new dress is of fine sheer quality colored organdy, set off with a clever collar and lovely lace medallions. Charming French style, marcelled mohair wig (except small size with bobbed wig). Unbreakable composition heads with open mouth and teeth; cotton stuffed bodies; composition legs.

Our Guarantee

The Broadest Offer Known in Dolls. We guarantee "Flossie Flirt" dolls not to break under ordinary handling such as given by the average child. This guarantee includes the moving eyes.

Genuine DALTON Adding Machine

NINE COLUMNS

¼ the Price of a New Machine

Yet Guaranteed to Give the Same Satisfactory Service.

Time Payment Price, $65

A Few of the Many Features

1—Only 10 keys to operate.
2—Correction key that releases any number depressed by accident.
3—Duplicate item may be added without again using numeral keys.
4—Items may be printed without adding them.
5—Solid aluminum case reduces weight without sacrificing strength.
6—Adjustable paper holder. Holds paper from 2⅝ in. wide to 5¾ in. wide.

IT'S A BARGAIN—An adding machine that sold at $250.00, offered at about one-fourth that price. And that's exactly what we offer. The Dalton Adding Machine sold at $250.00, we are asking $59.75 for these machines; they have been used; but every one has been returned to the factory and has been completely rebuilt-reconstructed, the parts that showed the least signs of wear have been replaced and the finish gone over thoroughly. We say "you can't tell the difference between these and the brand new machines." And as for service, we guarantee you will get the same satisfactory service out of these rebuilts as you would get from the new machine, and if you don't we will refund your money. That's what we think of the DALTON ADDING MACHINES we are offering. The machine itself is so simple anyone can operate it. Column selection is automatic, each figure is placed in its proper numerical order by the machine itself without attention or thought of the operator. To write $45.17, you merely depress keys, 4, 5, 1, 7. All the figure work of your business can be handled on the Dalton. It adapts itself to all business. Shipping weight, 55 pounds. **Shipped by freight or express only. NOT PREPAID.** Size at base, 9½x14½ in., 11¾ in. high.

Time payment price..... **$65.00**

Send **$8.00** with order and **$8.00** a month until time payment price of $65.00 is paid. **Use Time Payment Side of Order Blank in Back of This Catalog.**

A Leader Among Low Priced Typewriters

Rem-Blick

Made by Remington Typewriter Co.

$24.95

SIMPLE PRACTICAL DURABLE

A Portable That's Different

The REM-BLICK enlarges the field of machine writing to include not only those thousands who use typewriters professionally, but those whose less exacting needs can be supplied satisfactorily by a smaller sum and simpler instrument at much less cost. The customary method of machine writing has always been with type bars—each machine requiring from twenty-two to forty-two. The Rem-Blick is a type wheel machine—no type bars are required. The types are inked by a roll (as on a printing press), no ribbon is required. Instead of shifting a weighty carriage for capital letters, the small type wheel is moved. Instead of forty-two type pieces, there is but one type piece or wheel which prints eighty-four characters (84).

Service and Economy

The REM-BLICK stands for a long time, is practical for home and office use and for traveling. It weighs but little and can be carried about wherever you go. If you know several languages, one Rem-Blick will write them all. The types are interchangeable. Equipment includes six ink-rolls, cleaning brush, oil dropper, screwdriver, ribbon roll tweezer, and carrying case. Shipping weight, 15 pounds. **Not mailable. Shipped by freight or express only. NOT PREPAID. Sold for cash only.**

$37.50 CASH PRICE

Pica type is the size ordinarily used. Elite type is a smaller size type for special purposes.

Originally Sold for $102.50 Now Offered at $37.50 Cash

Every typewriter has been completely rebuilt at the factory. Every essential working part that has shown the least sign of wear has been replaced by brand new parts. The machines have been refinished and polished, they look like new, operate like new, and we guarantee them to give the same satisfactory service as a brand new machine. These are not so-called second-hand typewriters that are offered throughout the country, but are reconstructed, refinished machines that are turned out of the factory the same as a new machine.

You Need a Typewriter—Why Not a Nationally Known Make

The typewriter has become the modern necessity in business, in the home and the school. You need a typewriter, everyone can profitably use one. Here is your opportunity to secure a high grade Nationally Known Remington Full Size Standard Keyboard Machine at one-third the original price of a new machine. For students, teachers, writers, business men, every trade, every profession feels its need. For lodge work, for neater school work you need a typewriter.

8 BIG FEATURES

1. **Key Board.** Standard Single Shift, has 84 characters scientifically positioned for greatest efficiency.
2. **Ribbon.** Two-color self-reversing ribbon automatically winds from one spool to the other.
3. **Stencil Device** provides for speed and sharpness in cutting stencils without removing ribbons.
4. **Ultra Rapid Line Spacer and Lever.** The same motion of lever returns carriage to end of line and paper to next writing line.
5. **Five Self-starting Marginal Keys** for tabulating and instant selection of all "indentations" used in letter writings.
6. **Shift Locks.** Sturdily constructed, positive, holds carriage rigidly in place.
7. **Paper Roll.** Easily accommodates paper any width up to the width of the carriage.
8. **Marginal Stops.** In plain view. Line lock functions with absolute reliability. Release button located for easy operation.

Note the Features Shown at the Right

Two-Year Guarantee

The Remington Typewriters are guaranteed to give the same service as a brand new machine and, **for two years, guaranteed against defective workmanship and materials.** This is twice the length of a new typewriter guarantee.

Ten-Day Free Trial

Order the Remington now! Try it in your own home; compare it with other machines; regardless of make or type compare it with brand new machines and then if you do not believe it to be the equal of any other typewriter, return it and we will gladly return any charges you have paid, together with all transportation charges. And it must satisfy you according to your own standards—you are the judge. We think it's the greatest bargain on the market.

Complete Equipment Included

Price includes waterproof cover, oil can, bottle of typewriter oil and book of easy instructions. Nothing else to buy, and the instructions enable even those who have never operated a typewriter before to learn quickly and easily.

$5.00 Down—$5.00 a Month

4-Row Keyboard GENUINE REMINGTON PORTABLE

For the Home, School or Office

Compact Complete Convenient

Machine Weighs 8½ Lbs. Fits in Case 4 Inches High.

$5.00 DOWN $5.00 A MONTH

The Portable With the Big Machine Features

The World's Largest Store through arrangements with the REMINGTON TYPEWRITER COMPANY has secured a quantity of the Latest Model 4-Row Standard Keyboard REMINGTON PORTABLES that have been used as demonstrators by Remington experts and for display work. These typewriters are not to be classed as rebuilt machines—some are practically new. Some were used a week, some a month, some merely shop worn, being used for display purposes—all are in perfect condition, look like new, operate like new and are guaranteed to give the same satisfactory service as a brand new machine.

AND YOU SAVE $15.00

The original cost of a REMINGTON 4-ROW STANDARD KEYBOARD PORTABLE is $60.00, and here we offer these demonstrators for a price that saves you one-fourth. $45.00 cash for a machine that looks like, operates like and guaranteed to give the same service as the $60.00 Brand New TYPEWRITER.

The Remington Portable

The REMINGTON PORTABLE is guaranteed against defective workmanship and materials for a period of one year, and if presented at any Branch of THE REMINGTON TYPEWRITER COMPANY within that time, any broken parts will be replaced and the machine readjusted according to regular machine standards. And THE WORLD'S LARGEST STORE BACKS UP THE REMINGTON GUARANTEE. This service is universal, as Remington Branches are within your reach no matter where you are—located in cities all over the world.

For You—For Everyone

The REMINGTON PORTABLE IS THE IDEAL TYPEWRITER for the Traveler, Explorer, Doctor, Student, Teacher, Writer, Farmer, in fact anyone who has writing to do can lighten their burden with the REMINGTON, as it renders a real service and renders it in a distinctive way. It is complete, compact and convenient, the machine itself weighing but 8½ pounds.

The Big Machine Features That Add to the Ease and Convenience of Operation

The REMINGTON PORTABLE is the smallest, lightest and most compact of all Standard Keyboard Machines. Compact as it is, yet complete in every detail, it includes many of the features of the STANDARD REMINGTON TYPEWRITER (the Big Machine). Foremost is the **Standard Keyboard**—42 keys writing 84 characters—with no shifting for figures, exactly like the big machines. The completeness of the Remington Portable extends beyond the keyboard. It includes the **carriage of standard width taking the regular long envelope, combined line spacer and carriage return lever, automatic ribbon reverse, back spacer key, two-color ribbon shift, variable line spacer** and **adjustable marginal stops.** All these features add to the ease and convenience of operation.

$5.00 Down—$5.00 a Month

And you can buy the REMINGTON PORTABLE on OUR TIME PAYMENT PLAN, $5.00 with order and $5.00 a month until the time payment price of $48.50 is paid. **Use Time Payment Order Blank in the Back of This Catalog.** Price includes carrying case, type brush and instruction book. **State color of typewriter wanted; also style of type.** Shipping weight, 15 pounds. Shipped by freight or express only. **Not prepaid.**

10 FEATURES

Porto-Rite Made by Remington Typewriter Co.

1. Standard Keyboard. 42 keys writing 84 characters with no shifting for figures.
2. Carriage. Standard width, taking the regular long envelope.
3. Variable Line Spacer.
4. Automatic Ribbon Reverse, automatically reverses and winds from one spool to the other.
5. Back Spacer Key. Conveniently located.
6. Adjustable Marginal Stops. Line lock functions with absolute reliability.
7. Combined line spacer and carriage return lever. The same motion of lever returns carriage to end of line and paper to next writing line.
8. Two-color ribbon shift.
9. Type bars when not in use rest flush with top plate.
10. Carriage lock makes machine rigid as the case itself for carrying.

A Fine Quality Portable Typewriter

The New Porto-Rite made by the Remington Typewriter Company is sold exclusively by Sears, Roebuck and Co. The lowest possible price of a portable with the four-row standard keyboard has been maintained at $60.00. In keeping with our policy of savings for our customers, we wanted to offer a high grade Portable Typewriter at a Money Saving Price. We arranged with the Remington Typewriter Co. to make a special typewriter for Sears, Roebuck and Co. exclusively. We wanted a real, A-1 machine and we got it.

The Porto-Rite is the universal machine for every man, woman or child who has personal writing to do. It is complete in every detail. **Note the features as shown on the left.**

Compact—Convenient

Complete, yet compact, fits in a case only 4 inches high, and light enough for a child to carry. The Porto-Rite is the ideal typewriter for the student, teacher, traveler, doctor, writer, in fact anyone who has writing to do will find the Porto-Rite the indispensable helper.

A Brand New Portable—Not a Rebuilt

The Porto-Rite is not a rebuilt or reconstructed machine, but a brand new Portable Typewriter offered for the first time and sold exclusively by Sears, Roebuck and Co. The Porto-Rite has a touch which for ease and lightness has never been surpassed among portables. Its completeness with every feature of the big machines, its strength and durability stand out. Finished in rich black. Choice of Pica or Elite type. **State style wanted.**

Late Model Underwood

Complete With All Accessories as Illustrated

Only **$43.95** Cash Price

$48.95 Time Payment Price

Pica Type is the size ordinarily used. Elite Type is a smaller size type for special purposes.

The Typewriter Champions Use

Genuine late Model Full Size Standard Keyboard Underwood Typewriter, the typewriter that has been used in every Championship Test for over 22 years, and has been winning all of them. For speed and endurance the Underwood leads them all. These machines are rebuilt and reconstructed according to factory standards. Every essential part that has shown the least sign of wear has been replaced with parts that are absolutely brand new. Refinished and polished, the machines look like new, operate like new, and we guarantee that they will render the same satisfactory service as you would expect of a new machine. In fact, we guarantee these rebuilt machines against defective workmanship and materials for a period of two years. This long guarantee is given because we are convinced that this machine will give as good service as a new machine.

Less Than Half the Original Price

The Underwood sold at $100.00 or more; think of it! A typewriter that cost $100.00 when new, offered at the remarkable low price of $43.95 Cash Price. **Less than half the original price.** Don't confuse these typewriters with so-called second-hand machines. They are completely inspected and thoroughly reconstructed by the most competent mechanics—men who are experts on typewriter construction.

Note These Features

Every feature embodied in the Underwood is for the ease and convenience of operation: The standard keyboard, carriage taking paper 10½ inches wide and writing a line 8½ inches long, combined line spacer and carriage return lever, variable line spacer, marginal stops, two-color ribbon shift stencil device—all these features are found in the Underwood.

Ten-Day Trial

Try the Underwood for 10 days. The test will be according to your own standards of satisfaction. If you don't believe it to be just as good as any brand new machine, in appearance and operation, we will return your money including any transportation charges you have paid. You are the sole judge.

$5.00 Down—$5.00 a Month

And you can purchase the Underwood full size Standard Keyboard Typewriter on our easy Payment Plan: **$5.00** down and **$5.00** a month until time payment price of **$48.95** is paid. **Use Time Payment Order Blank in Back of This Catalog.** Choice of Pica or Elite Type. **State size.** Shipping wt., 55 lbs. **Shipped by freight or express only. "WE"

Lindy's Own Book

Hundreds of Thousands of Copies Sold at $2.50. Now offered at the popular price of

65c

A great story telling of the preparation, flight and return of "We"—Lindy and The Spirit of St. Louis. The remarkable story of the remarkable feat by a remarkable young man. It appeals to every type of person—those interested in clean manhood, scientific achievement and winning personality. Ambassador Herrick has written a notable introduction to this story, simply told, characteristic of the man. Bound in cloth. Illustrated with scenes of the preparation of the flight, the return and reception accorded the great flyer on his return. 318 pages. Size, 5⅝x8¼ inches. We pay the postage. 65c

STUDY AT HOME and

Funk & Wagnall's Desk Standard Dictionary

The Ideal Dictionary for the Study, the Home or the Office

Abridged from the Funk & Wagnall's New Standard Dictionary. This dictionary is designed especially for the desk in the office, the college, the study or the library table. We consider this the greatest dictionary BUY today. The Desk Standard, based on the New Standard Dictionary of the English Language, contains many of the exclusive features of that work.

No cross-indexing or references to appendices. Its vocabulary is sufficiently inclusive to cover all words that might be met with in writing or reading. Every term has its own place in the ONE AND ONLY VOCABULARY. And that's just what we mean when we say no references to Appendices for Personal or Geographical Names, Abbreviations, Symbols, etc.

The **FUNK & WAGNALL'S DESK STANDARD** is the only dictionary that will give the commonest meaning first and follows it with the less common, archaic, obsolete meanings.

692 Pages, 1,200 Pictorial Illustrations

Contains more than 6,000 discriminating articles and groups of synonyms occupying 11,700 lines—2,000 more than any other dictionary of the same size. Bound in cloth with leather back. Index cut in on edge for ready reference. A remarkable value at the regular list price of $2.75, and an OUTSTANDING BARGAIN at our price. **We pay the postage.**

VAN BUREN STRAP WATCHES FOR MEN

6-Jewel Van Buren Strap Watch Only $4.75
15-Jewel Van Buren Strap Watch Only 7.85

For style and utility every man prefers a strap watch. For motoring, horse back riding, golf and all outdoor sports a wrist watch is indispensable. Because of its accessibility the business man has been quick to adopt it.

We call this watch "Our Leader" and thousands of satisfied customers testify to its dependability. Popular size, popular style, popular price. This is a well finished, strong and reliable timekeeper made especially for us. The case is solid nickel, plain polished, and has a good quality leather strap. The luminous silvered dial is especially easy to read. Illustration shows the actual size.

You have a choice of a reliable 6-jewel movement for $4.75 or a 15-jewel movement for $7.85. Either movement is guaranteed by us against defective material and workmanship. With proper care it should give many years of splendid service.

4R903—6-jewel strap watch..... **$4.75**
4R905—Same style as 4R903, but 15-jewel strap watch..... **$7.85**

Solid Nickel Case

Brushed satin finish; 10½ ligne. Fitted with our Van Buren movement. Small illustration shows how back of watch is curved to fit the wrist.

"NEW YORK TO PARIS" Airplane Model

Sold Exclusively by Sears, Roebuck and Co.

Complete With Compass Fob

The watch all America will be talking about, our own exclusive design. Everybody will want one and can have one at our extremely low price. Made to commemorate the memorable flight of Colonel Lindbergh. The back of watch shows in fine stamped engraving reproductions of "Lindy's" plane, the Statue of Liberty and the Eiffel Tower. It will run over thirty hours with one winding, the elapsed time of the flight from New York to Paris. Naturally the watch is American made. It is 16-size, and can be had with either plain or luminous dial, which can be read in the dark. **Non-breakable crystal.** The bezel is stamped in an interesting design and, to give the extra value for which Sears, Roebuck and Co. are famous, a fob with a reliable compass which is furnished without extra charge. This watch is guaranteed by the manufacturer and by us for one year against defective material and workmanship. **We pay the postage.**

Nearest Approach to the Diamond
White Synthetic Sapphires

WE PAY the POSTAGE

White Synthetic Sapphires wonderfully resemble diamonds. They contain the same elements as the genuine sapphires. They are white, brilliant and very hard, and cut to resemble diamonds.

Be sure to mention ring size wanted. See page 523 for ring measuring chart.

We Pay the Postage

4R4881—14-karat 6.50

Red Synthetic Rubies

The only difference between the genuine natural ruby found in India and our red synthetic ruby is that man has created this gem chemically and in the true pigeon blood color. This jewel is just as hard, just as brilliant as the priceless natural mined pigeon blood ruby.

18-Karat $5.50

From the Shadows of Antiquity came the custom of giving Birthday Jewelry

Everyone is familiar with the birthstone traditionally linked to the month in which he or she was born. Some personal quality such as sincerity, wisdom or courage may particularly appeal to you in a friend. How pleased your friend would be to receive a ring symbolic of that quality.

January—**Garnet**, dark red translucent stone.
February—**Amethyst**, purple translucent stone.
March—**Bloodstone**, green, red blotches, opaque stone.
April—**Moonstone**, white opaque stone.
May—**Emerald**, translucent green stone.
June—**Agate**, white with green moss blotches, opaque stone.
July—**Ruby**, bright, red translucent stone.
August—**Sardonyx**, reddish brown opaque stone.
September—**Sapphire**, dark blue translucent stone.
October—**Opal**, changeable color, opaque stone.
November—**Topaz**, dark yellow translucent stone.
December—**Turquoise**, light blue opaque stone.

Unless otherwise stated, **Birthstone Rings** are set with fine doublets with the exception of the Bloodstone, Moonstone, Agate, Sardonyx and Opal, which are genuine. The Turquoise is fine imitation. The birthstone sets in all other articles on this page are fine imitations. **Each article furnished in neat presentation box.**

The true wedding ring is made from one piece. It should be a continuous circle, without joint or seam. This illustration shows the way wedding rings should be engraved. Prices include engraving.

The True Love Wedding Ring
With 5 Genuine Diamonds
Shaped to fit the finger, fits snugly and will not turn. Worn with the assurance that the diamonds are always on top. With each ring we send a bride's memory book; also an attractive case shaped like a book. We furnish this ring in 18-karat solid white gold or platinum, 5 per cent Iridio, set with five brilliant regular cut diamonds. Hand engraved. Enlarged illustration shows the pattern in detail. Sizes, 5 to 10. State size. Postpaid.
4R5557—18-Karat Solid White Gold $37.35

10 and 14-Karat Solid Gold Emblem Rings

Construction of Emblem Pins and Buttons
Unless otherwise stated, only the heads and tops of emblem pins and buttons illustrated here are 8-karat solid gold, and the pin, joint and catch on the emblem pins and the shoe (that part of the emblem buttons that screws into the buttonhole) are made of extra toughened rolled plate stock.

Mention size of ring wanted. See ring measuring chart on page 523. Illustrations show actual size of rings and emblems. *We pay postage on merchandise listed on this page.*

RING SIZE CHART

It is very important when you order a ring from us that you send the correct size so that we can send you a ring that exactly fits your finger.

METHOD "A"—Procure a ring that fits the finger. Place it over the circle in the chart that it fits over, always considering inside measurements. The number of that circle is the size ring you will require. If one circle should be slightly larger than the inside of the ring, which fits your finger, this indicates a size between the two. For example: If size 6 is a little small and size 7 just a little large, you will want size 6½.

METHOD "B"—If you cannot find a ring of the proper size, take a soft piece of copper wire or even a hairpin and twist it together to form a ring which will just pass over the middle joint of the ring finger. If you wish, you may enclose this wire ring with your order, attaching it to the paper to prevent its being lost.

If you cannot determine your ring size by methods "A" or "B" given above, then send for our Cardboard Ring Measuring Chart before ordering.

Guaranteed for 15 Years

Extraordinary Savings in Tableware for Hotels, Resorts, Churches, Lodges

Those needing tableware in large quantities will recognize in Sears BERKELEY and BANCROFT patterns a value in tableware that they have never been able to equal before. We have compared quality and prices on these two patterns with everything we could find on the market anywhere near approaching them in quality and nowhere have we been able to duplicate them at Sears prices. By placing an immense order we believe we save you at least one-third over prices elsewhere on this tableware, made by one of the most famous manufacturers of silverware, on our special order. Plated on solid nickel silver, the most satisfactory base for all silverware, and guaranteed for 15 years. THE LARGER THE QUANTITY YOU BUY THE LOWER THE PRICE. See table below.

26-Piece Set

Did you ever see fine 15-year silver plate priced so low? There is a saving of at least one-third over prices elsewhere to you when you secure this beautiful silverware at our low price. The designs are beautiful and in every detail the workmanship is better than you secure ordinarily in silverware costing you very much more. **We pay the postage.**

Includes 6 knives, 6 forks, 6 teaspoons, 6 tablespoons, sugar shell and butter knife.

FOR LONG SERVICE ALASKA SILVERLIKE TABLEWARE GUARANTEED FOR A LIFETIME

Alaska serves an essential purpose in every household. It saves the fine silver plate and is ideal where long continued hard service is demanded. While it contains no silver, it is so beautiful that most people think it is solid silver. It is not plated but of the same hard wear resisting metal through and through—truly a lifetime service! It remains continually attractive, bright and easily cleaned and it never tarnishes—and look at our prices. Where can you equal them? A real value that gives you a saving on every dollar. Prudence pattern is the extra heavy and Laval and Colonial patterns, the medium weight.

Regarding Engraving
We can engrave all table ware on this page in Old English at 5c per letter. Script at 3c per letter. **PRINT initials wanted.**

Stainless Steel Knife and Fork Set

Tableware that will last a lifetime, yet of lasting beauty, that retains its attractiveness, that is easily kept bright — the economical everyday tableware. Set of 6 knives with **stainless steel blades;** and 6 Alaska forks.

GENUINE ROGERS Nickel Tableware

We Pay the Postage

Made for a lifetime of day in and day out service under even the most trying conditions! Women appreciate the artistry of its design and that we are offering a tremendous saving on the usual prices quoted elsewhere. In appearance nickel silver resembles solid silver, but it is a composition metal, the same through and through. There is no silver in it. Like solid silver, nickel silver should not be left in fatty or acid foods. With proper care its bright, lustrous polish lasts indefinitely.

Remember—There are lighter weights offered by others at similar low prices. They should not be confused with this fine quality.

HIGH POWER GLASSES

Experts Choose Woehler Prism Binoculars for Their Fine Quality

Dr. Woehler Prism Binoculars

$28.00 Postpaid

8-Power

You'll back this big value to your bottom dollar! These prism binoculars are especially imported by us in large quantities. That's the reason for this special low price! They're made right; you'll find Woehler binoculars in every part of the world. Highest quality; large 1¼-inch object lens, giving a **bright, clear and wide field of vision;** 115 yards at 1,000 yards. Adjustable eyepiece allows for unequal vision.

Rapid adjustment! This means ease in watching moving objects; **ideal for races, games, etc.!** High power, good for all outdoor use. Handsome appearance, finished in black, covered with genuine leather. **Glasses and case equipped with shoulder strap. On your vacation—hunting—fishing—bird and nature study, they're indispensable. The man who knows quality, who knows value, who knows a bargain, won't miss this big Woehler value. Choice of 8 or 10-power. Length, closed, 4¼ inches. We pay the postage.**

5R9560¼—Eight-power.....$28.00
5R9562¼—Ten-power.....$29.85

When traveling, power glasses will add to the enjoyment of the trip.

Every day finds some occasion where power glasses are a convenience.

The immense crowds at modern sporting events make use of power glasses a practical necessity.

French Prism Type Binoculars, 8-Power—Good Quality

Powerful, **yet small and compact!** That's one of the advantages when you buy prism type binoculars. They give you a wider field of vision, too—90 yards at 1,000 yards. These French-made glasses, of good materials, are surprisingly economical for an 8-power binocular type. Height, 4½ in. Object lens, 1 in. in diameter. Adjustable eyepiece for unequal vision. Metal parts black enamel finish; black leather covered body equipped with black leather case and shoulder strap. We pay the postage.

5R9552¼.....$14.95

FEATURES DETERMINING *the*

Illustration "A"

Illustration "B"

Power Glasses have come into such universal use that the illustrations to the left and on the opposite page are intended to illustrate some of the features of construction of Power Glasses and so enable buyers to judge more accurately of values.

Four principal features determine the quality and value of far-vision glasses.

First—The Field. This means the amount of space covered at a given distance and varies according to the construction of the glasses. Binoculars with their prism type of construction (see illustration "A") make possible a wider field of vision than ordinary field glasses. Illustration "A" shows the travel of the light rays across the binocular prisms.

Second—Illumination. Determines the clearness of the view. The size of the object lens determines the amount of illumination (light) that enters into the cylinder. Illustration "A" illustrates the position of the object lens and the manner in which the light strikes the magnifying glasses to produce the clearest possible view.

Third—Power. This means the number of times the figure is enlarged when viewed through a glass, and is indicated as "3-power," "8-power," etc.

Fourth—Adjustment. Illustration "B" shows the adjustment that makes it possible to adapt the glasses to the exact pupillary distance of the person's eyes using them, as pupils of the eye should be in the exact center when looking through the glasses. Greatest care is exercised in the selection of all Sears Power Glasses to secure scientific accuracy and efficiency.

American Made Pocket Microscope

Fifty-power microscope, handy, easy to carry, pocket size. Well constructed, black crystalline finish. Has swing mirror complete with one prepared slide, two glass slides, one dissecting needle, and one pair of tweezers. Instructions with each instrument. Handy. Practical. We pay the postage.

Opera or Indoor Sports Glass

For years we have tried to find a good opera or indoor sports glass that we could sell for less than $3.00. Experts said it was impossible. But those same experts agree that we have a wonderful little glass here. And we sell it for $1.98! Attractively finished, metal parts black enameled. Leather covering. Closed, 3½x1⅝ in. Soft, pliable leather case. We pay the postage.

5R9621¼—Each..$1.98

High Power Double Achromatic Telescope

40-Power

Made with double achromatic eyepiece and double achromatic object glass. Special construction of objective and eyepiece makes possible an extraordinary high magnifying power in a small compact instrument. Although object glass measures only 19 lignes (1 11/16 in.) in diameter, and total length of instrument, extended, is only 20¾ in., the **magnifying power is 40 times.** Width of field, 17 yards at 1,000 yards. Length, closed, 8 inches. Draw tubes finished in dead black. Body covered with fine morocco grain leather, with leather caps for each end and shoulder strap with loop for attaching to the body of the instrument.

We pay the postage.

5R9522¼ $18.75

Clamp for Telescopes or Binoculars

For best results a support for the instrument is essential. This clamp is adjustable for any size telescope we list. Works fine on a camera tripod. We pay the postage.

5R9516¼ $5.89

Extra High Grade Telescope

Magnifying Power, 45 Times.

Made in France. Accurately ground lenses from the finest optical glass, carefully centered and adjusted, make this a particularly excellent instrument. **For astronomical work** the celestial eyepiece listed at the right is a necessity. **For observation of the sun a dark glass** is mounted on the slide cover of the eyepiece. Draw tubes, trimmings and all exposed metal parts are black finish, the very best and most expensive finish known for optical instruments. **Rustproof, will not tarnish.** Draw tubes always work smoothly and easily. Body covered with fine leather, morocco grained. Made with sunshade, and instead of ordinary cap it has hinged cover. Length, extended, 41½ in.; closed, 12½ in. Wt., 3½ lbs. Diam. of object glass, 25 lignes or 2½ in. We pay the postage.

5R9518¼.....$24.65

Celestial Eyepiece to fit Telescope 5R9518¼ for astronomical work, increasing power to 68 times. With all celestial eyepieces, the image is seen **inverted,** a matter of no consequence in astronomical observations, but which renders such eyepieces unsuitable for terrestial work. We pay postage.

5R9520¼ $6.78

Dr. Fossgate's Vibro-Phone

Improved conversation tube with diaphragm for dividing and intensifying sound. Spiral spring lining, hard rubber earpiece and black enameled 2½-inch metallic mouthpiece. Lgth., 40 in.

5R9734—Covered with black mohair. We pay the postage.....**$3.22**

5R9736—Covered with black silk. We pay the postage.....**$3.83**

Achromatic Telescopes

Covered with fine leather, morocco grain; brass draw tubes; highly burnished; lacquered trimmings. Brass cap for lens, dustproof sliding cover for eyepiece. We pay the postage.

	Diameter of Object Glass		Length, Extended	Closed	Magnifying Power	Width of Field at 1,000 yards	Price

at MONEY SAVING PRICES

Buy This Real Quality Instrument *for* Hard Service *and* Save Money

Glasses at the show or opera add to the enjoyment by bringing to you much of the personality of the actors that you would otherwise miss.

On camping, tramping, fishing outings of all kinds, a pair of Power Glasses are a wonderful convenience.

Glasses at the races are almost indispensable. You miss so much of the real excitement without them!

QUALITY OF POWER GLASSES

The three illustrations at the right will be found interesting to those contemplating the purchase of Power Glasses.

Illustration "A" shows an ordinary scene, as it appears to the naked eye.

Illustration "B" shows the same view as shown through an ordinary Field Glass.

Illustration "C" shows the same view as seen through Binoculars.

These three views illustrate very clearly the point that Field Glasses magnify, by bringing closer, the view or object as seen by the naked eye, while Binoculars, through the prism type of construction, spaces the vision further apart than the eyes, making possible a wider field than with ordinary glasses.

From this it will be seen that field glasses are constructed entirely different from Binoculars, not having the prism type of construction. In determining qualities it is therefore essential to ascertain whether it is an ordinary field glass or Prism Binocular that is offered; also it must be remembered that the quality of the lenses is of great importance.

In Sears Glasses only a pure white glass of very special quality is used, giving them very great light gathering strength to add to their power of penetrating ordinary haze and insures a clearness of vision unequalled in any other type of glass. Flint and crown glass used in the manufacture of ordinary lenses is never used in Sears Glasses. Adjustable right eyepiece allows for uncqual vision.

Sears Binoculars and Field Glasses are made by expert workmen with extreme care. They are accurately described and priced lower than the same quality of glasses elsewhere.

Note that the object as seen through the Binocular (illustration "C") is the same size as seen through a Field Glass (illustration "B"), but added width of vision is obtained through the Binoculars.

Chevalier Glasses

Magnifying Power — 4 times. Width of field, 76 yards at 1,000 yards. **Size**—Extended, 6¾ in.; closed, 5½ in. Weight, 1½ lbs. **Object Glasses**—24 lignes or 2⅛ in. "Three L" RUGS

EXTRA SPECIAL VALUE
37R2670
$5.95
9x12 Ft.

OUR "Three L" LEADER

The leader of all floor covering values! A supreme money saving opportunity! An improved quality, a lower price. A tested and guaranteed rug made according to our own exacting specifications. A rug that we know will give 100 per cent satisfactory service. Here's freedom from all floor covering worries! We urge comparison with any other rug offered by any other store in the United States. We've used a good, sturdy, durable grade of felt base. We've guarded every detail of construction—made it better than the average—which means more wear, more resilience, more comfort, more value! We've used only the finest grade of oil paint, applying an extra thick coat which is stainproof, waterproof, fadeproof, easily cleaned. It is our famous "Three L," the best felt base construction ever produced. Our "Double Guarantee Bond" insures your complete satisfaction. Blue or Tan. **State color. Not prepaid.**

SEARS, ROEBUCK and CO.
The World's Largest Store

Sears Super "Three L" Rugs are the finest made. Extra heavy because of their sturdy, sanitary, waterproof felt base. Extra durable because of their fine, high quality enamel paint surface. They are as easy to clean as a china dish. Some have nationally famous "Accolac" finish, all have a high glossy surface that adds months and months of wear, and enhances their sparkling beauty. These Super "Three L" rugs are the finest felt base floor coverings produced, embodying all the advanced ideas of construction. They are absolutely the best rugs offered for sale anywhere by anybody. You cannot buy a better felt base rug in all the United States, no matter how much higher the price is. And, furthermore, these Sears Super "Three L" Rugs are perfect in every way; no seconds, no discontinued patterns, no manufacturers' old stocks. Products of the largest manufacturers in the Nation, they are the newest, the finest and most beautiful ever offered. They are the supreme achievement in felt base rugs. Our low prices are the result of tremendous buying power, economical organization and selling methods. Compare our prices with those asked by other firms for their best felt base rugs—you will be convinced that you "Save at Sears"!

ENAMEL FINISH
RAG FELT—Extra Fine Quality
DOUBLE SEALING COAT OF PAINT
SEALING COAT OF PAINT

ACCOLAC FINISH $9.85 9x12 Ft. Extra Quality

Our Best Grade Super "Three L" Rug

"Accolac" finish—there's none better! The last word in a lacquer that seals in the beauty, that protects the surface, that wears and wears. Has the laster and hardness of tile, the toughness of leather, the elasticity of cork, is absolutely stainproof and scarproof. A fittingly beautiful finish for these beautiful rugs, the final touch of quality that distinguishes these quality rugs. Insist on "Accolac" and accept no substitute. Is combined with a pattern of exquisite beauty in this fine Super "Three L" rug. **Taupe or Rose. State color.**

ACCOLAC FINISH $9.65 9x12 Ft. Extra Quality

Popular Super "Three L" Rug

Hidden quality, as well as quality you can see, is the key to rug value. A pretty pattern printed in fine enamel paints and protected by "Accolac" is the quality you see. Strong, flexible, durable felt base—the heaviest grade made—is the quality you don't see. It is heavy grade rag felt, saturated with asphaltum, and means lasting, satisfactory service, a base that is waterproof, sanitary and sturdy. A tremendous bargain, our low price can not be equaled, our value giving cannot be matched. **Taupe or Blue. State color.**

DOUBLE Guarantee BOND

WE GUARANTEE that our Linoleum Rugs will satisfy you perfectly in that they will give the service you have a right to expect, that they represent full value for the price you pay. The Manufacturer joins us in this double Guarantee,

SEARS, ROEBUCK AND CO.

The Great Wear-Resisting Qualities of Sears Genuine Printed Linoleum Rugs are known the country over. These double guaranteed linoleum rugs will outwear any other hard surface rugs made.

We need hardly to describe the beauty of these new patterns—the illustrations show the true beauty of each design, the sturdiness of construction, and the extra heavy quality, with prices so low, at a saving only the World's Largest Store can offer.

We know that no genuine guaranteed linoleum rug can be sold at less than our prices. There are some cheaper linoleum rugs to be had, but they are not the kind of rugs that you want nor the kind of rugs that we recommend and guarantee. They are expensive at any price, and rather than offer them as unsatisfactory values, we recommend in their place our fine quality Sears "Three L" Rugs.

FINE QUALITY FLOOR COVERINGS

ALL GUARANTEED No Seconds — PERFECT MERCHANDISE No Close-Outs

Weights quoted in this or any other mail order catalog are merely shipping weights including the crate, etc., and have nothing to do with the quality of the merchandise.

New Soilproof Inlaid Linoleum

Here are four designs of rare charm. Patterns "A" and "B" are the very neatest embossed tiles we have ever seen. Patterns "C" and "D" are richly veined marble effects. All are genuine Sealex linoleum of fine quality, made by the exclusive Sealex process which actually seals the tiny pores so dirt cannot grind in—even fruit juices ink or ammonia can be quickly wiped up without leaving a trace. **Order by catalog number and choose pattern by letter.**

37R56906—6 ft. wide. Shpg. wt., 4½ lbs. Per ft... **$1.25**

"ACCOLAC" FINISH *Quality Inlaids 12 Feet Wide*

Patterns "J" and "K" are Fine quality molded inlaids. Patterns "L" and "M" are the best quality wide width inlaids made in all America. There is nothing finer or better. The Accolac finish on this goods is the same as described on page 544. **Order by catalog number and be sure to state letter of pattern desired.**

J and K	Width	Shpg. Wt.	Per Ft.
37R56926	6 ft.	4 lbs. per ft.	**$1.08**
37R56922	12 ft.	8 lbs. per ft.	**2.27**
L and M.	Extra quality.	Heavy weight.	
37R56936	6 ft.	4¾ lbs. per ft.	**$1.29**
37R56932	12 ft.	9 lbs. per ft.	**2.68**

Fine Quality Inlaid Linoleum

A group of the most distinctive linoleum designs obtainable. Extra fine qualities. Pattern built right up from the burlap base, insuring long service, uniform coloring and distinct designs. Their purchase is an investment in satisfaction. Patterns "E" and "F" are newly developed designs and perfect copies of real marble. Combine the beauty of genuine Italian marble with the resilience and inexpensiveness of linoleum. Pattern "G" and "H" are among the finest molded inlaids we could find. **Order by catalog number and choose pattern by letter.**

37R56916—Width, 6 ft. Shpg. wt., 4 lbs. Per ft..... **$1.15**

Merchandise on this page shipped freight or express, not prepaid.

Outstanding Inlaid Linoleum Value

Unequaled opportunity for careful selection. Four excellent patterns at prices so low that we believe they offer the biggest linoleum values obtainable.

Patterns "N", "P" and "R" are the new straight line, inlaids with famous "Accolac" finish. Pattern "S" is a good grade molded inlaid. **State letter of pattern desired.**

37R56946—Width, 6 ft. Shpg. wt., 4 lbs. Per ft..... **82c**

Exceptionally Fine Printed Linoleum

All the advantages of linoleum—resilience, long service, beauty—at a very moderate cost. Extra thick enamel paint surface means lasting beauty. **State letter of pattern desired.**

W and V	Width	Shpg. Wt.	Per Ft.
37R35606	6 ft.	3½ lbs. per ft.	**$0.49**
37R35602	12 ft.	7 lbs. per ft.	**1.05**
T and U. Extra Quality Superior "ACCOLAC" Finish.	Width	Shpg. Wt.	Per Ft.
37R35596	6 ft.	3½ lbs. per ft.	**$0.57**
37R35592	12 ft.	7 lbs. per ft.	**1.25**

Sears Super "Three L"

Extra Heavy—Extra Quality

Every desirable floor covering feature—combined in the best felt base made—Sears Super "Three L." Modest in price and beautiful in design, easy to clean and long wearing, these floor coverings will be a source of lasting pleasure. Finished with "Accolac," the new lacquer that adds months of wear and sparkling beauty. **State letter of pattern desired.**

Tapestry Brussels Rugs

Beautiful Floral Pattern
Here is a real bargain in a Seamless Tapestry Brussels Rug. Will give years of service. Woven of good quality yarns in a design new in the season's latest mode. You will like this rug better every day you own it. The surface wool yarns are closely woven into small loops firmly bound into the back, to give this inexpensive floor covering wearing qualities superior to other types of low priced rugs. For service, workmanship, good materials and artistic pattern, there is no better wool face rug made for the money. **Shipped freight or express only, not prepaid.**

Size, Abt.	Shpg. Wt.	
37R5170	9 x12 ft. 23 lbs.	$14.65

See Page 559 For Rug Cushion

All Guaranteed Perfect Merchandise No Seconds No Closeouts

ANYONE who has never seen carpets and rugs made can not realize how easily quality can be cheapened and cheap quality disguised. Quality that will stand up under constant wear for many years comes only by a very careful selection of raw materials and skillful workmanship.

Into these Velvet Rugs go nothing but the finest materials—carefully analyzed and tested for long wearing qualities. Beauty of pattern and color has not been overlooked—they are not copies or reproductions, but are original creations. **Many are Sears exclusive patterns, such as 37R6030.** Remember, in order to name low prices we do not compromise with quality.

$37.75 9x12 Ft.

$32.75 9x12 Ft.

No other furnishing in the home attracts as much attention as the rugs. They are the very heart of your rooms. To give you new, more beautiful patterns which will blend harmoniously our buyers have searched America's Leading Mills. They have chosen only the very latest patterns. Illustrated on this page are beautiful Axminster and Velvet Rugs which we know are the very best medium priced rugs made. Every detail has been investigated, the materials from which they are made, the care and skill exercised in their manufacture. That is why we are glad to place our guarantee on them and, more than that, each rug is new and perfect, no seconds, no closeouts. If quality, beauty and economy determine your choice you will buy your rugs from Sears.

SEAMLESS AXMINSTER RUGS

In selecting these splendid, modern, up to the minute Seamless Axminster Rugs, the one thing we had in mind above all else was to give our customers the biggest rug values in America in quality merchandise. The deep, soft, plushlike pile insures years of satisfactory service and wear. Nothing but the finest materials are used. The wool yarns are dyed in the skein with the best dyes obtainable, which give perfect uniformity of coloring. The variety of artistic patterns and their rich, harmonious effects make these rugs especially valued for their decorative qualities. Their soft, luxurious appearance, their resistance to hard wear, have made them extremely popular. Whatever pattern you may choose, remember we guarantee to save you money and to satisfy you perfectly.

FINE WILTON-AXMINSTER AND VELVET RUGS

All Guaranteed Perfect Merchandise

Our Best Rugs on Easy Payments

We recommend that you investigate Sears easy payment plan. We know that our easy terms are most liberal and our prices the Nation's lowest. You pay no exorbitant premium here. You actually save one-third and, in many cases, as much as one-half compared to what the same rug would cost you elsewhere. Pay a little down and a little each month and enjoy the rug you have always wanted.

No Seconds, No Closeouts.

52 New Patterns Shown in Full Colors

Special Easy Payment Plan

HAVE you been considering the purchase of a more expensive rug? Perhaps you know that the finer qualities made by American manufacturers are offered in most rug stores at prices from $55.00 to $150.00. But now you can buy the same rugs from the World's Largest Store for a great deal less money. The saving surely makes it very much worth your while to send for our Special Rug Catalog.

In this catalog we offer 52 distinct different designs and colors of our more expensive rugs. In this collection of fine rugs are Wiltons, luxurious Axminsters, splendid Velvets and some special new weaves. We know, that in this age of color harmony, it is difficult for our customers to choose the exact pattern and coloring best fitted to their homes. To give you the same opportunity for careful selection as that offered by the most exclusive rug dealers, to offer you a wide range of fine, distinctive rugs, we present this catalog. It contains only the best and finest qualities that American manufacturers have to offer, and brings you the widest range of patterns and sizes ever shown by any store. Remember, however, that there are no rugs selling for less than $43.00.

EFFECTIVE DRAPERY MATERIALS

45¢ A YARD

30¢ A YARD

Lustrous Rayon and Cotton

A most practical, inexpensive and attractive material for casement curtains or drapes. Made of Rayon and cotton in a new Jacquard woven design. Much in demand and very popular drapery. Ecru only. Width, about 40 inches. We pay the postage.

24R6335 Per yard..... **45c**

Guaranteed Sunfast

Extra good quality Sunfast Cotton Velour Plush. Suitable for making portieres, drapes, hangings, table runners, upholstery, etc. Velour is especially desirable just at present for decorative purposes. Comes in blue, mulberry, brown, rose, red, green or taupe gray. State color. Width, about 54 in. We pay postage.

24R6385—Per yard..... **$1.98**

Lower Priced Velour

Good quality cotton Velour Plush, at a money saving price. Colors: Blue, rose, mulberry, red or taupe. State color. Width, 54 inches. We pay postage.

24R6390—Per yard..... **$1.50**

Drapery Tiebacks

Beautiful quality Rayon and cotton tiebacks to be used for hangings or portieres. Can be adjusted so that your drapes will hang gracefully. Predominating colors of blue, rose, taupe, mulberry, red or gold; also combinations of black and gold, or black and polychrome. State color. We pay postage.

24R755—Per pair. **$1.20**

Lighter Weight

Drapery Tieback, not as heavy as 24R755 listed above. Same colors. State color. We pay the postage.

24R754—Per pair..... **55c**

Priced Very Low

Drapery Tussah, made of Tussah Silk on a cotton warp. The woven design makes this a very effective drapery material. Priced at a big saving. Colors: Blue, rose, gold or natural tan. State color. Width, about 36 inches. We pay the postage.

24R6338 Per yard..... **35c**

Splendid Value

Half Silk Tussah Pongee, the ever popular drapery material; also useful for blouses, dresses, slips, etc. Colors: Rose, blue, natural tan or mulberry. State color. Width, about 35 inches. We pay the postage.

24R6360 Per yard..... **30c**

Better Quality

Excellent quality Pongee, made of silk and cotton tussah, better than 24R6360 above. Comes in natural tan only. Width, about 35 in. We pay the postage.

24R6363 Per yard..... **52c**

Colored Art Denim ✧ Decorative Burlap

Heavy Quality

Splendid cotton material in a waffle weave. Used for valances, hangings, covers, fancywork, etc. Incomparably low price for this excellent quality. Natural tan (oatmeal color). Width, about 50 inches. We pay the postage.

24R6340—Per yard..... **92c**

Colored Art Denim

Quality Denim. Do not confuse with the cheaper quality generally sold elsewhere. This is one of our most serviceable draperies. Used for heavy drapes, pillow tops, upholstering and fancywork. Width, 36 inches. Colors: Green, brown or blue. State color. We pay the postage.

24R6274—Per yard..... **28c**

Decorative Burlap

Heavy quality. Suitable for finishing floors around rugs, for screens and for general decorative purposes. Width, 36 in. Not sized for wall use. Colors: Green, red, brown, rose, blue or natural linen. State color. We pay the postage.

24R6282—Per yard.. **24c**

Beautifully Designed

Firmly woven, excellent quality Tapestry that is a real value at the price we're asking. Suitable for upholstering, valances, table runners, pillows, etc. One color combination of harmonizing red, blue and brown on tan background. Width, about 50 in. We pay the postage.

24R6337—Per yard..... **$2.15**

Plain Rep Tapestry

Heavy quality, suitable for curtain drapes, furniture coverings, piano covers, table covers, etc. Colors: Myrtle green, rose, mulberry, blue, natural tan or brown. Mention color. Width, about 49 inches. We pay the postage.

24R6310—Per yard..... **65c**

Heavy quality Monk's Cloth made in the basket weave. Suitable for fancywork, drapes, hangings, covers, etc. Comes in natural tan (oatmeal color) only. Width, about 50 in. We pay the postage.

24R6346—Per yard..... **65c**

36-Inch Width

Same quality and color as above. We pay the postage.

24R6356—Per yard..... **49c**

ATTRACTIVE DRAPERY TRIMMINGS

Cornice Fringe

An attractive style to replace the wood cornices and shaped valances. Made of Rayon bullion fringe with fancy heading. Can be used over any kind of curtains or drapes. Nine inches deep and comes in six beautiful polychrome color combinations in which the following colors predominate: Rose, blue, polychrome, green, mulberry, or taupe to harmonize with any color scheme. State color wanted. Made with a pocket attachment on back to slip over your curtain rod. We pay the postage.

24R6889 Per yard..... **85c**

Rayon Bullion Fringe

Fast Color Bullion Fringe. Furnished to match drapery materials and curtain nets. State color. We pay the postage.

24R6887—Width, 2 in. Per yard..... **18c**

24R6888—Width, 3 in. Per yard..... **25c**

Cretonne Edging

Cotton edging for cretonnes and draperies. 1 inch wide. Colors to match all cretonnes and drapery materials. State color. We pay the postage.

24R6885 Per yard..... **5c**

Ball Fringe

To match curtain scrim and cretonnes. State color. Will not match silks. We pay the postage.

24R6880 Per yard..... **7c**

Knotted Tassel Fringe

Very effectively made of Rayon and cotton. Suitable for use on all drapery materials; also used extensively for Italian drapes. Colors to match drapery materials. State color or send sample to be matched. Width, 2¼ inches. We pay the postage.

24R6883—Per yard..... **33c**

Rayon Edge

Sunfast Rayon and Cotton Edging to match our drapery materials. Width, ¾ inch. State color. We pay the postage.

24R6886—Per yard..... **8c**

Tapestry

Heavy quality Verdure Tapestry that is priced remarkably low. Can be used for upholstering; also for portieres, table covers, etc. Comes in one color combination to harmonize with all furnishings: Black ground with blue, mulberry and tan. Width, about 50 inches. We pay the postage.

24R6333—Per yard... **$1.79**

Splendid quality heavy mercerized Verdure Tapestry. Beautifully designed and woven with colorings that blend harmoniously. Very popular for upholstery purposes. One color combination of blue, mulberry, green and tan. Width, about 50 inches. We pay the postage.

24R6336 Per yard..... **$2.89**

We Pay the Postage

When comparing prices be sure to consider this extra economy. You always save the most money at the World's Largest Store. We Pay the Postage.

Positive 48-Hour Rush Service

Mounted on Hartshorn Rollers

Unfilled Handmade Oil Opaque Shades

You're sure of **long service** when you select quality like this! These Fine Quality, **Unfilled, Hand Made Oil Opaque Shades** are made in our own great factory. The firm cloth foundation is excellent quality, and has no filling, so it will not crack or wrinkle. Colored by hand under the oil opaque process, giving it the attractive, evenly colored, **lightproof** texture so much desired! Do not confuse this quality with the lighter weight Machine Oil Opaque Cloth. The shades are mounted on fine nickel trimmed Hartshorn rollers. But even with these splendid features, with quick delivery assured, and satisfaction guaranteed, you will notice that our price is amazingly low for such quality!

COLORS—Made in the following attractive colors: **Sand, light brown, buff, slate, white, dark green or olive green. State color.** Shade cloth 48 inches and wider is made of heavier fabric and may not always exactly match colors of smaller shades, but the variation is hardly noticeable.

We pay the postage on shades up to 72 inches wide by 8 feet long. Shades over 72 inches wide by 8 feet long are not mailable. **Shipped only by express or freight, not prepaid. Shipped from our store or from our Chicago factory.**

In the price list to the right "Width, Inches" is the width of cloth. If the exact size you wish is not given in the following schedule, the next larger size will be charged, but the shade will be made the exact size you order. We use Hartshorn wood rollers on shades up to 63 inches wide and 10 feet long and the 72-inch width up to 6 feet long inclusive. The larger shades are mounted on metal rollers. **State whether measurements are for inside or outside brackets.**

BE SURE to read "HOW TO MEASURE FOR MADE TO ORDER WINDOW SHADES" below, and give us the "6 EASY POINTS OF INFORMATION" as described on the opposite page, which we will need to fill your order correctly.

We require the full amount of cash with the order in every instance. All shades are shipped complete with slats, brackets and nails. Cotton shade pulls are listed on page 581.

Special Made to Order Sizes in Window Shades are filled within 48 hours after your order is received in our factory.

24R1500½—Order by number and be sure to state width, length and color wanted.

How to Measure for Made to Order Window Shades

Outside Brackets

DIAGRAM No. 1, above, shows window shade hanging on the outside of the casing. If you want to install your shades on the outside of the casing, give width of cloth and be sure to specify **"OUTSIDE BRACKETS."**

For the LENGTH, measure from top to bottom of window and add 6 inches to allow easy raising and lowering.

Inside Brackets

DIAGRAM No. 2, above, shows window shade hanging on the inside of the casing. If you want to install your shades on the inside of the casing, give the exact width of the roller from tip to tip (including small metal tips which fit in the brackets), or measure inside of the window casing from stop to stop. This measurement should be taken at top of casing where shade will hang. **Be sure to specify Inside Brackets.**

MEASUREMENTS should be taken very accurately, even to a sixteenth of an inch. Use a yard stick or rule. Do not use a cloth tape-line.

REMEMBER to Tell Us How the Measurements Were Taken | **ALSO TELL US** Kind of Brackets You Want

Holland Shades

Mounted on Hartshorn Rollers

Venetian Striped

Here's real window shade beauty and at a price so low you'll want them at every window! Genuine Venetian Striped Holland Shades, exceptional in quality, and with the popular soft, glossy finish. Ideal because they admit more light than ordinary shades, making the room more cheerful. Colors: **White, ecru or linen color. State width, length and color; also specify whether inside or outside brackets are wanted.** We will make shades exact size you order, charging for the next larger size. See "How to Measure for Made to Order Window Shades" (above) and give us the "6 Easy Points of Information" described on opposite page.

We pay the postage on shades up to 72 inches wide by 8 feet long. Shades over 8 feet long are not mailable. Shipped only by express or freight, not prepaid. **Shipped from our store or from our Chicago factory.**

Special Made to Order Shades

Mounted on Hartshorn Rollers

Machine Oil Opaque Shades

BE SURE to read "HOW TO MEASURE FOR MADE TO ORDER WINDOW SHADES" and give us the "6 EASY POINTS OF INFORMATION" as described below. State whether measurements are for inside or outside brackets.

For attractive shades that harmonize with your furnishings, wear well and offer a big saving in price we recommend these shades. They are made in our own big shade factory, from the best quality machine oil opaque (lightproof) shade cloth obtainable; so we know the quality and *guarantee* it to please you. Order as many as you need today with the firm assurance that you are getting service giving shades at rock bottom prices. Can be furnished up to 54 inches wide in the lengths stated. If the exact width you want is not given, the shades will be made the exact width you order and we will charge you the price for the next larger size. For shades wider than 54 inches, refer to 24R1500½ on opposite page. For shade pulls refer to page 581.

48-Hour Service

Our Special Size Window Shades that must be made up are usually shipped within 48 hours after your order is received in our factory. This rush service is possible only because we have our own big shade factory where your requirements are given special attention and care. In spite of extravagant claims by other stores about the superiority of their service on made to order shades, we are confident that our service is equal to or faster than any other. A trial order will convince you.

All of our stock size shades are shipped on our famous "less than 24-hour service" schedule.

Colors: Sand, light brown, buff, slate, white, dark green or olive green. State color wanted. Order by number and be sure to state width, length and color wanted. Shipped from our store or from our CHICAGO factory.

6 Easy Points of Information

Needed to Fill Your Order for Shades Correctly

1—Catalog Number of the quality and style you wish. If the number contains a fraction be sure to include it.

2—Quantity—State how many you need of each size.

3—Widths—Be sure to tell us whether the widths are *Cloth Measure* or *Tip to Tip of Roller*. Read carefully instructions on opposite page for measuring. For *Outside Brackets* give *Cloth Measure*. For *Inside Brackets* give *Tip to Tip Measure of Roller* including the small metal tips which fit into the brackets.

4—Brackets—State whether you wish *Outside* or *Inside Brackets*. Refer to Diagrams No. 1 and No. 2 on opposite page. If shades are to hang on the face of window casings specify *Outside Brackets*. If shades are to be placed inside the casings specify *Inside Brackets*.

5—Lengths—Give lengths. Measure from top to bottom of windows and add 6 inches to allow easy raising and lowering.

6—Color—State color. Select from colors listed in the quality and style that you wish. We will send samples free on request.

Luxor Cambric Shades

Mounted on Hartshorn Rollers

LUXOR is a translucent shade made of finely woven cambric, expertly prepared and colored by hand with pure oil colors. It has no filling, yet it is firm bodied, pliable and will not crack or wrinkle. The beautiful colors, applied by hand, are fast, and will retain their fresh, attractive appearance. The soft tints are a delight to the eye and will harmonize perfectly with any decorative scheme. LUXOR shades will render years of service and satisfaction.

If the exact size you want is not given in the following list, the next larger size will be charged, but the shades will be made the exact size you order. **State size and color wanted, and specify whether measurements are for inside or outside brackets.** Be sure to read "How to Measure for Made to Order Window Shades" on opposite page and give us the "6 Easy Points of Information" as described to the left. **Shipped from our store or from our CHICAGO factory.**

Soft tone colors: **Cream-white, ecru, pongee, linen color, ivy green or moss green. State color.** Samples furnished on request. For Cotton Shade Pulls see 24R730 listed on page 581.

We pay postage on shades up to 72 inches wide by 8 feet long. Larger sizes are not mailable; shipped only by express or freight, not prepaid.

Each.....**42c 50c 53c 61c 65c 68c 77c $1.00 $1.10 $1.17**

Duplex Two-Color Shades

Best Quality Duplex Hand Made Oil Opaque Cloth

Made with a dark color on the outside (so that the shades will all be one color on the outside of your home), and a light color on the inside to harmonize with the lace curtains and draperies. Color combinations are: **Dark green and white; dark green and buff; olive green and white, or olive green and buff. Remember, the dark color is the outside. If the exact size you want is not given in the following list, the next larger size will be charged but the shade will be made the exact size you order. State color combination, size and whether measurements are for inside or outside brackets. We pay postage on shades up to 72 inches wide by 8 feet long. Larger sizes are not mailable; shipped only by express or freight, not prepaid.**

6 Easy Points of INFORMATION

Needed to Fill Your Order for Shades Correctly

1—Catalog Number of the quality and style you wish. If the number contains a fraction be sure to include it.

2—Quantity—State how many you need of each size.

3—Widths—Be sure to tell us whether the widths are *Cloth Measure* or *Tip to Tip of Roller*. Read carefully instructions for measuring on page 584. For *Outside Brackets* give *Cloth Measure*. For *Inside Brackets* give *Tip to Tip Measure of Roller* including the small metal tips which fit into the brackets.

4—Brackets—State whether you wish *Outside* or *Inside Brackets*. Refer to Diagrams No. 1 and No. 2 on page 584. If shades are to hang on the face of window casings specify *Outside Brackets*. If shades are to be placed inside the casings specify *Inside Brackets*.

5—Lengths—Give lengths. Measure from top to bottom of windows and add 6 inches to allow easy raising and lowering.

6—Color—State color. Select from colors listed in the quality and style that you wish. Samples sent on request.

Durolin Cambric

Washable—Sunproof—Rainproof

Durolin Washable Window Shades offer many advantages no other shade cloth can give. They are easily washed—simply lay them flat on a table and scrub with a brush or sponge, using hot or cold water and pure soap. They are absolutely sunproof, and ordinary exposure to rain and weather will neither spot nor discolor them. Durolin is made of the finest cambric, is opaque, but has absolutely no filling; yet is firm bodied and pliable, will not crack, curl, shrink or wrinkle. No better shade cloth can be made. Our money saving prices are very low for this exceptionally fine quality. If the exact size you want is not given in the following list the next larger size will be charged, but the shades will be made the exact size you order. **Specify whether measurements are for inside or outside brackets.** Be sure to read "How to Measure for Made to Order Window Shades on Page 584 and give us the "6 easy points of information" described to the left. **Shipped from CHICAGO.** Beautiful soft tone colors that will blend perfectly with any decorative scheme: **Ivory, buff, mauve (dark sand), Morocco (brown) or green. State color.** For shade pulls, refer to page 581.

We pay postage on window shades up to 72 inches wide by 8 feet long. Shades over 72 inches wide by 8 feet long are not mailable. Shipped by express or freight, not prepaid.

Made of 7-Ounce Duck Colored Woven Stripes of Green, Blue or Brown

Gay, colorful awning shades that add just the right touch to sleeping porches or sun parlors. Very low prices, too, for such durable, attractive quality. Made of heavy 7-ounce duck with colored woven stripes. Scalloped at bottom and trimmed with cotton bullion fringe. Overlocked at sides. Mounted on nickel trimmed, patent spring rollers. These shades are very carefully made, and we know you will be pleased with their neat appearance. We make them in our own shade factory and, therefore, can offer them to you at prices that show tremendous savings. Sold at much higher prices elsewhere. **State catalog number of size wanted and be sure to mention color. We pay the postage. Shipped from CHICAGO.** We do not carry these shades in stock at our other stores.

BARGAINS

Three Supreme Values! All the beauty and style of the most expensive aluminum ware is combined with startling low prices in "Hi-Grade" quality. Its construction is far superior to merchandise offered elsewhere at or near our prices. "Hi-Grade" features paneled convex body, ebonized knobs and handles that stay cool, bails attached so firmly they will not loosen or come off, absolutely leakproof seams and snug fitting covers. Teakettle spouts are welded to the body in one seamless joint. Percolator is of latest construction with all aluminum coffee basket and spreader, assuring perfect, even percolation.

HI-GRADE Aluminumware

Hi-Grade ALUMINUM WARE

"HI-GRADE." America's finest low priced aluminum, is made from one piece of medium weight pure aluminum of uniform thickness and extra hard finish. It is heavier than aluminum ware sold elsewhere at higher prices. "Hi-Grade" boasts of the same trimmings, workmanship and details that identify the best aluminum ware. It is seamless and of full capacity. "Hi-Grade" ware is by far the best low priced aluminum. Compare prices—see how much we save you. For extra heavy aluminum ware we recommend our "Best Made" shown on the opposite page.

BEST MADE Aluminumware

BEST MADE ALUMINUM WARE

"BEST MADE" Extra High Quality Aluminum is stamped from extra heavy, thick, hard, pure aluminum in one piece; absolutely seamless and practically indestructible. Beautifully finished and polished. It is the very best of its kind in materials, workmanship, proportions and finish to the smallest detail. "Best Made" ware displays superiority. For utility, convenience and appearance it is unsurpassed. It will wear and wear, through years of daily service—for a lifetime. "Best Made" utensils are in all ways the most satisfactory, yet our prices are under usual dealers' costs for aluminum ware of the same weight.

Preserving Kettles

Ideal for stewing and making soups as well as preserving. Smooth finish. Lipped. Convenient tilting handle, with hole for hanging; ball with cool wood grip; ears securely riveted. We pay the postage.

CHOICE BULBS FOR SPRING PLANTING

We Pay the Postage on All Bulbs on This Page

GLADIOLUS

WE OFFER ONLY VARIETIES OF PROVED WORTH

Your Garden Will Be Incomplete Without "Glads"

Our bulbs are first size, 1½ inches or more in diameter, except where otherwise stated. This class of summer flowering bulbs is doubly valuable for their show of garden bloom and for cut flowers. If the spikes are cut when the lowest flower is in bloom, the others will open in succession and remain fresh for a long time. To have a continuance of blooms, plant some bulbs every few weeks during early spring. Our list of varieties is not large but are selected from hundreds of the best.

AMERICA. 71R2500—The standard commercial pink color, soft lavender pink. Box of 12 quality bulbs for..**36c**

HALLEY. 71R2501—Large well opened flowers of a delicate salmon pink. Box of 12 quality bulbs for..**45c**

MRS. FRANCES KING. 71R2502—A beautiful shade of flame pink. Flowers of giant size. Box 12 quality bulbs..**45c**

SCHWABEN. 71R2511—The strongest and largest of all Gladioli of yellow color; a clear citron yellow with aster purple tongue on lower petals. Box of 12 quality bulbs for.....**47c**

LA MARECHAL FOCH. 71R2522—The Improved America, having enormous flowers of a beautiful delicate pink; the finest variety of its color in existence. Box of 12 bulbs for....**37c**

CHICAGO WHITE. 71R2504—A fine white with lavender stripes on lower petals. Box of 12 quality bulbs for..**47c**

MRS. FRANK PENDLETON. 71R2503—Beautiful bright rose pink on a pure white ground with a blood red blotch on the lower petals. Box of 12 quality bulbs for.....**49c**

PRINCE OF WALES. 71R2517—The flowers are large and well placed and the color is a most charming coral pink. It is a sport of Halley, but larger and grows taller. Box of 12 quality bulbs for.....**59c**

E. J. SHAYLOR. 71R2520—Tall spike, beautiful large blooms of a clear deep rose pink. Box of 12 quality bulbs for.....**69c**

FLORA. 71R2512—Beautiful golden yellow, large flowers. A very strong grower and a very wonderful variety. Box of 12 quality bulbs for.....**69c**

HERADA. 71R2506—Pure mauve with deeper markings on throat and lower petals. Wonderful for cut flowers. Box of 12 quality bulbs for.....**69c**

ANNA EBERIUS. 71R2513—A rich dark, velvety plumrose, with throat of a deeper shade. Box of 12 quality bulbs for.....**75c**

SOUVENIR. 71R2510—Pure canary yellow, one of the early bloomers. Tall stemmed, with 4 to 6 flowers open at one time; keeps exceptionally well. Box of 12 quality bulbs for.....**98c**

We pay the postage on bulbs.

THE GOLD MEDAL ASSORTMENT

We especially recommend this assortment for its fine display of large flowers on erect, strong stems. A wonderful collection of 24 gladiolus bulbs of assorted colors and varieties at prices seldom equaled for this quality. Usually sells for about $1.50 elsewhere. You will surely get a fine display of "glads" for this low price. Bulbs differ in size, depending on variety. Planting instructions with each box. **We pay the postage.**

71R2514—Box of 24 bulbs..**98c**

OUR FINEST ASSORTMENT

Here is an unusual opportunity to get some exceptional "Glads" at a real saving. These bulbs when bought elsewhere would cost anywhere from 10c to 15c each. The assortment consists of three each of four well known varieties (described below), all labeled as to variety. All are finest quality No. 1 Bulbs, 1½ inches or over in diameter. Order today as the supply of some varieties is limited.

(1) Virginia: A leader among the red "glads." Large deep red flower, strong stems. As many as six open at a time. The best since the introduction of Mrs. Frank Pendleton. We are sure you will be pleased with this one.

(2) Baron J. Hulot: The leading purple variety. Rich deep shade of violet or indigo blue. Flowers, medium size, well placed on a graceful spike and with many open at one time. Makes a brilliant showing in any garden.

(3) Golden Measure: A real treat for the lover of yellow "glads." Very large with dark golden yellow flowers.

(4) Mrs. H. E. Bothin: A sensational variety with light geranium pink flowers with flame center. Strong spikes. Splendid for cut flowers.

We pay the postage on bulbs.

71R2549—Three each of the above four varieties. 12 bulbs for ...98c

SURPRISE ASSORTMENT

This assortment is similar to our gold medal assortment. The main difference is in the size of bulbs, those used being second size or 1¼ to 1½ inches in diameter. This size will bloom and give splendid results. However, the flowers will not be quite as large or the stems quite as strong in every case as those of the larger bulbs. This is a splendid mixture for those who are just starting their "Glad" Garden. **We pay the postage.**

71R2515—Asst. of 24..**59c**

Cannas

As a bedding plant, Cannas furnish a wide range of colors and a long season of bloom. For gorgeous effect in foliage and flower there is nothing to equal them. For early bloom start the roots in boxes or pots indoors and transplant after danger of frost has past. All roots are strong two to three eye divisions. **We pay the postage.**

KING HUMBERT. 71R2677—Scarlet red flowers with reddish brown foliage. Height, 4 feet. Box of 12, all one variety.....**89c**

YELLOW KING HUMBERT. 71R2680—Beautiful yellow flowers spotted red. Green foliage. Height, 4 feet. Box of 12, all one variety.....**89c**

PRESIDENT. 71R2681—Outstanding bright scarlet variety. Rich glowing red color. Large flowers. Height, 4 feet. Green foliage. Box of 12, all one variety.....**89c**

MRS. FLORENCE VAUGHAN. 71R2676—Yellow flowers, spotted red. Green foliage. 4 feet. Box of 12, all one variety.....**69c**

KING MIDAS. 71R2682—A good deep yellow variety. The color is remarkably permanent. 5 feet green foliage. Box of 12, all one variety.....**98c**

HUNGARIA. 71R2683—The large pink flowers are borne in enormous compact trusses, well above the foliage. The best pink canna. 3½ feet, green foliage. Box of 12, all one variety.....**98c**

CHARLES HENDERSON. 71R2678—Bright red flower with green foliage. Three feet. Box of 12, all one variety.....**69c**

LOUISIANA. 71R2679—Deeper red than Henderson. Green foliage. Five feet. Box of 12, all one variety.....**69c**

Dahlias

Spring is beautified by the Peony, summer would seem barren without the Rose; in like manner we have come to expect of autumn — the Dahlia. No garden subject is easier to grow, responds more readily to care and attention or flowers more freely. Several hundred varieties could be easily grown without duplication. We offer a select assortment of 12 strong healthy tubers. It is made up of 4 to 6 separate colors and 3 or 4 different types. In ordinary mixtures there is usually but one or two colors. **We pay the postage.**

71R2695—Assortment of 12 tubers..**$1.39**

We offer an exceptional assortment of very popular first quality named varieties at a low price. The assortment consists of two each of the following varieties.

Jack Rose: Crimson.
Minnie McCullogh: Soft yellowish bronze.
Sylvia: White shading to pink.

71R2697—Assortment of 6 tubers.....**79c**

Lilies

To show lilies at their best in the garden set them in the hardy border or among the shrubbery so that they may benefit from the shade of the surrounding plants, although it is not necessary that they be in the shade. In their natural homes lilies are accustomed to living among other plants, their tall spikes overtopping the grasses and low growing shrubs. They normally prefer a slightly acid soil which does not contain fresh manure. Drainage is important, because they cannot stand a water logged soil. In planting cover the bulbs at least three times their own depth. All of our bulbs are first size quality bulbs. **We pay the postage.**

EASTER LILY. 71R2561—While it can be forced into bloom for Easter, it is just the thing for Decoration Day and later flowering, quite hardy and good for outdoor planting. Large size bulbs. Each.....**21c**

GOLD BANDED LILY. 71R2558—For those who are willing to risk an occasional disappointment, the Gold Banded Lily offers special rewards. No soil is too poor for it. Provide perfect drainage, plenty of moisture and avoid fresh manure. The flowers are white suffused with pink and marked with red dots. A distinct gold band marks the center of each petal. Blooms comparatively late. Height, 2 ft. Each bulb.....**29c**

REGAL LILY. 71R2559—Their stiff wiry stems are thickly surrounded by very narrow dark green leaves. The marble white trumpets are shaded rose purple on the outside and canary yellow inside. During the blooming season the perfume of these lilies fills the garden with the scent of southern jasmine. Each.....**49c**

TIGER LILY. 71R2563—A very showy lily with its rich orange flowers spotted with purple. Without a doubt it should be in every garden. We offer only genuine imported Japanese bulbs. They are better than cheaper American grown bulbs. Very hardy. Each.....**25c**

Peonies

The Queen of the Garden

This flower is surpassed by none for beauty, hardiness and permanence. Like irises, they will bring much in added beauty at a cost of very little in extra time required to meet their simple needs. We offer only 3 to 5-eye divisions. Unnamed varieties are in reality named varieties of which our grower has a surplus. No matter which you purchase you are sure of getting peonies that will give you satisfaction.

FELIX CROUSE. 71R2661—A midseason peony of the rose type and a real leader. Large globular solid flowers of a rich brilliant ruby red. A real peony and one that is hard to beat. A bargain at our low price. Each. Postpaid.....**59c**

FESTIVA MAXIMA. 71R2662—If this were a scarce variety collectors would pay almost any price to obtain it. It is a leader of all the peonies and although it is an old variety it still leads. It is the foundation of all peony collections and should never be omitted. Very large white flowers dotted with carmine. Each. Postpaid.....**39c**

EDULIS SUPERBA. 71R2663—A leading pink variety. Popular because it blooms early, usually around Decoration Day. Large size fragrant flowers of clear mauve pink. Each. Postpaid..**39c**

Unnamed Varieties

PEONIES. 71R2660—We offer first quality roots of either red, pink or white. These are all choice varieties and are not to be confused with cheap unnamed colors from worn out plants sometimes offered by growers and dealers. State choice of color.

Each. Postpaid.....**39c** 3 for....**$1.05**

Tube Roses

Choice Double Flowering Tuberoses are known for their heavy fragrance and for their beautiful flower spikes which are borne on long stems. The bulbs should not be planted until all danger from frost is past and the ground is warm. The soil should be a moist rich sandy loam. They make excellent cut flowers. We offer only choice Dwarf Pearl Tuberoses which are the most beautiful and double flowering. **We pay postage.**

71R2685—Box of 12.....**39c**

Red Hot Poker

TRITOMA

The tall showy spikes of flaming orange red flowers give the plant its name of "Red Hot Poker." Blooms from the end of July to October. A group of these plants in front of the shrubbery is very attractive. Should have a sunny well drained location in cold climates and in severe climates it should be dug and stored in cool celler. **We pay postage.**

71R2648 — Choice divisions. Each.....**35c**

Bleeding Heart

The supply of this old favorite plant has been very limited for several years, but is gradually increasing. We have been fortunate in securing choice large roots containing 4 to 6 eyes, which is florists' forcing size. **We pay the postage.**

71R2646 Each.....**55c**

Lily of Valley

This splendid flower does best in a shady moist place where it will give a quick and pleasing effect. Order some now and get a bed of them started in a cool corner next to the foundation of your house or some such suitable place. All clumps are large size suitable for outdoor planting. **We pay the postage.**

71R2647 Large clump. Each.....**55c**

Bermuda Onion Plants

Each Plant Hand Selected and Counted

All our plants are grown for us by the most reliable grower of onion plants in Texas who ships only plants that are uniform in size and properly handled so as to be in the finest condition for planting. Each and every plant is counted and not bunched by guesswork as is usually the case. This costs us more money, but we are still able to sell you the finest onion plants obtainable at prices below those usually asked for inferior plants.

The Bermuda onion planting in this country is becoming larger each year and no home garden should be without them. Easier to grow and produces a crop earlier than either seed or sets and does not go to seed as early as sets. Try one-quarter or one-half acre and have some money coming in earlier in the season. One-quarter acre requires 10,000 plants, set 3 inches apart in rows, and rows 3 feet apart.

Express charges on crate lots average about $1.35 to $1.50 to points in territory served by our store. **All plants shipped from LAREDO in SOUTH TEXAS.** Shipping weight, 1 crate, 6,000 plants, 35 lbs.

Crystal Wax

7|R925½—Per 500 plants. **We pay postage**.....$0.69

7|R930½—Per 6,000 plants (1 crate)..... 4.25

Crate lots shipped by express not prepaid.

Tomato Plants

Sturdy field grown plants which are well hardened and give better results than greenhouse plants. Mail us your order early so you will be sure of getting the quantity you order.

7|R934½—REDFIELD—Heavy and long bearer; good carrier because of tough skin and solidity.

7|R931½—EARLIANA—Ripens early, making it profitable for market gardeners. Large smooth fruit, bright deep scarlet color.

7|R933½—STONE—A first class main crop, extra large and bright red. Good for late tomatoes.

7|R935½—BALTIMORE—Midseason variety. Red color, firm and very thick meat.

We pay the postage on all tomato plants. 100, 57c; 200, $1.00; 300, $2.25; 1,000, $4.25.
Shipped from grower in Valdosta, Ga.

Frostproof Cabbage Plants

Are Profit Makers

They're frostproof because they can stand temperatures close to freezing without being injured. These plants are grown for us in the south, in the open field in winter and early spring, which gives them great powers of resistance. **Important**—To get the full benefit of their frostproof early heading qualities, these plants must be set out at least a month to six weeks earlier than you would set out hothouse or cold frame plants. When the weather is cold the tops do not grow, but the roots develop and are ready to boost the growth when spring weather arrives.

Early Crop—Bigger Profits

You can count on fully matured heads two to three weeks before you would get them with hothouse or cold frame plants. Vegetables ahead of season bring two to three times the prices of those which come a few weeks later. Use our frostproof plants. Make a good profit over and above all costs. Send your order early.

Varieties: Early Jersey Wakefield, Copenhagen Market and Premium Late Flat Dutch. State variety wanted.

Shipping weight, 2,000 plants 45 lbs. **Shipped from VALDOSTA, GA., near Florida border.**

7|R940½— 200 plants. **We pay postage**..$0.65

MULCH PAPER ~ The *New Miracle* Crop Producer

INCREASE Your Profits

We Pay Freight on Mulch Paper

NOW! YOU CAN HAVE THIS AMAZING AID TO PLANT GROWTH AND CROP PRODUCTION

Years of extensive experiments carried out in various sections of this country have proved its wonderful possibilities. It will pay you to try this new way of farming under paper. Tests conducted by the United States Department of Agriculture show the following:

Results Derived From MULCH PAPER

1—It increases the yield from 40 per cent to 500 per cent depending on the crop being grown. Almost an unending variety of farm and garden crops respond with maximum yields.

2—Grow earlier crops. As a result of the absorption of sun heat during the day the soil temperature is raised from 2 to 6 degees. The paper serves as a blanket both in retaining heat and decreasing the cooling action resulting from evaporation. With the increase of soil temperature comes the increased activity of soil organisms so important to plant growth in early spring.

3—Conserves moisture. It keeps the soil from packing under heaviest rains and from baking under the hottest sun. The lightest rainfall is directed to plant roots and not lost by evaporation.

Gator-Hide MULCH Paper, Made in Two Types

In order to give it the widest possible range of usefulness, Gator-Hide Mulch Paper is made in two types and in two widths, each type and width designed specifically for definite crops or groups of crops. In the interest of results as well as of economy, care should always be used in selecting the right paper for the right crop.

Buy 2 or 3 rolls as a trial

The Method of Application

1—For such crops as tomatoes, egg plants, peppers, field corn and crops of similar character, it is the general custom to lay mulch paper over prepared ridges of earth which are slightly hilled from the edges to the center. The soil should be worked to a fine texture and smoothed down so that it presents no irregular lumps or humps. The mulch paper is rolled out lengthwise on the ridges and a small amount of soil is heaped over the edges of the sheet to hold it in place. At suitably spaced intervals, planting openings of the necessary diameter are then made in the mulch and the seeds planted or plants transplanted through these openings. The size of the opening will necessarily be governed by the particular crop which is being grown. Tender plants such as tomatoes require an opening of from 4 to 5 inches in diameter (or square).

2—For the general run of drill crops such as carrots, radishes, spinach and others of similar characteristics where the sowing is in closely spaced rows and intervals, it is general custom to lay mulch paper in parallel strips in such manner that not more than 2 inches of planting space appears between the strips.

Type A, Light Weight

Growing Mulch for annuals, designed primarily for field culture, comes in rolls of 900 lineal feet. In initial trials both widths are suggested.

7 I R3532¼—18 inches wide. Shpg. wt., 27 lbs. **Freight prepaid.** Roll **$3.50**
7 I R3527¼—36 inches wide. Shpg. wt., 53 lbs. **Freight prepaid.** Roll **7.00**

Type B, Heavy Weight

Growing Mulch for all biennial and perennial crops such as grapes, currants, gooseberries, raspberries and perennial flowers. Used, during the propagating period, for apple and other fruit trees, nursery stock and for all home garden plantings, including annuals. **Comes in rolls of 450 lineal feet.** 18 inches and 36 inches wide. In initial trials the 18-inch width is suggested for propagating work and the 36-inch for field (permanent) planting.

7 I R3533¼—18 inches wide. Shpg. wt., 30 lbs. **Freight prepaid.** Roll. **$3.50**
7 I R3526¼—36 inches wide. Shpg. wt., 60 lbs. **Freight prepaid.** Roll **7.00**

INSECTICIDES

$16.69 Arsenate of Lead Powdered

Preferred by many to Paris Green. Does not burn foliage. For killing leaf eating insects. Full directions on package. May be used as wet spray or dry dusting powder. Extra high quality. Fine and fluffy. **Shipped only by freight or express, not prepaid.**

Sears, Roebuck and Co.
We have had one of your E-Z-est Way 5-burner stoves for some time, and will say it is the best we ever used. Positively no odor, no smoke and a wonder baker, and an ornament to anyone's kitchen. In fact, it is away beyond our expectations and assure you that we are more than pleased.

Respectfully,
MRS. B. GRIFFITH.
(Address furnished on request.)

BEAUTY, COMFORT *and* EFFICIENCY
365 *Days in the Year*
Makes Its Own Gas From Common Kerosene (Coal Oil)

Thousands and thousands of women from Coast to Coast, from Border to Gulf, all over this Big Nation are using the E-Z-est Way, America's Greatest Oil Stove. Success with the highest degree of satisfaction. This splendid Range is sold to you and guaranteed under the exact same broad money saving and satisfaction or money back guarantee that covers every article in this big catalog.

Hundreds of thousands of thrifty and wide-awake shoppers, from coast to coast, from border to gulf, **in cities, towns and hamlets,** proclaim our **E-Z-est Way Oil Range** the **most efficient and most wonderful** cooking device they have ever seen or used.

Order today and let us add your name to the list of satisfied users.

Illustration on opposite page, made direct from a photograph, will give you a clean cut idea of what you are buying when you purchase the E-Z-est Way.

Read carefully the description of the many exclusive and patented features. Notice the six, wide and deep, **big full size cooking holes.** Then notice the generously proportioned **gas-like built-in Never Fail Baking Oven.** Next in importance, the large, easily filled **Sanitary Glass Tank** with heavy wire carrying handle. Notice carefully the strong **heavily reinforced construction of the body.** These are outstanding features that make for genuine, down to earth, **ALL YEAR ROUND OIL STOVE SATISFACTION. The big capacity and beautiful finish** are likewise important features, all of which have been taken into consideration in the **rebuilding and re-designing** of our New and **Improved 1929 Model,** now better than ever, even down to the final finish of the glistening **Antique Ivory and Pastel Green Porcelain Enamel,** on Genuine Armco Ingot Iron, acid proof and stainless.

In redesigning the Quick Acting Giant Heat Diffusing Burners, the Never-Fail Baking Oven, the easily filled Oil Tank and sturdy, **rigid Body,** etc., we have improved upon all previous efforts to offer our **millions of customers this New and Improved 1929 Range,** beyond question of doubt the last word in Oil Stove Satisfaction—**a Range that can be used 365 days in the year,** and priced within the reach of all.

Read how the surplus heat from the big Giant Quick Acting Heat Diffusing Burners is diverted to the rear cooking holes and warming shelf. How the three anchor plate sections can be removed and washed like a pot or pan. **How the oven door** when open serves as a convenient shelf on which to rest heavy roasting pans—a great help while basting. How the **cooking lid made in sections** can be used for different size cooking utensils, a feature not found on any other oil range, but greatly appreciated by the housewife.

It is a Range you can set up and use just like the picture, for big savory Sunday or holiday dinners when your neighbors or relatives come in and all the women folk go in the kitchen to help, look at and admire **your beautiful stove.** The E-Z-est Way can always be depended upon to put a good dinner on the table in record time and bring smiles of pride and happiness to yourself and guests.

Measurements: Oven, 19 inches deep, 14 inches wide, 12 inches high. **Cooking top,** 36x20 inches, including end shelf. **Height to cooking top,** 32 inches. **Total length of range,** 56 inches. Shipping wt., 208 lbs. **Prompt shipment from PHILADELPHIA or HARRISBURG, PA., SYRACUSE, N. Y., BOSTON, MASS., or NEWARK, OHIO. Send your order to the city nearest you. Not prepaid. Order today. Don't wait!**

Sears, Roebuck and Co.

It was a new revelation to me to find what I could do with this stove. Bread, cakes, pies, puddings and souffles were baked with most satisfying results; besides being able to roast meats and bake a cake at the same time most successfully.

This stove does as well as any gas range I have ever used, and the only thing the housewife need do differently is light the oven ten minutes earlier for the large roast or the ten-pound turkey. But remember that kerosene costs much less than gas or coal. I am glad to be able to recommend this E-Z-est Way Oil Range to all housewives.

Sincerely yours,
(MRS.) ANNA B. SCOTT.
Nationally known Food Expert of the Philadelphia Inquirer.

Exclusive Features

View showing section of heavy heat resisting steel anchor plate cooking top removed for cleaning, an exclusive Sears feature. Can be washed along with regular utensils or dishes.

Scientific Triplex Cooking Top and Flue Construction on Our Big Wickless Oil Range, by which the surplus heat from each burner is diverted to rear cooking holes and warming shelf.

Sectional Cast Iron Cooking Lid, very convenient for using different size cooking utensils. **Found only on E-Z-est Way Ranges.**

The big capacity Never-Fail Baking and Roasting Oven is the all appealing feature of the E-Z-est Way Range. Oven door when open makes shelf on which to rest heavy roasting pans. A great help while basting, large enough for the largest pans, and sealed tight so no heat is wasted—the same construction you will find in high priced gas ranges.

Thermometer on door gives exact temperature, assuring perfect baking.

22R411—Range With Built-On Oven, illustrated on opposite page. Low cash price..... **$39.85**
Special time payment price..... **$44.00**
Terms: $3.00 with order and $4.00 each month until balance is paid. Use Time Payment Order Blank in Back of Catalog.
E-Z-est Way Wickless Oil Range uses asbestos lighting rings instead of wicks. **Be sure to order an extra supply and have them when needed.**
22R2401—Dozen.....(We pay the postage.)..... **$1.15**

GUARANTEE *and* 30-DAY TRIAL OFFER

Simply enclose the cash price of $39.85 or $3.00 as first payment if you prefer our Time Payment Plan

When you receive the range, set it up, cook on it, bake, stew or fry, do your washing and ironing, in short, give it every test you want, compare it with other oil ranges, regardless of name, make or price, and if you do not find it in every way **far superior, more beautiful and more efficient** than any other oil range or stove you have ever seen, you may send it back, and every penny of your money will be promptly returned, even to the cost of transportation. **NO OTHER FIRM CAN MAKE A MORE LIBERAL OFFER.**

Burners are quickly and easily lighted. Raise the enameled chimney, touch a lighted match to the asbestos lighting rings and cooking heat is ready. **No other oil stove furnishes as much heat and speed as our Three-In-One Giant Heat Diffusing Wickless Burner.** Every particle of heat plays directly against the cooking utensils instead of permitting it to be diffused into the room.

ARMCO Ingot Iron

Every woman wants the spic and span beauty that gleaming porcelain enamel brings to modern kitchens.

Armco Ingot Iron offers a double protection against rust. Absolutely stainless, acid proof and easy to keep clean.

Burns Like City Gas

Exclusive Autogas FEATURES

Illustration shows our new and improved triple action giant pressure pump with extra large grip handle securely fastened to leg, an exclusive patented feature. **One stroke does the work of three of the small pumps** usually found on ranges of this type, sold by other dealers.

Features That Appeal to Every Housewife

View showing quick acting, big capacity, scientifically constructed baking oven, broiler oven, utility drawer and cooking top. Baking oven measures 17½x16x11 in., large enough to accommodate a large roaster.

Broiler oven measures 17½x16x8 in.

Cooking top measures 21¾x21½ in.

Makes and Burns Its OWN GAS *From* COMMON GASOLINE

No longer need you envy your city friends who cook with gas or electricity, for our AUTOGAS RANGES afford the country and suburban housewife the same comfort and enjoyment as the city woman.

The beautiful lustrous, two-tone pastel green and antique ivory, easy to keep clean, acid and grease proof porcelain enamel, the up to the minute design, attractiveness, conveniences, will add distinction and charm to the finest kitchen in city or country.

BUILT LIKE A GAS RANGE—LIGHTS WITH A MATCH! Absolutely startling in its efficiency!

It took more than three years and many thousands of dollars to perfect this wonderful Autogas Range. **The Greatest Gasoline Gas Range of the Century.** Prominent gas engineers and well known experts who have **tested and inspected the Autogas,** likewise the thousands of users, are amazed at its simplicity, and wonder how it was possible to perfect the mechanism to such simple, practical and dependable form. **Forty Years of Knowing How to Build Quality Stoves,** with the assistance of the best **and most experienced gas engineers and designers in the country,** coupled with our hard and fast rule to manufacture our products to strict quality specifications both for material and workmanship, is the answer.

The AUTOGAS is strongly and heavily constructed throughout, and attractively finished in beautiful, lustrous, two-tone pastel green and antique ivory porcelain enamel. **These shades and finishes** were selected because of their cheerful, up to date, harmonizing colors. The enamel is everlasting, easy to keep clean, and acid proof.

The oven is large for family size baking and big savory roaster. Bakes and roasts to perfection. **The broiler is beneath the oven. Large utility drawer,** beneath top burners, **for storing cooking utensils.**

The range cooking top is wide and roomy, formed of close set cast iron grates.

Burners light with a match, and give a clean, strong, quick cooking flame that can be raised or lowered like ordinary gas. Fueled from a tested, **heavy steel, tightly welded tank. Large easily operated pressure pump** is attached to the stove leg.

Baking and broiling ovens are heated with the same high speed burner. Heat is distributed to all parts of oven for perfect baking on both upper and lower racks.

Baking oven measures 17½ inches deep, 16 inches wide, 11 inches high. Guaranteed to do best baking and roasting. **Drop oven and broiler doors** form a convenient shelf for removing foods from ovens. Ovendoor equipped with reliable thermometer.

Large cooking top measures 21¾x21½ inches, without end shelf. Height from floor to cooking top, 33 in. **Slide easy, cast iron grates** permit shifting of utensils without tipping. Floor space 42½x21 in.

Strong, tight grip white porcelain enameled valve handles make it easy to adjust the flame to any height desired.

The base metal of all porcelain steel parts used on this Range is **Genuine Armco Ingot Iron, the world's best rust-resisting metal** made for enamel.

Tested heavy steel electrically welded tank, equipped with an accurate combination pressure gauge and indicator. Cannot leak. Holds 1 gallon, enough for 28 normal cooking hours with one burner.

Our Positive GUARANTEE *and* 30-DAY TRIAL OFFER

So sure are we our Autogas is the greatest Gasoline Range you can buy, we want you to try it in your own home for 30 days. Just enclose the cash price, $74.85 or $3.00 first payment, if you prefer our Time Payment Plan. **Give it every test you want; compare it with other Gasoline Ranges regardless of make, name or price.** If you do not find it superior in every way and have not made a big saving in money, write us and we will give you instructions as to how to send back the Range and return your money with all shipping charges you have paid. **Send your order TODAY and let us add your name to the hundreds of thousands of satisfied users.**

THOUSANDS OF SATISFIED USERS THE NATION OVER

We Guarantee to Satisfy You and Save You Money

In Step With the MARCH of PROGRESS
Our Fidelity Full Porcelain Enamel Electric Range

"WORKS While You PLAY"

Simple as A-B-C

Be Happy and Free Yourself From Kitchen Drudgery

Picture this beautiful porcelain enameled Range, with its full porcelain enamel lined oven, Automatic Clock and Heat Control doing the watching while you attend to other duties. Hundreds of Inspectors and Checkers enforcing the law of accuracy and efficiency are on the job to make sure that you get a range you can be proud of. Listed as Standard by Underwriters Laboratories.

The Very Acme of

CONVENIENCE, EFFICIENCY and RELIABILITY

Only $5.00 as First Payment Makes Our Fidelity Electric Range Easy to Own

Automatic TIME and TEMPERATURE CONTROL

Simple, Positive, Accurate, Labor Saving

The Electric Timer and Oven Heat Control automatically starts and stops the baking and roasting. Nothing to get out of order, nothing to adjust after once set. **The Oven Heat Control is positive and maintains even heat at all times.** Simply set the distribution timer and enjoy the freedom from kitchen drudgery. **Your food will be cooked wonderfully well with delicious flavor and ready to serve on time.** Both instruments finished in pure white porcelain external color, durable and lasting.

Cooking Electrically Is Now Here!

The Fidelity is at your service to add that ecstasy of joy, thrill you with satisfaction and comfort, fulfill your ambition to own the better things of life. It is in the same class of modern home conveniences as radio, electric light, vacuum cleaners or electric washing machines.

Let the Fidelity do your roasting or baking, and banish all worry and uncertainty from your mind. **Simply set the Electric Timer and Heat Control,** which automatically starts and stops the cooking and maintains an even degree of heat, and eliminates the necessity of peeping into the oven every few minutes. **The operation of these clever labor saving devices is simple, positive** and accurate. **The clock-like movement encased** within the white porcelain enameled body operates for eight full days and runs only when in use, **one winding is sufficient for many weeks.**

The Temperature Control is positive in action and, when set at the desired temperature, the oven heat will be automatically maintained to that particular temperature. **Better cooking and electrical cooking are one and the same. Foods cooked in Fidelity Ranges are better, more wholesome,** and more nutritious. The rich, juicy roasts keep their flavor with less shrinkage. **Vegetables retain their valuable mineral salts, better pies and cakes,** are just a few of the many advantages with the Fidelity.

Each step in the designing and construction of our Fidelity Electric Ranges has been studied strictly with a view of pleasing the most exacting housewife.

Cooking Top. Equipped with four 8-inch removable radiant type surface heating units, two 1,000-watt units and two 1,500-watt units, affording maximum utensil capacity.

Terminal connections are made extra heavy. Each heating unit is connected with a three-heat, double pull, balanced load reciprocating switch reading HIGH, MEDIUM and LOW or OFF. All conveniently located. **Utility Receptacle** is centrally located in burner box end and has capacity of 660 watts.

Operates on either A.C. or D.C. current.

Oven is equipped with 1,000-watt top and 2,000-watt bottom removable units operating singly or conjunctively. Upper unit can be used for broiling—a decided feature in this range. **Oven linings are finished in granite porcelain enamel, fused on rust resisting Armco Ingot Iron. Broiler pan in upper part of oven is finished in genuine white porcelain** enamel and equipped with zinc plated wire rack.

Oven, 14 inches high, 14 inches wide, and 18 inches deep.

Cooking Top, 22½x22½ inches, without end shelf; height to cooking top, 35 inches; floor space, 21½x39½ inches. Shipping weight, 317 pounds.

Prompt shipment from NEWARK, OHIO, not prepaid. Send your order to Philadelphia, Pa., Boston, Mass., Chicago, Ill., Kansas City, Mo., Minneapolis, Minn., or Newark, Ohio, the city nearest you.

OUR Elite The Gas Range Every Woman Knows

The Best Designers and Most Experienced Gas Engineers Produced this Wonderful Range

The Beacon Light of Quality

The SEAL of Proved Quality

Let the A. G. A. Seal of Approval and Sears, Roebuck and Co.'s unqualified guarantee of Satisfaction or your money back be your guide.

On the oven or broiler door of every Elite Gas Range you will find the SEAL of APPROVAL of the American Gas Association Appliance Testing Laboratory, an organization representing the foremost gas engineers of America. **This Seal of Approval will enable you to distinguish at once our very beautiful and satisfactory Elite** from gas ranges usually offered by others for $25.00 to $35.00 more than our price. These may be of good appearance but are inferior in construction and not made in accordance with the laboratory requirements.

This Seal is your guarantee that the appliance conforms to high standards of safety, efficiency, durability and quality.

Improved Oven Heat Control. The last word in home cooking convenience and efficiency. Insures perfect baking. No guessing, no peeping into the oven to see how the baking and roasting is getting along. Leave your kitchen entirely and let the faithful little Heat Control do the oven watching. **An easy turn of the heat control gives you a choice of "slow" "moderate," "quick" or "very hot"** measured and controlled oven temperatures for cooking or baking. You can roast meats or bake the most delicate desserts with never a worry. **You can cook the entire meal at one time, while miles away from the kitchen.** Easy and simple to operate. **Be sure to order your range equipped with an oven heat control.**

ARMCO Ingot Iron

Armco Ingot Iron has played a big part in making possible this beautiful full porcelain Enameled Elite Gas Range. **Armco Ingot Iron** offers a double protection against rust and assures long life.

Only $3.00 as First Payment Makes This Full Porcelain Enameled Elite Gas Range Easy to Own

Extra large double duty one-piece giant cast iron burner with extra ports for fast and heavy cooking.

Single duty one-piece cast iron fuel saving burner for medium and regular cooking.

Special simmering burner, a convenient fuel saver for slow and light cooking.

A Range of RARE BEAUTY and RARE EFFICIENCY

No other gas range we know of so completely brings to the homemaker such appeal for beauty, such **cheer of color,** and such **everlasting charm** as this, **OUR NEW AND IMPROVED 1929 ELITE GAS RANGE!** The fine mastery of expert mechanics and the wonderful ability of our designers and gas engineers is reflected in every detail of design, construction and finish of the ELITE. **Hundreds of Inspectors and Checkers enforce the law of accuracy.** The smooth, lustrous and beautiful genuine Porcelain Enamel finish is a true indication of the care and precision with which hidden details of construction are mastered.

In addition to its beauty of appearance the ELITE is equipped with a dependable automatic oven heat control; genuine granite porcelain enameled oven and broiler linings, large porcelain enameled utility drawer, properly proportioned for knives, forks, and spice jars, and many other practical and scientific cooking aids.

Nor have we overlooked the matter of low price. Because we are manufacturers as well as dealers we have eliminated every unnecessary expense by selling **direct from our factory to you,** we can offer you better values at lower prices than you will find anywhere else.

Genuine Granite Porcelain Enameled Linings

The Oven and Broiler of our **New and Improved 1929 Elite Gas Range** is equipped with specially constructed, sanitary and easy to keep clean **Genuine Granite Porcelain Enameled Linings,** made of rust-resisting **Armco Ingot Iron.** The linings can be easily removed and washed.

The Baking Oven, equipped with stainless, rust-resisting, Genuine Porcelain Enameled Liners, measures 16 in. wide, 19 in. deep and 14 in. high. Will accommodate a large size roasting pan, and is built in accordance with the **American Gas Association** specifications.

Broiling Oven, equipped with stainless, rust-resisting, Genuine Porcelain Enameled Liners, measures 16 in. wide, 19 in. deep and 10 in. high.

Cooking top measures 22x21 inches; height to cooking top, 35¾ inches; **top is porcelain enameled;** and **equipped with slide-easy grates** and Automatic Lighter for cooking top burners. Eliminates the use of matches. Floor space required for range, 44x21¼ in. Takes 5-in. pipe.

Prompt shipment from CHICAGO, ILL., or NEWARK, OHIO. Send your order to either city, the one nearer you.

Burns manufactured or natural gas only. Be sure to state which kind you burn. Will not burn acetylene or gasoline gas. Made with right or left hand oven. Unless otherwise stated on order, range with right hand oven will be sent. **Be sure to order your range equipped with Oven Heat Control;** you will find it indispensable. Mrs. Bertrams CHOICE

Mrs. Erna J. Bertrams, one of the leading Cooking Experts of this country and Director of Food Economics of Armour and Co., Says:

Sears, Roebuck and Co.,
The Elite Porcelain Enameled Gas Range, which we have been testing in our Experimental Kitchen for the past three months, has proved satisfactory as a baker as well as for top cooking. The oven heat control has been very thoroughly tested with a standard thermometer, and we find it keeps the temperature accurate for all baking purposes.

Very truly yours,
Erna J. Bertrams,
Director of Food Economics,
Armour and Co., Chicago, Illinois.

Equipped with Touch-a-button automatic lighter for cooking top burners. Turn the gas cock, touch the button and one or more burners can be lighted instantly. No fuss or bother—no burnt matches.

New and Improved Utility Drawer with separate compartment for spice jars. Not necessary to open drawer, just tilt front part of drawer. **Front and inside** finished in **Genuine Granite Porcelain Enamel,** made of **rust-resisting Armco Ingot Iron.**

Exactly the same as Elite Gas Range shown in large illustration, but finished in **Genuine Porcelain Enamel, French Gray and White Enamel.**

Shipping points and weight same as listed under large illustration. Terms as at left.

Nation's Most Beautiful CAST IRON RANGE

Guaranteed for LIFETIME SERVICE

Fire Box for Burning Soft (Bituminous) Coal

Fire box is designed for burning soft (bituminous) coal and wood. Is equipped with heavy cast iron linings and latest improved Duplex Grate. When burning wood simply reverse the grate so the flat surface is up.

Fire Box for Burning Hard (Anthracite) Coal

The long, wide, deep and carefully proportioned fire box for burning hard (anthracite) coal is equipped with rugged firebrick liners and new and improved Dockash Grate designed to produce the quickest heat with the smallest amount of fuel.

Notice the extra heavy reinforced and flanged heat retaining covers on cooking top. The entire surface is ground and polished to a mirror finish. Thousands of Colonials equipped with this top are in operation today and have been in constant use for many years.

The Colonial is made in OUR OWN STOVE FACTORY, THE LARGEST IN THE WORLD. The body is solid cast iron throughout. Every joint is carefully ground and fitted to perfection. The scientifically constructed flues are efficiency itself.

The big, heavy, reinforced Cast Iron Cooking Top is ground and polished to a glassy smoothness, extra heavy and thick and is easy to keep clean. The nickel plated top bands lift off easily for cleaning. Equipped with **six heavy reinforced 8-inch lids,** including one three-piece sectional lid and Anti-Scorch Lid.

The large, roomy, Never-Fail Baking Oven is made in three sizes. **Bakes to perfection** from top, bottom and sides, through and through.

Reliable Thermometer tells oven heat at all times, a convenient feature every housewife appreciates.

A large porcelain enameled shelf is provided for removing contents of oven for inspection and basting, a feature you will appreciate.

The Fire Box is scientifically proportioned to produce the quickest heat with the smallest amount of fuel!

Armco Ingot Iron is guaranteed stainless, rust-resisting and insures long life. Used exclusively in Full Porcelain Enamel High Closets for Our Colonial Ranges.

Warming Closet is the latest two-door type. Doors lift up and leave ample room for keeping dishes and food warm. **Large and roomy,** heated by the stovepipe passing through it. **Beautiful Ivory Porcelain Enameled Splasher,** extra heavy nickel plated brackets and **massive base and legs** add greatly to the efficiency and appearance of this marvelous range.

You Need Not Pay Cash. Special liberal terms. Only $5.00 with your order and **$6.00** per month thereafter until paid. An easy, pleasant way to own this beautiful range. **Use Time Payment Order Blank in Back of Catalog.**

Time and Labor Saving Features for the Housewife

Illustration showing the unusually large and roomy warming oven with two lift-up doors. Stovepipe passing in back and through warming oven, keeping food or dishes piping hot until ready to serve.

Perfect fitting ground and polished cooking top. Notice the ease with which it is kept clean. Simply wipe with dry cloth. No blackening necessary.

Range with water front connected to range boiler for heating water. Waterfront may be used only where there is a constant pressure through the pipes. You do not require a reservoir with a water front, although water fronts can be fitted to either type. For Range Boilers See Plumbing Pages or Refer to Index.

FAMOUS Rust Resisting Steel Range

NICKEL PLATED and ENAMEL TRIMMED

Unusually Good in the Way of Quality

Built to Give Many Years of Satisfactory Service

A VALUE OUT OF THE ORDINARY

FAMOUS is an appropriate name for this popular, lasting and economically priced rust resisting steel range! We feel that it offers everything needed in a family size kitchen range; fry, boil, bake or roast with **an absolute minimum of time and fuel!** Stylishly and attractively finished, with sanitary white porcelain enameled splasher, French gray enameled doors and brightly nickel plated front legs, front base strip and towel bar.

Body, made of excellent quality, Heavy Copper Bearing Steel Plate. All parts are carefully fitted and strongly welded and bolted at all points. Extra large flues that are scientifically constructed to give the best service possible.

Cooking Top, cast iron, made the right thickness to give good service. Has six 8-inch Cooking Lids, including Anti-Scorch Lid, very convenient for cooking cereals, etc., and keep them from burning; also **Three-Ring Sectional Lid** to fit different size cooking utensils. Entire top finished in plain black. **Nickel plated towel bar,** very convenient for drying towels, etc.

Oven, made in two sizes, 18x18 inches and 20x18 inches. Oven door finished in attractive shade of French gray porcelain enamel. **Equipped with reliable oven thermometer** that tells the heat of oven at all times and aids in good baking.

Fire box, large and roomy, and has cast iron linings and heavy Duplex Grate for burning any kind of coal, coke, wood or corn cobs. Fire box **lengths** for wood, 18 to 20 inches, according to the size of range. **The new and improved one-piece ash door and wood feed door** is French gray porcelain enameled, a feature seldom found in this type of stove.

Reservoir, extra large capacity, holds 32 full quarts. Made of heavy zinc coated steel and keeps water hot at all times. **Easily lifted off for cleaning or for refilling,** a feature seldom found on a range of this type. **Extra strong and sturdy base. Front base strip and legs are silver nickel plated, adding** beauty and dignity to the range.

Warming Closet—Latest two-door model, finished in French gray porcelain enamel to harmonize with balance of range. When open, forms a shelf convenient for removing contents for inspection, testing, etc.

Made in two sizes, as listed below and takes 7-inch stove pipe. **Our large stock** and up to date shipping facilities permit **prompt shipment, at low freight charges, from NEWARK, OHIO. Not prepaid. Send your order to Philadelphia, Pa., Boston, Mass., Chicago, Ill., or Newark, Ohio, the city nearest you.**

The freight charges amount to next to nothing considering the big saving you make in price. When you have this stove in your kitchen you will be convinced that it pays to save on stoves at Sears.

OUR WELCOME *Nickel and White Enamel Trimmed* 6-HOLE KEYSTONE *Rust Resisting* STEEL RANGE

Special Low Cash Price **$33.50** The Price Talks

The WELCOME is an attractive, compact, conveniently-sized steel range, Sears made and Sears priced! Of somewhat thinner construction than our larger and higher priced ranges, but of the same good quality Copper Bearing Keystone Steel, carefully fitted and finished, to give many years of satisfactory service!

The porcelain enameled and nickel plated trimmings are much in demand today, and we call your attention to these particular features. Rustproof porcelain enameled parts are easily cleaned with a damp cloth. Warming closet large and roomy with enameled splasher and door.

Burns coal, wood, corn cobs, chips or anything used for fuel.

Good size oven, heats very quickly and will give satisfactory baking results at all times. Equipped with an oven thermometer that is a big aid in good baking. **You will be more than pleased with the results you will obtain** from this stove, the very first day you use it, and it **will give surprisingly long service** that will delight you. **The oven door is finished in genuine French gray rustproof porcelain enamel, easy to keep clean.**

Fire box has cast iron lining and is large enough to do good work without wasting fuel. Furnished with flat dumping and shaking grate; for wood and coal.

Galvanized iron reservoir, with capacity of 21 quarts, is attached to right end of range. We cannot furnish a water front for this stove.

Terms: $4.00 down and $4.00 a month. Use Time Payment Order Blank in back of catalog.

OUR Porcelain Enameled GAS RANGE, Elite KITCHEN HEATER and RUBBISH BURNER Combined

"The Beacon Light of Quality"

This handsome, generously proportioned Elite Gas Range Kitchen Heater and Rubbish Burner Combined is a range that measures up to the standards of the most exacting home maker. Strongly constructed and attractively finished in white and gray porcelain enamel, with a big roomy family size oven, separate broiling oven, and large cooking top. The heater uses a minimum of fuel and disposes of waste and rubbish. Does wonders in the way of cooking and heating and will keep the kitchen warm and comfortable in zero weather. Burns hard or soft coal, coke or wood. Equipped with flat open dump grate and heavy cast iron linings for burning soft coal or wood. For burning hard (anthracite) coal, range is equipped with Triplex grate and heavy cast iron linings. Notice the roomy gray enameled Utility Service Drawer of a thousand and one uses.

The gas section has four heat diffusing burners, including three full size burners and one large giant burner, an oven that bakes as beautifully as it looks and has all the features of the up to date stove. Be sure to state whether you burn natural or manufactured gas. The space under the cooking burners is white enameled, easy to keep clean.

Measurements: Baking oven, 16x17¾x13 inches; broiling oven, 16x17¾x8 inches; cooking top, 32x19½ inches, including end shelf. Height to cooking top, 33 inches. Length, over all, 52 inches. Floor space, 20x52 inches. Takes 6-inch pipe. Heater has special drop coal feed door; top, 14½x19½ inches. Two 8-inch lids. Length for wood, 18 inches. Shpg. wt., 393 lbs.

Cook the Electrical Way

Fidelity ELECTRIC RANGETTE

Know Real Cooking Comfort

UNLESS you have tasted foods baked or cooked the electric way you cannot appreciate the flavory, tempting, delicious difference over cooking by any other method.

Less water is required, no chance for boiling over, and full flavor and juices are retained without the usual shrinkage. There are no fuel gases to be absorbed by the foods and no uncertain temperatures to contend with. **Toast made the electric way is far superior to any other.**

The same high grade construction and material as used on range described above. Beautifully finished in gray and white porcelain enamel.

Listed as Standard by Underwriters' Laboratories.

Oven, 16 in. wide, 12 in. deep, 12 in. high. Oven heated with 1,500-watt unit. No broiler unit furnished.

Cooking Top, 18 x 23 inches, is equipped with two 1,000-watt and one 1,500-watt units. Be sure to state whether you wish it wired for 110 or 220 volts and direct or alternating current.

Fidelity ELECTRIC COOKER

The Electric Cooker Thousands of People Have Been Watching and Waiting For

For Any Kind of Cooking. Works from Lamp Socket or Wall Outlet.

NO SPECIAL WIRING NEEDED, can be operated with A. C. or D. C. 110-volt current.

A wonderful baker and cooker. Nothing has been spared to make this **Fidelity Cooker perfect in every detail.** Offered at an unheard of low price.

Meat and fowl cooked in the Fidelity Cooker always retain their rich, natural juices and flavor. Bread, cake, biscuits and rolls bake uniformly.

Cooking top, cast iron, finished in French Gray Porcelain Enamel. Measures 13¼x19½ inches and equipped with one 8-inch burner and one 6-inch burner. **When turned full, the burners produce intense heat, but both cannot be turned on full at the same time, as the lighting circuit does not provide sufficient power to run both burners on "high."** Either burner, however, can be turned on independent of the other or both can be turned on at "low" and operated in series.

Baking oven measures 11x12x12 inches. Equipped with 8-inch burner; 2 removable racks and 1¾-inch vent collar with butterfly spring damper. Insulated with highest quality mineral wool. Holds heat for a full hour after current has been turned off. **Oven must be operated independently of top burners. Oven door is equipped with dependable thermometer and is finished in Genuine French Gray Enamel.**

A 6-foot extension cord is furnished with each cooker. **Shipped from PHILADELPHIA, PA., BOSTON, MASS., CHICAGO, ILL., or NEWARK, OHIO, Not Prepaid. Send orders to Philadelphia, Boston, Chicago, Ill., or Newark, the city nearest you.**

Height of cooker to cooking top, 32½ inches; floor space, 15½x20 inches. Cooking top, 13¼x19½ inches. Shipping weight, 81 pounds.
22R709—Cash Price.....**$34.85**
Time Payment Price.....$38.85
Terms: $3.00 with order and $3.00 a month. Use Time Payment Order Blank in Back of Catalog.

View showing wide flue or air space construction between outer body and linings. This construction insures an even distribution of heat for perfect baking or roasting. The patented heat deflector is arranged to furnish full quota of heat direct into the interior of the oven and baking or frosting can be done on upper shelf as quickly as on lower.

FROM THE STANDPOINT OF ECONOMY there is no other article so necessary for the kitchen that will answer every baking, toasting and roasting requirement as E-Z-est Way Ovens. E-Z-est Way Ovens give satisfaction with stoves of other makes.

No need to light the oven on your gas range for a small amount of baking or making toast. An E-Z-est Way Oven placed over the top burner of any gas range will do the work in less time and save fuel.

E-Z-est Way Ovens are made of Follansbee Forge Blue Polished Steel. An identification tag is attached to every oven. This tag on E-Z-est Way Ovens means that they are made of genuine Follansbee Forge Blue Polished Steel (forging adds strength), the best material for high grade ovens. They are lined with bright corrugated tin, with a lining of asbestos on side walls, top and back. Sanitary and strong electrically welded racks with cross wires running from front to back, making it easy to slide the pans in and out without disturbing the baking. Every oven guaranteed. Oven sizes are inside measurements. All ovens securely crated and shipped promptly from PHILADELPHIA, PA., or BOSTON, MASS. Sold for cash only.

Hot Water when you need it and where you need it! Lots of it—all you want—waiting for you to turn the tap and draw a dishpan or a bathtub full. You save money when you buy the Hercules and you save fuel when you use it. Its sturdy construction defies the effects of severest service. **Thousands have given it the severest tests.** In a very few washdays or dishwashings or cold winter mornings you will say it has more than earned its cost and upkeep. **A miser for saving fuel. A giant for efficiency.**

The Hercules Water Heater can only be used in connection with hot water tank or range boiler for running water systems having constant pressure through pipes and must be connected to boiler or tank before starting fire. For range boilers to be used with these heaters see plumbing goods pages or refer to Index.

A very powerful and efficient heater. Will heat 100 gallons an hour to temperature suitable for ordinary household purposes. Equipped with heavy round grate with draw center.

The Hercules will furnish the great amount of hot water required in large homes, flat and apartment buildings, for bath, shower, kitchen and laundry; can also be used for small hot water heating systems in garages, greenhouses, poultry buildings, etc. Capacity of radiation, 160 square feet. **Inside diameter of fire pot, 12 inches.** Height, over all, 27 inches; 1¼-inch water pipe extension. Takes 6-inch stovepipe. Shipping weight, 276 pounds. **Shipped from factory near HARRISBURG, PA. Send your order to Philadelphia, Pa., or Boston, Mass., the city nearer you.**

Our WIZARD *Combination* Water Heater *and* Laundry Stove

Tested and Approved

40-Gallon per Hour Capacity Guaranteed

Most Desirable for General Household Purposes

Our Foundry Price Saves You Money

$16.50

This "WIZARD" stove is particularly desirable for laundry and kitchen. Will heat more than 40 gallons per hour to temperature suitable for general household purposes.

Made in our own foundry at NEWARK, OHIO, and sold by us DIRECT TO USER at prices lower than most dealers pay in carload lots.

Will supply plenty of hot water for all household needs, and can be used for heating wash boiler and cooking at the same time. The water heats very quickly, as it circulates through the hollow fire pot.

There is no other combination laundry stove and water heater on the market to compare with this one in weight, size or efficiency, selling at a price comparable with this unusual value.

Inside diameter of fire pot, 9½ inches. Round grate with draw center. Top measures 21x21 in., has four No. 8 lids. Height, 26¼ in. One-inch water pipe connection. Takes 6-in. stovepipe. Shipping weight, 190 pounds.

Shipped from HARRISBURG or PHILADELPHIA, PA., SYRACUSE, N. Y., BOSTON, MASS., or NEWARK, OHIO. Send your order to city nearest you.

22R480 ..... $16.50

Coal, Coke or Wood Burning Water Heaters—Tested and Approved

Burn hard (anthracite) coal, soft coal, coke and shortwood.

These water heaters are to be used in connection with hot water tank or range boiler for running water systems having constant pressure through pipes and must be connected to boiler or tank before starting fire.

For Gas Burning Water Heaters or Range Boilers to be used with these heaters see Plumbing Goods pages or refer to Index.

WLS HEAVY DUTY FIREBRICK LINED WATER HEATER—*Tested and Approved*

Capacity More Than 40 Gal. per Hour, Only

$9.75

Burns Hard (Anthracite) Coal

A very efficient water heater. Sturdy construction insures a lifetime of satisfactory service. Will heat more than 40 gallons per hour to temperature suitable for ordinary household purposes. Fire pot is lined with firebrick, a special feature of construction that holds the heat and keeps water warm with but little fuel after it is once heated. **Burns hard (anthracite) coal.** Heavy triple bar grate keeps fire bright and clean. Deep ashpit.

Measurements: Inside diameter of fire pot, 10 in. Diameter of top, 15-in. Size water connection, 1 in. Height, 18½ in. Takes 5-in. stove pipe. Shipping weight, 106 pounds.

Shipped from factory near PHILADELPHIA, PA., or BOSTON, MASS. Send orders to Philadelphia, Pa., or Boston, Mass., the city nearer you.

22R482 ..... $9.75

HOT-POT *Combination* Water Heater *and* Laundry STOVE

Tested and Approved

30-Gallon per Hour Capacity GUARANTEED

Priced Right Down to Rock Bottom

Special Low as Wholesale Price

$9.50

That's how you'll find our Hot-Pot Water Heater priced. Without a doubt the best low priced tested and approved water heater on the market today. Burns hard (anthracite) coal, soft coal, coke and short wood. It is built strong and heavy and is well fitted. Has hollow water heating fire pot and tapped for ¾-inch pipe connection. Our Hot-Pot Water Heater will heat 30 gallons of water in one hour from a temperature of 60 degrees to 130 degrees Fahrenheit. Heavy dump grate. **Particularly desirable for laundry and kitchen. The water heats very fast as it circulates constantly around the fire in a hollow pot instead of through pipes inside the pot.** Our special construction heats a large quantity of water quickly with little fuel. **WILL HEAT MORE THAN 30 GALLONS PER HOUR.** Has convenient front fuel feed door, enabling you to refuel without disturbing any utensil on cooking top.

Inside diameter of fire pot, 10¼ inches. Top measures, 13x19½ inches. Two No. 7 lids. Height, 23½ inches. ¾-inch water pipe connection. Takes 6-inch stovepipe. Shipping weight, 103 lbs. **Shipped from PHILADELPHIA or HARRISBURG, PA., SYRACUSE, N. Y., BOSTON, MASS. or NEWARK, OHIO. Send your order to city nearest you.**

Our MARVEL Combination LAUNDRY, COOKING, HEATING STOVE and RUBBISH BURNER

The Greatest Value We Have Ever Offered!

Height From Floor to Cooking Top, 30 Inches

Our Marvel Combination Coal and Wood Laundry Stove is a real marvel for the amazingly low, guaranteed money saving price! **It is made entirely of high grade cast iron,** each part perfectly fitted, which enables the user to obtain the maximum amount of heat from the fuel used. **A true combination stove in that it is** suitable for laundry work, cooking, heating and as a rubbish burner. Each stove is equipped with the **improved oblong fire pot and Long Flat Double Trunnion Dump Grate,** burns coal, coke, wood, chips or corncobs.

While the two-hole size will serve many purposes the model with extra large top and four cooking holes, each fitted with 7-inch perfect fitting lid, is much more desirable, for it will accommodate the largest size wash boiler and enable the user to obtain the maximum amount of heat from the fuel used. **Therefore, and wholly in your own interest, we would recommend that you buy the larger size.**

The big, roomy shelf, a few inches above the floor, gives added strength and rigidity to the range and provides a handy place to keep pots, pans and other cooking utensils. **A convenient drop end feed door makes fueling easy.** This feature makes it easy to add fuel without removing wash boiler or cooking utensils from the top. Both sizes and models have 7-inch perfect fitting lids. **Fire pot measures 9½x18 inches.**

We also recommend that when you order this stove you include one of our stove pipe ovens and get the fullest benefits from your fuel on washday, or whenever the stove is in use. For further information about oven see below.

If stove is wanted with oven, add $2.75 to prices shown below. Be sure to order the complete baking outfit for a real economy combination outfit. **Sold for cash only.**

Securely crated, blackened and polished.

Height From Floor to Cooking Top, 21½ Inches.

This illustration shows our Marvel Combination Laundry, Cooking and Heating Stove, with low legs and without Utility Shelf as listed below.

Prompt shipment from PHILADELPHIA or HARRISBURG, PA., BOSTON, MASS., SYRACUSE, N.Y., CHICAGO, ILL., or NEWARK, OHIO. Send your order to the city nearest you. Not prepaid.

$6.75 2-Hole Size With Utility Shelf

$8.50 4-Hole Size With Utility Shelf

How We Make Our Low Prices Possible

Because we are makers, as well as dealers, and produce these stoves in tremendous quantities and have eliminated every unnecessary expense **by selling direct from our factory to you,** we can offer you better stove values at lower prices than you will find anywhere else. **Safe delivery and satisfaction guaranteed.**

Outclasses Any Other Laundry Stove at the Price

Order this Four-Hole Coal Burning Laundry Stove today. Examine it thoroughly. Try it. **Then if you do not say** that it is satisfactory in service, and money saving in cost, return it and your money will be returned. **It is made entirely of highest grade cast iron,** every part perfectly fitted, which enables the user to obtain maximum amount of heat from fuel used.

It far outclasses any other laundry stove on the market, regardless of name or make in its price class. There is **no laundry stove that compares with it either** in quality, size, grate features, etc. At our low price it is really a most wonderful value.

It has a very large top, carrying four covers, each fitting in a No. 8 cooking hole. Top measures, over all, 20¾x21½ inches, big enough to accommodate a big wash boiler and cooking utensils at the same time. **It will also take the new style steel or galvanized iron tubs** now in common use. Its arrangement of fire pot and construction of main top is such that the heat is evenly distributed, economical in the use of fuel and a splendid up to date laundry stove.

Burns coal, corncobs, coke and short wood. Fire pot diameter at top, 12 inches. Cooking top measures 20¾x21½ inches. Four No. 8 lids. Height, from floor to top, 22¼ inches. Takes 6-inch stovepipe.

Securely crated, blackened and polished. Shipped from PHILADELPHIA or HARRISBURG, PA., SYRACUSE, N. Y., BOSTON, MASS., CHICAGO, ILL., or NEWARK, OHIO. Send your order to the city nearest you. Sold for cash with order only. Shipping weight, 116 pounds. **Not prepaid.**

22R494—Wonder Moose Stove..... **$5.75**

Our Wonder Moose, Only $5.75

The Most Popular Laundry Stove in America

Tested and Approved Cast Iron Deflector Plate Used on Our Wonder Moose shown in large illustration, forces the flame to the front, producing even distribution of heat to all four cooking holes.

4-HOLE LAUNDRY STOVE *Priced Amazingly Low!*

Only $4.35

While this four-hole Laundry Stove is made of high grade cast iron with all parts perfectly fitted, we do not offer it as the equal of our **Wonder Moose Four-Hole Laundry Stove,** illustrated above, but we do **guarantee it to be just as good as similar stoves selling at much higher prices by other dealers.** Therefore, and wholly in your own interest, we ask you to read the description of **our Wonder Moose,** as we feel that for the slight difference in price you can well afford to send your order for the better and higher grade stove.

Made of cast iron. Top measures 19½x19½ inches. Height, 23 inches. Fire pot diameter at top, 12 inches. Four 7-inch lids. Takes 6-inch pipe. Shipping weight, 105 pounds. **Not prepaid.**

22R479—Four-Hole Laundry Stove..... **$4.35**

Prompt shipment from HARRISBURG, PA., BOSTON, MASS., SYRACUSE, N.Y., CHICAGO, ILL., or NEWARK, OHIO. Send your order to the city nearest you.

If you do not need a four-lid stove you will make no mistake in ordering this model made of **best quality stove plate** with all parts carefully fitted. Has front feed door for feeding fuel without lifting utensils or lid. **Flat shaking and dumping grate.** Burns coal, coke, corn cobs and short wood. Height, 23½ inches. Diameter of fire pot, at top, 12 inches. Two No. 8 lids. Top measures 21x13½ inches. Takes 6-inch stovepipe. Shipping weight, 102 pounds. **Not prepaid.**

22R498—Pet Stove..... **$3.95**

Shipped from PHILADELPHIA, or HARRISBURG, PA., BOSTON, MASS., SYRACUSE, N. Y., or CHICAGO, ILL. Send your order to city nearest you. Sold only for cash with order.

Stovepipe Baking Oven

$2.75

Most Efficient Oven of Its Kind Made

We especially recommend that in ordering a laundry stove or a small heating stove you order a STOVEPIPE BAKING OVEN. Not recommended for use with Water Heater 22R480 and 22R499 listed on opposite page.

Oven measures 9 inches wide by 17¾ inches long inside; holds two 8-inch pie plates or an 8x17-inch baking and roasting pan, pipe collar on top and bottom to fit 6-inch stovepipe. Shpg. wt., 16 lbs. **Sold only for cash with order. Prompt shipment from PHILADELPHIA or HARRISBURG, PA., BOSTON, MASS., SYRACUSE, N. Y., CHICAGO, ILL., or NEWARK, OHIO. Send your order to the city nearest you. Not prepaid.**

22R500—Stovepipe Baking Oven... **$2.75**

22R894—Special joint of pipe for drum oven. **22c**

STOVEPIPE and ELBOWS

We do not sell made up (put together) stovepipe. Our pipe, 24 inches has seam formed and edges turned over ready to put together. Simply join the edges and tighten the seam with a hammer. Not the light gauge pipe sold by some for higher prices. **Prompt shipment from PHILADELPHIA PA., BOSTON, MASS., CHICAGO, ILL. or NEWARK, OHIO. Send your order to the city nearest you. Not prepaid.**

We Announce a New Day in Furniture

On pages 634 to 694 are shown the greatest furniture values we have ever offered.

A New and Better Way to Buy Furniture

GOOD furniture is necessary to home comfort and home satisfaction. A lifetime of service and enjoyment is in the grace and beauty of a handsome set — an occasional chair — in smaller pieces cleverly designed to meet all the needs of comfortable living. Nothing equals the permanent charm of fine furniture, the work of master craftsmen.

We present in the following pages a new and greater furniture line than ever before—designed to satisfy the longing for fine craftsmanship at **reasonable** prices!

The order of things has changed. No longer is it necessary to wait for those articles of furniture you have long wanted. Now you can make your choice of these greatest furniture values of all time and **pay for them as you use them,** a small amount monthly.

Our great new Budget Plan applies not only to the larger, more expensive items of furniture, but on smaller items as well. If your order amounts to $25.00 or more, you can buy on this Budget Plan of easy payments.

The slight extra charge for time payments is added simply to enable us to carry the account on our books. That charge you must pay anywhere, whether it is frankly stated as here or hidden in the price. When you buy from Sears you have complete assurance of fair dealing. You know exactly what you are paying and why! And we know, too, that even **our time payment** prices are **lower** than the **cash** prices for articles of the same quality offered elsewhere.

We have made it **easy** for you to **furnish your home** the way you want it, at the lowest possible prices and on easy terms! This new and splendid line of furniture values is another indication of our leadership!

Nationally Known MATTRESS! Spring Filled Units

Sells Elsewhere for $39.50 and up

Our Price $29.65

Actual Laboratory Tests Prove That This Mattress Will Last a Lifetime

Here's additional proof that this mattress built under our specifications is the biggest mattress value in America for $29.65. We bought at retail two nationally advertised spring filled mattresses for which we paid $39.50 each. These, together with the mattress we offer here, were sent to Armour Institute for comparison. All marks were removed and numbers 1, 2 and 3 were substituted. **"Test these mattresses,"** we said, **"and let us know which is the best."**

We Found the Best

Each mattress was subjected to the same wear it would receive during a lifetime of use. This was done by rotating a 200-pound rocker-like weight over the mattress 100,000 times, each rotation forcing the mattress down to its minimum thickness. Results were as follows: No. 1 was spread out of shape; the ordinary cylinder shape springs were breaking through their thin muslin containers and the sleeping surface was uneven. No. 2 broke down when the test was half through.

No. 3 was the mattress we offer here. The results were amazing. They showed that this mattress using the spring unit as a foundation gave the best results. The extra layers of felted cotton, by giving extra padding, had insured long life. The special eyelet tufting had prevented bunching of cotton filling. The four rows of side stitching, **instead of the usual roll edge,** had kept all edges in place. **Buy the only mattress that stood the test!**

NOW See Page 632 BUY FURNITURE ON New EASY TERMS

Scientifically Designed for SUPREME COMFORT

Lifelong Service—Deep, Restful Sleep

Nothing is so sweet as sound, restful sleep. Tired, after a day of hard work, sink down on this mattress and **realize what real comfort is!** Made for us by one of the largest manufacturers of quality mattresses in the world. **This mattress is better by actual test than mattresses sold elsewhere for $39.50 and up.**

Note These Features Carefully

Double Cone Coil Springs! It's this type of spring, with a variation in the size of the coils, that gives this mattress a **buoyancy and strength** not afforded by cylinder shaped springs. These spring units give an "air-like" resiliency at every point of contact **under all degrees of weight.** Each spring made of high grade premier wire. Each **spring a separate unit!** Not closely packed as in usual mattresses sold elsewhere, but every **spring free to "give" to every position of the sleeper.**

EXTRA Layers of Cotton. These **EXTRA** layers of best grade thick, clean cotton felt cover the inner padding. Tufted to prevent these layers from "bunching," which forms an uncomfortable surface as in the untufted type. The eyelet tufts insure a smooth sleeping surface; no cotton tufts to catch the dust. **Completely Ventilated!** Not only two screened vents on each side, but also eyelet tufting. The inside is always fresh and clean. **Protected Eyelet Ends** on every spring instead of the usual sharp ends. No chance of spring piercing through fabric. **A feature seldom found even in mattresses selling at higher prices.** Furthermore, each spring is permanently anchored at top and bottom between double layers of heavy fabric. **Springs cannot mesh or buckle** with one another as in the interior type of cylinder shaped springs.

Of course you'll find all the usual features of the better grade mattresses such as stitched rolled edges, four rows of side stitching, durable cotton damask ticking in two attractive colorings, and four sturdy strap handles. Careful painstaking workmanship insures a wonderful looking and a wonderfully comfortable mattress.

And Priced Under All Others!

Prices even less than others ask for cheaper quality. Finest workmanship, rigidly tested construction. Does not carry the excess weight so disadvantageous in many spring filled mattresses. All standard sizes to fit bow or straight end wood or metal beds. Carefully wrapped to reach you in perfect condition. **Shipped only by freight or express not prepaid.**

1R7687

Size to Fit	Actual Weight	Shpg. Weight	Blue	Rose
54-in. bed	65 lbs.	68 lbs.	$29.65	$29.75

Honor Bilt SPRING

LASTS A LIFE TIME!

Sells Elsewhere for $19.75

Our Price $13.45

1. **Triple Cone Shape Spring.** Two points of "give," instead of usual one, really give correct normal support to a sleeper of any weight.
2. **Helical (coil) Springs** firmly hold larger springs in position, yet allow them to act independently.
3. **Angle Steel Borders** insure strength and rigidity. Rounded to prevent possibility of torn bedding.
4. Automatic spring **Side Braces** on both sides. No chance for edges of spring to sag.
5. **Quality Steel.** Every coil made of finest quality, high carbon premier steel wire.

By Actual Test
The Best Spring Made

We wanted the best and strongest bed spring that could be made. Accordingly we asked the biggest manufacturers in the country for samples, which, in their opinion would answer that description. Then, in addition, we bought nationally advertised springs at retail and paid over $19.00 for each. We then selected from all the five most promising and sent them to the laboratories at Armour Institute to be tested. **"Find us the best bed spring of all,"** was the request we made.

Read the Results

Before submitting the springs we **removed all identification** marks and substituted lettered tags as follows: Springs submitted by our own manufacturers were marked A, C and E. Springs bought at retail were marked B and D.

Now, read the results: "A" spring stood up under 50,000 live loads, apparently not weakened in any way. "B" spring developed permanent sag after being subjected to 50,000 loadings. "C" spring stood up not quite so well as "A." "D" spring developed more pronounced sag than "B." "E" spring developed weakness early in the test and was eliminated.

Based on the results of this test **we have selected "A" spring.** It will last a **lifetime!** And NOW NOTE OUR PRICES. You save one-third what others usually ask.

Unharmed After 50,000 Blows With a 190-Pound Weight

The Foundation of Good Sleep

Real, restful sleep requires a foundation of a good coil spring. Here is the **highest grade coil spring in America** sold at a saving to you of about one-third under usual prices elsewhere. You will find it the most comfortable spring you ever slept on. Every part of the body is supported properly, due to the large, luxurious **triple cone shape coil springs.** These have been scientifically designed and built to give the proper normal support to any weight. No matter whether you weigh 120 pounds or 220, you can feel sure this spring will properly support every muscle in its right place.

Read About the Test It Passed!

Read about the test this spring stood recently at Armour Institute. We wanted the best and we tested the five different highest grade springs on the market. Here it is—**the pick of the market** and yet priced way below what similar quality would cost you elsewhere.

Built to Last and Built for Comfort

Features such as those illustrated above show you why we can unconditionally guarantee this spring to give you perfect satisfaction. Carefully constructed by one of the largest manufacturers in this country and **built for comfort, too!** Quiet, sagless sleep is assured you for a lifetime!

Every Refinement for Sound Rest

It is said that 20 years of an average man's life are spent in sleep. Be sure that every minute of it is sound, restful slumber. Buy THIS spring, today—the spring that is built for comfort and built for wear. Triple cone spiral coils having two points of "give" instead of one, make this spring thoroughly adaptable for a sleeper of any weight. Small coil springs interlock each large spring to its neighbor, thus holding them firm yet allowing them to conform to the curves of the body. There is strength, endurance and double life in the angle steel base and top border. There is beauty in the rounded corners which eliminate the possibility of torn bedding. No sagging edges permitted because of the automatic spring side braces. Only the finest high carbon Premier Steel Wire used in the construction of the coils in this wonderful spring. Sanitary and easy to clean. Offered in a style and size to fit YOUR bed; your choice of colors, either beautiful orchid or deep green, both with gold stripings. All standard widths. Bow and straight end bed styles with either wood or steel side rails. **Please state width of bed and color desired. Shipped only by freight or express, not prepaid.**

For This Beautiful Walnut Veneer Bow End Bed—Very Latest Design

Spring and Bedding Not Included at Prices Quoted

For Your Bedroom

A Quality Set Which Cannot Be Duplicated Anywhere at Such Low Prices

You'll take particular pride in furnishing your bedroom with such an unusually attractive set. Genuine walnut veneers plus a harmony of design throughout make this set a real masterpiece. Order it today—on *easy payments if you like.*

Never Such Quality-Such Savings

Stylish—New—Low Priced

Are you looking for a bedroom set that in appearance, materials, workmanship and price comes up to your ideal? If so, you need look no farther, for here is your opportunity to get an Honor-Bilt set that for beauty, durability and low price **can't be equaled or even approached anywhere else.** Here's a set that will give you years and years of the most satisfactory service. What a welcome to restful sleep there is in a bedroom furnished with this set.

"Honor Bilt" Means Super Built

Super built to Sears Standard of Perfection, that's our far famed Honor-Bilt construction, the best possible merchandise at a **price that will save you money** over the cost of a similar set elsewhere. This very unusual low price is made possible by our enormous buying power, our unusual factory facilities and our ability to buy for cash. Never before have we been able to offer such quality at such savings. **We have bought thousands of these sets** because we felt sure that the value here would be appreciated by our many customers. The set includes **two styles of beds,** the popular bow end and the always attractive four-poster. You may also make your selection from two sizes of exceptionally roomy dressers with large swinging mirrors.

Popular and Beautiful Walnut Veneer

Genuine American walnut, today the choice wood of the best cabinet makers everywhere, is used in veneering this excellent set. Veneers of zebra wood and curly maple are carefully and attractively combined with the walnut to make an unusually beautiful effect. All finished to a satin smoothness. Made throughout of hardwood with head and foot boards of both style beds and tops of dressers, vanity and chest of **5-ply walnut veneer construction same as in the better furniture.** Fronts of top drawers of all pieces are 3-ply maple veneer. All end panels of 3-ply walnut veneer. All drawer interiors are natural finish oak and are constructed with 3-ply oak veneer bottoms; **dustproof construction.** A beautiful combination of woods, strikingly contrasted with decorations of genuine wood carvings and moldings.

The Dresser—A particularly likeable feature of this handsome set is found in the two sizes of dressers from which to choose. Both are styled exactly alike, but one measures **50x20** in., while, if your space demands a smaller one, you may have it in size **45x20** in. The one shown in the illustration is the larger one and has two top drawers. In the smaller size the top drawer extends full width. The lower drawers have metal drop pulls, while the upper ones are furnished with metal knobs. Large **genuine plate** glass swinging mirrors in sizes as shown below. Gracefully turned standards.

The Beds—Either bow ends or four-poster with distinctive latest design head and foot boards. Heavy molded edge adds to the fine appearance of both ends. Carved top on head ends of both styles. Wood side rails.

The Vanity—Featuring latest up to minute table top style giving ample room for all your toilet requisites. Front slightly recessed, adding much to attractiveness of the piece. The mirror is of large genuine plate glass swung between neatly turned spindles. A regulator and an extra deep size drawer on both sides.

The Chest—Has four large roomy drawers, oak lined and finished throughout.

1R4399—Shipped from our store by freight, not prepaid.

For Your Dining Room

A Massive Set That Breathes Hospitality — Genuine Walnut Veneer — Unmatchable Value!

With a set like this available at such an unusually low price, why should any family deny itself? Take advantage of it—*on easy payments, if you desire*—and know the pleasure and joy of a dining room all will admire!

A Furniture Value Without a Parallel!

Distinctive Style at Low Cost

Put a warmth of welcome hospitality into your dining room with this sturdy Honor-Bilt set. Look at the set shown above—can't you imagine how it would look in **YOUR** dining room? Don't envy your friends and their beautifully furnished rooms—take advantage of this unusual opportunity, send for this set, and you'll take a new pride in your own dining room and its attractiveness!

Stylish New Set of Sturdy Beauty

It only takes one glance at above illustration to convince yourself of the sturdy beauty of this excellent set. The most critical can buy this set with every assurance that it has quality built into it. It is Honor-Bilt all the way through. Nothing is skimped to name a lower price—you save, not because the set is cheaper in quality of materials **BUT** because of our ability to buy in large quantities and because of our unusual factory facilities.

Beautifully Constructed of Combination Walnut

Tops of all pieces are 5-ply genuine walnut veneer; fronts and ends are 3-ply. Genuine solid oak sides and back on drawers; bottoms are oak veneered to match. Drawer interiors are in natural finish and carefully waxed. Construction is the very best with mortised joints and generous use of wood screws. Overlays on drawers are raised and faced with English hardwood ash veneer, attractively shaded. Burnished two coats, carefully sanded and beautifully finished.

All Pieces Are Generous Sizes

Buffet—Size, **66x22** in. Construction as shown to the left. Two center drawers are veneered with imported Australian Oriental walnut with figure especially selected for its beauty. Top drawers veneered with birdseye maple, finished in attractive nut-brown stain.

Table—Size, **60x42** in., closed; **72x42** in., open. Top carries **automatic folding 5-ply walnut veneer leaf,** opening with one operation. Automatically locks when opened or closed. Carefully constructed to prevent warping. Very massively built with legs and stretchers of American gumwood.

China Cabinet—Size, **42x18** in. Height, **73** in. This features a **full width drawer** for the convenient storing of your table linen.

Server—Size, **40x18** in. Same construction as buffet.

Chairs—Built strong and sturdy of hardwood finished to match the set; full dowel construction throughout. The slip seats are softly padded and upholstered in rich Jacquard velour. Size of seat—dining chair, **15x18½** in; arm chair, **17x19½** in. Height of back from seat, **21** in.

1R2380—All pieces shipped from our store or factory in VIRGINIA, whichever is nearer you, by freight or express, not prepaid. **Pieces may be purchased separately.**

Wood Top—Hand Woven Caramel Fiber Table

NEW and Different—And a Wonderful Value!

Buy this tastefully designed table and make it the central point of interest in your living room. It has the correct length and proportions for behind a davenport or by itself. Group other furniture around it—you will find it a masterpiece which makes a decided addition to the charm of **your** living room. **An incomparable value! At this low price you save at least $7.00 over what other furniture stores ask for even an inferior design.**

Note the Graceful Designing Throughout

A molded edge, a distinctive mark of fine furniture, finishes the massive top which is supported by six beautifully carved legs. Top is 5-ply with genuine walnut or mahogany veneer; balance is hardwood in matching finish. There's both strength and beauty in its fancy stretcher sturdily bracing the legs. Choice of high lighted walnut or brown mahogany finish. Size of top, **54x18** in.; height, **29** in. Shpg. wt., 85 lbs. Wood Grained Walnut Enamel
Spring and Bedding Not Included

Popular STEEL-ART Metal Bed

Lightness that saves the housewife's energy. Strength of steel that endures a lifetime. No crevices anywhere where dirt will collect. Easy to wash and keep thoroughly clean. Beautiful lines, perfect wood grain reproductions and attractive style. Furthermore, COMPARE OUR PRICES with what others ask for steel beds.

Latest Design—Wood Grained Walnut Enamel Finish

All the rich graining and grace of line you have formerly looked for only in expensive walnut or mahogany wood beds is reproduced in this newest Steel-Art. Captivating, harmonious beauty that will enhance the charm of other bedroom furnishings. The genuine wood grained walnut enamel finish, baked on by special process, won't chip off, and there are no unfinished corners where dust can lodge. So easy to wash, just a few minutes' work with a damp cloth. A modern up to date bed for a modern housewife who wants convenience, cleanliness and inexpensiveness combined with an unusual amount of distinctive beauty. Our new low price now places it within the reach of thousands of American homes.

Beautifully and Gracefully Designed and Built

Simple, yet effectively designed ends with large solid steel panels decorated with line and floral decorations in harmonizing colors. Neatly fashioned spindle fillers and gracefully shaped 1½-inch tube posts. All parts of this bed are finished in wood grained walnut enamel. Height of head end, 48 inches. Furnished in all standard widths as listed below. **Please state width of bed wanted.** Spring and bedding not included.

Individual! Smart! Low Priced!

We have never known any other set of furniture that acquired universal popularity in such tremendous measure as this strikingly colorful Beauty-Craft set. And because of this quantity selling you can now get the same lovely Beauty-Craft set that has so irresistibly appealed to thousands of our customers **at a big saving!**

Very Finest Construction

Hand woven of toughest Steel Heart fiber on solid hardwood frames, deep doweled, glued and steel braced at all points of strain. Fashionably curved front posts slope out in comfortable lines to the restful, slanted back. Lace-like openwork and braided trim are smart style features. Three durable, bright, air brush enamel finishes as listed below.

Unusually Comfortable

Genuine removable auto type cushions, neatly tailored, filled with deep, resilient coil springs anchored to steel framework, and well padded with soft cotton. Back is also deeply cotton padded. Both back and seat are upholstered in extra heavy, long wearing, gaily patterned, beautifully blended cretonne.

Davenport—Has three removable cushions, each filled with 9 coil springs. Length, 65 in. Height of back, 21 in. Size of seat, 60x20 in.

Chair and Rocker—Each has removable cushion with 9 coil springs. Size of seat, 19x19 in. Height of back, 21 inches. **Shipped from our store. Not prepaid.**

Old Favorite Fiber Rocker $3.98

Golden Brown Finish

This low priced fiber rocker is sturdy, long wearing and comfortable. Strong wide rockers and cross stretchers. Nothing fancy about it; that's why it is so inexpensive. But it is built for comfort. Notice the extra height of the back, 27 in. from seat. Size of seat, 16x20 in. No sharp unfinished edges to catch clothing—front posts, arm rests, back posts and top are one continuous length of woven fiber. Shpg. wt., 20 lbs. Shipped from our store, **not prepaid.**

1R13 ..... $1.53

Our Chairs Stand the Test

We were not satisfied just to sell chairs that would stand up under ordinary use. We wanted chairs that could take the worst kind of abuse and still be serviceable. We demanded chairs that were **SUPER STRONG.** From our stock we selected six ordinary chairs — the kind we ship out by the thousands. We had these chairs put through several strength tests by Professor Huntly of the **Armour Institute of Chicago.** Here it was found our chairs could stand several hundred pounds more pressure than they would ever get in years of service.

Only **$11.85**

Golden Oak

SOLID OAK Extends to 6 Feet

A dining table, **built for years of service.** Matches perfectly with many of our dining chairs. Use it in dining room or kitchen. Made of solid seasoned oak; finished golden or fumed. EXTRA Weight and Quality

Only
$10.95
For Full Size Bed
Full 55 Pounds

All Mattresses listed on this page are shipped from our store, by freight or express, not prepaid.

More Value— More Comfort— More Service

Layer on layer of fine, clean, scientifically felted white cotton, with **FIVE POUNDS OF EXTRA WEIGHT** in every size! This means **comfort, luxurious softness, resiliency** in heaping measure. **Fifty-five pounds of support for tired nerves and muscles instead of the usual fifty.** This extra filling also gives longer wear and a better, firmer sleeping surface in every respect. Very newest style. A smart touch is added by the solid color sateen sides in contrast to the flowered drill ticking.

Never a Finer Mattress at Such a Low Price

A super mattress value that only the World's Largest Store could give you. Certified by our famous "Seal of Purity" guarantee to be the product of a factory affiliated with the Better Bedding Alliance of America.

1R7666—To fit 54-in bed. Actual weight, 55 lbs. Shipping weight, 58 lbs.....**$10.95**
To fit 39-in. bed. Actual weight, 40 lbs. Shipping weight, 43 lbs.....**$10.45**

Seven Proofs of Quality

1—Fifty-five pounds of clean, pure, fine grade felted cotton.
2—Heavy grade drill ticking; attractive floral design.
3—Excellent quality, plain color sateen sides; neatly tailored.
4—Four rows of side stitching hold edges straight and firm.
5—Deep tufts prevent all possibility of lumping.
6—Extra layer construction top and bottom.
7—Imperial roll edges; as on the finest mattresses.

Only
$8.95
50 Lbs. Full Size

Fine Quality All Felted Cotton
3 Rows Side Stitching

Well built! Wonderfully soft and comfortable! Guaranteed to give long and satisfactory service! A favorite for years with thousands of our customers. Here are some of the reasons, besides the low price, for its tremendous popularity: Many layers—full 50 pounds—of fine quality felted cotton with EXTRA layer construction top and bottom. Deep tufting insures long life by keeping filling in place and preventing it from lumping. **Three rows of side stitching** hold edges firm and straight. Rolled edges give all around protection. Good grade floral drill ticking.

One of the Best Values We Have Ever Offered

Only
$7.95
50 Lbs.
America's Greatest Low Priced Mattress Value!

We had to search the entire country for this wonderful mattress bargain. **And what a value it is!** You would pay many dollars more for equal quality at other stores. **Full 50 pounds, new** clean cotton, with non-lumping comfortable felted layers at top and bottom. Center filling of loose fluffy cotton. Covered with heavy long wearing drill ticking in pretty pattern with plain sateen boxing. Closely and securely tufted to keep filling in position. **The four rows of side stitching** and the neatly **rolled edges** add to the service and fine appearance of this mattress. **A saving opportunity seldom equaled.**

1R7581—To fit 54-inch bed. Actual weight, 50 pounds. Shipping weight, 53 pounds.....**$7.95**

Only
$4.95

Our Lowest Priced Cotton Mattress

Here is your chance to get the new mattress you need at a rock bottom price. Made possible by immense purchases for cash, not by the use of low grade, cheap materials. Nowhere else could you buy a mattress of equal quality at such a saving. **While this is a wonderful value we recommend 1R7581, which can be bought for a small additional amount, and is well worth the difference.**

Well Constructed—Attractively Covered

Constructed with felted cotton top and bottom layers and fluffy loose cotton filling. The covering is good quality floral art ticking. Deep tufts. Firm rolled edges. **Made to fit 54-inch bed only.** Actual weight, 45 lbs.

1R7516—Shipping weight, 48 lbs.....**$4.95**

Guaranteed Super-Clean Feathers!

Fresh-Dustless-Odorless-Scientifically Gleaned

CHOICE WHITE GOOSE AND LIGHT DUCK

Save on This High Quality 100% Guaranteed Mixture

98c Per Lb.

Because we are the largest retailers of feathers in the world we can offer our customers this fine mixture of one-fourth downy, domestic, **white goose** and three-fourths choice downy **light gray duck** feathers at much lower prices than it is possible for others to name.

For Pillows, Mattresses, Comforters

Only light, downy feathers are used and the mixture makes a wonderfully soft, inexpensive filling for pillows, feather mattresses and comforters. Housewives who know good feathers praise this white goose and light duck mixture highly. Fewer pounds of these feathers give greater buoyancy than lower priced mixtures. For the small difference in cost it pays to buy this quality. **We pay the postage.**

1R7100—Per pound **98c**

Finest Feathers by the Pound Scientifically Processed

The best for less! Such is the reputation our feathers must and do live up to. They are the finest obtainable and are guaranteed to be brand new and freshly plucked. We insist that all feathers be sterilized, blown through a cooling process to dry and then ozonized to insure permanently clean, odorless and dustless feathers.

Stamped With Our "Seal of Purity"

These feathers comply with the health and sanitation laws of every state in the Union. Stamped on every bag of feathers is our "Seal of Purity" guarantee. The finest feathers are WHITE; the next best grade are a light color—and the lowest priced quality are dark in color. In practically all of our mixtures you will notice a large proportion of white and light feathers.

Buy Only Guaranteed Feathers and Pillows

Be sure of what is inside the ticking of your pillows. Hundreds of bedding manufacturers have been prosecuted and convicted of using unhealthful, unclean, fraudulent methods in their factories. **The Better Bedding Alliance of America** was formed by a group of pillow and mattress manufacturers of recognized standing and reliability who have united to improve ethical standards in bedding factories and to combat misrepresentation of filling materials. With the determination to secure only the best that can be had, the World's Largest Store purchases all its pillows, feathers, and mattresses **exclusively from bona fide and active members of the Better Bedding Alliance.**

Your Guarantee of Quality

When you buy feathers and pillows here you are sure of quality, you are certain of cleanliness, you are **positive** of value, for in order to become a member of the Better Bedding Alliance, manufacturers must subscribe to the pledge or code of ethics printed on the opposite page. Read it carefully. It's your health safeguard—your money safeguard.

We pay the postage on all feathers and cushions shown on this page.

PRIME JAPARA KAPOK

Prime imported Japara Kapok, especially processed to produce unusual filling qualities. **Downy, fluffy, silky,** far more buoyant, springy and lively than cotton. An ideal filling material for cushions and pillows. This Kapok is a fine silk-like vegetable fiber imported from far off Java. It has gained tremendous popularity during the last few years because it gives such satisfactory service. **We pay the postage.**

1R7144—Per pound **79c**

FINEST ALL WHITE HEN

Select, **white,** western, dry picked hen feathers (very choice). Processed to produce a soft buoyant grade, full and fluffy. The best hen feathers procurable—the finest we have ever sold. Beautiful in appearance and of good bulk. Note our low price. **Postpaid.**

1R7137—Per pound **50c**

WHITE GOOSE, LIGHT DUCK AND WHITE HEN

Three-quarters choice downy **white** goose and **light gray** duck and one-quarter select, white, western, dry picked hen feathers. The finest mixture of this kind we have ever handled. A selection that for buoyancy, downy softness, and real quality cannot be duplicated at our prices. **We pay the postage.**

1R7116—Per pound **75c**

FINEST DOMESTIC WHITE GOOSE FEATHERS

We unreservedly guarantee that this is the finest feather filling we have ever handled. **These downy white goose feathers are the choicest domestic stock obtainable** and are specially selected for their beauty and filling qualities. Every feather is **snow white.** Larger, fluffier and more downy than the goose feathers many others sell for their best quality. Not expensive when you consider that these choice feathers **go twice as far** and are **twice as buoyant** as cheaper, bulkier grades, because there are so many more feathers to the pound. **We pay the postage.**

1R7121—Per pound **$2.25**

WHITE HEN AND CURLED TURKEY

A good mixture of one-quarter select **white,** Western, dry picked hen feathers and three-quarters prime dry picked curled turkey feathers. Only Northern Turkey, which has a fuller fleece than other varieties, is used. We recommend this mixture as excellent. It contains a large percentage of small and medium size feathers which make a soft filling. **We pay the postage.**

1R7138—Per pound **49c**

ALL WHITE GOOSE

Choice, downy, white goose feathers, extra good grade, ordinarily sold elsewhere as best quality goose. Full and buoyant. Contain a good proportion of down texture, but not as desirable as our finest **Domestic white goose** feathers listed above. Compare our price with what others ask. An unequaled value. **Postpaid.**

1R7139—Per pound **$1.59**

PRIME WESTERN HEN

Select prime, dry picked, western, white and colored curled hen feathers, thoroughly processed and deodorized. **Do not confuse this grade with the cheaper grades offered elsewhere.** These feathers are far superior. Although of very good quality it requires more pounds of this grade than of our better feathers to fill a pillow or mattress. **We pay the postage.**

1R7103—Per pound **18c**

Gushions Ready for Covering

In Kapok or Feather Filled Cambric

Easy, delightful work for your spare time. Cover these soft, comfortable cushions in gay cretonne, denim, or chintz, shimmering silk or satin, sheer chiffon or lace; they'll be bright, cheery splashes of color in your living room; or pretty fluffs of daintiness in your bedroom. Seven popular styles. Wide choice of sizes. Perfect designing makes it easy to give these cushions the tailored appearance of ready-upholstered pillows that cost twice as much. Good quality cambric well filled with Genuine 100 percent Japara Kapok or with small downy turkey feathers. Japara Kapok is moisture proof, extra light and soft; one of the best known fillers for cushions or mattresses. The turkey feathers are choice, specially processed stock.

Complete Combination

Steel Art Bed
99-Coil Helical Top Spring
50-lb. Felted Cotton Linters Mattress.

Only the World's Largest Store offers this combination. An attractive, sturdy and inexpensive outfit which will give years of service.

Wonderful Combination Value!

Steel Art Bed, Spring and Mattress at Tremendous Savings

A combination value that for fineness of appearance, durability of structure and long-life service is outstanding! Priced so low that all may enjoy beauty and quality in their bedroom furnishings at very low prices.

The Bed—One of our most popular new styles. Beautiful hand grained two-tone walnut finish panels in the ends, decorated with pretty floral patterns. Massive, attractive round filler posts and heavy end posts also of hand grained walnut. Height, 49 inches. End posts, 2 inches square. Length, 76 inches. Widths, 54, 48, and 39 inches.

The Spring—A serviceable 99-coil type (in the full width). Deep coil springs with interlocking helical (coil) spring top. Enameled riveted steel frame. Extremely comfortable. Built for service.

The Mattress—Built of 50 pounds of all felted cotton (in full width) with extra layers of cotton at top and bottom for extra comfort and service. Floral art pattern ticking. Deep tufting. Firm roll edges. **Not Prepaid**

Wood Grained Walnut Finish

Smart New Design—Beautifully Finished

This bed is of smart, up to date design with massive, yet gracefully shaped continuous tubular end posts. See small illustration. The beautifully finished end panels are of steel cane and solid steel combined. The solid part is outlined with a pencil line routing and overlayed with a decorative ornament, thus giving the entire panel a two-tone effect. And not only are the center panels of wood grained walnut, but all parts, end posts, fillers and cross rails. Height of head end, 50 in.; foot end, 34 in. **Please state width wanted.** Bedding not included. **Not prepaid.**

SUPREME VALUES in Scientifically Constructed DAY BEDS

ONLY
$29.95
Walnut Finish
With Fabric Spring and 25-Lb. Cretonne Covered Roll Edge Felt Pad

A Child Can Open a NAP-A-DAY

Smooth automatic "up, out and down" motion. No sticking. No straining. No trouble. Works so easily and perfectly a small child can operate it. Just a single gentle pull, then a flip of the pad mattress, and you have a wonderfully springy and comfortable 48-inch bed.

To reduce to couch size straighten out the bedding, fold over the mattress and give a light upward lift. Everything neat in a jiffy. Your smart Nap-A-Day bed is ready for daytime use.

All merchandise on this page shipped from our store by freight or express, not prepaid.

Latest Style NAP-A-DAY—Stylish Spool Design Ends

We guarantee that you won't find the equal of this newest Nap-A-Day automatic day bed, in quality or in value anywhere. **Often priced as high as $40.00 by others.** Our grandmothers favored couches of this popular spool pattern. Now YOU can have this charm combined with modern double-service convenience.

Automatic Action—Spring Construction
Equipped with **coil spring,** consisting of 88 deep cone coils held at top with interlocking helical coils, or furnished with **fabric spring** made of finest steel link fabric supported by helical (coil) ends. Size of bed, closed, **74x26** in.; open, **74x48** in. Height of ends, **32½** in. Easy sliding glides that won't mar floor.

American Walnut or Red Lacquer
Frames of choice kiln-dried hardwood. The coil spring day bed has a 35-pound all felted tufted cotton roll edge pad mattress "hinged" in the center to fit perfectly when doubled or opened out. Covered with sturdy flowered art denim; reverse side is sanitary ticking. The fabric spring bed has a 25-pound mattress covered with cretonne. **Not prepaid.**

ONLY
$12.95
For This Bargain Pull-Out Day Bed. Complete With Roll Edge Mattress and Smart Cretonne Cover.

Practical—Serviceable—Priced Low

Only at Sears can you get bargains like this. A handsome all-steel pull-out Nap-A-Day bed at a price so extremely low it is within reach of every home in America. Ideal for use in a sun parlor, on the sleeping porch or in any room of the house where an extra bed would come in handy.

Sturdy Construction—Steel Fabric Spring
Made entirely of steel with all parts riveted. Slide-out section works smoothly on easy rolling casters and, when pulled out forms a comfortable **45**-inch bed. The spring is strongly made of wire fabric securely fastened to the steel frame by helical (coil) springs. Baked-on finish of ungrained walnut. Pretty steel cane panel with contrasting floral decoration.

Saves Energy and Time
Just takes a minute to pull out the lower section and prepare it for the night. Fully equipped with a 25-lb. linter cotton roll edge pad mattress; nicely tufted, "hinged" to fit perfectly, and covered with good grade cretonne. Standard **75**-inch length. Opens to **72x45**-inch bed. Height of ends, **30** in. **Not prepaid.**

1R5818—Day bed complete with mattress. Shpg. wt., 100 lbs. **$12.95**

INTRODUCING A NEW DAY in Values

ONLY
$25.95
Complete With Roll Edge Felt Mattress

Gives the Convenience of an Extra Bedroom in Your Home at Low Cost. Extremely Comfortable. Unusually Durable, Neat and Sanitary.

The Old Favorite Windsor Steel End Nap-A-Day

Operates clear of the floor with a simple "up and out" motion. **Automatic spring adjustment eliminates the weight of lifting. Eighty-eight** deep cone coil springs offer you supreme sleeping comfort. Each section has 44 six-inch oil tempered coil springs, tied at top by interlocking helical (coil) springs which insure greatest resiliency and non-sagging support. Sections are level when bed is opened. No uncomfortable dividing line.

Hand-grained American walnut finish gives a beautiful gloss to the welded all steel ends. Housewives like this Windsor style with its pretty steel cane fan shape panels. It's very attractive, wonderfully strong and no trouble at all to keep clean. **The price is $5.00 to $10.00 lower than you would ordinarily pay elsewhere.**

Complete with 25-lb. felted cotton roll edge mattress specially "hinged" and tufted with flounced floral cretonne covering. Width, closed, **26** in.; open, **48** in.; length, **79** in. Shipped with ends detached.

1R5855—Day bed and mattress. Shipping weight, 145 lbs. **Not prepaid** **$25.95**

Equipment that Breathes Quality and Economy

Sani-Safe Steel Cribs are so serviceable, so sturdy and so strong that they will do duty for all the children in turn, from the eldest to the baby. Light but strong, ⅞-in. steel tubing forms the head and foot rails of most of these beds. Filler bars, welded into place. Link fabric steel springs, anchored to the frame with helical (coil) springs. Easy operating drop sides are **sure locking** and equipped with bumpers to prevent jar and noise.

It's ALWAYS economy to buy the larger size because it gives you longer service. All cribs are finished in fine quality enamel in a variety of colors. Easily cleaned.

Some of the largest and best manufacturers of steel beds in America make these cribs for us and because we do not advertise their names we are able to sell **at lower prices than others ask!** These cribs carry the strongest possible guarantee for satisfaction and service. Mattresses to fit these cribs are shown below. All cribs packed to secure lowest transportation rates. All merchandise on this page shipped from our store by freight or express, **not prepaid unless otherwise stated.**

The Finest Steel Nursery Equipment

SPECIAL AT **$10.45**

30x54-In. Size, Ivory Enamel

Our Very Finest Steel Grib

Search the country and you'll not be able to find elsewhere a steel crib to compare with this one in quality and price! **Stores elsewhere usually ask at least $5.00 more for the same style.** A child could sleep in the larger of these two sizes for at least 7 years. **The novel drop side is convenient and serviceable.** Only the upper half drops, leaving the lower section sturdily bracing the ends making it a most substantial crib. The simplicity of its lines is relieved by the attractive steel panels decorated in colored juvenile design and by the charming curved ends. 47 inches high. Depth of side, 23½ inches. **Not prepaid.**

A Special Favorite at this Unusual Price

Our Sani-Safe Children's Rocker

Comfort! Beauty! Style! Quality! Savings! A real grownup fiber rocker for the little ones. We made it for children, but we priced it for parents who want to economize. Little folks delight in its style, in its pretty floral design cretonne upholstery, in its fine springy seat. And mothers appreciate the fact that it's Sani-Safe—no fear of its rocking over; no fear of harmful splinters or protruding bolts. At this astonishingly low price it is one of the greatest bargains in children's furniture we have ever offered! And don't forget, that hand woven fiber furniture is practically the sturdiest you can buy. Seat size, 13½x13 in. Height of back, 11 in. Shipping weight, 12 lbs. One of Our Most Popular Sets!

Durable Enamel—Pretty Blue Trim Gateleg Table—Neat Strong Chairs

ONLY $19.65

Complete Set, Ivory and Blue Table and Four Chairs

One of the most popular breakfast sets we have ever sold. Gatelegs on the drop leaf table give smart individuality, double convenience and extra strength. Chairs are made with continuous back posts and sturdy box seats. Choice hardwood, kiln dried and smoothly sanded, is used throughout. The finish is **gray or ivory washable enamel** charmingly decorated with colorful floral designs on panels and top rails, and solid **blue trim** on table bases and front chair legs. You can easily keep it fresh and shining, just wipe it with a damp cloth.

Saves Space—Easy to Move About

Table folds to small proportions but when opened is extra broad and long for a breakfast table. Small illustration (inset) shows drop leaves down. Top then measures **36x8** inches. With leaves up top measures **43x36** inches. The gateleg supports hold leaves flush with top. Lower shelf for added strength and convenience. Side supports and stretcher shelf are gracefully shaped. Sturdy wide spread bases. Fits close against the wall when folded. Packed with legs removed to secure lowest transportation rates. Easily put together.

Chairs—Strongly made with continuous bent back posts rigidly braced to the full box seats. Seats measure **15x15** inches; height of back from seat, 18 inches. Legs are stretcher braced. Artistically cut back panel and top rail.

The drop leaf feature of the table saves space and the full porcelain top gives strength, beauty and cleanliness. Finished in baked-on enamel—**gray with blue trim, ivory outlined in green,** or **apple green with orange trim** with flowered patterns to match.

Very smart, matches the newest porcelain stoves and refrigerators. With leaves up, top measures 43½x36 in.; with leaves down 36x21½ in. Finest kiln dried hardwood forms a staunch support for the top. Nicely turned legs. The gracefully curved leaves are triple hinged and supported by slides when extended. Shipped with legs detached. Easily put together.

New fiddle back chairs made entirely of hardwood. Finished in washable enamel to match table. Curved seat measures 15½x15½ in.; height of back from seat, 19 in. Back panel stenciled to harmonize with pattern on table corners. Unusually sturdy. State finish. Shipped set up.

1R2515—Shipped by freight or express, not prepaid.

Outstanding Features

1—Porcelain top table; drop leaves of porcelain, sturdy hardwood base.

2—Baked-on enamel. Gray with blue trim; ivory with green trim, or apple green with orange trim.

3—Stylish fiddle back chairs; fine hardwood, extra well made.

4—Artistic trimming; solid shape rims, neat floral stencil patterns; striped legs and spindles.

ONLY **$23.25** Table and Four Chairs

Oak Extension Set Beautifully Decorated

Here's a good looking, long wearing, up to the minute breakfast set of genuine solid oak. All the natural beauty of the wood has been retained in the dark golden lacquer finish offset with a black border. Floral decorations as illustrated. Impervious to hot plates and very durable. You can search anywhere and you won't find a similar set that is the equal of this one in construction, finish or smart styling at such extremely low prices.

Extension Table—Bow Back Chairs

When closed the table top measures 42x30 in. It is equipped with two finished leaves and when extended measures 66x30 in. Well braced and solidly built. The decorative motif is particularly appealing. A black rim sets off the beautiful graining of the table top and the chair seats. Touches of black on the legs of the table and chairs further this contrast. Pretty, oddly shaped floral patterns adorn the table corners and chair panels, completing a bright color scheme. Chair seats are artistically rounded and measure 16x16 in. The shapely bow back with smart spindles and pretty panel measure 18½ inches from seat. Four stretchers keep legs rigid. Chairs are shipped set up. Table is packed to secure lowest transportation rates. Easily put together.

1R2526—Shipped from our store by freight or express, not prepaid.

Sturdy 2-Inch Post Construction

Usually Sold Elsewhere for $13.50

$9.95 White Enamel

For efficient housewives who do not care for a full size kitchen cabinet, or haven't the space for one, we offer this specially attractive and sturdily made base. It offers many of the essentials of the kitchen cabinet, yet is much less expensive and more compact in size. Here are features which mean more convenience and less drudgery for you:

1—**Two-inch post construction,** all four corner posts are quality constructed with 2-inch square posts from top to bottom. No skimping in quality.
2—**Porcelain enamel steel top.** Built to last and easy to clean.
3—**Four drawers.** Partitioned top drawer, ventilated metal bread drawer and two linen drawers. Here is ample space for compactly keeping cutlery, for storing linens and for keeping bread and cakes.
4—**Large, roomy storage space** for pots and pans. Equipped with removable sliding pan rack and rack on door for pan covers.
5—**Nickeled hardware.** Also easy rolling casters.
6—**Choice of four popular finishes:** Washable white, gray enamel, green enamel or golden oak. Don't miss this feature value!

Size of top, 41x25 inches, height 31 inches. Shpg. wt., 100 lbs. **Shipped from our store, by freight or express, not prepaid. Send your order to the nearest store.**

Quality Constructed!

Note how many of our cabinet bases have the **2-inch post construction!** Here's a **quality feature** not found in the "usual quality" of others. Consists of **four posts 2 in. square** which go from bottom **all the way** to the top. Its features mean longer service and more real "dollar-for-dollar" value when you buy Sears kitchen cabinet bases.

Specially for the Small Kitchen

A combination convenience hard to do without in small kitchens. Housewives with small kitchens, who have not room for a kitchen cabinet will find this style an especially attractive substitute. Compare these **big features** with what others offer: **THREE HANDY LARGE SIZE DRAWERS,** the bottom one metal lined with a sliding ventilated cover, for bread, cake, etc. Two handy drop leaves with **STRONG KNUCKLE JOINTS** provide a standard **TABLE SIZE WORK SURFACE,** 42x30 inches. With leaves down, size is 30x18½ inches. Height, 32 in. **EXTRA COMPACT** with leaves down. Easily moved out of the way, equipped with **easy rolling casters. All four legs are 2-in. material from top to bottom. A quality feature of our kitchen cabinet bases.** Made of hardwood finished in choice of white or gray washable enamel. **Shipped from our store by freight or express, not prepaid.** Shpg. wt., 90 lbs.

QUALITY AND LOW PRICE — SUNRISE BRAND DINNERWARE — SENSATION OF CHINAWARE

You Save ⅓ Or More At Sears

"SUNRISE" truly stands for superlative values in dinnerware. "Sunrise" is our own trade mark and we are not satisfied to have it represent anything short of the greatest dinnerware values to be found in America. Patterns of distinctive charm—decorated by World Famous Artists—made only of the best clays and glazes obtainable, you may well be proud of every piece of Sunrise Dinnerware that graces your table. There is a true and substantial saving in supplying your needs from among the many attractive and beautiful Sunrise patterns.

Hand Picked 1st Selection Only

"SUNRISE" is made in the World's Largest and most scientific pottery, by the most highly perfected processes of manufacture, tunnel kiln baking, producing the most perfectly glazed and finished semi-porcelain obtainable. It is strictly hand picked, first selection American china (semi-porcelain), doubly guaranteed by the World's Largest Pottery and the World's Largest Store. There is a world of satisfaction in owning any one of the beautiful "Sunrise" Dinner Sets and in the thought that you can own them at such large savings.

There's Satisfaction in "SUNRISE" DINNERWARE

Nothing gives greater pleasure and satisfaction to the woman proud of her home than dinnerware of distinction. The snowy whiteness of a table dressed for dinner, set off with the contrast of vivid coloring and smartness of appropriately chosen dinnerware, makes one of the most fascinating home pictures.

There's always the satisfaction of knowing when you buy "Sunrise" Dinnerware that you have exercised true economy in making your selection—that you have secured dinnerware of superior quality at a price lower than you would have to pay elsewhere for corresponding quality and workmanship—for "Sunrise" is always strictly hand picked first selection merchandise.

There's Saving in "SUNRISE" DINNERWARE

Dollar for dollar you get more for your money in "Sunrise" Dinnerware. "Sunrise" is produced in the largest pottery in the world with every scientific aid for reducing cost to a minimum.

We buy in such enormous quantities that you get the benefit of the lowest possible cost. "Sunrise" comes direct from the pottery to you with no middleman's profit added.

In "Sunrise" Dinnerware you get only hand picked first selection American china (semi-porcelain) at prices less than are asked elsewhere for dinnerware lower in quality. Quality and price considered "Sunrise" Dinnerware is the "Nation's Biggest Value."

America's Finest Chinaware

at Lowest Prices

We pay postage on merchandise on this page unless otherwise stated.

"Nasturtium" Pattern — "Golden Rose" Pattern

There's an undeniable pride and joy in owning this fine semi-china dinnerware of hand picked first selection quality. The creamy ivory texture of the ware, its lovely luster and the graceful Newell shape combine to form the perfect, rich background for the "Nasturtium" Pattern. And that is captivating, gay, bright, so in keeping with the happy mode for color with its fresh green leaves and stems and bright yellow and rich burnt umber flowers. "It's marvelous!" women tell us when they see it. "And at such appealingly low prices, too. I don't see how you do it." Of course the answer to that is quantity buying and our insistence upon giving you greater value for every dollar.

Round Deep Salad Bowl	9¼ in.	.70

The elegance and richness of French decoration has always been a thing of envy. Here the artist has captured that illusive and delicate beauty in the "Golden Rose" Pattern. It consists of a wide colored border, in conventional design, of rich golden brown scrolls and medallion motifs on a mirror black and ivory background, in the center of which are small pink rosebuds. On the outside edge of this border, as well as on the inside, is a band of gold. Handles are covered with burnished coin gold. For the discriminating hostess, who must buy carefully, this creamy white semi-china of lovely luster in the plain edge shape is a real find.

AMERICA'S CHOICE PATTERNS

Bright or Yellow Matte Gold Dinner Sets

Choice of either bright gold or 18-karat yellow matte gold dinnerware. 35R246¼ has a bright gold band with bright gold traced handles. 35R234¼ has an 18-karat yellow matte gold band, handles heavily covered with gold.

The matte gold is the satin finished gold used on the highest priced sets. The ware of both sets is of first quality American pure white semi-porcelain in a plain edge shape. Complete sets and open stock. For list of pieces in the complete sets see page 695.

"The Caledonian" Pattern

Why not have beautiful hand picked first selection American china (semi-porcelain) and be sure of the best? At Sears it costs you no more than you will often pay for second and third grades elsewhere. "The Caledonian," in the popular octagon shape and of creamy white body, is delightful with its bird and rose pattern in natural colors and hairline of bright blue. It brings what every woman craves—beauty!

"Miss America" Pattern

Dainty, bright, happy colors, a bewitching little "queen of beauty" is our "Miss America." A prize value, too, in hand picked first selection American china (semi-porcelain), of fine white texture. A floral pattern, distinctly feminine, of graceful sprays with lavender, poppy red, blue and yellow blossoms and dainty green leaves. Edged in gold. A pattern that wins approval.

"The Princess Royal" Pattern

Truly a royal beauty, with all the delicate grace and charm of a princess. Of choice quality, hand picked first selection American china (semi-porcelain). Intensely interesting border pattern with rose medallions in natural colors on a background of blues and tans. Edged in gold. Discriminating hostesses, those with an instinctive appreciation of beauty, will be quick to adopt "The Princess Royal."

The World's Most Famous Dinner Service

Genuine "Haviland"

Beautiful "Haviland" in the "Chanson" Pattern

Genuine "Haviland!" How much those words mean to "women who care." Discerning women know that good taste in dinnerware is one of those things that brings a personal pleasure as well as the favorable judgment of others; and "Haviland" China brings to your home that final touch of charm and beauty, that pardonable pride of ownership that comes only with the best. The delight of a table, set with immaculate white linen, beautiful silver and perfect china—"Haviland"—is the finishing touch to a well furnished home. You'll like the "Chanson;" lattice border with a yellow hairline, blue and yellow conventional flowers on a black background, broken at intervals by sprays and panels of blue and burnt umber flowers with natural green leaves. Wide matte gold handles.

Beautiful "Haviland" in the "Juno" Pattern

The beautiful luster and deep glaze, artistry of design and unquestioned leadership in high quality justly account for the world wide popularity of "Haviland." The "Juno" pattern, brilliant example of "Haviland" art, is of small pink and yellow roses with green leaves, in a border of ochre and soft blue. A smaller border of narrow egg and dart with a matte gold band completes the decoration.

Beautiful "Haviland" in the "Lorraine" Pattern

That unseen and immeasurable quality, a certain ease and poise, is felt by women who use "Haviland" China. This pattern, a favorite of those who seek the unusual, graces your table with a spirit of intriguing quaintness that brings the lovely, colorful flowers, the green and brown-yellow leaves to a pleasing blend with the narrow tan border. Matte gold covered handles.

Allerton's Blue Willow—"The Favorite of the Ages"

The artistry of Allerton's, Ltd., developed through years of effort by the master craftsmen of this justly famous old English pottery, is yours in this ancient "Blue Willow" design. English semi-vitreous porcelain, noted for the purity of its whiteness, the depth of its glaze, the strength and toughness of its texture. The lovely charm of this beautiful blue willow design has long been a favorite of those who like colorful, yet tasty patterns, and it's still rightfully popular! You'll never tire of blue willow ware. We are offering this set of Genuine Allerton's at a tremendous saving over the price others ask for like quality.

Exceptional Values on High Quality Lamps

$7.88 ~ We Pay the Postage.

300 Candle Power NEW and IMPROVED ART-GASOLINE Table Lamp in Color

A Wonderful Bargain

Just think! This beautiful new improved art gasoline table lamp in wonderfully printed colors for only $7.88, far less than you would pay elsewhere. This is really one of the most striking art lamps we have ever seen, and the most efficient. 300-candle power, 20 times brighter than the ordinary wick lamp, yet very easy on the eyes. Economical, too, burns 96 per cent air and only 4 per cent gasoline.

Absolutely safe. You can turn it upside down and light it and it won't explode. Has a charming shade in tan ivory background with delicately hand decorated rose pink design in natural colors of rose and green. Base is of antique gold bronze finish. Everything needed for the operation of the lamp is included—extra generator, generator wrench, two cleaning needles, extra pair of mantles, pump, gasoline strainer and complete instructions for operating.

Capacity of fount, 3 pints. We pay the postage. **$7.88**

35R8144—Complete.....

Nickel Finish

Same as art gasoline table lamp described at the left in principle and construction, the only difference being that it has a bright nickel finish base and white fluted shade.

35R8145 We pay the postage $6.68

Parlor Reading Lamp

THE WORLD'S STANDARD

The Well Known "Rochester" Priced Very Low

A LEADER AMONG BATTERY OPERATED SETS
MARVELOUS, *CLEAR TONED RECEPTION*

Moistureproof Audio Transformers

Modern transformers, sealed and potted to prevent moisture creeping in and breaking down the insulation, thus shorting turns in the windings. These moistureproof transformers assure you of perfect reception regardless of climatic conditions.

Spring Binding Posts

Loud speaker, aerial and ground wires are quickly attached and detached in this receiver. Just push down on the top of the binding posts, insert the proper wire, remove your finger and the wire is held firmly.

Illuminated Dial

Just touch the switch and instantly the dial of the set is flooded with light from a tiny bulb. It enables you to operate the receiver in the darkest room. The current is obtained from the battery of your set and no extra connections are required. The bulb is in place when the receiver reaches your home.

Identification Strip

A long strip of white celluloid is fastened to the inside of the set, showing exactly where to attach the speaker, ground and aerial wires. Points out exact sockets for each tube. This guide makes it one of the simplest sets on the market to set up.

Silvertone

Receiver in Choice of Two Cabinets

Modern Style With Air Column Speaker

This console may be placed in a room with practically any style of furniture for its design will harmonize exceptionally well. It brings you at once the remarkable tonal qualities of the 6-tube receiver shown at the top of this page, plus an article of furniture that will make you proud to show it to your friends. Large size tone chamber of the exponential air column type. The beautiful grille, below the receiver, covers both the speaker and battery compartment. This grille is easily removed to permit ready access to the batteries. The drop down door acts as an arm rest. Heavy oval overlay on the door and neat decorations on the side. Genuine mahogany veneer front. Top and sides selected hardwood. Dark mahogany finish throughout. Size, 40½ inches high, 23 inches wide across the front and 15 inches deep. **Not prepaid.**

Shielding Insures Pure Tone

The development of this set required the genius of some of the most brilliant minds devoted to making improvements in radio. The chassis is what the public knows and recognizes as a highly selected assembly—each part chosen for its ability to work in precision with all the other parts. The transformers are thoroughly sealed against moisture, shielded from all outside influences, to insure perfect action. The four separate condensers in a gang (working upon one shaft) is one of the newest perfections in radio construction, devised to give the utmost in radio reception.

All the Newest Features

The whole assembly is shielded by being housed in a solid metal container. Other features you will appreciate from the point of simplicity are the revolving drum indicator, the pilot light which brightly illuminates the dial, and the new push-down style binding posts that are positive in action and convenient to use. Nicely designed, well appearing metal container finished in dull bronze. Size, 20 inches wide, 7¼ inches high and 8½ inches deep. Buy this Silvertone and be assured of quality traditions rigidly upheld. **Not prepaid.**

IMPROVED ALL ELECTRIC SETS FOR HOUSE CURRENT OPERATION—*COMPARE THE PRICE*

SILVERTONE

Completely Shielded

All wiring is separated from all other parts of the chassis and each R. F. coil is individually shielded. No two parts come in contact with each other where there is any possibility of interference. The entire chassis is compact, sturdy and substantial. To make the shielding complete, the outer case is made of steel.

Potted Transformers

Complete shielding of transformers makes this Silvertone 6-tube set super sensitive. Special care is taken at the factory to maintain an even winding of the coils. They are later sealed with a weatherproof compound that protects the windings from moisture.

Lighted Station Indicator

No guesswork, no groping around in the dark with this set. A light is automatically turned on as soon as you touch the switch. It throws a light directly onto the markings of the drum indicator of the receiver so that you can accurately turn the dial to the desired station. This light also warns you to turn set off after you have finished listening in.

Tube Protecting Switch

Successful operation of any house current radio receiver depends largely on its being properly adjusted to the house current voltage. This unique Tube Protecting Switch enables the user to instantly adjust receiver to any house current voltage ranging from 100 to 130 volts.

6 Tube Neutrodyne With Rectifier

$5.50 A Month, Without Accessories

MODEL 30

Completely electrified! Operates from the A. C. power of any light socket in your home. A powerful, wholly dependable, Silvertone receiver using 6 A. C. tubes, 7 with rectifier. It is super sensitive in faithfully reproducing everything that's on the air. Brings in every graduation of tone whether it be voice, solo instrument or orchestra.

$59.95 CASH
Without Accessories

Best by Test

A laboratory test, comparing Silvertone with eleven similar nationally advertised receivers showed that Silvertone is the only radio selling at less than $105.00 that combines all the important features embodied in this model. Too much cannot be said in favor of this set, for it enables you to enjoy everything that modern radio has to offer. Compare it with any other A. C. all electric set and you will find this Silvertone gives greater satisfaction and offers far more for the money than any receiver sold anywhere near our low prices. In the purchase of this radio you are assured of complete satisfaction, plus the knowledge that you are making a big saving.

Famous Neutrodyne Circuit

It makes use of newly developed mechanical features which insure the finest of radio reception. Most important are the three fully tuned stages of radio frequency with four condensers arranged in a gang on one shaft; thoroughly potted transformers for complete shielding and the genuine neutrodyne circuit which radio engineers call the perfectly balanced circuit. A lighted window permits easy location of stations, even in a dark room. Both kilocycles and wave lengths are marked on the revolving indicator. This very fine performing set is housed in a beautiful metal case of dark bronze finish. Size, 20 inches wide, 7¼ inches high and 11 inches deep. It operates from 110-volt, 60-cycle city current. If wanted for 25 or 30-cycle, write for prices. **Not prepaid.**

Receiver in Choice of Two Cabinets

Small in Size—Big in Performance

Takes up a minimum of space. The 6-tube all electric receiver described on this page is contained in the cabinet, and a speaker of the air column type gives it a perfect tone quality. Imitation antique metal pulls on the two highly polished veneered doors. Cabinet is walnut finish throughout. Size, 32 inches high, 24 in. wide across front and 16 in. deep. Operates from any 110-volt, 60-cycle, city current. If wanted for 25 or 30 cycle, write for prices. **Not prepaid.**

For A. C. Electric Operation

Model 31 Silvertone Console, without accessories. Shpg. wt., 127 lbs.
57R4186¼—Cash price....$102.50
57R4187¼—Easy payment price, $16.75 down and $9.50 per month until paid $112.75
Model 31 Silvertone Console. Complete with accessories listed opposite, ready for operation. Shpg. wt., 137 lbs.
57R4188¼—Cash price....$117.75
57R4189¼—Easy payment price, $19.50 down and $11.00 per month until paid $129.50
When Ordering on Time Payments, See Time Payment Order Blank in Back of Catalog.

Richly Decorated Cabinet

Doors of matched walnut veneers. Contains the six-tube chassis described on this page. Magnetic reproducer. Cabinet is selected walnut veneer, dark walnut finish. Size, 48 inches high, 25¼ inches wide across the front and 15¼ inches deep. Operates from any 110-volt, 60-cycle city house current. If wanted for 25 or 30-cycle, write for prices. **Not prepaid.**

For A. C. Electric Operation

Model 40 Silvertone Console, without accessories. Shpg. wt., 138 lbs.
57R4176¼
Cash price.....$115.00
57R4177¼ — Easy payment price, $19.00 down and $11.00 per month until paid $126.50
Model 40 Silvertone Console, complete with accessories listed opposite, ready for operation. Shipping weight, 150 pounds.
57R4178¼
Cash price.....$130.00
57R4179¼ — Easy payment price, $21.50 down and $12.00 per month until paid $143.00

Silvertone

Digitized by Google

ONE OF THE BEST SETS MONEY CAN BUY
HOUSE CURRENT OPERATION~NO BATTERIES

READY for USE in a HURRY

Just five quick, simple things to do and your Silvertone is ready to bring you constant radio entertainment: (1) Fasten ground wire; (2) Fasten aerial; (3) Attach speaker; (4) Insert tubes; (5) Plug into light socket.

Condenser Assembly

Efficient heavy brass condensers. Silvertone receivers have all rotors mounted on one shaft. Condensers fitted with neutralizing condensers and minimum adjusters in one assembly, mounted on three point suspension. Prevents condensers from warping or getting out of line.

Radio Frequency Coils

Each R. F. coil individually shielded with aluminum. Complete electrical shielding is obtained by the heavy gauge steel cabinet. All radio frequency coils are perfectly matched by means of a special inductance adjuster incorporated in its design.

"Push-Pull" Amplification

The wonderful volume obtainable with this set is partly due to the use of two power tubes set directly opposite each other in what is known as "push-pull" amplification, an outstanding improvement, and we incorporate it in this set.

Silvertone

Receiver in Choice of Two Cabinets

Unusual Beauty Dynamic Speaker

A group of discriminating judges of radio furniture selected this model as one of the most unusual and beautiful consoles obtainable. A dynamic speaker is built in to deliver the full richness of tone that is developed by the seven-tube super powerful chassis shown on this page.

Beautiful arched opening with attractive grille panel finished in amber color which gives a rich two-tone effect. Cabinet is made of genuine walnut veneer hand rubbed dark walnut finish. Size, 40 inches high, 23½ inches wide across the front and 14¾ inches deep. Operates from any 110-volt, 60-cycle, city house current. If 25 or 30-cycle is wanted, write for price.

7 Tube Neutrodyne 8 *with* Rectifier

From the very first time that you hear this 7-tube set (8 tubes with rectifier), you will be thrilled at its powerful, rich tone; its distance getting ability, its simple operation and remarkable all electric power. It is an advanced model, incorporating all the refinements that years of radio experience and research have developed. It is the improved set that has met the instant approval of discriminating radio owners everywhere. This model has broken all our previous sales records for receivers operating directly from house current.

Without Accessories

Best By Test

A laboratory test, comparing Silvertone with eleven similar nationally advertised receivers showed that Silvertone is the only radio selling at less than $145.00 that combines all the important features embodied in this model.

Gets Distant Stations, Too

There are no acids, no batteries, no water, no chargers with this set. Just plug into any 110-volt, 60-cycle, light socket, snap a switch, turn a dial and choose the best that's on the air. Operating this set is simplicity itself, a slight touch of the master tuning control brings in station after station with remarkable clarity. Its super sensitivity enables you, often-times, to bring in distant stations that are beyond the range of even the highest priced radios on the market. Through the use of a super-audio system, commonly known as "push-pull" amplification, employing two power tubes, this set delivers a full, rich tone whether you want delicately subdued reception or volume enough to carry to the most distant rooms of your homes.

All the New Improvements

Some of the most famous inventions credited to the radio industry are used in this super performing set. It is made under patent rights granted the Radio Corporation of America, the General Electric Company, the Westinghouse Electric and Manufacturing Company and the Hazeltine Corporation. Improved mechanical and technical refinements included in this set are the four condensers, ganged on one shaft for unified singular action; potted transformers, shielded chassis, drum type indicator marked for wave lengths and kilocycles; pilot light and volume control dial. The beautiful metal container is finished in an attractive dark bronze that matches well with any furnishings of the home. It totally eclipses any other A. C. all electric set on the market today, selling at or near our low prices. Size, 20 inches wide, 7¼ inches high and 11 inches deep. Operates from any 110-volt, 60-cycle, city current. If 25 or 30-cycle is wanted, write for price.

WLS Tubes

FOR LONG LIFE AND EFFICIENCY

96¢
For Battery Operated Sets

Our Guarantee

W L S Tubes are pre-eminently quality tubes. They are tubes for those who want only the best. Every W L S tube is subjected to a very rigid mechanical and electrical test and guaranteed to have long life, high amplification and superb tone quality. Should any W L S tube fail to give the service you expect, we will immediately replace it or return your money.

In a series of more than twelve laboratory tests, W L S tubes were compared with the best known nationally advertised brands. Every test proved that W L S tubes have as long a life and deliver as many efficient operating hours as the highest priced tubes on the market.

For A. C. All Electric Sets

WE Pay the Postage **WE Pay the Postage**

WLS General Purpose Tube

The favorite tube of thousands of our customers. Its long life, high efficiency and low price have made it one of the biggest selling tubes in America. Detector-amplifier 6-volt type. Draws ¼ ampere. Plate or "B" voltage, 45 to 135. Black bakelite base. 1⅝ inches in diameter. Used either as detector or amplifier tube in sets designed for storage battery operation, or other sets that call for a tube of this character. **We pay the postage.**
57R4600..... **96c**

Solartron Tube

A general purpose tube for storage battery operation, equal to many tubes sold elsewhere at much higher prices. Carries our full guarantee. Substantially constructed, possesses volume and tone quality and is not to be confused with poor, short-lived tubes sold at around our low price. Detector-amplifier, 6-volt type. Draws ¼ ampere; plate or "B" voltage 45 to 135, genuine bakelite base, 1⅝ inches in diameter. **We pay the postage.**
57R4601..... **76c**

WLS Detector Tube

Specially designed for detector use in sets of the storage battery type. This tube is highly sensitive, it increases volume and is especially suitable for distant reception. Proper use does not require any change in set or wiring. Plate voltage, 45. Six-volt type; draws ¼ ampere; diameter of base 1⅝ inches. For use in detector socket only. **We pay the postage.**
57R4602..... **$1.77**

WLS Shielded Grid Tube

New radio frequency amplifier tube, having a screen grid. For battery operation only. Largely used by experimenters. Suited only for sets wired for its use. Four prongs; one connection on top of tube. Filament volts, 3.3; draws ⅛ ampere. Grid takes 45 volts; plate 135. Standard 1⅝-inch base. **We pay the postage.**
57R4603..... **$3.98**

WLS Dry Battery Tubes

Detector-amplifier 4½-volt tube, used for dry cell sets; also portable sets. Base, 1 inch in diameter; short prongs. Draws .06 ampere. Three 1½ volt dry batteries connected in series are generally used as the "A" battery for this tube.
57R4610—We pay the postage..... **$1.21**

Detector-amplifier 4½-volt dry battery tube, similar to above, but fitted with the newer type base having long prongs. Diameter of base, 1 9/16 inches. Draws .06 ampere. Requires same battery arrangement as 57R4610.
57R4611—We pay the postage..... **$1.21**

Detector-amplifier 1¼-volt dry battery tube, fitted with new type base having long prongs. Diameter of base 1⅝ inches. Draws ¼ ampere. One 1½-volt dry cell in parallel for each tube gives good results for the "A" battery.
57R4612—We pay the postage..... **$1.50**

WLS "Multivalve" Tube

For use in the one-tube set formerly handled by us under 57L2828¼. Requires four 1½-volt dry cells in series for operation. **We pay the postage.**
57R4613..... **$3.50**

WLS A. C. Tubes

Amplifier type, used in sets known as the A. C. type that operate direct from house current through either built-in or separate power packs. Is an amplifier tube only. For A. C. detector type see 57R4631 below. A. C. filament voltage of the amplifier tube is 1.5; A. C. filament current, 1.05; D. C. plate voltage, 90 to 180. Four prongs, base, 1⅝ inches in diameter. Do not confuse with other types of A. C. tubes.
57R4630—W L S 526. **We pay the postage**..... **$1.56**

Detector heater type used in sets known as the A. C. type that operate direct from house current, through either a built-in or separate power pack. Is primarily a detector type to be inserted in the tube socket generally marked "Det," although used by some sets in sockets other than the "Det." A. C. heater voltage, 2.5; A. C. current, 1.75 amperes; D. C. plate voltage, 45 to 90. Has five prongs; base, 1⅝ inches in diameter. Be careful not to confuse with tubes of other characteristics.
57R4631—W L S 527. **We pay the postage**..... **$2.70**

WLS Power Tubes

Where provision is not made in a radio receiver for the use of a power tube, a change in receiver wiring is necessary. Also, power tubes require up to 180 volts of "B" battery and 9 to 40 volts of "C" battery. 57R4615 is the higher amplifier of the two tubes quoted below and is best suited, especially for a 5-tube set, where volume is wanted with no sacrifice in range. 57R4616 is particularly suited for six or seven-tube sets. While its amplifying ability is less than 57R4615, it draws more current in the "B" battery or plate circuit, it is the more powerful of the two tubes and renders a more pronounced fullness of undistorted tone. It is the power tube most generally used. Both tubes are 6-volt type; filament draws .25 ampere. Diameter of base, 1⅝ inches. **We pay the postage.**

57R4615
W L S 512..... **$1.80**

57R4616
W L S 571..... **$1.80**

Heavy duty power tubes for sets where provision is made for their use and where the speaker is designed to take high voltage. Is also used in certain amplifier units. Draws more current than either of the power tubes shown above, but gives greater undistorted power output. Filament voltage, 6 to 8; filament draw, 1.25 amperes. Base, 1⅝-in. diameter.
W L S 510. Maximum plate voltage, 425; maximum "C" voltage, 35; undistorted output in milliwatts, 1540. **We pay the postage.**
57R4618—W L S 510..... **$4.96**
W L S 550. Maximum plate voltage, 450; maximum "C" voltage, 84; undistorted output in milliwatts, 4650. **We pay the postage.**
57R4617—W L S 550..... **$5.90**

W. L. S. Rectifier Tubes

Filament type, full wave, 125 milliampere. Suitable for use in W L S A. C. sets or other sets having either separate or built-in power packs that call for a filament type rectifier tube. Also for W L S "B" eliminators 57K2456¼, 57H2411¼ and 57H2440¼, listed in our previous catalogs, also eliminator 57R5208¾ in present catalog. May also be used in other "B" eliminators requiring a full wave filament type rectifier tube. Base, 1⅝ in. diameter. **We pay the postage.**
57R4620—W L S 580..... **$2.79**
Filament type, half wave, 85 milliampere. **We pay the postage.**
57R4619—W L S 581..... **$3.76**

Non-filament gas type 125 milliampere output rectifier tube for use with "B" eliminators 57L2459¼ and 57N5207¼ listed in our previous catalogs. Also eliminator number 57R5201¼ in present catalog. May also be used in other "B" power units requiring this type of tube. Diameter of base, 1⅝ in. **We pay the postage.**
57R4621..... **$1.98**

AERIAL EQUIPMENT

Low Price—High Quality **$1.95**

Improve reception by replacing that weather beaten aerial system. Includes Brach Storm King lightning arrester and heavy seven-strand No. 22-gauge copper aerial wire, not to be confused with No. 24 or other light gauge wire. A real bargain at our low price. **We pay the postage.**

Kit consists of the following:

1 100-foot coil No. 22 seven-strand Copper Aerial Wire.
1 40-foot coil No. 16 Solid Rubber Covered Lead-in Wire.
1 25-foot coil Rubber Covered Flexible Hook-Up Wire.
1 Approved Brach Storm King Lightning Arrester.
2 Improved Ground Clamps.
1 High Quality Lead-In Strip.
3 6-Inch Stand-Off Insulators.
2 Crystal Glass Insulators.
2 Screw Eyes.
1 Instruction Sheet.
2 Wood Screws.
57R5500. $1.95

Enameled Aerial Wire

Composed of seven enameled strands of No. 22 B & S gauge copper wire. Not to be confused with No. 24 or other light gauge wire. Furnished in 100-ft. coils only. **We pay the postage.**
57R5401..... **71c**

Seven-Strand No. 22 Aerial Wire

Composed of seven strands of No. 22 gauge copper wire. Not to be confused with No. 24 or other light gauge wire. Furnished in 100-foot coils only. **We pay the postage.**
57R5402..... **52c**

Bare Copper Aerial Wire

No. 14-gauge solid bare copper wire. Furnished in 100-foot coils only. **We pay the postage.**
57R5403..... **41c**

Lead-In

For use where drilling hole through window sash is not advisable. Fitted with Fahnestock clips at both ends to facilitate easy connection. Over all length, 16 inches; width, ½ inch. **We pay the postage.**
57R5502..... **9c**

Ground Clamp

For connecting ground wire to pipe or rod. Fits any size up to 1½ inches. **We pay the postage.**
57R5503—Each..... **5c**

Magnet Wire

High grade, double cotton covered wire, furnished in standard B & S gauges. Furnished only in ¼-pound spools in the following sizes. **We pay the postage.**

57R5408—18-gauge.	95 feet	.....	**28c**
57R5409—20-gauge.	148 feet	.....	**32c**
57R5410—22-gauge.	230 feet	.....	**33c**
57R5411—24-gauge.	355 feet	.....	**41c**
57R5412—26-gauge.	550 feet	.....	**49c**

Lightning Arrester

High grade heavy porcelain lightning arrester listed as standard by the Board of Underwriters. Length, 4½ inches; width, 1⅝ inches; height, 2 inches. **We pay the postage.**
57R5501
Each..... **39c**

Glass Insulator

Considered the most practical insulator for radio use. Made of crystal glass. Size, 3⅝ inches long by 1¼ inches in diameter. **We pay the postage.**
57R5504—Per set of two..... **14c**

One-Wire Nail Knobs

Heavily glazed. Use for supporting aerial lead-in or ground wire. **We pay the postage.**
57R5505
4 knobs..... **9c**

"Gold Wave" Aerial

A gold plated wire known to be non-corrosive. Install 100 feet and notice the difference in volume, distance and tone. Composed of seven strands of No. 22 gauge wire. **We pay the postage.**
57R5400—100 feet..... **$2.53**

Flexible Hook-Up Wire

Accepted as the most suitable for wiring radio sets or connecting batteries. Consists of 16 strands No. 30-gauge tinned copper wire covered with a black rubber insulation. Furnished in 25-ft. coils only. **We pay the postage.**
57R5406—Coil of 25 ft... **23c**

Indoor Aerial and Loop Wire

Consists of 65 strands of fine copper wire with a double covering of brown cotton. Where an outside aerial is not desirable or convenient, this wire makes a satisfactory indoor aerial. May be concealed behind picture moulding or run around a window frame. A non-stretching wire which makes it especially suitable for winding radio loops. Furnished in spools of 125 feet each. **We pay the postage.**
57R5407—125-ft. spool..... **70c**

Lead-In Wire

High quality No. 16 solid, rubber covered lead-in or ground wire. Furnished in 50-foot coils only. **We pay the postage.**
1¼ pounds.
57R5404—Coil of 50 ft..... **50c**

WLS "A" BATTERY QUALITY GUARANTEED for 2 YEARS

Note these **quality features**, and the **sturdy construction** of this splendid battery. We make it extra good because **we guarantee it for two years.** It must prove entirely satisfactory in every way, and you alone are the judge. Should a W L S battery prove defective in any way within two years, we will repair the battery or replace it, charging you only for the service you have received. Heavy, full size lead plates make W L S batteries superior to the many lightweight batteries frequently sold around our low prices. Quality construction throughout, and unmatchable low prices make this an outstanding value. Compare with any other 100 and 120-ampere storage battery with a **two-year guarantee,** and note your big savings. **Storage batteries are unmailable and therefore shipped only by freight or express, not prepaid.**

"A" BATTERY ELIMINATOR

Powerful and Efficient

Here is a guaranteed "A" battery eliminator that will give full strength and unfailing light socket power for all receivers using up to ten 6-volt tubes. Trouble free, dependable and free from hum. Just as simple to attach as a regular storage battery and requires no attention whatsoever. An absolutely bone dry unit, requires no acid or liquids, uses no bulb and should not be confused in any with a battery trickle charger combination. Nothing to run down or require recharging. No new tubes needed. Has a combination switch and receptacle in the cord so that when a "B" eliminator is used it may be plugged into this receptacle. Both units may then be turned "off" and "on" by the use of this one switch. Housed in a neat, sturdy metal case finished to match our 57R5201¼ "B" battery eliminator. Highest quality throughout and at a money saving low price. Furnished complete ready to plug into your light socket. Eliminator, 11½ inches long, 4⅞ inches wide and 9½ inches high. Operates from regular 110-115-volt 50-60-cycle alternating house current. If 25 or 30-cycle is wanted write for price. **We pay the postage.**

57R5200¼..... **$23.75**

Dry "A" Batteries

Dry cells for radio "A" battery service are required to give a steady uniform current over long periods of time, rather than a heavy current at intervals. For this reason many dry cells are unsuited for radio service, and a new type of battery has been developed. This new battery is the W L S Special 1½-volt. It fills every radio requirement, and will give you entire satisfaction. When 4½ volts are required, three of these cells should be used, connected in series. Wiring diagram on each cell. We pay the postage.

20R1825..... **33c**

Automatic Switch

When using a trickle charger to charge your storage battery and a "B" eliminator or regular "B" batteries are installed for the plate circuit, this automatic switch enables you to turn your set on or off completely from the filament switch on your radio set. When you turn the radio on, the trickle charger is off, the "B" eliminator is on and vice versa. Very simple to attach. A bargain at our low price. Complete instructions enclosed. Size, 4x4x2 in. Operates from any house current, corresponding to the operation of your "B" eliminator or charger. We pay the postage.

57R5304..... **$1.97**

WE PAY THE POSTAGE ON MERCHANDISE ON THIS PAGE UNLESS OTHERWISE STATED.

Three-Ampere W L S Charger

$9.62

Always at the lowest prices at the World's argest Store. A guaranteed 3-ampere charger at only $9.62. Made for us by the Elkon Works. Gives a full 3-ampere steady uniform charging rate that automatically tapers off as battery becomes charged. Charges either radio "A" or automobile storage batteries. No moving parts to get out of adjustment, requires no acid or liquids and uses no bulb. Absolutely poiseless, and will not interfere with reception. Will charge most batteries over night. Housed in a sturdy, handsomely finished case, 6½ inches high, 7½ inches long, 4¾ inches wide. Operates from regular 110-115-volt, 50-60-cycle alternating house current. Not furnished for 25 or 30-cycle house current. **We pay the postage.**

57R5206..... **$9.62**

Tungar Charger

A well known and reliable advertised charger for radio "A" and automobile storage batteries; also 24, 48 or 96-volt wet "B" batteries. A steady, dependable and satisfactory charger. Operates from 110-115-volt, 50-60-cycle alternating city current. If 25 or 30-cycle is wanted, write for price. Price includes bulb. Buy from the World's Largest Store and save money.

57R5204—5-ampere size. 7 in. long, 8½ in. wide, 8½ in. high. We pay the postage. **$20.25**

57R5205—2-ampere size. 5½ in. long, 6½ in. wide, 7 in. high. We pay the postage.... **$12.19**

Trickle Charger

This excellent trickle charger will keep your battery at top efficiency all the time. Has a maximum rate of one ampere, which tapers off as battery becomes charged. Has no moving parts to get out of order. Requires absolutely no attention. Well built, attractively finished. A big value at our low price. Operates from regular 110-115-volt. 50-60-cycle alternating house current. If wanted for 25 or 30-cycle write for price. Size of charger, 5¾ inches high, 5¾ inches long and 2¾ inches wide. **We pay the postage.**

57R5203..... **$6.98**

Tungar Bulbs

High quality, long life charger bulbs. When ordering the two-ampere size, note if your old bulb has a wire connection at top or side of bulb similar to the one illustrated. If bulb has wire, order 57R5301; if not, order 57R5303. This does not apply to the five-ampere size. **We pay the postage.**

57R5301—2-ampere with wire..... **$3.13**

57R5303—2-ampere without wire... **3.13**

57R5302—5-ampere (not illustrated) **6.42**

Battery Clips

Best made, lead coated to prevent corrosion. Heavy spring insures tight connection. Positive clip plainly marked to make connections properly. 2½ inches long. **We pay the postage.**

57R5314—Per pair. **19c**

Panel Lamp

Six-volt electric bulb for radio panel window use; also used in Silvertone receivers. Base, ⅝ inch. Height, over all, 1 in. **We pay the postage.**

57R4916... **17c**

Soldering Iron

High quality. Rubberoid finish hardwood handle. Furnished with both straight and screwdriver swivel tips, cord and plug. Operates from any 105-120-volt current. **We pay the postage.**

57R5601..... **$1.71**

Soldering Iron

Absolutely guaranteed to do the work of most irons selling at much higher prices. Guaranteed element construction. Will not overheat or burn out. Just plug into your light socket and in two minutes it is ready for use. Satisfaction guaranteed, and a big saving at our low price. For regular 105-120-volt current. **We pay the postage.**

57R5600..... **91c**

Rosin Core Radio Solder

Endorsed by leading radio engineers as the most practical solder for radio or electrical use. Will not corrode. Coil approximately 8 feet long. For other solder see pages of Hardware and Plumbing Goods or refer to Index. **57R5606—We pay the postage**..... **17c**

High Quality Phonograph Needs—LOW PRICED

Get 25% Better Tone From Your Old Phonograph With the Improved Tone Arm and Reproducer

Especially Effective for Playing the New Electrically Recorded Records

Hear the astonishing realism and tone beauty of the new electrically recorded records with this new style tone arm and reproducer. Easily and quickly installed on your old phonograph. We do not claim that it will make a new improved type phonograph out of your old machine (as the large tone chamber which is tapered to the tone arm will be missing), but it will improve it at least 25 per cent and bring out to a greater degree the full round tones of the wonderful electrically recorded records. Ball bearing base. The tone arm is airtight and scientifically tapered. The reproducer has a metal diaphragm which is protected by a metal guard. Both are highly nickel plated and polished. Will fit practically any machine. **Please mention measurement between center of opening to turntable shaft.** **12R6166**—We pay postage.. **$4.98**

Reproducer Only

Although you will not obtain the same results with the reproducer alone, the improvement on your machine will be surprising. For those who do not wish to change their tone arm we list the reproducer alone below. To fit practically all machines but Edison, Brunswick and Columbia. **$2.49**

12R6167—We pay the postage..... **$2.49**
For Columbia machines. We pay the postage.
12R6168..... **$2.65**

$4.98 Postpaid

Features

1—Scientifically tapered
2—Metal diaphragm
3—Ball bearing base
4—Airtight
5—Fits any phonograph

Silvertone Standard Steel Needles

Extra Fine Quality
Perfect Points—Uniform Lengths
Non-Rust Finish

500 Needles Only **31c**

Good needles mean better music from your phonograph and longer life for your records. You must have good needles to get perfect reproduction, and to give long life to your records. Our Silvertone needles are made of the finest steel obtainable and are highly plated and polished and accurately pointed. They run uniform in length and thickness. Strictly highest quality and not to be confused with many cheap needles on the market. We pay the postage.

12R6130—Soft Tone. Per 200 needles..... **13c**
12R6131—Medium Tone. Per 200 needles..... **13c**
12R6132—Loud Tone. Per 500 needles..... **31c**
12R6133—Extra Loud Tone. Per 500 needles..... **31c**

Unitone Steel Needles

500 Needles for **19c**

For those who desire inexpensive needles the Unitone brand will prove to be the equal to the best grades sold by many others, but we recommend, for the difference in price, the Silvertone needles listed above, which are equal to the highest grade needles on the market. We pay the postage.

12R6137—Soft tone. Per package of 200..... **8c**
12R6134—Medium tone. Per package of 200..... **8c**
12R6135—Loud tone. Per package of 500..... **19c**
12R6136—Extra loud tone. Per package of 500..... **19c**

Silvertone Record Album

12 Pockets

Each album contains twelve numbered pockets made of strong grade fiber. Inside cover has blank index. Well bound in dark red cloth with binder board back. We pay the postage.

An especially prepared graphite paste for mainspring lubrication. For a three-spring motor two cans are needed. We pay the postage.
12R6123..... **22c**

Make Your Own Records at Home

Preserve Your Children's Voices

The Famous "Talk Back" Recording Machine

Have the pleasure of hearing your own voice and your own playing upon different instruments on a phonograph record that can be played immediately after it is recorded. Perhaps you have talented children that you would like to record on a record for your enjoyment in your later days. It can be done now in a few minutes in your own home, as there is nothing complicated about this machine. These will not be as loud as an ordinary record, but loud enough for the purpose of hearing your own voice. Not practical for string or other instruments that cannot be played directly into the horn. Attached to any phonograph without marking or disturbing the machine in any way. Set consists of horn, recording tool, reproducer for playing back the record, special needle for electric pick-up machines and three 8-inch double face blank records. Extra records listed below. We pay the postage.

12R6150—Complete outfit..... **$6.59**
Records only. Sold in boxes of three. We pay the postage.
12R6151—Box of 3..... **83c**

Motor Bearing Oil

This is a light bodied mineral oil. It is especially adapted to the close fitted bearings of phonograph motors. We pay the postage.
12R6155..... **16c**

Gear Lubricant

For worm and spur gears of phonograph motors. All gears, and especially the worm gear of the governor, should be thoroughly coated with this lubricant every three or four months. We pay the postage.
12R6124..... **19c**

Mainsprings

Marine End

Rectangular End

Mainsprings connect with the spring barrels in different ways. Most have "Marine" ends; some have "Rectangular" ends; some have two different type ends on the same spring. Illustrations show various kinds. **In ordering read closely the descriptions and then consult these drawings.** Order lubricant when you order the spring. See Silvertone Mainspring Lubricant at left.

Governor Springs

Governor Spring (With Weight)

In replacing a broken governor spring it is necessary that the new spring be exactly like the old one in length, thickness and weight of ball. If these instructions are not followed, the motor will not run quietly and true. Therefore, we list governor springs only in sets of three, weights attached. We pay the postage.

Conqueror RECORDS

Double Faced Electrically Recorded

3 for 89c

We pay the postage — *We pay the postage*

Biggest Value in America

The best records ever offered at this low price. They are all 10-inch double faced, and electrically recorded by prominent orchestras and stage stars. Favorite hits on both sides. To our knowledge, a record of equal quality has never been sold for less than 50c. For those who want the best, and which ordinarily sell at 75c, we recommend the new, improved super electrically recorded "Supertone" records listed on the following pages. **Please order by catalog number and record number. We pay the postage.**

12R6401—3 Conqueror records for..... **89c**

SUPERTONE ELECTRICALLY

The New Way

We have tried to convey to you by the picture at the right the benefits of the new way of recording records. Note the number of instruments used in the orchestra and how no one instrument predominates. Today there is no limit to the number of instruments or voices that can be recorded. If you play a SUPERTONE INSTRUMENTAL RECORD, take particular note of the true low tones of the bass instruments (which were lost in the old type of recording), as well as the high tones of the clarinet and flute. SUPERTONE RECORDS ARE ALL "LICENSED R. C. A. PHOTOTONE RECORDINGS."

The New Way - Clear-Distinct

12R6501—Order by catalog number 12R6501 and give selection number of each record. All are 10-inch double faced records. We pay the postage. Each **43c**

RECORDS RECORDED Improved

WE PAY the POSTAGE

The **Old Way** *~Muffled-Indistinct*

The Old Way
Some idea of the old way of recording is given by the picture at the left. This method always limits the instruments to ten or less and it was very unusual to record more than four voices. On instrumental numbers the cornet and trombone stood out, and the stringed and softer tone instruments were lost. None of the instruments had the true tone as in present Supertone recordings. SUPERTONE Records are recorded under a "R. C. A. PHOTOTONE RECORDING LICENSE" and made by a manufacturer of a well known 75c record. We recommend them as equal to any on the market.

43¢ We Pay Postage

12R6501—Order by catalog number 12R6501 and give selection number of each record. All are 10-inch double faced records. We pay the postage. Each..... **43c**

Phonograph and Radio Combined in One Cabinet

Open View *showing beautiful grille, phonograph, radio and four record albums.*

$135.00 CASH
With Spring Wound Motor
No Accessories

Play what your mood dictates, at a moment's notice, either radio or phonograph! When closed this model is a piece of furniture of unusual charm and distinction. Raise the lid and you have a phonograph; open the doors and the wonderful 6-Tube All Electric Silvertone Radio is ready to entertain you. It is the perfected musical instrument, now offered for the first time. It combines the inventive genius of radio engineers, phonograph experts and master cabinet craftsmen. In price it is a revelation in savings, for no other dealer combines at anywhere near this low price such quality construction, such extra fine appearance and such ideal performance as is found in this outfit. It will please you, it will astound you, it will always be a reminder of the great bargains offered by the World's Largest Store.

Equipped With Silvertone 6-Tube All Electric Radio

(7 Tubes With Rectifier)

The 6-Tube Silvertone Radio housed in this cabinet is one of the finest performing radios on the market today. Takes its power directly from any light socket. It is remarkably easy to tune (single dial control), is very selective in separating neighboring stations and brings in all the volume that you may desire. Combined with the magnetic type loud speaker (built right into cabinet) it brings in what's on the air with a marked degree of purity in tone. Phonograph may be had with either a spring wound or electric motor—both silent, powerful and dependable. A specially designed acoustical horn is built into cabinet to reproduce what's on the record, with remarkable fidelity to the original.

Space is provided in the cabinet for four record albums. Price includes the four decorated albums, five Silvertone records (our selection) and steel needles.

Size of cabinet: 47 inches high, 23 inches wide, 18 inches deep. Furnished in genuine walnut veneer only. Shipping weight, 265 pounds. **Shipped from factory in SOUTHERN INDIANA, not prepaid.**

Silvertone 6-Tube A. C. All Electric Radio (7 Tubes With Rectifier)
When you buy this outfit you are getting one of the finest A. C. All Electric Radio Sets on the market today. NO BATTERIES, NO acids, NO water—just light socket power. The ideal radio for easy operation, volume, selectivity and distance.

Radio and Electric Phonograph Combination

Plays Records Through Radio Set

Never before has such an ideal combination of phonograph and radio (both electrically operated) been sold at this astoundingly low price. The beautiful cabinet contains the new Silvertone 7-tube A. C. all-electric radio (8 tubes with rectifier) plus the new Silvertone electric pickup which enables you to play and amplify records through the radio. No batteries, no acids, no winding of phonograph. Just plug into any light socket. Change from radio to record at the flip of a switch without removing a tube, or disconnecting any part of radio or pickup.

$183.00 CASH
Complete Less Tubes and Antennae

Radio Has the Newest Improvements

The Silvertone Radio in this cabinet is a powerful receiver, noted for its sensitivity, selectivity and distance getting ability. It incorporates all the latest improvements known to radio. It is simple to operate and in every way is one of the finest receivers on the market. This remarkable receiver (model 33) is described in detail on Page 709 of this catalog.

Turntable is located in upper part of cabinet to permit of easy access for changing records. When radio is in use, phonograph is completely hidden from view. The electric phonograph motor is quiet, smooth and powerful in operation and absolutely dependable. Never needs winding! Operates from 110-volt 60-cycle A. C. house current.

Magnetic or Dynamic Speaker

The built-in magnetic type speaker is scientifically designed to give the best results for reproduction of radio or records. A dynamic type speaker of super sensitive qualities and capable of tremendous power will be installed for the small extra charge of $15.00.

The cabinet itself is a work of art. Made of genuine walnut veneers, with a satin-like finish that is beautiful to behold. Access is gained to record compartment (conveniently located near turntable) by raising the top of cabinet. Price includes five records (our selection) and assortment of needles. Size of cabinet: 49 inches high, 28 inches wide and 18 inches deep. Shpg. wt., 190 lbs. **Shipped from factory in SOUTHERN INDIANA, not prepaid.**

EVERYTHING You Want in Music WHEN You Want It-HOW You Want It With the Silvertone TRUPHONIC Phonograph

And These Exclusive Truphonic Features

1. **Truphonic Tone Chamber**—Each model has a long air-tight tone chamber or air column, extending from reproducer to the grille opening. Acoustic engineers have so tapered each tone chamber to accommodate the greatest possible amount of tone development for the cabinet in which it is used.
2. **Truphonic Reproducer**—Highly sensitive. It picks up rom the record all the delicate overtones and undertones.
3. **Truphonic Tone Arm**—Especially designed to be used with the Truphonic tone chamber and Truphonic reproducer.
4. **Specially Designed Cabinets** — Each model an individuall creation; living examples of the cabinetmakers' art.
5. **Fine Finishes and Decorative Treatments**—The use of choice woods, beautifully finished make Truphonic models exceptionally attractive. Two tone and high lighted effects with contrasting overlays give them a rich appearance attained only in Truphonic phonographs.

GREAT strides have been made and important improvements in the reproduction of voice and instrument incorporated in the modern phonograph. And of all the improvements it has been demonstrated in many tests that none can surpass that of the Silvertone Truphonic principle of sound reproduction. It makes obsolete all former developments; it brings a new conception of tone perfection. The marvelous reproducing device now incorporated in the Truphonic has become one of the greatest achievements known to the phonograph industry. By means of the exclusive Truphonic Features, all the delicate tones, high or low, are reproduced with a purity, a reality, a faithfulness, as natural and realistic as the original itself.

Demand Truphonic Quality at Truphonic Prices

Thousands of music lovers have realized their fondest hopes of listening to perfect reproduction by securing a Silvertone Truphonic. Its tone has been judged the equal of any phonograph regardless of price. Our files contain hundreds of letters of enhusiastic praise for the Truphonic. These letterst all emphasize the amazing achievement of tone reproduction which Truphonic has accomplished. Such popularity must be merited. Such quality leadership must be founded on performance. When you listen to the Silvertone Truphonic you have a feeling that you are listening to the voice of the artist who sings or the musical instrument or orchestra unfolding its melodious strains right in the room. No matter which model you choose, you get the full benefit of Truphonic tone perfection. But remember, just as in any other merchandise, the higher priced instrument is made of higher priced materials such as high grade veneers, fine decorations and carvings. But whether you select the lowest or highest priced instrument, we guarantee that it will give you more satisfaction and a greater saving than any phonograph sold at anywhere near our low prices.

30-Day Trial - Easy Terms

So thoroughly positive are we that you will declare Truphonic the finest toned instrument you ever heard that we offer a special 30-day trial on any model you may choose. Just send the first small payment and we will ship you the model you desire. See it, play it, hear it in your own home. If after 30 days you are not satisfied in every way that it offers a greater value, both in performance and savings than any other phonograph, you may send it back and we will return every cent you paid, including all transportation costs. Our easy payment plan, a small amount down, a little each month, enables every home to have one of these marvelous phonographs. Send for one and prove to yourself that the Silvertone Truphonic is the most remarkable phonograph you ever heard.

New Consolette Design

The best consolette that we have ever offered. Those who have seen this model pronounce it one of the most singular and distinguished models obtainable. It takes its decorative motif from a French period design. Its figured and well matched veneers have a satin-like finish that is tastefully balanced by the high lighted two-tone effect above the gorgeous doors. The draped pattern in the center and the delicate carvings on either side lend added gracefulness.

Besides bringing you a highly desirable piece of furniture, it fulfills your every desire for fine music, irresistible in its reproduction. The extra long Truphonic tone chamber develops the full value of voice, solo instrument or large orchestra. Equipped with powerful silent running double spring Silvertone motor. Metal parts nickel plated. Price includes five double faced records (our selection) and an assortment of steel needles. Cabinet measures 37 inches high, 20 inches long and 20 inches deep. **Shipped from our store only, not prepaid.** Shipping weight, 120 pounds.

The Music You Never Tire Of On Your TRUPHONIC

MODEL 41
$4.00 A MONTH

Favorite Low Priced Model

Because we keep our cabinet craftsmen busy the year round and contract for orders in tremendous quantities we are able to present this unbeatable bargain. It is a design that we have found through experience is in great demand. In this cabinet (just as in all our models) we have maintained our high standards of construction, but have lowered the price to a figure almost unbelievable in its great savings.

A Genuine Truphonic

All the Truphonic features found in our highest priced models are built into this cabinet—the marvelous toned Truphonic air column, the highly sensitive Silvertone reproducer and the durable, silent running Silvertone motor. Around these improved mechanical parts we have built a cabinet of beautiful finish in genuine mahogany, walnut or fumed oak veneer.

Easy Terms—30-Days' Trial

Make only the small down payment and try this model in your home for thirty days. Then if you are not fully satisfied send it back and we will return all you have paid, including transportation charges. You will be surprised at the fidelity with which it reproduces all graduations of tones—both low and high.

All metal parts are nickel plated. Has 12-inch turntable. Cabinet is ideally proportioned: 41 inches high, 18 inches wide, 19 inches deep. Price includes five 10-inch records (our selection) and an assortment of steel needles. **Shipped from our store only.** Shipping weight, 90 pounds. **Shipped by freight or express only, not prepaid.**

$4.00 A MONTH

Beautifully Finished Console

Perfect Truphonic and Low in Price

Luxurious in appearance, but a bargain in price! Made for furniture lovers and music lovers, with as much care as though it were the only model we were selling. We have enriched this model with a front of genuine mahogany veneer. Nothing has been sacrificed to make this cabinet as pleasing in appearance as it is excellent in performance. Neat carvings and contrasting two-tone effects are attractively used.

Make Your Own Test of Truphonic Reproduction

Truphonic richness of tone is obtained with the large air column speaker—sweet resonance that makes you feel that the soloist or orchestra is present in the room. Make your own test in your home. Try Model 33 for 30 days. Play it, see it, hear it—then be your own judge, uninfluenced by anyone. If you are not fully satisfied that the cabinet represents the greatest value you ever saw and that the Truphonic is the most remarkable reproduction principle ever invented, then send it back and we will return all you have paid, including transportation charges. We make this offer in all sincerity and urge you to accept it. This console is 32 inches high, 32 inches long, 18½ inches deep. Has double spring motor and nickel plated fittings. 12-inch turntable. Five Silvertone records (our selection) and needle assortment included. **Shipped from PHILADELPHIA, BOSTON or GREENSBORO, N. C. Send your order to our nearest store. FAVORITE VOICES *of the* PAST
Are Ever Present
WITH THE TRUPHONIC

Build Your Library of Fine Music and Enjoy It on Your Phonograph

A Leader Among Fine Phonographs

Your eye will judge this model as one of the finest consoles you ever saw; your ear will recognize in its tone a new degree of musical perfection. The more you know of the value of luxurious looking furniture and the more you appreciate good music, perfect in its reproduction, the more you will marvel at the completeness of this leader in the realm of finer phonographs. It possesses every true quality and essential of leadership: dignity and symmetry of design, gracefulness and a decorative scheme denoting individuality, and finely executed Truphonic reproduction.

Our Finest Console

It is our finest cabinet in a console model, one which we recommend most highly to those who want the best. And still, the price is far below what others charge for phonographs much inferior in appearance, proportion and tone. From neatly turned legs to the arched two-tone panels over the doors, it presents a symmetrical ensemble that is worthy of being placed in a room outfitted with the most luxurious furniture that money can buy. Friends will pay it high compliments; you will be proud of it. The workmanship, in both the parts you see and the hidden features, is of the very highest quality.

Perfect Entertainment—That's Truphonic

With this ideal Truphonic in your home you can look forward to many happy hours of entertainment, hours filled with raptures of joy that come from hearing your favorite operas, orchestras, vocalists and instrumentalists sing and play for you as though they were right beside you in the room. Besides the low price, we offer this beautiful model on our easy payment plan and will send it to your home for a 30-day trial if you so choose. It is made of genuine figured mahogany or walnut veneer. It has a generous size record album compartment (space for about 7 large albums) and is equipped with the famous double spring Silvertone precision motor. All metal parts, including the 12-inch turntable, are nickel plated.

Electric Motor if Desired

This same model with all the Truphonic construction features and using the same principle of sound reproduction may be had with an electric motor. With this ideal arrangement you need never bother to wind your Truphonic. Just plug the cord into any wall socket and your Truphonic will always be ready to play the instant you release the switch.

A Constant Source of Pleasure to Behold and Hear

Begin now to enjoy phonographic reproduction as you never have before. It is in your power to do so and the medium is this marvelous Silvertone Truphonic. It affords such large measures of musical satisfaction that mere words are barely sufficient to describe the astounding perfection it has attained. A trial will convince you of its superiority over any phonograph ever offered, and we want you to reap the advantages that took more than a score of acoustic engineers many years to discover.

You Are Enthralled by Truphonic

Your satisfaction is our ambition, for we know that when you become fully acquainted with the extraordinary beauty of this well designed and accurately proportioned console, you will want to tell your friends about the big bargains offered in Silvertone Truphonics. You can readily imagine the rich appearance of this console in your home and the great musical satisfaction it will bring to every member of your family. Flexible enough in appearance, shape and decoration to match well with the other furniture in your home and so completely revolutionary in the use of a new principle of sound reproduction that it will remain a constant reminder of the high quality and low prices available only at the World's Largest Store.

A Bargain—A Beauty—A Genuine Truphonic

Not too severe in outline, yet enough of the touch of the modern and sufficient application of two-tone effect to meet with everybody's approval. The finish is a handsomely grained and rubbed genuine mahogany or walnut veneer, delicately highlighted. Equipped with powerful double spring Silvertone motor and 12-inch turntable. All metal parts brightly nickel plated. For only a small monthly payment of **$4.00** you may enjoy all the happiness and satisfaction this console will bring. Measures 32 inches wide, 32 inches high and 20 inches deep. Price includes five double faced records (our selection) and steel needle assortment. **Shipped from our store. SELECT *the* MUSIC YOU LIKE BEST *and Play It on Your* TRUPHONIC

This Silvertone Phonograph in Your Home Will Be a Joy Forever

To see this model is to proclaim it one of the most beautiful you have ever known; to hear it is to gain a new conception of the wonders in reproduction of voice and music that only Truphonic can give. Before this model was constructed, designers and engineers discussed and considered all available data on acoustic properties and planned, built and rejected dozens of cabinets. Finally, phonograph experts and cabinet craftsmen constructed this model, and it was proclaimed the ideal instrument—both in design and performance.

Will Match Any Style Furniture

In design it is so well balanced that furniture experts have declared it one of the best suited for use with practically any style of furniture in the home. Wherever you place it, you may be assured it will be entirely in harmony with its surroundings. The two-tone effects and attractive decoration give it an artistic value that cannot be praised too highly. It is made of selected genuine mahogany or walnut veneers.

The proportions of this cabinet met with the whole hearted approval of expert acoustic engineers. They found that an especially long air column could be used, thus allowing full development of the Truphonic principle of sound reproduction. This long, airtight tone chamber, made of special resonant materials, combined with the Silvertone reproducer and tone arm, brings out the most delicate tone shadings of voice or instrument.

Truphonic Makes Every Tone Shading Clear, Vibrant

From the soothing melodies of a cradle song to the echoing boom of the symphony, every graduation of tone is heard on Truphonic. With this marvelous reproduction nothing is lost, nothing is added—just wonderful musical perfection as though the entertainers were actually sitting where your phonograph is located. Decide today that here is the Truphonic model you want—you need not hesitate in ordering. Our attractive, easy payment plan is yours to accept. On receiving your first payment we will send you the Truphonic. You may play it and hear it in your own home. If after 30 days you are not fully convinced that it is the greatest value you ever saw, you may send it back and we will return every cent you have paid.

Available With Electric Motor

You may secure this same cabinet, with all the Truphonic features plus the addition of an electric motor that will eliminate hand winding and your phonograph will always be ready to play the instant you release the switch. The cord and plug from the motor fits into any light socket in your home. Size of cabinet, 46 inches high, 26½ inches wide and 20½ inches deep. Price includes five double faced records (our selection) and assortment of steel needles. **Shipped from our store by freight or express, not prepaid.** Shipping weight, 140 pounds.

For Those Who Want the Finest to Bring Priceless Hours of Perfect Entertainment

Our masterpiece! Incomparable! The very finest model in our large selection of Silvertone Truphonic cabinets. This magnificent De Luxe model is the most beautiful cabinet we have ever offered. It is the perfect ensemble—perfect in design, materials, workmanship and finish. If you could actually see this phonograph you would not look at any other for its charming beauty would immediately win your entire favor. We unreservedly recommend it to every discriminating lover of fine furniture. Nothing so exquisite has ever been offered at our attractively low price. That this high-boy model is destined to be the leader of all Truphonics is borne out by the enthusiastic and unanimous praise of every person who has seen it.

A Richness Befitting the Finest Home

Nothing to equal it has ever been offered to our customers before. At no time in our long history of phonograph supremacy have we presented a model that possessed in such superlative degree all the distinction of size and beautifully decorated panels as in this triumphantly individual instrument. Its two large doors are paneled with woods of a soft, satin-like richness, perfectly matched and highly polished to show off the wonderful graining of the genuine mahogany and walnut veneers. On each side of the large doors is a record compartment, hidden by a narrow hinged panel, embellished with decorative knobs. We include four attractively decorated record albums. The delicate carvings that decorate the front add the final touch of irresistible charm.

Truphonic at Its Very Best

This masterpiece houses the perfected Truphonic principle of sound reproduction, which so fascinates you that you are held spellbound and speechless in amazement. Glorious tones pour forth with a fidelity matched only by the original.

Open view. Space for two record albums on either side of the well designed grille. Record albums included.

Equipped with the super sensitive Truphonic reproducer, a silent running and powerful triple spring Silvertone precision motor and 12-inch turntable. The tone arm, reproducer and all other metal parts are heavily nickel plated. No matter, how much more you paid, you couldn't buy any phonograph finer than this Silvertone Truphonic. Buy it on easy terms, a little down, a little each month and take advantage of our bona fide 30-day trial offer. Furnished with sturdy electric motor if desired. No effort, no worry! The Improved Super De Luxe Portable

Superior in Value, Tone and Appearance

Only **$21.45** Cash

$5.00 DOWN
$5.00 A MONTH

Tone Equal to Many Floor Models

The Super De Luxe is the equal of any portable phonograph ever made regardless of price! We have improved it, refined it in appearance, added new features and, best of all, we've reduced the price. Now it is vastly superior in tone, in quality, in appearance and durability. It's the super value of all portables. The greatest and most outstanding feature of the Super De Luxe is its powerful, vibrant pure tone. The scientifically constructed airtight sound chamber is over three feet long and reproduces voice or instrument with volume as strong as many high priced floor models.

Silvertone Motor and Truphonic Reproducer

Another super feature is its long playing, highly perfected motor—a genuine Silvertone motor—absolutely the best that has ever been built into a portable, regardless of name, style or price. With one full winding it plays three 10-inch records. To make this portable the most positive and outstanding value ever achieved we have equipped the De Luxe with a Truphonic reproducer and a new especially constructed tone arm of solid brass. Tone chamber, reproducer and tone arm combined give it a much greater tone development than any ordinary portable.

Every Part Made to Stand Hard Usage

It is the lifetime instrument—sturdily built to endure every hardship of rough usage indoors and outdoors the whole year through. Where other portables are nailed together, the De Luxe corners are dovetailed to withstand every kind of knock, jar or shock. Locks, handles and hinges are riveted to the solidly built box. Two strong handles make it easy and doubly safe to carry. Fitted with strong lock with keys. All exterior hardware is solid brass with harmonizing finish. It won't rust, it won't come loose. Case covered with durable, genuine Du Pont Fabrikoid in dark rich Spanish Blue or Red. **State choice.** Top and bottom thickly padded to prevent injury and to give it a specially attractive appearance. Fabrikoid is handsomely grained and beautifully embossed. Large turntable covered with velveteen. Plays 10 and 12-inch records. Large, convenient record container for 15 records. Holds them snug and tight. Needle cup has spring cover to prevent needles from falling out.

Electric Motor if Wanted

This same Super De Luxe portable is available with a sturdy electric motor with automatic stop and switch. Attach the cord to any electric light socket and the phonograph is ready to play anytime and all the time. Eliminates all hand winding. Will operate on 110-volt A. C. current only. Price includes three records (our selection) and assortment of steel needles. Size with spring motor, 16½x14x7¼ inches; with electric motor, 17½x15x8¾ inches. **Shipped from our store. We pay the postage.**

46R4910—With Hand Wound Motor. Choice of Red or Blue covering. **State choice.**

MODEL 287

We introduced the famous Beckwith piano in the popular Baby Grand style six months ago. It was an instant and overwhelming success. It proved that a high quality Baby Grand can be sold for less than five or six hundred dollars. It proved that it is not necessary to pay for the average piano dealer's extravagant expenses. It proved that salesmen's commissions, trade-in allowances, wholesalers' profits and high advertising costs can be eliminated, and the customer benefit by the great savings. It proved that Sears, Roebuck and Co. have completely eliminated the old fashioned and wasteful methods of merchandising pianos.

When you deal direct with the World's Largest Store you receive a dollar's worth of real quality and real value for every dollar expended. Take this short cut to huge savings. We are so sure that you will be delighted with this fine piano that we will gladly give you a 30 days' trial in your own home. Submit it to every test of a piano costing twice as much. Its distinctive beauty, its clear sparkling tones, its famous Thayer action, all make this Beckwith Grand a piano that you will be proud to own and we guarantee it to thoroughly satisfy the most discriminating musician. Made in the popular apartment size only, it requires but little room, and easily fits into either a small living or drawing room.

The Thayer piano action used in the Beckwith Grand is known throughout the musical world for its lightness of touch and its rapidity of repetition. The scale embodied is scientifically correct, and the specially designed soundboard is responsive to every note, as true as a fine old violin. Examine these high quality features in your own home and you will then know why the Beckwith Grand is the marvelous instrument we claim it to be. Choice of either mahogany or walnut veneer. Size, 5 ft. Shipping weight, 900 pounds. **Shipped from factory in IOWA, by freight only, not prepaid.**

Beckwith Features

Beckwith Scale

High grade materials used throughout, combined with sturdy construction, produces a lasting tone quality that cannot be excelled. Only selected mountain spruce is used in the sounding boards.

Full length metal plate provides ample strength for the string tension. The pin block is made of several layers of rock maple, which prevents the pins from slipping and insures perfect tune for the maximum length of time.

A well constructed, substantial back. A very important feature, as the back is really the support for the entire instrument. Note the sturdy post construction. This feature is your assurance that the Beckwith piano will stand up day after day and give satisfactory service.

The key action is the best obtainable. Standard weight hammers made of long fiber felt are required to produce the best tone. All center pins are bushed with felt giving a noiseless and easy action. Keys are properly balanced and regulated, resulting in a responsive action capable of fast repetition.

Our beautiful new Special Piano Catalog will be sent to you FREE

Send for your copy. It gives complete descriptions, illustrations, and prices of our large selection of Beckwith Pianos. Every size piano is represented, from the upright Concert Grand to the midget that stands only 3 feet 8 inches high. Send for your copy of this New Catalog 561R and make your selection from the many beautiful models shown.

Don't deprive yourself of the lasting joy and satisfaction a Beckwith Piano will bring you merely because you haven't the ready cash to buy it outright. We have made it easy for you to enjoy it now and pay for it in easy payments.

30 DAYS' TRIAL

We want you to try one of these all-quality Beckwiths in your own home. Keep it for 30 days! Compare it in quality, in beauty, in performance and construction with other pianos selling at much higher prices. Admire its beauty, thrill to its clear sparkling tone! Thoroughly convince yourself that it is a matchless value. If at the end of the 30-day trial you are not convinced it is the piano you wish, we will return your deposit with all transportation charges you have paid. Our reputation of 33 years of honest dealing with our more than 12,000,000 customers is your assurance of complete satisfaction.

Guarantee Certificate

We Guarantee that every Beckwith Piano and Player Piano will give entire satisfaction and that it represents full value for the price you pay.

We Guarantee every Beckwith instrument for a period of twenty-five years against defects in material or construction. Should any piece or part prove defective in any way during this period, we agree to repair the instrument, or if necessary, replace it with a new one entirely at our expense.

SEARS, ROEBUCK AND CO.

Piano Benches

Re-Creations of the Two Most Famous Violins

The "King Joseph Guarnerius"
The "Earl Stradivarius"

The originals are probably the highest priced and most talked of instruments in the world and command fabulous sums. Mr. Hermann Geipel of Markneukirchen, Germany, has reproduced them for us exclusively and his own signature appears on every violin. Because of Mr. Geipel's success in duplicating the measurements and texture of the wood used, there is an astonishing similarity in tone qualities and appearance. The King Joseph copy has a strong virile tone, satisfying to the most exacting artist. The Earl Stradivarius copy is somewhat more mellow in tone, yet has considerable carrying power. Fitted with finest quality ebony fingerboard, tailpiece and pegs, inlaid with solid gold. Beautifully figured maple back, sides and neck, and the very choicest narrow grained spruce for the top. Scroll is genuinely grafted to neck. Bow is very highest grade, made of resilient pernambuco wood, finished antique style to match violins. Fine quality ebony frog, mounted with sterling silver. "Durabilt" case covered with genuine heavy walrus leather, lined with silk plush. **We pay the postage.**

12R198¼—Copy of Guarnerius. Easy payment price, $15.00 down, $11.00 per month. **$98.00**

12R199¼—Copy of Stradivarius. Easy payment price, $15.00 down, $11.00 per month. **$98.00**

A Super Supertone Tenor Banjo

Full and satisfying tone quality found only in the highest priced banjos. Professionals are proud to perform on this instrument. Heavy 11-inch non-warping shell of segment construction, veneered with selected walnut, 13¾ inch convex walnut resonator, back covered with beautiful pearl amerith (perfect imitation of mother of pearl) and engraved in both floral and conventional designs. Mellotone flange on the resonator is inlaid with black and white celluloid. Striped and bound with pearl amerith. Five-piece walnut neck of new design, with carving on heel and back of scroll. Genuine ebony fingerboard inlaid with a floral design in genuine mother of pearl and bound with ivory celluloid set off by black and white celluloid inlay. Scroll covered with pearl amerith and engraved. Heavy silver plated "U" grooved straining hoop in hand hammered effect. Nickel plated and engraved armrest. Extension tailpiece with sleeve protector and adjustable tension screw. Genuine Joseph Rogers head laid over a beveled metal tone ring. Professional shoulder brackets. Fitted side opening case of heavy fabrikoid lined with silk plush and fitted with nickel plated lock and clasps. **We pay the postage.**

12R575¼—Easy payment price $12.00 down and $8.00 per month. **$75.00**

12 LESSONS AT A SPECIAL OFFER
With Musical Instruments

LEARN TO PLAY IN YOUR OWN HOME
NO PERSONAL TEACHER NECESSARY

In order that you may have the opportunity to study music in your own home we have arranged to have the renowned National Academy of Music give you twelve lessons at the special low price of 50c. On musical instruments purchased from our catalog we will issue to you a Scholarship Certificate which entitles the holder to a course of 12 lessons, at this Special Low Price.

Thousands have taken this short, easy way to social and financial success through the amazingly interesting methods of this great school—young folks in all walks of life, busy housekeepers and mothers, business and professional men and women—all have found in these wonderful courses not only social popularity and success, but also the satisfaction and pleasure that the possession of musical accomplishment will always bring. An hour or even a half-hour daily with the master teachers of the National Academy of Music, right in your own home, will quickly develop your musical talent and open many doors that are now perhaps closed to you.

You will be surprised and delighted with the rapid progress you will make. You will be amazed that music may be made so interesting and easy. Almost before you know it you will be playing interesting and delightful selections, and as you study and master each lesson your ability will grow until in a short time your friends will look upon you as a real musician, and marvel at your progress. Everything in the National Academy Courses is clearly and interestingly explained—nothing is left to doubt. When you complete a National Academy lesson and have received your written examination back from your instructor, you know you have mastered another point and features of that lesson.

These lessons are furnished with the following instruments: Violin, Mandolin (Mandolin Banjo), Guitar (regular and Hawaiian), 5-String Banjo, Tenor Banjo and Plectrum Banjo, Cornet, Trumpet, Alto (Mellophone) and Baritone. We include the Scholarship Certificate for the twelve lessons with the instruments you buy. Then you simply send the Certificate together with the 50c direct to the National Academy of Music. They will immediately send you the lessons with examination papers and all necessary material. Don't delay! We urge you to take advantage of this wonderful opportunity at once.

Hermann Geipel Master Made Violins

Made by the Stradivarius of modern times, Hermann Geipel of Markneukirchen, Germany, whose signature appears on the label. His photograph is reproduced here. These violins will undoubtedly increase in value because of faultless construction and beautiful tone. It will be a profit and pleasure to own one.

$50.00 We pay the postage

MASTER MADE
by Hermann Geipel

A violin made by Hermann Geipel assures you of the best in construction and the finest in tone quality that it is possible to get, at anywhere near our prices. This famous maker duplicates the old masters perfectly, not only in appearance, but in similarity of tone quality. Richness, power and depth of tone marks a Hermann Geipel violin as a Masterpiece. Choice, old garret seasoned maple, beautifully figured, combined with selected spruce used in their construction. Finest quality ebony fingerboard, tailpiece and pegs. Color illustrations sent on request. See "Note" below. **We pay the postage.**

12R145¼—Stradivarius model, perfectly copied, showing marks of age and wear. Reddish gold color shaded to natural where marks of age appear. **$38.90**

12R146¼—Stradivarius model, new finish in light golden color..... **$38.90**

MASTER MADE
by Hermann Geipel

These violins are so perfect, and follow the originals so faithfully that it is extremely difficult to improve on them, either in appearance or in beautiful tone quality. Nationally known violinists compare these instruments favorably with the famous old violins over 200 years old. Their fine mellow tone has that penetrative quality which soloists and orchestra players seek, and which is usually found only in violins that have been played for years and sell for many times over our low prices. Beautifully figured maple for the backs and sides and choice old spruce for the tops. **Color illustrations sent on request. We pay the postage.**

12R148¼—Stradivarius model, two-piece back, orange color, in new finish. Each..... **$50.00**

12R149¼—Beautiful and faithful reproduction of a famous Stradivarius, two-piece back golden in color. Marks of age as natural as though the instruments were 200 years old..... **$50.00**

WE PAY POSTAGE

Three Exceptional Values

Accurately Proportioned and Carefully Made

These splendid models are a delight at our low price. Others ask $30.00 or more for this same quality. Beauty of tone and pleasing appearance combine to make them an outstanding value. Back and sides are made of carefully selected maple, seasoned spruce top. Fine ebony fingerboard, tailpiece and pegs. Excellent quality spirit varnish. Color illustrations sent free on request. **We pay the postage.**

12R175¼—Stradivarius model, fine imitation of old. Two-piece back... **$19.95**

12R185¼—Amati model, one-piece back. Scroll hand carved on back and sides. Fluted tailpiece and pegs. Reddish color shaded to natural.... **19.95**

12R195¼—Stradivarius model, rich reddish color. Two-piece back..... **19.95**

NOTE We will furnish on request illustrations showing actual color and shading of any violin on this page. Simply say "Send me color plate of violin No....." and mention catalog number of violin.

Scientifically Constructed for Tone and Quality

Here are a group of fine violins all patterned after the identical measurements of the old masters. Beautiful in appearance, pleasing in tone and so carefully made that they will last indefinitely. Fine figured maple and seasoned spruce used in their construction. Two-piece backs. Extra quality ebony fingerboard, tailpiece and pegs. Color illustrations sent free on request. **We pay the postage.**

12R153¼—Casper Da Salo model with fancy double purfling. Scroll carved on back and sides. Reddish gold in color..... **$24.95**

12R163¼—Stradivarius model in a fine copy of the old master even to the marks of age..... **24.95**

12R173¼—Stradivarius model in a rich brown color..... **24.95**

Tenor Guitar Listed at Left of Page.

The Pearlette

A Very Beautiful Instrument

Life—Color—Rhythm—Entertainment—Satisfaction! Here's an unusually beautiful and sweet toned guitar.

Entire body of fine mahogany with pearlette fingerboard, headpiece and guardplate. The top edge and soundhole are beautifully trimmed with cut wood block inlay in a pleasing combination of red, blue, green and mahogany. In addition, all edges are trimmed with white celluloid binding. The sparkling sheen of the pearlette sets off the rich dark brown finish of the instrument. Nickel plated patent heads with white buttons. Heavy ebonized pin bridge with bone saddle, and pearl eye bridge pins. Durable lacquer finish throughout. Two instruction books, three picks, a steel bar and adjustable nut for Hawaiian style of playing, included. A Big Value. Low Price. **We pay the postage.**
12R214¼..... **$12.98**

Tenor Guitar

12R215¼—Same as above but 4-string tenor guitar (played like a tenor banjo). Instruction book and pick included..... **$11.89**

The Handkraft

A Feature Value!

One of our very best guitars. A very fine mahogany instrument made with a maximum of skilled hand work to insure fine tone quality. Has the new aero bridge (patent pending) which strengthens the sounding board and further improves the tone quality. Back and sides of figured mahogany, sounding board of selected close grained spruce. Top and back edges and soundhole trimmed with heavy black and white striped celluloid. Stripe inlay on back. Genuine mahogany neck with rosewood veneer headpiece. Ebonized oval fingerboard trimmed with black and white celluloid, and attractively inlaid with fancy pearl position ornaments. Nickel plated patent heads with white buttons. Bone string nut and saddle. Hand rubbed lacquer finish. Concert. Two instruction books, three picks, a steel bar and adjustable nut for playing Hawaiian style included. **Postpaid.**

12R217¼
$14.98

Tone qualities effected in a guitar selling elsewhere for $25.00 to $30.00.

The Artist

Our Finest Guitar

We believe that this is as fine a guitar in tone and construction as it is possible to buy. Genuine pearl inlaid guitar of Hawaiian koa wood construction. Back and sides made of koa wood imported direct from the Hawaiian Islands. The selected close grained spruce top is beautifully inlaid with genuine mother-of-pearl around top edge and soundhole and is trimmed with white and tortoise shell celluloid. Stripe inlay on back. Neck of genuine mahogany with rosewood veneer headpiece inlaid with a pearl ornament. Heavy ebonized oval fingerboard trimmed with tortoise shell celluloid, and beautifully inlaid with pearl position ornaments. Nickel plated patent heads with ivoroid buttons. Bone string nut and saddle and bridge pins. This guitar is of the special handkraft construction, and is fitted with the aero bridge (patent pending) to insure excellent tone quality. Hand rubbed and polished finish. Two instruction books, three picks, a steel bar and adjustable nut for Hawaiian playing included.

Brass Instruments

Professionals' Supertone Instruments—American Models

Supertone instruments are built to stand the exacting requirements of professional musicians and are superb in tone and perfect in intonation. They are the most perfect instruments it is possible to make at anywhere near our amazingly low prices. If you are a member of a band or an orchestra, or if you are a soloist and want an instrument that will faithfully and faultlessly meet every demand made upon it, order a Supertone. Instruction book, music lyre and mouthpiece included with each instrument. All built in low pitch. See page 729 for lessons on trumpet and cornet.

Superior Features Usually Found Only on Higher Priced Instruments

Encased or box Valve Springs with star guides on cornets and trumpets. Reinforced beading on ends of slide tubings. Coil Spring Water Keys. Large diamond shape bracing shields with heavy braces, Nickel silver pistons, Slide lock and balancer on trombone. Heavy gauge brass of correct thickness for easy blowing.

Read What Harold Bachmann Says:

Sears, Roebuck and Co.

The first instrument I ever had was a Sears, Roebuck and Co. Cornet, and it was this instrument which started me on my career. After over twenty years of experience, both as a player and as a director of a professional band, I still believe that your Supertone instruments offer the best values for the money. Very truly yours,

HAROLD BACHMANN,
(Bachmann's Million Dollar Band.)

ACCORDIONS OF FINE TONE

For musical possibilities and volume of tone an Accordion is a small orchestra in itself, and is one of the easiest of all self accompanying instruments to learn. Many selections can be played after a short period of practice, and then come hours and hours of real entertainment. These accordions are far above all others of equal price in beauty of tone and durable construction. Learn to play the accordion and do it easily, quickly and more economically than you ever thought possible.

Features

1. Broad piano keys.
2. Long black keys.
3. Inlaid and decorated celluloid covered frame.
4. Deep cut cloth bound bellows.
5. Sunken bass keyboard.
6. Improved positive bass mechanism.

$35.95 12R664¼ Postpaid

Supertone Piano Key Accordion

For higher priced piano key Accordions on Easy Payment Plan see page 728.

Here is an instrument of high quality construction. Magnificent in appearance and superb in rich tone quality. Well balanced and easy to handle. White celluloid covered frame beautifully decorated in colors and set with flashy colored brilliants. Treble panel is of nickel plated metal in fancy design. Two sets (four reeds to each treble key) of genuine hand filed steel reeds mounted on individual aluminum plates and removable blocks. Easy playing keyboard with fifteen broad white keys and ten round end black keys. Twelve bass keys set in sunken keyboard. Deep bellows of sixteen folds bound with leatherette. Leather shoulder straps. As compact as is consistent with tone volume. Length of keyboard, about 13 inches. Oblong case of fiber in imitation leather with nickel plated lock and clasps. **We pay the postage.**

12R664¼ $35.95

Easy to Learn and Easy to Play

Only $8.25 Postpaid

There Must Be a Silver Lining
The Song Is Ended
Think of Me Thinking of You
Till We Meet Again
Tin Pan Parade
Together
Tomorrow
Tonight You Belong to Me
Too Busy
There's a Rainbow 'Round My Shoulder
What Are You Waiting For, Mary?
What Does It Matter?
When Summer Is Gone
When the Harvest Moon Is Shining
When the Right One Comes Along
When You're Smiling
Where the Shy Little Violets Grow
Who Wouldn't Be Blue
When I Tip Tip Toe Up a Tucky Lane
Will the Angels Play Their Harps for Me?
Will You Always Call Me Sweetheart
Withered Roses
Without You Sweetheart
Wreck of the Southern Old '97
Yesterday
You Only Want Me When You're Lonesome
You're More Like a Pal Than a Sweetheart
You're Wonderful
You're a Real Sweetheart
You Tell Me Your Dreams and I'll Tell You Mine.
You're in Love and I'm in Love

"The BRUSH Is the THING!"

It's the PART That DOES the WORK!

See how the bristles are scientifically placed on the roller in a spiral. That's so they'll do their job with absolute thoroughness and perfection. No matter what kind of surface—thick napped carpets, oriental rugs, hardwood floors or linoleum—each little bristle grips, brushes and sweeps up all the dirt, lint, strings, threads or crumbs. And such bristles! They are the finest quality that can be purchased—pure, genuine Chinese bristles. Full, thick and pliable, they make a sturdy long wearing brush. It's this wonderful brush that does the work as well as other sweepers selling for $5.00 and more.

The Improved KLEEN SWEEP CARPET SWEEPER

The velvet-like smoothness of this sweeper will keep you in a happy frame of mind over tasks that usually have been drudgery. It will speed through your work with the deft touch of the "perfect" housemaid. And it is really more reliable than a human being—you never have to check up on it—you know the "Kleen Sweep" always does its work right the first time. Everything about the "Kleen Sweep" indicates strength, durability and a long life of faithful service. The construction is very simple. Two large pans, one on either side of the brush, receive the dust and dirt as the long, pliable bristles sweep them up. These pans are made to operate separately to make the dumping of dirt more convenient. The rubber tires on the wheels are extra heavy and they glide smoothly and silently across the floor. Thick rubber bumpers protect your furniture. There is no harm in forgetting to oil the "Kleen Sweep," because it runs perfectly *without any lubrication at all.* The body is carefully and well constructed of hardwood with a highly polished mahogany finish. You never have to stoop over to pick up the handle if you happen to lose your grip on it. A positive anti-tipping device prevents it from dropping on the floor and holds it in an upright position.

Nowhere else can you find a sweeper of such high quality, such careful workmanship and *guaranteed* performance—all for our remarkably low price. Built right, and priced to suit your purse, it stands as the foremost sweeper value in the world! Complete with 46-inch handle. Size of body, 9x14 inches. We pay the postage.

Universally used every day by housewives to supplement the work of the vacuum cleaner.

1—*Positive Action Brush Control.*
2—*Silent Rubber Tired Wheels.*
3—*Woven Braid With Rubber Bumpers.*
4—*Double Dust Pan Control.*

Guarantee

The "Kleen Sweep" Carpet Sweeper is guaranteed to give you absolute satisfaction. We also guarantee that the "Kleen Sweep" will do just as good work, just as easily, and give just as good service as any other carpet sweeper that you could buy elsewhere for twice the price of the "Kleen Sweep."

Housewives who know good carpet sweepers tell us that the "Kleen Sweep" is really a superior sweeper. They say that it does better work with far less effort.

WE PAY *the* POSTAGE

"Hi-Grade" Carpet Sweeper $1.89

We Pay Postage

Made to meet the popular demand for a moderately priced metal sweeper. Efficient and dependable, it will give many years of daily service. Sweepers of this quality bring $2.75 or more elsewhere. Silent, dustless and easy running. Fine brush of hog bristle and horsehair. Case is steel, finished in mahogany. Strong and sanitary. Woven bumper braid around case prevents scratching or marring of furniture. Rubber tired steel wheels. Two large dust pans, which may be emptied separately. Anti-tipping device holds 46-inch handle in position placed. Sweeper, 9x13 in.

"The COUNTRY Is Full of Mrs. BROWNS Like This"

800,000 Housewives Have Bought This Famous CLEANER

And like Mrs. Brown, a vast army of modern housewives praise and use this Non-Electric Vacuum Cleaner to make house-cleaning a delight you never dreamed possible! That's the very best proof of its efficiency. If you could secure an extra helper for only $12.85 you'd seize the opportunity without hesitating, and certainly if that helper would require no further expense or supervision for 15 years. That's just what the Kwick Kleen is—a competent, dependable helper, working for so small a sum that the cost is practically nothing when reckoned over years of faithful service.

Kwick Kleen is a non-electric vacuum cleaner and especially satisfies the needs of the home without electricity, but it is widely used and equally desirable as a supplementary cleaning device in homes, hotels and institutions that *have* electricity. Considering the low cost, the total lack of any expense to use, and the guaranteed service, Kwick Kleen is surely the ideal cleaner to save your carpets and rugs from the dust and dirt which would pitilessly destroy their beauty and value.

Dear Sirs:
My "Kwick Kleen" sweeper means so much to me I can't imagine how I got along without it before. In town I used an electric sweeper and was afraid I would be disappointed in the non-electric. Instead I like it just as well. It runs easily and is lighter than many electrics. Best of all, two of my neighbors bought other non-electric sweepers from an agent and paid $38.00 for them. While they are good sweepers they are not any better and mine only cost about one-third as much; also my sweeper has a guarantee with Sears, Roebuck and Co. behind that. We have a fourteen-room home—so you see the sweeper is given an opportunity to prove its worth.

Very sincerely,
IRMA BROWN
(Mrs. Walter J. Brown)
(Address furnished on request)

Approved by Good Housekeeping Institute

The Famous KWICK KLEEN Non-Electric Vacuum Cleaner

Nothing hard to understand about Kwick Kleen. It's as simple as child's play to use. The complete weight, including handle and bag, is only 9 pounds. Ball bearing gears make it practically noiseless and it moves across the floors with the greatest ease. It actually makes cleaning a pleasure! The moment you begin to push it across the floor the fan creates a miniature whirlwind which loosens and draws by powerful suction all the dust, dirt, crumbs, ling, threads and small bits of paper up into the bag.

The Kwick Kleen is carefully and sturdily made and beautifully finished. The mechanism is unique in its simplicity. The seven-blade, one-piece fan is set in a horizontal position to correspond with the horizontal nozzle (see illustration below), because actual tests have proved that the horizontal fan assures the most efficient suction. The bag is dustproof and only needs to be opened at the top to empty. Very little oiling is necessary. The big, easy rolling wheels have heavy live rubber tires. Thick braid around the nozzle serves as a bumper and protects your furniture. With the wide 12-inch nozzle you can clean floors quickly and you can reach under beds, chiffoniers, davenports or any low pieces without difficulty because the body is only 6 inches high.

GUARANTEED 15 YEARS!

Thoro-Cleaner Non-Electric Vacuum Cleaner

Equal in value to cleaners that sell elsewhere for as high as $25.00. Has the same fine mechanical features as the Kwick Kleen. The difference between these two excellent non-electric cleaners lies in the fact that the Thoro-Cleaner has a dustbag with a seamed top that empties from the bottom. The aluminum parts are nicely finished, but do not have a high mirror polish. **Guaranteed for 10 years against any defect in workmanship or materials.**

Scientifically designed gear driven revolving brush is of highest quality bristles. Loosens all lint, threads, hair and litter, which are immediately drawn into dustproof bag by powerful and continuous suction. Restores the pattern and rich coloring of your rugs. Makes them look like new and gives them many more years of life.

Our Guarantee

We guarantee the mechanism of every Kwick Kleen for 15 years against defects in material or workmanship.

We guarantee the Kwick Kleen to give absolute satisfaction and to be equal in quality to similar cleaners sold by canvassers for $35.00 or more.

Should you not be satisfied with your Kwick Kleen or should you feel that it is not the equal of other non-electric cleaners selling elsewhere for twice our price, return the Kwick Kleen and we will return your money.

6—*Guaranteed performance.*

Amazing 11-Year Test

Untiring in our efforts to give our customers the greatest vacuum cleaner value ever offered anywhere, Sears, Roebuck and Co. announce the tremendous achievement of the Greater Energex in the most astounding **actual performance** test that, we believe, has even been made by any cleaner.

The Greater Energex Motor has been on continuous test, under load 9 hours daily for 11 years, and is still working perfectly.

The Norma Precision Ball Bearings were given a 5,000-hour continuous running test, taken out and found to be perfectly lubricated.

This is continuous dependable performance equal to a lifetime of home service.

The startling results of this amazing test conclusively proves the Greater Energex to be as near mechanically perfect as it is possible to make any cleaner. This remarkable test is convincing proof that the Greater Energex is a life lasting supersuction cleaner. The Greater Energex will give you more downright satisfaction and cleaning efficiency than any other cleaner you can buy at this low price. Trouble free, ball bearing, self lubricating, it is a marvel of cleaning efficiency.

Take advantage of these huge savings. Send for this great cleaner today enclosing with your order our cash price or the small down payment. We offer to send you the Greater Energex for a 30-day trial in your own home, on your own rugs. If you are not thoroughly convinced that it is a marvelous value, send it back and we will return all the money you have paid. When you are satisfied that the Greater Energex is everything that we claim for it, simply send us $4.00 each month until paid for, or, if you wish, send cash in full with your order and make an additional saving. Order now, at this unequaled and unbeatable low price.

1—Casing of cast aluminum, rustproof and more durable than steel.
2—Large dustproof bag is easily and quickly attached or detached.
3—Self contained, self adjusting, lubricant packed, ball bearing construction.
4—Fan of cast aluminum; six blades, scientifically designed.
5—The Greater Energex nozzle is designed to give a concentrated suction.

For Non-Electric Vacuum Cleaners, See Hardware Pages or Refer to Index

New and Special Features

Only the Greater Energex is equipped with the famous floating brush. This new floating brush is different from the old style brush which was locked tight to the nozzle. As its name indicates, it is loosely suspended from the nozzle, permitting the brush to rest evenly on the carpet when passing over uneven surfaces of the rug, resulting in greater cleaning efficiency. This brush is more expensive to manufacture, yet the cost of the cleaner is less to you. Tremendous volume enables us to purchase at lower cost and we are passing along this difference to our customers. Only the World's Largest Store could bring you this wonderful cleaner at such a phenomenally low price.

The Greater Energex Electric Cleaner is the product of a manufacturer with sixteen years' experience in producing vacuum cleaners.

Every part of the Greater Energex is made in one factory, insuring perfect balance between parts and the maintenance of a uniform high quality.

The Greater Energex has many exclusive features that mean ease of operation, produce greater efficiency and insures longer life.

The Greater Energex saves time and effort because it is so light, handy and smooth running, cleaning corners and under furniture without the necessity of moving heavy articles.

SPECIFICATIONS

Motor—105 to 120-volt universal type (operated on either A. C. or D. C.), fan cooled; ball bearings. Low current consumption. Requires little care. Housing is cast aluminum.

Handle and Switch—Ebonized wood handle with trigger switch, easy pistol grip handle. Furnished with a mercerized cord, about 20 feet long, and plug.

Dust Bag—Heavy vacuum cleaner cloth. Retains all dirt and grit. Easily disconnected for removal of dirt.

Brush—New principle. Stationary bristles on either side of suction opening loosen embedded dirt and lint very effectively without possibility of injury to rugs or carpets.

ATTACHMENTS

An 8-foot Rubber Hose with swiveled metal connection for insertion in machine.

30-Inch Extension Tube to insert in rubber end of hose to reach out of the way places.

5-Inch Steel Tube for cleaning books, shelving, molding, etc.

Hollow Library Brush for heavy clothing, porticres, draperies, etc.

The Brush with two rows of bristles is included with cleaner, whether attachments are purchased or not.

Equipped with the famous Norma Precision Ball Bearings, the Greater Energex requires no oil. Built to last a lifetime, it is lubricant packed (no oiling), self adjusting, dust and dirt proof, and neglect-proof ball bearing motor construction. Nothing to get out of order, nothing that requires service. Packed with sufficient lubricant for years of use. No oiling!

Waxing Brush

Cleaning and polishing accessory. Fits over the nozzle of Greater Energex cleaner with a snap clamp. Has two heavy felt polishers mounted on an ebony frame 15 inches long. A splendid aid in keeping floors in good condition.

An Outstanding Success!

Announced for the first time six months ago in our General Catalog, our new Supreme Cleaner created a sensation that was quickly followed by a tremendous demand for this super cleaner. No wonder the Supreme became famous almost overnight. For this was the very first time a motor driven revolving brush cleaner had ever been sold at such an astoundingly low price. This overwhelming success now permits us to offer this great cleaner at even bigger savings. It was a huge bargain before—it's a super bargain now.

Every scientific principle of vacuum cleaning is incorporated in this great cleaner to make it the very finest to be had anywhere regardless of price. Its never failing super suction, its neat appearance, its light handy weight and easy operation, all at this amazingly low price make it the SUPREME VALUE of a lifetime.

Let the **Supreme** do your work. Have more time for leisure, more time for pleasure. No more tiresome, back breaking cleaning and sweeping. No more kneeling, stooping and bending. Clean the easy way, the fast way and the comfortable way. The revolving brush shakes and vibrates the rug like a good old fashioned "beating" without the ripping, smashing and tearing of rugs and temper. The **Supreme** saves your rugs, your health and money. Send your order today. Our low price, our easy payments our 30-day trial, our 5-year guarantee—all make it the most remarkable vacum cleaner value ever offered.

SUPREMACY IN EVERY DETAIL

The Supreme Cleaner is scientifically designed, ruggedly built and light in weight. It is easy to operate, sweeps clean, vibrates the rug and loosens embedded dirt. Removes all lint and dirt quickly, renovates the rug, restores natural coloring, glides easily and smoothly over carpets. Has dustproof ball bearings on motor and brush—no oiling! Highest quality bristles; wheels and brush adjustable; belt instantly removable. Low current consumption, positive acting trigger switch. Bag is easily removable and bumper protects furniture from injury. Cast aluminum housing has a highly polished finish. The Supreme leads all others in price, appearance, efficiency and minimum time in cleaning.

Actual laboratory tests prove the Supreme handles more cubic feet of air per minute than any one of five other well known cleaners and all of them **selling at a much higher price than the Supreme.** There is no "Backtracking" with this super cleaner—just once over—that's all, and every particle of dirt, dust, grit, and lint is gone. The revolving brush with its quicker pickup and the whirlwind suction gets it in a flash, and gets it all. Keep your home really clean this easy, practical, economical way.

UNEQUALED FEATURES

1. *No Oiling*
2. *Thorough Suction, Sweeping, Cleaning*
3. *Low Current Consumption*
4. *Renovates the Rug, Restores Its Luster*
5. *Runs Smoothly, Easy to Operate*
6. *Vibrates the Rug and Loosens the Dirt*

ATTACHMENTS

An 8-Foot Rubber Hose with swiveled metal connection for insertion in machine.

30-Inch Extension Tube to insert in rubber end of hose to reach out of the way places.

5-Inch Steel Tube for cleaning books, shelving, molding, etc.

Hollow Library Brush for heavy clothing, portieres, draperies, etc.

Highest Quality Features

Motor: Built to withstand long, hard use. Designed to give great power and high suction without running at abnormally high speed, thus insuring long life and safe, reliable service. Rotating element is perfectly balanced to give smooth running. Highest quality dustproof ball bearings, packed in grease, require no oiling. Special grade mica and carbon brushes insure long brush life. Low current consumption, only about one-third as much as an ordinary electric iron. Operates on 105 to 120 volts A. C. or D. C. current. Fan cooled. Cast aluminum housing well polished. Motor tested in our laboratory for 9 months, 9 hours daily, steady running, or the equivalent of 5 years' service, proves long useful life of cleaner. Six-blade aluminum suction fan, 4½ inches in diameter, creates high suction.

Handle and Switch: Ebonized wood handle with positive acting trigger switch mounted under handle fully protected against injury should handle fall to floor. Easy pistol grip. Furnished with standard mercerized cord, about 20 feet long, and plug. Held upright by locking device when desired. Cord hooks to take up slack cord.

Dust Bag: Heavy black twill cloth of unusually high quality and closely woven. Retains all dirt and grit. Bag has simple slide catch at top and bayonet bag ring catch at bottom. Easily disconnected and emptied.

Revolving Brush: Best quality bristles tightly set in single wave formation. Highly efficient in loosening dirt and picking up lint. Brush length, 10½ inches. Highest quality dustproof ball bearing construction, insuring smooth, frictionless operation. Held firmly by steel springs, easily detached. Simple method of uniformly adjusting brush should bristles wear after long use.

Brush Belt: Provision made for quickly removing belt before using attachments. Best quality rubber to be had.

Nozzle: Highly polished cast aluminum housing. Opening protected by removable wire guard to prevent catching the rug. Distance from carpet regulated by adjustable wheels. Bumper cord protects furniture. Front wheels enclosed for protection and enable cleaner to better get in corners and close places.

30 DAYS' TRIAL

Send us your order together with our cash price or the small down payment and use the Supreme for a 30-day trial in your own home on your own rugs. Give it every test of a cleaner costing twice as much. If you are not thoroughly satisfied with this wonder worker send it back and we will return all the money you have paid.

Guaranteed FOR 5 YEARS

Only the highest quality materials go into the construction of this superior cleaner. We unreservedly guarantee the Supreme against any defects in material and workmanship for a period of five years.

EASY PAYMENTS

When the Supreme has won your entire approval and you are convinced that it is a marvelous housekeeping necessity, simply send us $4.00 each month until paid for, or, if you wish, send cash and make an additional saving. Order now, at this outstanding low price.

ALL GUARANTEED ELECTRICAL APPLIANCES

Energex Junior

Energex Junior, the ball bearing hand cleaner of auto cushions, clothes, drapes, overstuffed furniture, rugs and the like, is a handy, small size vacuum cleaner, employing the same famous principles of construction, exceptional qualities and positive performance as our Super Suction Energex, described on page 750. Do not confuse it with the small size electric whiskbrooms sold elsewhere for less money. The Energex Junior has splendid suction and excellent cleaning power. It eats up dust, dirt, lint and sand. In addition, it possesses greater compactness and ease of handling. It has a metal detachable shoe which may be clamped on if running the cleaner across the carpet. Equipped with metal handle in two short lengths. A standard cord, about 20 feet long, is included so that the cleaner may be used at some distance from a light socket. We pay postage.

20R250—For any 105 to 120-volt current..**$9.95**

Energex Radiator

This splendid radiator will give you sun-like warmth instantly. Here is a high quality radiator in every respect and, at our low price, it is a value that proves our leadership. Only the finest materials are used in its construction, from the solid copper 12-inch reflector to the highest grade heating wire. Exactly and correctly shaped to give the fullest amount of heat possible. Guards and fittings are heavy, durable and nicely finished. Base is of cast iron, sturdily designed and easy to keep clean. Perfectly balanced to prevent tipping. Adjustable reflector. Cone element has best grade wire mounted on porcelain frame. Complete with standard 6-in. cord and plug. We pay postage.

20R1006—For any 105 to 120-volt current... **$2.98**

Double the Use of Your Vacuum Cleaner With Airizer

The Indoor Clothesline

You can double the use of your vacuum cleaner with this wonderful Airizer. Simply tuck your blankets, pillows, woolens and baby's things into the Airizer, place it near an open window, switch on your cleaner and a tremendous volume of pure, dry, live air thoroughly washes and renovates the contents, and makes them fresh smelling and clean. The Airizer will hold three double blankets or pillows. It can be attached to any make vacuum cleaner. The Airizer insures your furs and silks against injurious dampness, dust and moths. The airtight rubber bag affords a perfect storage bag when it is not in use with the vacuum cleaner. Made of durable rubberized fabric. Sold exclusively by Sears, Roebuck and Co. We pay the postage.

Our SUPREME Values

HAVE MADE OUR ELECTRICAL GOODS DEPARTMENTS FAMOUS FOR SAVINGS

Make These Savings Yours!

We guarantee our Supreme Electrical Goods to be the equal of any on the market, and a great deal less in cost. When you buy from Sears, Roebuck and Co. you completely eliminate high selling costs, salesmen's commissions and trade-in allowances. You know what you are buying, and what you pay is as near its actual manufacturing cost as it is possible to get. We buy and manufacture in huge quantities that make for savings. These savings are yours! Get your share. The more you buy the more you save.

This Guarantee Your Protection

We guarantee Supreme Electrical Appliances to be superior in appearance, in efficiency and in long life to any other electrical appliances sold at anywhere near our low prices.

We guarantee them to be exactly as we illustrate and describe them in our catalog.

We guarantee them to give you entire satisfaction in every way, and if for any reason you are not satisfied we will exchange the goods for exactly what you want or return your money, including any transportation charges you have paid.

Do the Work Best

All Supreme Electrical Goods are built to do the job in the best possible way. They are built to extraordinary high standards, endorsed and commended by standard trade bureaus and associations, and approved and O.K.'d by our own laboratory supervisors. This is the most exacting test of all. Our own experts must see that Supreme appliances are up to our rigid standards and give you more in service and more in satisfaction than you can obtain elsewhere for the money. Extra quality here, extra care in construction there, in small but important details, **make for perfection,** guard our good will and preserve the faith of our twelve million customers.

Give Uninterrupted Service

From every mechanical standpoint all Supreme appliances are as perfect as it is possible to make them. Finest quality materials, scientific design, precision of construction and guaranteed long life equipment assure you of dependable, carefree and uninterrupted service.

A Complete Line

Including Supreme Electrical Goods, the famous Water Witch Washing Machines, the new improved Franklin Sewing Machines and the Supreme Lamps and Lighting Fixtures. Our Supreme values are guaranteed for highest quality, greatest efficiency and biggest savings. Your money will be promptly returned if you are not satisfied.

The Iron That's Guaranteed for Life!

SUPREME in beauty, usefulness and low price. **The finest electric iron money can buy anywhere!** Its high quality features, its sparkling beauty, its perfect balance, its cool, comfortable, insulated handle, its broad ironing surface, its perfect heat distribution and its heating element **guaranteed for life,** all make it a wonder iron of unquestioned supremacy.

This SUPREME Electric Iron is a manufacturing and merchandising achievement of tremendous importance to every housewife in America. Not only is it a crowning triumph in its supreme qualities: Supreme in Beauty, Supreme in Efficiency and Supreme in its **Lifetime Guarantee,** but it sets a new record for huge savings you make when buying from the World's Largest Store. Actual manufacturing costs, plus our one profit reduces the price, and the economy is yours. This simple, practical method of merchandising has saved millions and millions of dollars for our customers.

The Supreme Iron is an example of our quality goods, and typical of the savings you make when buying any of our electrical household appliances. Read the description, note the exclusive features, compare our prices and you will agree that Sears do offer better merchandise at lower prices.

Better in Every Way

No other iron, regardless of how much more you pay, can offer you more convenience or better ironing than the Supreme. Only the Supreme can give you the advantage of this marvelous heating element, forever sealed, and guaranteed for the life of the iron. Back of this guarantee stand the resources of the World's Largest Store. In addition we guarantee the quality, we guarantee satisfaction and we guarantee a saving! Buy this great iron and enjoy ironing comfort such as you have never before experienced. You will be pleased and delighted at the ease and speed with which it works. Specially treated ironing surface makes it glide over Turkish towels or the finest silks with equal ease. Low current consumption. Weighs full 6 pounds; length, 6½ inches. Complete with about 6 feet of detachable cord and plug. Body finished in highly polished nickel or beautiful vitreous enamel in green or red. **We pay the postage.**

FLASHLIGHTS MADE RIGHT AND PRICED LOW

SUPREME $1.23 And Up — We Pay the Postage

SHURLITE Has New Safety Switch
FOCUSES BEAM 500 FEET

Never before has a flashlight with so many high quality features been sold at such a low price. We believe this is the best general purpose flashlight that you can buy. It has all the features of the average flashlight sold elsewhere, such as flash and continuous light switch, genuine Mazda bulb and fresh, active long life battery. **And, in addition, it has the following high quality features that cannot be duplicated at our low price.**

Heavy tough black fiber case, wear and weather proof, will not chip, tarnish, dent or bend; adds to its appearance, eliminates short circuiting. This light is so rugged that you can stand on it without injuring it. The largest industrial concerns specify the use of fiber case flashlights in their plants as do the mine operators in several States.

All metal parts are handsomely nickel plated. Special built-in Bulb Shock Absorber protects the bulb from knocks and jars and adds extra long life. Built-in storage space for extra bulb. Turning head from left to right changes beam from a piercing 500-foot ray to a broad flooding light; unscrewing head makes a candle or table light—bulb is built into case not in the head. The wonderful safety switch is entirely new and different. It lights only when you want it to light, and cannot be switched on accidentally. The handy carrying ring on end cap gives you extra convenience when at camp, riding, boating, etc.

This is the ideal flashlight for a hundred uses. Powerful, constant, instantaneous light when and where you want it, and the unbreakable, undentable and warpless black fiber case holds its fine appearance after long years of use. Our low prices save you at least $1.00 over prices elsewhere. Only the World's Largest Store can offer such high quality flashlights, with all these guaranteed dependable features at such low prices.

Price Includes Shurlite Battery and Mazda Bulb

CAMPERS' LANTERN

Features:

1—Adjustable beam.
2—Focuses 600 feet.
3—No wires to connect.
4—Long battery life.
5—Ruggedly constructed.
6—Holes for permanent mounting in base.
7—Attractive appearance.

Sears are offering in this lantern the first **real Campers' Lantern** to be shown on the market. The focusing 3 5/16-inch head will throw a 600-foot beam and the ball socket swivel enables the user to turn its beam up or down and left to right as desired—a feature not to be found in any other lantern. In replacing the standard 4-cell lantern battery, there are no wires to connect—just slip in the battery as in a flashlight. Has about five times the life of the ordinary 3-cell flashlight battery and a beam candle power more than twice as great. Attractive dull aluminum finish. Size, 8⅞ inches high, 4 11/16 inches wide. We pay the postage.

20R1445 ..... **$2.98**

Standard R. R. lantern battery for use with above lantern. Size, 4x2½x2½ inches.

20R1408—We pay the postage 43c

Utility Lanterns

Special Features

1—Heavy duty motor, quiet in operation.
2—Solid brass blades, scientifically shaped.
3—Heavy wire guard.
4—Neat, strongly designed base prevents tipping.
5—Three-speed switch.
6—Adjustable clutch for straight or oscillating action.

Cold Wave Fans

Cool, refreshing breezes obtained from a strong whirling action which drives away the overheated air and brings a satisfying, cooling sensation on the hottest day. Cold Wave Fans have a heavy duty Universal motor, quiet in operation, with three-speed switch on all sizes except 8-inch. Oscillating fans have special adjustment which permits fans to oscillate or remain stationary and special throwout clutch which prevents motor from stopping if moving part strikes an obstruction. 12-inch and 16-inch blades are solid brass, others brass plated. Sturdy metal frame with strong wide, solid base. These durable fans are a great bargain at our low money-saving prices and we guarantee that you will not find better values elsewhere. Furnished with standard cord and plug. **We pay the postage.**

WE PAY *the* POSTAGE

Useful Vapolite

Vaporizes one tablespoonful of any liquid preparation. The vaporizing process is useful in driving away mosquitoes and summer insects. Can be installed in clothes closets or chests to destroy moths. A convenient fumigator after illness. May be used with Vick's Vapo Rub, Mentholatum and other inhalants. **We pay the postage.**

20R830—For any 105-120 volt current..... **$1.47**

Electric Neckwear Presser

Keep your neckties looking like new. Here is an opportunity to make great savings by having your neckties wear longer and look neater. Combines heat, pressure and moisture in doing a perfect pressing job. Designed to fit the average necktie, you simply run the metal tongue into the tie between the lining and the face; moisten it with a damp cloth, clamp the case and plug in the cord. In a few minutes your tie is shaped and pressed like new. **We pay the postage.**

20R1162—For any 105-120 volt current..... **$2.70**

Arctic Fans

Cool comfort at low cost. The Arctic Fan will bring you strong, cooling breezes on the sultriest day and make life more enjoyable for all the family. Easily carried from room to room. Use it in the hot kitchen in the daytime and in the bedroom at night. Low current consumption, about ¼c per hour. Sturdy metal frame, black enameled. Motor runs quietly for hours without overheating. The 6-inch fan has a one-piece attachment plug; larger sizes have separable plugs. The 9-inch fan has single "On-Off" switch; 10-inch has three-speed switch. These fans to be used on 105 to 120-volt alternating or direct current only. **We pay the postage.**

1/4 MILLION HOMES Are LIGHTED With SEARS HI-GLO FIXTURES

This tag represents a service! Only correctly made high grade lighting fixtures, made according to **Sears Exacting Specifications** are tagged with the Hi-Glo label. This tag is Sears protection and guarantee to you. Look for the Hi-Glo Tag! When you see it you will know it identifies the **Best in Lighting Equipment**—Plus Big Savings.

Homes everywhere are made bright and cheerful with Sears HI-GLO fixtures—customers are constantly writing to tell us of the exceptional values, the tremendous savings and the complete satisfaction enjoyed with "Hi-Glo" fixtures.

We wish you could see every one of these ***lighting fixtures*** in all their beauty of design and color—we wish we could show every one of our customers the great amount of care, the amount of detail and inspection we absolutely insist upon before ANY HI-GLO fixture can be shipped to our customers.

Factories tell us that ***no electrical dealers*** require the mechanical and electrical construction and inspection that SEARS POSITIVELY INSIST UPON! It isn't good enough for ***our*** customers unless it's the best obtainable!

HI-GLO fixtures are easily installed too! Simple fittings connected in a jiffy without the use of sticky tape; full instructions with every fixture and everything is furnished to install your own fixtures—all you need is a screwdriver!

Small Corner of HI-GLO Packing Room

Sears Are "Equipped for Service"

The little picture to the left, of activity in Sears "Hi-Glo" fixture department, shows you a small portion of the checking and packing room where every minute of the day ***Lighting Fixtures, Floor Lamps, Table Lamps, Wire and Electrical Supplies*** go forward to our customers. This is ***just a Small Corner*** of this department and ***Every One of Our Ten Big Mail Order Stores*** has these same facilities for the correct handling of your orders. This constant activity goes on because we offer ***Quality, Most Value for Your Dollar, Speedy Handling, Perfect Merchandise.***

"Nicest Fixtures I Have Ever Seen for the Money"

I am very much pleased with my Hi-Glo lighting fixtures that I bought from you some few days ago. I think they are the nicest fixtures I have ever seen for the money, as I have priced fixtures at other stores, and find the price much higher on fixtures not near as nice as yours.

ED. PINYAN.
(Address furnished on request.)

Easy Payments if Desired

Sears was FIRST to offer you unlimited choice of Lighting Fixtures and Floor Lamps on a time payment basis—you are not confined to any particular items but may choose from among all of the beautiful fixtures and lamps offered. Make up Your Own Selection and buy on this liberal Extended Payment Plan. The simple chart below shows you just how easy you can buy this way. The only stipulation is that your order must total $25.00 or over. (Light bulbs and electrical sundries cannot be included on Time Payment Plan.)

If you select less than $30.00 worth you pay according to the $25.00 to $30.00 group. If you select $30.01 and up to $40.00, you pay according to the $30.01 to $40.00 group and so on. Total order must be for $25.00 or over on time payment plan.

Total Amount of Order, Cash Price	Add for Time Payment	Deposit With Order	Monthly Payment	Number of Months to Pay Balance.
$25.00 to $ 30.00	$ 3.00	$ 5.00	$4.00	6 to 7
30.01 to 40.00	4.00	5.00	5.00	6 to 8
40.01 to 50.00	5.00	6.00	6.00	7 to 8
50.01 to 60.00	6.00	7.00	7.00	7 to 9
60.01 to 70.00	7.00	8.00	8.00	8 to 9
70.01 to 80.00	7.50	9.00	8.00	9 to 10
80.01 to 90.00	8.50	10.00	8.00	10 to 11
90.01 to 100.00	10.00	12.00	8.00	11 to 12

If Ordering on Easy Payments Please Use Time Payment Order Blank in Back of Catalog.

For purchases over $100.00 on time payments, write us for our very attractive offer, sending a list of just what you want to buy, and how much you can pay on down payment.

AN EXCLUSIVE SEARS CREATION

WE *Pay the Postage*

Something New—Introducing an Exclusive Sears Fixture Group

We wanted to offer our lighting fixture customers the finest low priced fixtures ever placed on the market. We couldn't find what we wanted for you among any of the fixture manufacturers, so we designed and created this absolutely new line ourselves. **Design patents have been applied for,** so that nowhere else will you be able to buy such beauty, such quality as Sears offer in this new group. Not only is the design new, but the finish is new and never shown before. It is a pleasing shade of autumn brown velvet with gold color arms, superimposed with dainty polychrome colors in various places—beautiful fixtures priced marvelously low. **We pay the postage.**

Use our Lamp 34R6822 for fixtures 34R5344, 34R5347 and 34R5346. For 34R5343, 34R5342, 34R5341, 34R5340 use Lamps 34R6889. (See page 773.)

Easy and Economical

Some time ago I purchased from you two sets of Hi-GLO Electric Fixtures. Everyone who has seen them admires them. The room they are in has a beamed ceiling and their attractive appearance adds much to putting on the finishing touches. I searched everywhere to find something to suit me and not until I saw Hi-Glo did I find anything either in appearance or price, the latter being very reasonable.
I am,
S. McELNEA.

LIGHTING HI-GLO FIXTURES

Easy Payments for You if Desired

See page 762

Notice the Double Strap construction on all 5-light fixtures. EXTRA QUALITY!

A Value That Defies Duplication

We have not been able to find anywhere fixtures of this quality that could be bought at the low price we are making. Consider that they are made of wrought metal, richly designed and wonderfully finished in satin dull gold shaded with burnt umber. (A pretty blended brown tint.) The medallions are in polychrome color with ivory shield centers. They are such wonderful bargains; and look so stylish and attractive when installed that we know that you will be delighted with these fixtures. The lamps shown are not included in the prices.

Use our Lamp 34R6889 on 34R5521, 34R5520. Use our 34R6822 Flame Lamp on 34R5519, 34R5523, 34R5522. Use 34R6888 Lamp for 34R5524. See page 773.

You Will Pay More Elsewhere for Solid Brass Lighting Fixtures

We had to do some sharp bargaining with the manufacturers in order to be able to offer these SOLID BRASS LIGHTING FIXTURES at such a low price. We are proud to offer Sears customers such a genuine bargain—fixtures containing so much fine metal, so carefully designed and finished. They are finished in real gold color, the medallions in dark ivory, the entire fixture enhanced with tiny but vivid polychrome colors. Equipped with keyless sockets, except 34R5454, which has chain pull.

For 34R5450, 34R5446, 34R5442 use Lamp 34R6889. For 34R5448, 34R5456, 34R5458 use Lamp 34R6822. See page 773.

34R5450, 34R5448, 34R5446 shipped express or freight only. Not prepaid. Shipping weight, 22 pounds each.

An Appealing Combination of Crystal Gold Polychrome

You will surely be immensely pleased with these fixtures in your home. The gracefully curving reeded arms are ornamented with cast candle cups and emerge from under embossed center casting. Imported crystals and a diamond cut glass pendant add to make these fixtures more attractive. Center lights have streamer with 2-inch crystal ball. Finish is "Polygold." The general background is a semi-bright gold with delicately hand chiseled ornaments tinted and rubbed in colors of rose, blue and green. The brackets match the fixtures. Lamps are not included in the price.

Use our Lamp 34R6822 for 34R6003, 34R6007, 34R6008. For 34R6004 and 34R6005 use Lamp 34R6889. Lamps are shown on page 773.

Money on Fixtures

Distinctive Crystal Fixtures

Sears HI-GLO Crystal Fixtures have a beauty and grace of outline all their own, and comparison of workmanship would show them to be exceptional values at Sears low prices. Hi-Glo Crystal Fixtures have a beauty that you never tire of and, in addition, are exceptionally well made. The metal castings are genuine silver plated, richly embossed and artistically finished. The embossed parts are shaded in black, which adds to these fixtures a rich, dignified appearance. The lamps shown are not included in the price. For 34R5493, 34R5494, use Lamps 34R6823. For 34R5476 use 34R6825. (See page 733.)

It's Easy to Wire Your Own Home

Free Service to Help You Wire Your House. Send us a rough sketch of each floor of your building showing the arrangement of rooms and size of each room. **State whether it is an old building or one to be constructed and the kind of wiring desired:** Knob and tube; flexible non-metallic sheathed cable flexible metal conduit (BX), or rigid conduit.

Our expert estimators will figure the exact amount of material needed and we will mail you the information, together with the cost of material. When we receive your order for the complete installation, easy-to-follow wiring diagrams will be sent you—not special diagrams for your house but general wiring diagrams that will be adaptable to your use.

Do Your Own Electrical Wiring and Save Money.

Our Customers Say: The IMPROVED Is as Good as the Best

THE most modern and efficient of all sewing machines, the most easily operated, the fastest and the best—the electric rotary. And of all electric rotaries—the Franklin. For here is a machine that experts and users have unanimously proclaimed as good as the best—though at half the price asked elsewhere. The Franklin Rotary sews just as smoothly, just as rapidly, with as little effort, and brings you the same conveniences as any sewing machine made, bar none. Only because of our vast buying power, our small overhead, and our economical distribution are we able to offer this finest of sewing machines at this lowest of prices.

20 YEARS OF SEWING Satisfaction Guaranteed

Every Franklin Electric Rotary Sewing Machine that leaves our stores bears a certificate of positive guarantee of twenty years' of complete sewing satisfaction. We guarantee that, during this period, the machine will do perfect work, and that it is free from any defect in material or workmanship. You do not have to rely on salesmen's promises when you buy the Franklin, for we back our guarantee with the resources of the World's Largest Store. **We could never afford this offer, if we were not sure of the quality.**

PAY AS YOU SAVE TRY BEFORE YOU BUY

Only **$5.00** down and **$6.00** a month. So liberal is our Easy Payment Plan that you can order the Franklin now and pay for it each month out of the saving you make on the family clothing bill! To prove this statement you have only to take advantage of our **30-Day Trial** offer. Order a Franklin now, inclosing only the small down payment. Use it in your own home, on your own sewing, for 30 days. Keep track of your savings—compare it with other machines—try it as you will. Then, if you don't want it, send it back. We will return every penny you have paid. We challenge the world to make you a fairer offer than that.

A Splendid Motor

The powerful, trouble free motor is always attached to the head, ready for use—no belt to loosen or wear out. Connect the plug to any convenient socket and the machine is ready for operation. A foot control regulates the speed of the motor, which responds easily and quickly. All your attention may be devoted to your sewing, as the motor does all the work. You can sew for hours and hours without the slightest fatigue on the Franklin Rotary Electric. The motor supplied with the machine is for direct or alternating current, 105 to 115 volts, and from 25 to 75 cycles. If you need a 32-volt motor add $2.00 extra.

Used as a Hall Console

The beauty of this new American walnut veneer cabinet attracts your immediate attention. Produced by expert cabinetmakers, this latest furniture creation fits perfectly in any room. Closed, it makes a beautiful table or desk to occupy that vacant corner in your parlor or bedroom, and increases your satisfaction in your tastefully furnished home. The attractiveness of the cabinet is further emphasized by the panel of birdseye maple, contrasting with the dark walnut wood of the table. Table is finished in genuine lacquer, more expensive and durable than varnish. Its low price, its extraordinary efficiency, its perfect construction would alone endear this console to any housewife, but the added features of latest style, of beauty and utility make it an unparalleled value. Silent, speedy service for a lifetime of use. The touch of your foot on the foot control sets it whirring; increased pressure speeds it up. All you have to do is guide the material and both hands are free for that. Double the work in half the time, and twice as well done. Size, 25 inches wide by 19 inches deep.

FRANKLIN Electric Rotary

and $50.00 to $75.00 Lower in Price!

WE HAVE eliminated dealers' selling expense, agents' commissions, trade-in allowances, used every method we knew to shave the price down and maintain the same high quality. We have done more than that—we have actually *improved* the machine! And to top all of that we make our famous thirty-day trial offer, sell it on *extremely easy payments,* and guarantee it to give *twenty years of satisfaction!* With the Franklin Electric you can make each month's payment out of money saved on clothing! No longer is there any reason why you, or any woman, should be without this finest and most modern of sewing machines.

For Sewing Cabinets, See Furniture Pages or Refer to Index.

DON'T BE FOOLED
By Misleading Allowances

Don't be deceived when a dealer or agent makes you an offer to trade in your old machine. Allowances on old machines are always misleading. Dealers' prices, of course, are high enough to let them do this and still give them a large profit. The padded price is especially unfair to the purchaser who has no old machine to turn in. When you consider an allowance, compare the net price quoted with ours. You will find that even after the promised allowance is deducted from the dealers' price we can still save you a great deal of money. The World's Largest Store makes no trade-in allowances on sewing machines. We give you the best materials and workmanship at the lowest prices, and we Absolutely Guarantee You a Saving.

WE WILL NOT BE UNDERSOLD

Sears, Roebuck and Co., with resources greater than any other store, can undersell any other dealer or distributor of sewing machines, regardless of name or make. Quality for quality and price for price, our Electric Rotary machines are the biggest values obtainable. All the buying power of our twelve million customers is concentrated to effect for you the greatest dollar-for-dollar bargain the sewing machine industry has ever known! All our facilities for economical handling are marshaled to this end. Our low selling costs, our elimination of dealers' expenses, salesmen's commissions, trade-in allowances, all have contributed toward these great values. Make a 30-day comparison test in your own home. We will return your money together with all transportation charges if the Franklin fails to sell itself to you!

Complete Set of Attachments

A full set of the latest improved attachments, made by the famous Greist Company, is furnished with every Franklin. These include tucker, ruffler, shirring blade, under braider, short presser foot, binder and set of four hemmers, different widths.

Accessories

Accessories furnished without added charge consist of one quilter, five bobbins (and one in the machine), one gauge screw, large nickel plated screwdriver, small nickel plated shuttle screwdriver, oil can filled with oil, foot hemmer, special foot gatherer and a package of five needles besides the one in the machine.

WITH THE ELECTRIC PORTABLE

(Illustrated on Opposite Page)

For the apartment or small home where the space necessary for a sewing machine cabinet is lacking, this Franklin Rotary Portable Electric is ideal. Constructed with the care and perfection that characterizes every Franklin, it is an invaluable servant. Quiet, inconspicuous and easy to handle, it can be moved anywhere, and quickly put away when not in use. With this practical machine, any room with electrical connections becomes a sewing room. Motor and head are the same as on our larger models. Runs smoothly and silently and is easily controlled by a foot control. The motor supplied is for direct or alternating current, 105 to 115 volts, and from 25 to 75 cycles. Machine is furnished with wood base and cover of American Walnut veneer.

Shipped from our Chicago store or from a warehouse in CLEVELAND, OHIO, whichever is nearer you. Shipping weight, 65 pounds. **Not prepaid.**

For the home, the hostess and each member of the household. In this charming new table model we have combined beauty and utility to a remarkable degree. Fashionable clothes and fine furniture, what could be more interesting to any woman? Here, in this modern table electric, you find both desires fulfilled. More clothes, more dresses, more underthings, more of the utility and decorative pieces for the home, more frocks and waists for the children and, at the same time, a distinctive table which is both ornamental and useful every day of the year. The sewing machine is closed. Yet to open it requires practically no effort at all. Simply take off the removable top, lift up the head, attach the cord to any handy electric socket and there it is, all ready to do your work. Motor supplied is for direct or alternating current, 105 to 115 volts and 25 to 75 cycles. If you need a 32-volt motor allow $2.00 extra.

The FRANKLIN Rotary or Vibrator

$35.75 CASH PRICE Vibrator

OVER one million American women have been enthusiastic users of the Franklin Sewing Machine. Thousands of these women have written us their approval of the many features that place this machine above all others. Many have written us after our 20-year guarantee had expired to tell us that the Franklin they used for so many years was still giving trouble free easy running service. There could be no better proof of Franklin supremacy than these hundreds of thousands of delighted users!

$3.00 DOWN $4.00 A MONTH EASY PAYMENT PLAN

YOUR CHOICE

ROTARY Head

The smoothest, quietest sewing machine head made! It will run about one-third faster than a vibrator type machine or, in other words, do about 1,100 stitches per minute! Or, for particular work, you can slow it down to the lowest speed of a vibrator machine and still find it easy to run, with no necessity of helping it along with the hand wheel. A lever regulates length of stitches without even stopping the machine! The rotary head is well worth the small difference in price!

Sit-Right Construction for Greater Comfort. Note the needle on the top is even with center of treadle.

Comfort ~ Quality Value!

COMPARE this Franklin Six-Drawer only with the finest foot power machines made. The best workmanship, the highest grade materials obtainable, the most modern and approved design together with many exclusive patented features and a low price unapproached elsewhere combine to make this Franklin the biggest value obtainable!

The Problem of Sewing Comfort Solved! This six-drawer drop head model sewing machine of improved design and increased efficiency is the answer to a long felt need. You know REAL SATISFACTION in sewing when you use this "new idea" machine. Its special sit-right construction feature means the end of backaches and nervous strain and takes the drudgery out of sewing. Smooth running and easy sewing. The most efficient machine on the market. Perfect in operation, ideal in service and comfort. A double thread, lockstitch type machine with a high arm, and a Franklin Head, either rotary or vibrator, backed by our famous guarantee of twenty years of sewing satisfaction. The beautiful quarter sawed oak cabinet is exquisitely finished to be in keeping with all other home furnishings. Solid, substantial and a marvel of furniture craftsmanship. The six large size drawers, the front apron which folds up out of the way, the automatic lifting device, the large sewing surface, the exclusive "Sit-Right" design—where can you buy so much for so little?

Order Your Machine Now!

Let Your Future Savings Pay for This Franklin

OUR 20-YEAR GUARANTEE

Because every Franklin is perfectly made, built for the hardest service, we guarantee each machine for twenty years. Should any defects develop in workmanship or material, we will promptly replace the faulty part absolutely free of charge. Our faith in the proved excellence of the Franklin makes us more than willing to offer this guarantee.

SPECIAL FEATURES INSURING FRANKLIN SUPREMACY

1—Head has high arm which provides sufficient space for all family sewing.
2—Extra strong and large feed, direct and positive, handles all materials from light chiffons to heavy woolens.
3—Belt may be removed and head raised for oiling without getting out of chair.
4—Automatic bobbin winder—distributes thread evenly on bobbin.
5—Presser foot fits solidly in place—cannot move sideways when fastened. This insures needle always passing through slot of presser foot, thus preventing the bending and breaking of needles.
6—Sit-Right construction—your assurance of sewing comfort.

The FRANKLIN Rotary or Vibrator

$42.95 CASH PRICE VIBRATOR

BUT we have never been content. Constantly we have improved this sewing machine, improved the cabinet, improved the mechanism, made it simpler, easier running, added time saving and work saving features. And constantly we have been on the search for ways of lowering the price without interfering with our policy of constant improvement in quality. The result is that today the Franklin, at the lowest price known to the industry, is head and shoulders in quality and performance above machines selling at a much higher price. As good as the best—better than most—and lower priced than any!

OF HEADS

$4.00 DOWN $5.00 PER MONTH EASY PAYMENT PLAN

VIBRATOR Head

The vibrator head Franklin is the machine that built the Franklin reputation! No other machine of the vibrator type will run as easily, as smoothly as the Franklin. While we do not consider it quite as modern as the rotary type, you can be assured that it will deliver complete satisfaction and that it is the best of its kind. The Franklin Vibrator, like the Franklin Rotary, has the easy stitch regulator, automatic bobbin winder and automatic tension. The fewest possible moving parts reduce friction to a minimum and insure a smooth, light running action. Self threading at every point except the eye of the needle!

Rotary Shuttle

Vibrator Shuttle

"A $60.00 Value!"

Gentlemen:

I am pleased to inform you that my daughter received the Sewing Machine which I bought for her Christmas present yesterday O. K. It certainly is the most wonderful bargain I ever bought. I could not get a machine like that for less than $60.00 in any retail store, as I went all over to price them before sending my order to you. It works as easy as clockwork and everything is just as you stated in your catalog.

Thanking you for your prompt attention, I remain

Very truly yours
MRS. EDITH A. HORNBROOK
(Address furnished on request)

The Franklin Cabinet opens to provide ample table service for any amount of sewing. A compartment on the door holds sewing necessities, and the roomy interior permits easy, comfortable operation without cramping.

MAKE YOUR OWN CLOTHES

Save Money!

Women who make all or part of their family's clothes know that they save a great deal of money by doing it. Ready made clothing prices represent only a small proportion for the cost of material, and for the labor of making the garment. There is no reason why you cannot do this work yourself and save that cost. Figured that way, **you can make each small monthly payment on a Franklin with money saved on your family clothing bill!**

Beauty - Efficiency SAVING!

You can't duplicate this fine new machine at our price elsewhere. We guarantee you an unparalleled saving, because we know that machines of this quality in the usual market are selling for almost twice our price. But because we sell direct from factory to you, we can offer an amazingly low price. The pleasure of sewing, of making things, is greatly enhanced by the real enjoyment you get out of owning this excellent machine. It offers a lifetime of service, of more and better clothes, of new ways to save. When you know the Franklin, and getting acquainted is so easy, you will have no other.

High grade efficiency and real beauty combine to make this machine appeal to every woman. It is our finest FRANKLIN, with highest quality materials obtainable, accurate construction, attractive new design, real working perfection—all those qualities which go to make up the long durability we guarantee. The new cabinet itself is a beautiful piece of house furniture. The front, top and sides are made of built-up stock with especially fine selected quarter sawed oak veneers for the outside. Finished in a rich golden oak color. No cabinet made will give more enduring and satisfactory service. Its simplicity makes it adaptable to any space where it immediately lends charm and dignity to its surroundings.

Franklin One-Door Parlor Cabinet Sewing Machine, fitted with automatic lift and ball bearing wheel. Complete with full set of attachments, accessories and instruction book. Shipping weight, 105 pounds. **Unmailable. Shipped by freight or express only, not prepaid.**

Catalog No.	One Door Cabinet	Cash Price	Easy Payment Price
26R141¼	With Vibrator Head	$42.95	$47.25
26R143¼	With Rotary Head	48.95	54.00

Attachments

In keeping with Franklin quality, we have chosen the finest set of attachments that we could get and include them with every machine at no extra charge. These attachments are made by the Greist Company, known for years as the makers of the highest grade attachments furnished with the best sewing machines. The Greist Company joins us in guaranteeing these attachments against all defects in material or workmanship.

Set consists of tucker, ruffler, shirring blade, under braider, short presser foot, binder and set of four hemmers, different widths.

Accessories

There is nothing extra to buy when you order a Franklin. Everything you need is included with the machine when you get it, even to machine oil!

The accessories furnished without extra charge consist of one quilter, five bobbins (and one in the machine), one hammer screw, large nickel plated screwdriver, small nickel plated shuttle screwdriver, oil can filled with oil, foot hemmer, package of five needles, assorted sizes (and one in machine).

30 DAYS' TRIAL

Here is the best and surest proof of the Franklin's fine appearance and smooth running durability. Test it in your own home for THIRTY FULL DAYS. Order either of the machines and use it right in your own home on your own work for this time. Try it on any type of sewing you have to do. And at the end of this thirty day's trial if you are not satisfied in every way you can return the machine and your money will be promptly refunded, including any transportation charges you have paid.

America's Lowest Priced MINNESOTA *Model "A"*

$38.45

We Successfully Combine High Quality and Low Price!

Beauty, Efficiency, Permanence—all these points are considered when we say QUALITY. They are built right into the machines. Otherwise we could not guarantee them as we do. Such QUALITY makes for huge sales and this, coupled with our quantity buying and direct to user sale methods, enables us also to guarantee you a worthwhile saving.

GUARANTEED for TWENTY YEARS!

We guarantee each Minnesota Model "A" Sewing Machine for twenty years of satisfactory service. During that time, should any defects develop in workmanship or material, we will promptly replace the faulty part absolutely free of charge. The proved excellence of the Minnesota enables us to make this guarantee with confidence.

Low Priced Sewing Satisfaction

The same truly amazing service, satisfaction and lasting qualities that has for years endeared our Minnesota Sewing Machines to women all over the Nation! With the latest improved features of many higher priced machines—**and at a lower price than ever.** This is our offer regarding this wonderful, newly designed, cabinet style Minnesota Model "A" Head Sewing Machine. It is attractively finished in a glossy golden oak color, is neat and compact, and has no mechanism to show when closed. And our Twenty-Year Guarantee, coupled with our Thirty-Day Free Trial Offer, absolutely lets you be your own judge and protects your purchase for nearly a lifetime afterward. What more could any fair minded buyer possibly ask. And remember, **we also guarantee you a worthwhile saving on the purchase price!** The mechanical construction throughout is finished, dependable and durable. The famous Minnesota Model "A" Head, the automatic head lifting device, the ball bearing metal pitman and automatic bobbin winder are features that place this cabinet model in the front rank of high grade machines. The cabinet itself is made of selected oak stock, with a glossy golden finish. Roomy, convenient and ample table surface for sewing.

26R228¼—Minnesota Model "A" Parlor Cabinet Sewing Machine, with automatic head lift and ball bearing balance wheel, complete with full set of attachments, accessories and instruction book. Shipping weight, 105 pounds. **Shipped by freight or express only, not prepaid. Sold for cash only** **$38.45**

Shipped from our Chicago store or from a warehouse in Cleveland, Ohio.

For Sewing Lamps, refer to Index for page Number.

THIRTY DAYS' FREE TRIAL

We invite you to test this machine for yourself. Order it and use it for THIRTY FULL DAYS in your own home. Make some pretty dresses, children's clothes, articles for the home—anything. At the end of this trial if you are not satisfied in *every way* you may send it back at our expense and your money will be returned!

Minnesota Model "A" Head

Neat, attractive and efficient, carefully fitted and handsomely finished. Built of the best materials by skilled mechanics. We have tested and tried every part of the Minnesota "A" Head to make sure that it will give you the years of service you expect. Constant improvement and unfailing supervision have produced a head that we can unhesitatingly guarantee for twenty years of service. Beautifully finished in old gold design decorations upon a black enamel background, with elaborate nickel plated trimmings. Graceful in outlines and pleasing in appearance.

Special Features

Automatic Bobbin Winder saves time and trouble, and insures a perfectly wound bobbin at all times. Independent Positive Cam Take-Up insures a perfect stitch on any material with steady, regular tension. Automatic Tension Release. By raising presser foot all thread tension is released, and work can be drawn from under the foot without bending or breaking the needle or breaking thread. Extra strong and Large Feed, positive in action, giving even and perfect stitching on all kinds of material. We guarantee the Minnesota Model "A" for 20 years against all defect in material and construction.

Sit Right—Sew Right—Buy Right!

No woman should remain any longer in need of a sewing machine when a big handsome homey Minnesota Sewing Machine like this can be bought at such a money saving price. Built of first quality tested materials and backed by our twenty-year guarantee as it is, you are absolutely assured of satisfaction in every respect. Designed in the popular sturdy six-drawer model, with the famous Minnesota Model "A" Head which is mounted on **the extra wide stand in our widely known "Sit-Right" position, enabling you to sit naturally without cramping and sew all day without fatigue.**

In order to offer this popular quality sewing machine to our millions of customers at this unbeatable low price, we brought to bear all the tremendous buying power and all the years of experience that has been acquired by our huge sewing machine department. And we are proud of the result; for we believe that in this machine, at this price, we are offering prospective buyers a **positive bargain value** on a standard quality product. And we guarantee that you can do any and every sort of sewing with this machine that any other machine will do.

The woodwork is of selected plain oak wood, and varnished in a golden oak color. The six roomy drawers provide ample space for the many sewing accessories, such as buttons, thread, shears and the like. The head is easy to bring into position, because of the automatic lifting device. Sold on thirty-day money back trial.

Quality Sewing Machines

MINNESOTA *Model "H"*

DEPENDABILITY, real top service sewing machine efficiency—year round and for all sewing was the service ideal we had in mind in selecting the Minnesota "H" Head. We believe it to be the best value of this price that can be secured *anywhere*. It is a machine that will operate smoothly, easily and quietly year after year on any and every sort of sewing that is required in a large size family. Guaranteed for twenty years against all defects of material and workmanship as it is, it is naturally of first quality tested metals; carefully constructed and nicely finished.

We guarantee this Minnesota Model "H" to give you perfect satisfaction—and you will be amazed at the number of pretty dresses and household articles you can make with it in one season. Sews any material from the sheerest silk fabric to the heaviest woolen wash garment.

Designed for appearance and space saving in this attractive cabinet style. Of selected quality plain oak, thoroughly seasoned and kiln dried. Inside the door is a convenient pocket for attachments and accessories. The mechanism is protected from dust and the machine is always handy for use.

Order this machine today, and try it in your own home on any work you have to do. Put it to every test for thirty days and if it does not come up to your expectations, send it back and your money will be returned.

Minnesota "H" Head

Head is thoroughly up to date, embodying many of the latest improvements. It makes the double lockstitch the same as all high grade machines. All bearings and wearing parts are made of specially selected carefully fitted steel for smooth silent operation. The tension on this head is placed on top of the arm and consists of two flexible nickel plated steel plates, through which the thread passes. Shuttle is cylindrical and made of fine grade steel. Self threading, being opened at one end for inserting the bobbin, after which the thread is instantly drawn into place by two motions of the hand.

20 YEARS *of Sewing Satisfaction*

We guarantee every Minnesota Model "H" Sewing Machine against all defects of material and workmanship for TWENTY YEARS. This broad guarantee is to assure you of perfect satisfaction in every way!

Electric Portable Bargain

Equipped With Minnesota Model "A" Head

Think of a completely equipped Electric Sewing Machine in the popular space saving Portable form **at a price like this!** This is a new machine with us; and one that we have looked forward to offering our customers. But never before have we been able to combine the fine, lasting Minnesota "A" Head and a good quality electric motor in a portable sewing machine at such a **record making low price!**

It is especially valuable in apartments or small homes where space is limited, as it can be operated satisfactorily on almost any table space, and stored on a cupboard or pantry shelf when not in use. This splendid electric portable sewing machine is built on the same sturdy dependable lines, and is made to do the same work with the same efficiency as much higher priced electric machines. With the strong little foot controlled electric motor it runs swiftly and smoothly hour after hour without effort on the part of the operator.

Our price includes the machine with walnut case and cover, the motor and a full set of attachments, complete ready to run. The motor supplied is for direct or alternating current, 105 to 115-volts, and from 25 to 75-cycles. Machine is furnished with wood base and cover of American Walnut.

Shipped from CHICAGO or from a warehouse in CLEVELAND, OHIO. Send your order to Chicago Store. Shipping weight, 65 pounds. **Shipped by freight or express only, not prepaid.**

Minnesota Model "H"

Built for SERVICE, STYLE AND ECONOMY! These words tell the story of this wonderful sewing machine. It is as lasting as the sturdy oak, the tested steel and the first quality cast iron it is constructed of. As satisfactory as a sewing machine **must be** in order to stand the thirty-day trial and twenty-year guarantee it is sold under. And as low priced as the great Nation-wide organization of Sears, Roebuck and Co. can make it with all their tremendous buying power and direct to home selling methods!

The woodwork is of good quality, attractively grained plain oak, finished in a rich golden oak color. The six large roomy drawers are enclosed and dustproof and are fitted with handy wooden pulls. An automatic lifting device brings the head into sewing position as the lid is raised. When the machine is open for sewing the front apron folds under the head out of the way. Stand is light running and ball bearing. Metal stand parts are durably black enameled and the whole machine, head and stand, is nicely finished throughout. Sold on thirty-day trial, guaranteed for twenty years, and priced for an immediate saving!

26R342¼—Six-Drawer Minnesota Model "H" Ball Bearing Drop Head Sewing Machine, fitted with automatic lift, plain oak woodwork, complete with full set of attachments, accessories and instruction book. Shipping weight, 105 pounds. **Shipped by freight or express only, not prepaid.** $29.95

SEWING MACHINE SUPPLIES

Your Machine Deserves Only the Best Supplies

Needles for Any Make of Family Sewing Machine

No sewing machine is better than the needle it sews with! Realizing that the fastest, neatest and most satisfactory work is done with the sturdiest and most dependable needles, we have spared no effort to secure the best possible tested quality.

We guarantee our sewing machine needles to be made of the finest steel obtainable for the purpose, to give you the same service as any sewing machine needle you can buy, regardless of price; to fit perfectly the machine intended for, and that our price will make you a worth while saving. Order as many packages as you will want for the season, secure in the knowledge that they will come up to expectations. Order according to directions given below.

Be Sure to Send a Sample Needle

Also Mention Name and Head Number of Machine

In ordering needles be sure to send a sample, stuck in a small piece of cloth or heavy cardboard to prevent it from being lost; also mention the name and head number of machine. No order will be filled for less than one dozen needles. Our needles are put up in packages of twelve, in assorted sizes, and ten of the twelve needles are sizes used for sewing from 40 to 100 thread. We do not sell needles for special manufacturing machines.

The Sewing Light Protects Your Eyes

With High Grade Lamp and New Style Double Plug

This sewing lamp is a necessity for the woman who sews. Poor light is one of the worst enemies of eyesight, and nearly all women who sew are common sufferers. Day or night regardless of where your machine stands, you can depend upon this excellent lamp for your sewing without the slightest trouble. It reduces your electric light bill inasmuch as it requires only a small part of the electricity needed to light a larger lamp. This sewing lamp is handsomely finished in polished nickel and comes complete with special attaching plug, long cord and bulb. Will fit all makes of sewing machines. With light for standard 105 to 115-volt 60-cycle alternating current. **We pay the postage.** **$2.30**

FROM LINE TO FINISHED WORK IN ½ THE TIME

Iron-All "Does All"
Simply-Quickly-Safely

The greatest convenience ever offered the home in time, work and money saving!

$5.00 DOWN
$10.00 A MONTH

The Newest Most Modern Ironer

AT LAST! An entirely new Electric Ironer that is as modern as radio, as reliable as the automobile. We told our engineers we MUST have the finest ironer made, one that would successfully meet every household ironing problem. They gave us the NEW Iron-All, the perfect ironer. After hundreds of comparisons and tests of all kinds we are convinced there is no other electric ironer made that outclasses Iron-All regardless of price. We know, too, that *not another ironer on the market will offer the same huge saving* in cost because we have brought all our tremendous resources to bear on this value.

Start at nine, finish at eleven

The ironing surface of 10 flatirons

As easy to run as an electric sewing machine!

Heating Elements Guaranteed 5 YEARS

Read These Exclusive Features:

1—ENAMELED a beautiful shade of pastel green to match the Water Witch washer (see color illustration on page 785).

2—CHASSIS is bolted firmly and rigidly to a pressed steel table which is supported by angle iron legs. Very compact and a most attractive, convenient design. Excess weight and unnecessary parts eliminated.

3—SHOE is heavily plated with chromium, rust and scratch proof. Self adjusting, assuring perfect contact with roll at all times.

4—ROLL covering consists of four thicknesses of an especially knitted cotton pad and an inner roll cover. Heavy cotton external cover easily removed for cleaning. Roll can be stopped rotating while shoe is in contact with it, an important feature for pressing. Full floating open end roll is made of a seamless steel tube, 26 inches long and 6 inches in diameter.

5—GEAR HOUSING contains all mechanism for actuating roll and shoe—no exposed moving parts—together with a lifetime supply of lubrication.

6—TWO CONTROLS, foot or hand, govern action of shoe and roll. Operator can use whichever is most convenient.

7—JEWEL PILOT LIGHT shows whether heat is on or off.

8—RELEASE LEVER located directly in back of shoe releases shoe from roll instantly.

9—ROLL CONTROL is automatic. Roll turns only when shoe is in contact with garment being ironed. When shoe is released the roll stops turning.

10—AUTOMATIC UNIFORM PRESSURE maintained on all points of ironing surface regardless of thickness of garment.

11—HEATING ELEMENTS extend entire length of shoe and consist of two chromolax units guaranteed for five years.

12—BALL BEARING construction assures greater speed in ironing, easier handling, quiet operation, small current consumption and a smooth running, long lived machine.

No Experience Necessary to Operate IRON-ALL

EVEN a child can iron on this simple machine. You need no practice—simply sit down and iron. Flat pieces, bed linen, tablecloths, dresses, children's clothes, everything is ironed beautifully and with amazing speed! A big week's washing that would require a whole day the old fashioned way takes only two to three hours of effortless, comfortable guiding of clothes through the Iron-All. And the quality of ironing it does is perfection itself. Order the Iron-All today and try it for thirty days. You can buy it on our simple easy payment plan if you wish. Cannot be used on 32-volt farm plants but we can supply for other than 110-volt 60-cycle alternating current at $4.00 extra. Floor space, 36 inches long, 16 inches wide, 33 inches high. Shipping weight, 215 pounds.

26R804¼—Cash price..... $ 92.50
Easy payment price..... 102.00

Terms: $5.00 with order, $10.00 a month. Use Time Payment Order Blank in Back of Catalog. Shipped by freight or express from CHICAGO or from a warehouse in DETROIT, MICH., not prepaid. Send your order to our Chicago store.

Double your savings by getting double the work from your Water Witch, Kenmore or Allen Washers. This new idea Jiffy Ironer connects directly with any of these three machines by simply lifting off the wringer and putting the ironer in its place on the wringer shaft. This is easily and quickly done, as both wringer and ironer are light enough to be handled by any woman.

Now the "JIFFY" Ironer

COMPACT - ECONOMICAL
EASY TO OPERATE

YOUR WASHING MACHINE MOTOR PROVIDES THE POWER

A new Ironer which is just as efficient, just as sturdily built, does the same work as quickly and as perfectly as any electric ironer made. If you have waited for a compact machine at a price within your reach, delay no longer. The Jiffy answers every purpose, meets every demand for speed, labor saving and economy. It will preserve your health and your youth and give you more time for pleasure. It will do all your ironing in one-half the time. Use the Jiffy on flat work, the hardest most tiresome part of your laundry, or on children's fancy dresses or men's shirts. Note its magic speed, the amazing perfection of its work. It heats in 4 minutes which is as fast as an ordinary electric iron. The ironing surface is equal to 10 flatirons. The Jiffy is as portable as your vacuum cleaner and occupies no more space in corner or closet when put away.

Try this new appliance in your laundry for thirty days. Test it alongside any other ironer you wish. Consider the quality of its construction and then compare the saving. If you are not completely satisfied send back the ironer and we will gladly return your money, together with transportation charges you have paid. Shipping weight, 55 pounds.

26R805¼—Cash price..... $45.00
Easy payment price..... 50.00

Terms: $4.00 down, $5.00 a month. Use Time Payment Order Blank in Back of Catalog. Shipped by freight or express from CHICAGO or from a warehouse in DETROIT, MICH., not prepaid. Send your order to our Chicago store.

The ALLEN A FAVORITE MODEL A POPULAR PRICE!

ONLY $69.50 CASH PRICE

Easy Payments ONLY $5.00 DOWN $6.00 A MONTH

The Standard Electric Washer Preferred by Thousands

A bargain! We've sold the Allen for years to those of our customers who prefer the cylinder type of washer. And we've sold it at the lowest price known for washers of this style and this quality. For the Allen is a quality washer, from the modern **All Metal** swinging wringer with full size 12-inch semi-soft rubber rolls to the self oiling bearings that never need attention—a feature found elsewhere only on washers selling for $125.00 to $175.00—or the troubleproof, splashproof motor with its low current consumption. Every nut and bolt, every carefully machined part, every detail of construction is designed to give you satisfying service, to relieve you of all washing machine worries for years to come. Simple to operate. Just place clothes in the all aluminum cylinder which rocks gently back and forth and in a few minutes they are spotlessly clean. Cylinder is smooth as glass and cannot tear the daintiest garments. Easily lifted out for cleaning. The motor is splashproof, latest type, full ¼ horse-power with economical current consumption. The strong angle iron frame assures rigidity and sturdiness of this long lived washer. The beautiful battleship gray enameled body is the final touch of quality to a washer you will be proud to own. Every Allen bears the seal of approval of Good Housekeeping Institute, insuring perfect construction and satisfactory operation. Send us your order together with the small down payment required. Try the Allen in your home for thirty days and compare it in every way before you decide. Then if you are convinced of the value and the saving send us only $6.00 a month until the machine is paid for.

Insist on These Features:

1—Self Oiling Bearings.
2—All Metal Swinging Wringer.
3—All Aluminum Cylinder.
4—Splashproof Motor.
5—All Metal Body.
6—*Approved by Good Housekeeping.*

Special Voltage Motors

If the electric current supplied to you is different from the standard 105 to 115 volts, 60 cycles alternating current, we charge $4.00 more for the washing machine because the motor manufacturers make an extra charge for these special voltage motors. When writing your order be sure to mention whether you use direct or alternating current, and the voltage and cycles. This information will be found on your electric meter.

Tested and Approved Good Housekeeping Institute

The DOLLY WONDER With New Improved All Metal Wringer

A wonder for efficiency and a wonder for saving. Never before a washer of this style, of this quality, with these features for so little money. Complete, motor equipped, ready to run, at an unheard of bargain price. We offer a dolly washer with a genuine all metal wringer, far superior to the old style wood wringers which become waterlogged and soon rot away. The Dolly Wonder, built on this famous reliable washing principle, is a special bargain value, purchased in huge quantity to offer our customers a real rock bottom price.

Other special features of the Dolly Wonder are the big roomy family size tub of genuine inch thick cedar, the heaviest made and impervious to water and moisture. Strong galvanized hoops that will not rust. Legs that can't become rickety. This is the way it is built throughout. Every bolt and board of the Dolly Wonder is made of good quality material, and it is carefully and lastingly constructed. Operated by a powerful ¼ horse-power electric motor, it will do the family washing week after week and month after month easily and economically. And the Dolly Wonder is a wonder for washing! Put an ordinary size washing into the machine, shut the lid, start the motor, and the usual one-day washing is clean and white in a few minutes!

Very simple. The dolly oscillates back and forth through the clothes, rubbing them gently against the corrugated tub bottom and sides. Washes safely, surely, quickly. Safety wringer swings and locks to all necessary positions. Finest quality, semi-soft rubber rolls, easy on clothes and buttons. Metal drain board is extra wide and reversible. If you want a good dependable electrically operated washing machine at a price guaranteed to save you money, you need look no further. Order the Dolly Wonder today!

PROMPT SHIPMENT

No long wait. These machines are crated and ready for shipment in our **CHICAGO store. Not prepaid.**

The Best Hand Power Washer Made

No need to dread the work of washday. This High Speed Wizard uses the simplest principles to make your washday easy. The slight touch of your hand on the handle transfers enormous forces of leverage to smooth running gears, rotating the dolly at high speed with hardly any effort on your part. Your washing is done, and done well, in a mere fraction of time usually necessary. There's nothing complicated, nothing to get out of order. No other hand operated machine can offer so much of efficiency and ease. Every latest device that adds to your convenience is incorporated in the High Speed Wizard. A special frame for attaching a hand wringer is placed at one side of the tub in a position that reduces the work of wringing to a minimum. The lid fastens with a strong hasp and is quickly lifted and out of the way when wringing. In every way the High Speed Wizard is the superior hand washer.

Built for Long Service

The construction and material are far superior to the ordinary machine of this price. Heavier parts and wood from specially selected stock give lasting satisfaction.

Every detail is made well. The gearing is the result of years of experimenting. A special arrangement of the handle socket permits operation from a standing or sitting position, making it easy to operate. The inside of the full size, six-sheet capacity tub is corrugated, which means cleaner clothes and quicker washing. Metal drain cock is conveniently located on side of tub. **Shipped from CHICAGO store, not prepaid.** Shipping weight, 115 pounds. **Sold for cash only.**

A LARGER Tub-A BETTER BIGGER Saving and a

ENDURANCE for 10 Years and More

Absolutely Proved

by 3,455-HOUR NON-STOP TEST

Quality predetermined on the test block. Durability of every part checked before we ever sent out a single washer. We had to be sure before we backed the Water Witch with our name and our guarantee. We know, and now over a hundred thousand happy women also know, that this advanced gyrator is second to none!

Save $55.00 to $85.00!

Not even the highest priced washing machines on the market have all the quality features of the new Water Witch. Compare it with those costing as much as $175.00 elsewhere and you'll find that feature for feature the Water Witch is actually superior. Why pay a premium, why not pocket the saving we offer you? Why should you pay the high commissions, the high overhead, the high distributing costs of other manufacturers? Why not take full advantage of the enormous buying power of twelve million customers? Buy a Water Witch today and save $55.00 to $85.00!

Money Cannot Buy a Better Washer! Finest Construction Throughout

Every day we receive enthusiastic letters from customers who have bought the Water Witch. "Best ever built." "Washes perfectly." "Cleans clothes in 3 to 7 minutes." "Never tears even the sheerest silks." "No hand rubbing needed even on soiled cuffs—the Water Witch does all the work." "Removes grime and grease from the dirtiest overalls." "I never need to search around for oil holes—the self oiling bearings are a wonderful convenience." "Clothes never tangle or tear in your gyrator." "The solid coppertub is easily cleaned because it's nickeled inside." "Tub is extra large, which means I can wash more clothes in less time." "It looks like the Water Witch is so well built it can never wear out." These are only a few of the many comments we receive—our customers know the Water Witch is a better washing machine, that it always gives satisfaction.

Guaranteed 10 *Years*

A guarantee that the Water Witch must live up to because it is built that way. In a recent test this remarkable washer was operated for 3,455 hours, the equal of 10 years' actual washing service, and apparently could have gone on and on indefinitely. An unheard-of, unparalleled performance! The most convincing proof of the perfection and durability of every part. So certain are we of the quality and workmanship of the Water Witch that we absolutely and unconditionally guarantee it against all defects in material and workmanship for 10 years. Behind this guarantee stand the entire resources of Sears, Roebuck and Co., the World's Largest Store.

30 Days' Free Trial

We urge you to prove every statement, every claim we make about the Water Witch. We urge you to compare it with any machine made, bar none, regardless of name, make or price. Try it in your home on your washing for 30 days. Then if you are not satisfied, send it back and we'll gladly return your money together with all transportation charges you have paid.

A FEW of the Exclusive Water Witch FEATURES

Self Oiling Bearings

The Water Witch is built with finest quality bronze graphite bearings that furnish a constant and positive supply of oil as needed. No guesswork, no chance of the Water Witch bearings burning out because of lack of oil. Self oiling for the life of the washer. No groping around with a messy oil can looking for oil holes, soiling your hands, wasting your time. **Never before has this feature been offered on any washing machine that sells for less than $125.00.**

When you compare the Water Witch with other washers, do not overlook this all important construction. Do not buy a washing machine that is not equipped with self oiling bearings.

Splashproof Motor

The very best obtainable splashproof motor is used on our washers. Manufactured especially for washing machine use by one of the oldest and largest manufacturers of fractional horsepower motors in America. An exceptionally high grade motor that is not subject to damage or injury when water is carelessly splashed or spilled on it. The thorough waterproof construction protects at all times the parts that are liable to damage or injury from water. Designed with sufficient capacity to drive both the washer and wringer at the same time, without danger of overloading the motor. Absolutely troubleproof, full capacity ¼ horsepower motor.

Extra Wide Tub

The tub of the Water Witch is **round**, the most satisfactory design known. Has no square corners to offer resistance to the water and set up cross currents. Compare the extra width of the Water Witch tub, it's 24 inches wide, which means bigger capacity and quicker washing. More convenient, also, to put in and take out clothes. Just the right height. Made of solid, rustproof copper, constructed of one piece and without rivets to become loose and leak. Nickeled on the inside for easy cleaning. Bound at top with extra heavy aluminum frame into which lid fits snugly and securely.

Triple-Vane Gyrator

The Water Witch is known as a gyrator type of washer—the fastest washing principle ever devised. The speedy, triple-vane gyrator swirls the water back and forth through the clothes, removing all soil from even the dirtiest grease covered work garments. No high center post, nothing to catch or tear clothes. Permanently watertight construction because the gyrator receives its impulse above the water line. The Water Witch gyrator receives its impelling force above the water line, hence requires no stuffing box or glands, all of which will wear and permit water to leak through from the tub.

Digitized by Google

Wringer-A FASTER Gyrator GREATER Washer!!!!

A MAGNIFICENT washing machine! A beautiful, finished, quality product. A modern washer, with modern conveniences, modern appearance, modern coloring. The new sky blue lacquered body blends perfectly with the brightly polished solid copper tub. A pleasure to behold, but a greater pleasure to operate. For the Water Witch shoulders every duty of washday, relieving you of all effort on your part. Like magic it removes every bit of dirt from soiled garments, leaving you not even the customary hand rubbing to do. Nothing has been overlooked, not one detail slighted, not one convenience forgotten. You will agree, once you have tried the Water Witch, that here is the perfect washing machine.

$5.00 DOWN
$7.00 A MONTH

New Positive! SAFETY Wringer

ABSOLUTELY safe! Not the slightest chance of injury to yourself, your children, your clothing. Instant safety release is positive, sure, never failing. This new development is the latest improvement to the Water Witch, the final feature that establishes its supremacy. You owe it to yourself, to your family, to insist on a wringer of this kind on your washing machine. A simple, easy flick of the lever and all the pressure is instantly removed from the rolls of this new wringer. Can also be quickly taken apart for cleaning. The balloon type rubber rolls remove all the water and protect the buttons from damage. Can be used while you are washing another tub full of clothes and swings to all positions. All metal construction throughout.

"The NYMPH"

Mid Week Washer

Included at No Extra Charge

You pay not one penny additional for this handy, new convenience. An amazing labor saving, money saving appliance that we are offering for the first time to make the Water Witch such a sensational value, that you simply can't even consider any other washer. The Water Witch and the Nymph are an unbeatable combination, a pair of willing workers always at your service. Ideal when you have only a few clothes or the odds and ends of the mid-week wash and particularly with the daily wash incidental to the infant baby. Keep it in the bathroom or bedroom and when filled with soiled clothing simply add soap and hot water, then place the Nymph over the post in place of the agitator in the Water Witch and turn on the power. In a few minutes the clothes are spotless. Cleans on the same gyrator principle as the Water Witch. Don't be without this added convenience.

Just Right Size for Small Washings

All High Selling Costs Wiped Out

$89.50 CASH PRICE

Shipped promptly from the factory in SOUTHERN MICHIGAN. Not prepaid. Shipping weight, 270 pounds. When ordering on easy payments use Time Payment Order Blank in Back of Catalog.

Catalog No.	Water Witch Electric Washer	Cash Price	Easy Payment Price	Payment With Order	Monthly Payment
26R578⅓	With motor for alternating current, 105 to 115 volts, 60 cycles	$89.50	$98.50	$5.00	$7.00

Special Voltage Motors

If the electric current supplied to you is different from the standard 105 to 115 volts, 60 cycles, alternating current, we charge **$4.00** more for the washing machine, because the motor manufacturers make an extra charge for these special voltage motors. **When writing your order, be sure to mention whether you use direct or alternating current, and the voltage and cycles.** This information will be found on your electric meter.

BALL BEARINGS

Lindbergh, Byrd

Ball Bearings, simple as they are, have been largely responsible for the success of these daring "bird men." For it has been Chrome Alloy Ball Bearings, the same as used in these lawn mowers, that have protected the motors of their planes in the gruelling tests that they have been put to. Fast moving machinery knows of nothing better than the reliable, frictionless and long wearing Chrome Alloy Ball Bearing.

$11.90 16-Inch WE PAY POSTAGE

THE WORLD'S LARGEST DEALER IN LAWN MOWERS

Guarantee

We guarantee the BEST MADE Lawn Mower to be the equal in quality of any mower anywhere selling up to $25.00. We guarantee to return your money if you are not completely satisfied that your BEST MADE mower is the greatest 5-blade lawn mower value ever offered.

SEARS, ROEBUCK AND CO.

BEST MADE *5-Blade* LAWN MOWER

This new mower is a beauty in every respect. Mechanically it is perfect. It is so much better than the average that there is no comparison. You have only to push it over your lawn but once to be convinced that the BEST MADE is a far superior lawn mower.

Smooth, quiet, easy to push and cuts with velvet evenness, this mower has every trait of the "thorobred" that it is. Prices—yes, we believe you will agree, they are very low. Our lawn mower business today is far greater than has ever been known before

Reasons Why This Is a Better Lawn Mower

Wheels—Oversize, 11-in. high, make this mower easier to push and faster cutting. The wide 1¼-inch tread insures greater traction.

Full Width Cut—Full 16, 18 and 20-in. A great many manufacturers supply mowers that cut from ½ to 1 in. less than the size given. Wider cut means quicker work.

Revolving Cutters—There are 5 of them. Made of crucible steel tempered in oil, braced with 4 malleable iron brackets (instead of the usual 3). Blades are double riveted at ends—practically impossible for them to twist out of shape.

Wiping Cut—These 5 revolving self-sharpening blades wipe (not push) the grass across the bed knife and give a clean shearing cut of velvety smoothness.

Ball Bearings—Both balls and cones are made of newly developed Chrome Alloy Steel of diamond-like hardness. Will run for years without needing adjustment or showing signs of any wear. The most practical of all bearings.

Shrub Bar and Frame—Cutting blades to be kept in perfect line must revolve in a very rigid frame. The frame of the BEST MADE is very strongly constructed and braced with a shrub bar of finest steel shafting.

Cutter Bar—So firm that it always stays in perfect alignment with the revolving blades. The bed knife is made of genuine Disston saw steel and is easily adjustable. Produces a keen self sharpened edge at all times.

Gears—Are specially hardened. Oiled from spring oil cups that cannot fill with dirt and gum the gearing.

Handle and Roller—Best selected hardwood. Roller easily adjusted for height of cut. Fitted with grass catcher brackets.

Finish—The new BEST MADE is finished in beautiful colors of bright gold, edged and trimmed in royal blue. Natural wood handle is thoroughly varnished to withstand the weather.

Comes Perfectly Packed—Completely oiled, sharpened, adjusted and ready for use. Shipped postpaid in a strong wooden box.

A 5-Year-Old Runs It!

I bought a lawn mower from you a few weeks ago, and I think it is the easiest running mower I have ever used. My little grandson, 5 years old, can run it. We like it fine. C. E. WAGONER. (*Address furnished on request*).

SO Easy to Push

Here's the Reason

In a fine watch the wheels, where friction is great, revolve on jeweled bearings. And so with the BEST MADE mower. The cutting blades, which turn 5½ times as fast as the wheels, revolve on Chrome Alloy Ball Bearings.

SUNRISE

We Pay the Postage

$4.95 12-Inch Cut

Self Sharpening 3-Blade Lawn Mower

For small lawns an inexpensive mower such as this often serves the purpose. The SUNRISE has 8-inch wheels and 3 cutting blades. Don't compare it with the ordinary lawn mower you find at this price. Mowers of SUNRISE grade usually sell elsewhere for $7.00 or more. Spiral cutting blades and bed knife are made of hardened steel. Gearing completely enclosed. Finished in dark green and black with natural finish handle. We pay postage.

MANY MILLION FEET Will Be Bought From

Millions of feet of our hose are used and praised throughout the country. That's proof of its high value. Many millions more feet of our hose will go out to our customers this year because they will make the biggest saving possible on highest quality hose, made like a cord tire for long, hard wear.

Nowhere Else Can You Buy

CORRUGATED COVER

NON-KINKABLE

COUPLINGS ATTACHED

CONSTRUCTION

"Not-A-Kink"

Black Corrugated Double Guaranteed Hose

Now, for only $3.65 you can buy a complete outfit—50 feet of 5/8-in. "Not-A-Kink" black corrugated hose, a heavy polished cast brass nozzle, solid brass couplings, and washers. It just can't kink! The double braided construction and heavy rubber inner tube and outer cover protect it, the same construction as the cord tire. Our prices are much lower than what you'd have to pay locally. Compare them and you'll discover you can buy at least one-third more hose from us on your saving. "Not-A-Kink" is double guaranteed—by the manufacturer and by us—to give years of satisfactory service. You can buy it by the foot, too. **We pay the postage.**

OUR "BEST MADE" HOSE

11c Per Foot *We Pay Postage*

"Best Made" 5/8-Inch Red Corrugated Hose The Finest Made

Our Guarantee

"Best Made" corrugated red rubber hose is guaranteed for 5 years against defects in material and workmanship or we will gladly refund your money.

Buy a Complete Outfit for Convenience

Compare this handsome red corrugated rubber "Best Made" hose with others! What a difference—both in price and quality. It'll last all of those 5 years guaranteed and then some. Those rigid, tough corrugations protect the surface against the continual pulling and dragging that hose suffers in every day use. Get a complete outfit of 50 feet—it'll save you time. The price includes a high grade, heavy brass nozzle and brass couplings. These couplings are tightly attached to the hose. You can buy it by the foot if you wish. **We pay the postage.**

OF GARDEN HOSE

Sears This Year

Huge sales result from satisfied customers. Every foot of hose we buy is tested so we may be sure it is worthy of our confidence, and so we may be sure it will give absolute satisfaction. It must stand terrific pressure, 300 to 400 pounds to the square inch. Average city water pressure is between 30 and 60 pounds to the square inch.

Hose Outfits at These LOW PRICES

IS GUARANTEED 5 YEARS

"Best Made" ¾-Inch Red Corrugated Hose
The Hose With Long Life
Our 5-Year Guaranteed Hose

Full ¾-inch inside. Delivers 100 per cent of the water. Does that sprinkling job quickly. Every particle of pure gum rubber, every fiber of long staple cotton that goes into the construction of "Best Made" hose is selected only after the most rigid tests. Special braiding machines are used to construct the **heavy double braided solid cord walls** which make it possible for us to guarantee this hose over a long period of years. Remember, "Best Made" hose is built exclusively for Sears, Roebuck and Co., and cannot be duplicated elsewhere. Our price for "Best Made" hose is less than others ask for ordinary garden hose that at best can only last a season or two. **We pay the postage.**

CEL-O-GLASS BETTER THAN GLASS CHEAPER THAN GLASS

Far superior to window glass for poultry houses, dairy barns, sun parlors, playrooms and all places where the ultra-violet rays of the sun are beneficial.

14½c Sq. Ft. In 25-Ft. Rolls. We Pay Postage

Lots in Plenty of Light—Keeps Out the Cold

Cel-O-Glass is cheaper than glass, easily applied, unbreakable, flexible, weatherproof and durable. Ultra-violet rays promote vigorous growth of poultry and plant life. Cel-O-Glass is endorsed by scientists in universities all over the world instead of window glass for poultry houses, hot beds, etc. For best results, Cel-O-Glass should be used in a vertical position and frames should be removed during the hot months and stored under shelter. **Write for sample. We pay the postage.**

99R4527—Running foot (36 in. wide).....**$ 0.46**
99R4528—6¼-foot roll (36 in. wide)..... **2.80**

Pep Up the Old Wagon WITH LOW PRICED SET OF INDESTRUCTIBLE STEEL WHEELS

FEATURES

SPINNER RIVET HEAD SPOKES PROTECTED BY GROOVED TIRES

SPOKES CAN'T BREAK OUT OF RIM OR HUBS

Change to WEARWELL Steel Wheels

End the bother and expense of resetting tires, replacing wood wheel spokes and buying new felloes. Wagons equipped with WEARWELL steel wheels pull easier on dirt, macadam or concrete roads. The wide tread makes them the ideal wheel for use on soft or freshly plowed fields. Semi-steel hub with grease retaining chamber gives sufficient lubrication at all times. Unbreakable all steel spokes are hot forged into hub under tremendous pressure. Ordinary wheels have spokes cast in hub. Spokes upset outside of hub and under tire rim. Welded grooved tires protect spinner riveted heads of spokes. Thoroughly inspected before being shipped. Made to order to fit any tapered skein from 2½x8 to 3½x11 or any straight axle from 2x8 to 3x11 inches. Be sure to follow directions below on "How to Measure." Shipped promptly from factory near CHICAGO. Shipped only freight or express; not prepaid.

Regular "WEARWELL" Steel Wheels — Regular ½-Inch Spokes and ⅜-Inch Tire.
Extra Strong "WEARWELL" Steel Wheels — Extra Heavy ⅝-Inch Spokes and ½-Inch Tire.

Set of 4	$5.70	$6.30	$7.40

SAVE WORK! SAVE TIME! SAVE MONEY!

HOW TO MEASURE YOUR WAGON SKEINS

Use calipers or cut cardboard to fit over each dimension. Give exact sizes; we allow for play. Measure from side to side of skein, not from top to bottom, skeins are often badly worn. Measure BOTH front and rear skeins and give:
1—Length of spindle.
2—Diameter of flange or collar next to spindle.
3—Diameter of spindle at largest point.
4—Diameter of spindle at small end, next to nut.
5—Diameter of nut, largest point.

SARVEN PATTERN Buggy and Light Wagon WHEELS Complete With Round Edge Tires

Furnished without boxes. We do not set axle boxes in hubs. If desired, we will sell half sets at one-half price of full sets.
Shipped promptly from factory in OHIO. Any height from 34 to 48 inches can be furnished. State height wanted. Shipped only freight or express; not prepaid.
Extra High Grade. Selected straight grain thoroughly seasoned hickory spokes. Rims are screwed on each side of each spoke to prevent splitting. Hubs have extended malleable iron flanges. Round edge steel tires are bolted between each spoke. Cost a little more than ordinary repair wheels, but will give you double the service and save you money. Extra high grade wheels are furnished in the white. Oil finished.
Extra Standard Grade. Seasoned hickory stock, and fully bolted. Will give satisfactory service on repair work. Extra standard grade wheels are primed in oil and lead.

Kind of Wheels	Size of Tire, Inches	For Axle, Inches	Shpg. Wt., per Set, Pounds	Extra High Grade	Set of Four	Extra Standard Grade	Set of Four

Double Guaranteed

In addition to our own broad guarantee, every foot of "Double Stitched" Canvas Belting is guaranteed by the manufacturer to be the best at any price, made according to exclusive time-tested specifications—that the duck is of highest grade U. S. standard long fiber cotton—that all oils, compounds and other materials used are the very finest the market can produce—that the manufacturing process represents the very last word in technical and engineering skill. Should any belt prove defective in materials or workmanship, we will gladly replace the belt or return your money. **We must satisfy you.**

DOUBLE STITCHED CANVAS BELTING

Your Assurance of Belting Satisfaction

The quality you desire—the service you demand—the prices you wish to pay. You can pay more elsewhere, but we guarantee you won't be able to buy better belting. Only the resources of the World's Largest Store coupled with that of the manufacturers of the world's finest belting makes possible such a belting at these rock bottom prices.

You'll find "Double Stitched" Reinforced Edge Canvas Belts are made of 4-ply 32-ounce U. S. standard long fiber cotton duck, each ply thoroughly cured and impregnated with a special compound to give flexibility and longer life, and to increase tractive power. Unnecessary stretch is removed by a special process. Requires no breaking in. Waterproof, chemical proof and heat resisting. It takes more than 6 feet of belting to make a good splice. We charge you just half the amount, **so that sewed splice endless belts will actually run 3 feet shorter than sizes shown.** Clipper spliced belts are full length. ***We pay the postage on belts unless otherwise stated.***

The Most Practical of All GARAGE DOOR HARDWARE

"Clear View" Around the Corner 3-Door Garage Set

Usual $6.50 Value Elsewhere

$4.60 Complete for 8-Foot Opening

Doors slide around the corner inside the garage and out of the way. Require very little floor space. Easy to operate. Easy to install. Not affected by wind or weather. Three-door arrangement permits two doors to slide around the corners either to the right or left inside garage. **Service door provides a convenient entrance and may be hinged to jamb on the right or left side**, or the three doors may be hinged together if preferred.

Complete equipment: 3 roller bearing hangers; 3 6-inch heavy strap hinges; 3 8-inch extra heavy "T" hinges; 2 handles; 1 thumb latch; 2 floor door guide plates; 1 door bumper; 6 28-inch sections of flat track, and 1 curved piece. Complete with bolts, screws and instructions.

Fits any opening up to 8 feet. wide. Shipping weight, per set, 45 pounds.

*99R4454—Shipped only by freight or express not prepaid.....$4.60

$2.90 Complete for Doors Up to 8 Ft.

"Storm King" Garage or Barn Door Hangers

Gray Enameled Finish

We guarantee that a set of this quality cannot be purchased elsewhere for less than $5.00. Strong, simple, easily applied hanger. Stormproof, birdproof, and cannot jump the track. Large 2½-inch wheels reduce friction to a minimum. Both lateral and vertical adjustment. Easy to get any clearance. Sets include double roller hangers complete with adjustable rail, screws, clips, brackets, etc. **Shipped only by freight or express, not prepaid.**

"Craftsman" Hand Saws

$1.95 26-In. Hand We Pay Postage

For High Grade Carpenters' Use

This Quality Sells for at Least $3.00 Elsewhere

The quality is built right into this fine "Craftsman" Saw. You'll discover that the first "bite" it takes in the wood. Special analysis crucible alloy saw steel, spring tempered and double taper ground. Four gauges thinner on back than at cutting edge. Back of saw tapered four gauges from handle to point. Perfect taper prevents buckling, reduces friction and allows the saw to run easily. Teeth are bevel filed by hand to a needle point. Carved and polished apple wood handle fastened by five solid brass, nickel plated screws. Our prices save you almost one-half over prices elsewhere. Perfectly balanced. Beautifully finished. State size, point and style wanted. We pay the postage.

Bishop's Greyhound No. 300

$2.90 26-In. Hand

A genuine Bishop's Greyhound Saw usually sells for around $4.50 elsewhere. Buying for over eleven million customers gives you the benefit of our savings. Thousands of skilled mechanics and saw experts buy saws from Sears because they know that finer saws are not made. Their money always goes farther here. Finest chrome nickel alloy steel, tapered in the most approved manner. Teeth are bevel filed to a needle point. Highly polished and carved solid mahogany handle fastened with five nickel plated brass screws. Lightweight, keen cutting, fast running. Our special prices will save you at least one-third on this highest quality saw. State size, point and style wanted. We pay the postage.

Worm Gear Ball Bearing Bench Drill

Skilled workmanship and finest materials only could produce this quality bench drill. Cut worm gears run noiselessly. Adjustable 3-jaw chuck takes straight shank drills 0 to ½-in. and holds drill in perfect alignment. Will bore true at all times. Spindle has end thrust ball bearing with hardened steel races. Flywheel makes 2 revolutions to 1 turn of crank. Table and base are lathe turned. Drills to center of 12-in. circle. Greatest distance between chuck and base, 13 in. Lgth. of column, 25 in.; 1½-in. diam. Ht., overall, 32 in. Shpg. wt., 65 lbs. **Shipped only by freight or express (not prepaid).**

99R5058.....**$13.95**

Acme Post Drills

Self Feed—Ball Bearing

Two Speed. High grade, for garage, shop or farm. Chuck holds ½-in. round shank drill in perfect alignment. Drills up to ⅞-in. holes to center of 12½-in. circle. Lathe turned slotted drill table adjusts 9 in. 12x1¾-in. flywheel can be used with drive belt. Slow speed is obtained by using handle on flywheel. Forked table rest for drilling wheel rims. Adjustable crank. Shipping weight, 65 pounds.

99R5077.....**$6.25**

Single Speed. Similar to above. Strongly built and dependable. For shop or farm. Chuck holds ½-in. round shank drills. Round slotted drill table (shown in small illustration) is machined and adjusts 9 in. Drills ¾-in. holes to center of 12½-in. circle. Adjustable crank; 12x1½-in. flywheel can be used with belt. Height, 32¾ in. Shpg. wt., 60 lbs.

99R5073.....**$4.85**

Post drills are mounted on hardwood plank. Lag screws for attaching included. **Post Drills above are shipped freight or express (not prepaid). Round Shank Drills to fit Post Drills are listed below.**

Acme 2-Speed Self Feed Post Drill

Heavy Duty—Ball Bearing

Usually $15.00 elsewhere. Sturdy and powerful; handles the heaviest work of garage and repair shop. Chuck is accurately machined and will hold ½-in. round shank drills in perfect alignment. Spindle has end thrust ball bearings and a range of 4 in. Drills up to 1¼-in. hole to center of 15-in. circle. Heavy 14x1½-in flywheel develops speed quickly and can be used with belt for running drill by power. By changing crank to improved third gear, slow speed is obtained. Lathe turned heavy drill table is adjustable 12 in. up or down, and swings to either side. Forked table rest is convenient for drilling wheel rims. Crank is adjustable. Mounted on hardwood plank. Lag screws for attaching included. Height, 36 in. Shipping weight, 105 pounds. **Shipped only by freight or express; not prepaid.**

99R5081.....**$8.90**

Amazing Pre-Publication Offer

An Entirely New
ENCYCLOPAEDIA BRITANNICA
FOURTEENTH EDITION

Revised : Rewritten : Reset
Absolutely Up to the Minute

The New 14th Edition of the Encyclopaedia Britannica will be a *complete revision* of this famous work. It is the first entire rebuilding of the Britannica in nearly twenty years—radically different from any previous edition, and from any similar reference work.

This New 14th Edition will be a complete, up to date survey of *all* knowledge. It has been written by the largest body of eminent authorities ever engaged on a work of this kind—more than 2,500 famous men and women. It reflects the scholarship and the authority which have made the Britannica noteworthy for 160 years.

The First Simplified, HUMANIZED Encyclopaedia

Yet it will be written in simplified language, profusely illustrated, to make its knowledge available to every person of average intelligence.

In a word, the New 14th Edition will be *simplified, humanized.* A practical book for everyday use. Not alone for the scholar but for everyone—for the man in business or on the farm, for the engineer and the college professor, for the mother and for the woman of affairs, for the boy and girl in high school.

Built for this new age, for these interesting times, the New 14th Edition is a complete home library in itself. It brings the whole world, every branch of knowledge, to you. It answers questions—hundreds of thousands of them. It supplements a college education or takes the place of one.

Special Pre-Publication Offer

You will want this new up to date, humanized Britannica. And this special pre-publication offer, which is *the first official advertised announcement* of the New 14th Edition, makes it possible for you to purchase it at a great saving. Not merely a discount, but a *substantial saving* on the regular price of the New 14th Edition at the time sets will be available.

This means that if you order now you can get this marvelous new Britannica at the lowest price at which a new edition has been offered in fifty years.

Write Now for Book of Facts—FREE

There is not room here to give you all the information. But it is all in a FREE BOOK, with pictures of famous Americans writing for the new Britannica, superb color plates, maps, etc., and showing reproductions of bindings and easy terms of payment. Yours for the asking. Do it now, because the demand for this free book, one of the handsomest ever issued, is great and, as soon as the books are printed, this advance offer ends. So send in the coupon today—by the next mail, to make sure!

Humanized, Practical, American, Up to Date

The newness of this 14th Edition will surprise everyone. It is far ahead of its time.

Thousands of new articles on business, bookkeeping, agriculture, science, invention, home management, interior decorating, etc., etc.

Thousands of new illustrations.

Affairs of today covered by leading authorities on sports, radio, photography, aviation, etc.

Your order *now* means a big saving to you.

Beautiful solid mahogany bookcase table, as pictured, included at price.

More Complete—More Beautiful
Low Price
Easy Payments—Free Bookcase Table

Easy Terms of Payment

While this offer lasts (until date of publication) you make a substantial saving on the price of the New 14th Edition. Handsome solid mahogany bookcase table included with each set. Initial payment of only $5.00, the balance in convenient monthly amounts.

You can be one of the first to possess and use this great library of knowledge—new edition, completely revised, re-illustrated. Thousands of new articles; thousands of illustrations, many in color; new maps, etc.

MAIL THIS COUPON TODAY

SEARS, ROEBUCK AND CO.

Please send me, by return mail, without obligation on my part, free illustrated Booklet R3EB about the New 14th Edition of the Britannica; also details of your pre-publication offer, illustrations of different bindings in color, and full particulars of Easy Terms of Payment.

SAVINGS LIKE THIS PROVE THAT WE ARE LEADERS IN QUALITY *and* VALUE!

Figure it out for yourself! This beautiful square front Pedestal Lavatory for only $17.80! You simply couldn't get such a value as this from regular plumbing supply sources at even twice the price! And the reason is obvious. Plumbing supplies and heating equipment are usually sold by local dealers. They buy in small quantities at high prices. They add to the price they pay their own percentage of profit; and then YOU buy, paying the total cost—the price of costly selling!

How different it is at Sears! Sears prices are less than wholesale. They are often below most factory prices. Our tremendous buying power permits us to choose the pick of the World's supplies at far below usual factory prices. Moreover, we sell direct—saving hundreds of thousands of dollars—and we pass on these great savings to you!

The Seal of~ TRIPLE AAA QUALITY *Lifetime Quality*

You will find the above seal on every piece of plumbing enamelware that you purchase from Sears. It is the stamp of "Triple A A A" quality, our own registered trade mark backed by the World's Largest Store. It certifies that **every piece** has passed our own rigid inspection, and that it measures up to the most rigorous grading rules. The "Triple A A A" seal signifies high quality castings, lifelong enamel work, and master craftsmanship. But it means even more! It signifies lasting **satisfaction**—that you cannot purchase better fixtures of their type anywhere at any price. It indicates the reason why we can safely guarantee our wares to be of highest quality **material** and workmanship; that they will give **satisfactory service** when properly installed; that all goods received from us represent full value received.

Naturally hundreds of enthusiastic users write in to tell us of their satisfaction. Says Mr. H. C. Flora: "I have from you a Hercules furnace, range boiler, electric pump and complete bathroom outfit. I lose no opportunity of lauding the purchase of any commodity whatever from Sears;" and Mr. R. W. Schrock writes: "My new sink adds 95 per cent to the looks of my kitchen. I saved $31.00." (Addresses Furnished on Request.)

NEW Easy Payment Terms on All Plumbing and Heating Goods

When Total Order Amounts to $25.00 or More

Now you can have those fine plumbing and heating fixtures you've always wanted! Running water in the kitchen and barn; hot and cold showers, a spotless shining bathroom, a heating system that really heats—all at prices far below those charged elsewhere. And you need not pay cash in full with order. No need to save and wait, hoping that **some day** you can have these luxuries. Just choose the things you want now—and pay a few dollars down. Then pay as you use. That's the new Sears-Roebuck plan on all plumbing supplies and equipment, bathroom fixtures, kitchen sinks, laundry tubs, range boilers, heating plants, pipe and pipe fittings. Every bit of material you may need can now be combined in a single Easy Payment purchase, provided your order for Plumbing and Heating amounts to $25.00 or more. The table at the right shows you how the plan works. All articles shown on pages 822 to 841 are included in this great plan.

Turn over the pages of this great plumbing section. Invest in these fixtures which pay dividends in better health, greater comforts, higher realty values. A new bathroom installation will increase the value of your home at least $500.00. Your health will be better with the old outhouse abolished—your home more attractive with running water throughout. **And now you can do it—and save almost one-half!** Could an offer be fairer? A slight carrying charge is made for bookkeeping and accounting expense. But even at that you pay far below usual prices.

Let our Free Engineering Service estimate on a complete plumbing installation for you. Send us rough sketches of your basement, first floor and other floors with dimensions of the rooms and heights of the ceilings. Give distance from basement floor to roof, and the distance of water source to house. Write also for our FREE book, "Instructions for Installing Modern Plumbing Systems," C7777R. This shows you how to save still more by installing this equipment yourself.

You Can Buy $25.00 Worth of Plumbing Supplies and Heating Equipment or More on the Following Easy Payment Plan:

If Cash Price of Your Order Amounts to	Add to Cash Price for Easy Payment Terms	First Payment With Order	Monthly Payments
$ 25.00 to $ 30.00	$ 3.00	$ 5.00	$ 4.00

HIGHEST-QUALITY BATHROOM

VENETIAN Built-In Corner Bathtub

This beautiful corner bathtub is the last word in sanitary bathroom fixture design. Entire tub is coated both inside and outside with high quality genuine white porcelain enamel. Waste and supply fittings are solid brass, concealed in the wall so that only the controlling knobs and the nickel plated brass water spout protrudes. Tub is 30 inches wide over all. Furnished for right or left hand corner. Large illustration shows tub for right hand corner. Small illustration shows tub for left hand corner. **Read specifications below carefully and be sure to order correct tub.** Shipping weights: 5-ft. size, 515 lbs.; 5½-ft. size, 570 lbs. **For iron pipe threads add 50c to price of tub complete.**

This tub is furnished with over-rim spout as illustrated, or with spout on inside of tub. The first two tubs quoted below have over-rim spout, china wall controls for hot and cold water, connected waste and overflow with chain and stopper.

Ambassador White Vitreous China Lavatory

Genuine white vitreous china flawless quality—at one-half the usual price asked elsewhere! No other material used in manufacture of plumbing fixtures has acid and chemical resisting properties equal to white vitreous china. Many medicines and toilet waters, etc., contain chemicals which are destructive to the fine finish on enameled iron lavatories. That's why white vitreous china lavatories are now becoming so popular. This lavatory will retain its beautiful smooth, white finish. It will never become pitted, rough or discolored, should medicines or other chemicals be accidentally spilled or splashed on it. Will not crack, craze or peel. One-piece construction and careful firing assures strength and long service. Easy to clean and keep clean. Wide top slab panels provide ample room for toilet articles. Fittings include compression basin cocks with china index buttons lettered "Hot" and "Cold," metal plug, trap and supply pipes to wall or floor, and china knob pop-up waste. All fittings are solid brass, nickel plated. Size of slab, 18x20 inches. Bowl, 11x15 inches. Back, 6 inches high. **Not prepaid.**

MODERN QUALITY CLOSETS

PRICES BEYOND ALL COMPETITION

For EASY PAYMENTS on Plumbing and Heating SEE PAGE 822

Avondale Closet Outfit

Similar to our Fairfield Closet Outfit described at the right, except bowl is of siphon jet pattern instead of siphon washdown, almost noiseless in its flushing action. Siphon jet bowl, in addition to the regular siphon flushing action, has small jet which projects a solid stream of water at high velocity through the trap of bowl in the same direction as flow of water, so that flushing action is greatly enhanced. Equipped with fine quality genuine white celluloid coated seat, hand rubbed finish. This beautiful sanitary outfit is one of our finest and will add wonderfully to the appearance of your bathroom. Now offered at this unusual price. **Install it yourself and save more.** Shipping weight, 150 pounds. **Not prepaid.**

42R2009¼.....**$25.75**

Oakdale Closet Outfit

Same as Avondale Closet Outfit described and illustrated above, except it is equipped with beautiful mahogany finish seat. Shipping weight, 150 lbs.

42R2001¼.....**$23.95**

42R1877¼—China Tank only, to fit siphon jet bowl. Shipping weight 68 lbs.. **11.25**

42R1898¼—Siphon Jet Bowl only, Vitreous earthenware. Shpg. wt., 57 lbs... **11.95**

Not prepaid.

$4.60 ~ Post-paid

White Closet Seat

There's genuine beauty and sanitation in this gleaming white closet seat. Real hand rubbed white celluloid coating over solid birchwood. Will not crack or discolor and is easy to keep clean. Sanitary as a piece of chinaware. Snowy white, it harmonizes with your other bathroom fixtures. Heavy brass nickel plated bar hinge fits any standard closet bowl. **We pay the postage.**

42R1864¼.....**$4.60**

$2.80 ~ Post-paid

Golden Oak or Mahogany Finish

Hand rubbed finish. Nickel plated brass hinge. Easily attached to any closet bowl. **We pay the postage.** **$2.80**

42R1866¼—Golden oak.....

42R1867¼—Mahogany finish.....**$2.85**

All complete Closet Outfits, also separate closet tanks or bowls, are shipped by freight or express from our store, NOT PREPAID.

We pay the postage on all other merchandise on this page, unless otherwise stated.

Fairfield Closet Outfit

Here is a first class closet outfit at an amazingly low price. Tank and bowl are of beautiful white vitreous china with all the newest improvements. **Tank** has latest improved brass flushing mechanism, copper ball float and compound lever ball cock. Has Douglas ball type flushing valve with overflow and refill tube, white china lever pull, and nickel plated brass supply tube to floor. **Seat** is beautifully finished in mahogany with solid brass bar hinge, nickel plated and polished. **Bowl** is of the siphon washdown type. Tank connects to bowl with 2-inch solid brass nickel plated elbow. Nickel plated brass screws and washers attach bowl to floor. Easy to install. Supply pipe threaded for ⅜-inch iron pipe; no extra charge. Shipping weight 130 pounds. **Not prepaid.**

42R2000¼—Complete with fittings.....**$18.45**

Ridgeland Closet Outfit

Same as our Fairfield Closet Outfit described above, except that it has a beautiful snow white celluloid coated seat to match tank and bowl. White seat adds greatly to appearance of your bathroom. **$20.25**

Fire Extinguishers Should Be in Every Home

$1.88 Post-paid

Protect Your Family

A quick acting liquid fire extinguisher for the home, shop or office. Contains 1 quart carbon tetrachloride, the most efficient chemical known for fire fighting. Equally effective in all fires, including oil, grease and gasoline. Extremely simple in operation; just pull the extinguisher from the hook and throw the fire killing contents into the flames. So easy to handle that a child can operate it, yet so efficient that it is worthy of a place wherever a fire hazard exists. Protect your loved ones and your home by placing one of these fire fighters wherever there is danger of fire. Comes complete with hook for attaching to wall. **Mailable.**

42R898—We pay the postage **$1.88**

Hercules Fire Extinguisher

$10.75 ~

Approved by the National Board of Fire Underwriters.

PORTABLE BATH OUTFIT-Folding Tub and Heater

For Homes Without Running Water

A HOT BATH IN A JIFFY!

One—Two—Three and your bath is ready! Just fill the heater tank with water and light the burner. Water heats sufficiently for bath in thirty minutes. The water runs right into the tub by simply opening the faucet. When finished simply fold it up and roll it away into a closet. No plumbing is necessary. This is really the very last word in bathing comfort and convenience for homes without running water.

Tub is 5 feet long and 27½ inches wide. This is a strictly high grade tub. It is made of galvanized sheet steel with steel roll rim and should not be confused with cheap competitive steel tubs which have wood rims that soon deteriorate. Entire tub is covered with paint enamel, handsome and sanitary. Has 6-foot length of hose which you can attach to the water outlet and let the water run outdoors.

Water heater holds twelve gallons of water. Burns kerosene (coal oil), and will heat the room so you can bathe in comfort even in the coldest weather. Has heavy galvanized steel inner casing covered with an outer casing of light nickel plated sheet steel highly polished. The entire outfit is on roller bearing rollers. It folds up into small space and can be quickly pushed out of the way into some convenient storeroom or clothes closet. Shipped from DETROIT, MICH. Unmailable. Shipped by freight or express not prepaid.
42R3815⅓—Shipping weight, 165 pounds..... **$42.75**
See Our Easy Payment Plan, Page 822.

White Sheet Steel Bathtub

Painted inside and out with white enamel. Has heavy gauge steel roll rim. Light in weight, easily moved about. It may be connected up permanently in your building the same as the heavier cast iron tubs, or it may be used as a portable tub without plumbing pipes. Has white enameled connected waste and overflow threaded for 1-inch iron pipe. Bath cock or supply pipes not included. Shipped from DETROIT, MICH. Unmailable. Shipped by freight or express, not prepaid.

Hercules Water Softener

$75.85

Now at Low 1929 Prices
Sold on Easy Payments

No housewife needs to be told the many advantages of pure soft water in the home. It lightens every household task and effects a big saving in time, labor and supplies. For bathing, shaving, shampooing, laundering, cleaning, and cooking, soft water is constantly needed.

The Improved Hercules Softener takes all the hardness out of water. It is better than a cistern and costs less.

The Hercules Water Softener is installed in the basement, and the hard water piped so as to pass through it. As the water passes through the mineral bed in the softener, all the hardness is caught and held. The mineral absorbs the hardness like a sponge absorbs water. No chemicals are added—just the hardness is removed. The mineral in time takes up all the hardness it can hold. It is then necessary to put about 10 pounds of salt in the softener, which releases the hardness and is flushed to the sewer with the salt. Salt must be added every two to four weeks, depending on the amount of hardness in the water. The mineral does not lose its efficiency; it is permanent, because it is insoluble in water and will continue to soften water for years. "20,000 grain capacity" means long runs without frequent regeneration. The "upward flow principle" means greater softening efficiency, as it keeps the grains of mineral loose with all sides exposed to the water, whereas a downward flow constantly presses down on the grains and packs them more closely together. The handy testing outfit tells you in a jiffy when the softener needs salting. Size of tank, 14 inches in diameter; height of shell, 48 inches; guaranteed to stand 125 pounds pressure. The fittings are ¾ inch in size. The valves are the best obtainable. A 3-inch brass plug with rubber seated gasket on head of tank; 2 cubic feet of high capacity, white synthetic mineral.

Hercules Water Softeners are shipped complete with valves, etc., as shown. Any handy man can easily install it by making a few simple pipe connections. Shipping weight, 420 pounds.
42R2520⅓ **$75.85**

42R1465¼—Hercules Water Softener Salt. Prepared especially for water softener use. Comes in 100-lb. bags. **Not prepaid.**
Per bag **$1.45**

Hercules Kerosene Burning Blue Flame Water Heater

$20.75

Gives all the advantages of city gas for heating water simply and economically. To light the burner simply apply a match. No generation or pre-heating required. Gives steady blue flame without noise or smoke. Can be regulated high or low as desired, or let it burn low constantly and have plenty of hot water always. As only the vapor off the burner is consumed, the wick itself will give lasting service with no more attention than an occasional wiping off with a soft cloth. Burns 13 to 19 hours on a gallon. Has four ⅜-inch copper coils connected to brass manifolds top and bottom. Unquestionably it is one of the most efficient and economical water heaters on the market. Shipping weight, 52 lbs. **Not prepaid.**
42R1828¼ **$20.75**

Flat Rim Kitchen Sinks

$2.50 And Up

Fine, inexpensive cast iron sinks. Use with pitcher spout pump, built-in drain board and back. Made with flat rim. Round inside sanitary corners. Nickel plated strainer. Threaded for 1¼ or 1½-inch iron waste pipe, 25c extra. **Not prepaid.**

HOT WATER at a Turn of the Faucet!

Save on These Fine Quality Galvanized Range Boilers

for EASY PAYMENTS on Plumbing and Heating SEE PAGE 822

To have running hot water under pressure in your home, a range boiler to provide storage for the hot water is a practical necessity. You merely turn the faucet, and have all the hot water you want for washing dishes, bathing and laundering things. Every home needs one of these modern convenienes. A 30-gallon range boiler supplies the requirements of the average family. If you use more than the average amount of hot water, we recommend the 40 or 52-gallon size. We cannot recommend our Hercules Range Boilers too highly. They are constructed from the best quality steel plate and the workmanship is perfect. Each boiler is fully tested under pressure. Heavily galvanized both inside and out and guaranteed for pressure stated. Prices quoted on range boilers complete include stand, tube and couplings. Prices quoted for boilers only do not include anything except the range boilers. **Easy to install. Complete instructions go along with each boiler.**

Shipped by freight or express. Not prepaid.

Standard Weight Range Boilers

Tested to 200 pounds and guaranteed for 85 pounds working pressure.

Hercules Automatic Gas Water Heater

Usually Sells Elsewhere for $80!

$48.85 CASH PRICE

Just turn the faucet and have all the hot running water you want—at every faucet, day or night! This improved automatic storage gas water heater gives you identically the same quality hot water service as you get in a first class hotel. Yet the cost to you is far below usual prices!

Positive Dependable Operation

Gas is consumed only according to the hot water used. When a tank full of water is heated the gas is turned off automatically and only a low pilot flame is kept burning. The dead air space insulating chamber around tank keeps the water hot for many hours. It is in principle like a huge thermos bottle. No additional range boiler or storage tank is required. It is of non-backfiring construction and will not produce carbon monoxide. It is absolutely quiet in operation. Heat from burner passes up through narrow flue space, entirely surrounding circumference of tank from top to bottom. Burned gases pass out through vent flue at top in rear.

Tank has full 25-gallon storage capacity. Made of high grade copper bearing steel, galvanized inside and out. The seams are both riveted and welded and the tank is tested to 250 pounds pressure. Has ¾-inch water inlet and outlet connection. All threaded for iron pipe. The height of heater over all is 5 feet 4 inches; diameter, 15 inches. The entire heater is finished in genuine Duco, a beatuiful olive green color, making it very attractive. Each heater is equipped with Brass Adjustable Relief Valve, set at 80 lbs., and has Sediment Blow-off Cock in base. Burns natural or artificial gas. **State which type burner is wanted.** Shipping weight, 245 pounds.

42R1809¼—Hercules Automatic Storage Gas Water Heater..... $48.85

Shipped by freight or express. Not prepaid.

New Safety Pilot Control

This new Hercules feature adds the final touch of safety and economy for automatic water heaters. It is almost human. If pilot light should go out, this safety control automatically shuts off the gas to main burner and keeps it off until pilot is relighted. Simple in design, yet it operates with a positive snap action. Impossible to waste or fill basement with gas.

Combination Galvanized Range Boiler and Water Heater

$17.85 AND UP

This Combination Range Boiler and Water Heater is one of the most efficient water heating devices on the market. It will give you dependable hot water service at a price that is surprisingly low. You will notice that the gas burner is placed directly under the special heating unit through which the water circulates to and from the tank. All of the heat and fumes from the burning gas circulates around this heating unit and up through the flue pipe in the center of the tank. This flue pipe is built right into the storage tank so that it is always surrounded by water. There is no chance for any heat to be wasted. This arrangement gives maximum heating surface and maximum efficiency with minimum expense for gas.

Water circulates constantly while the gas is burning from the bottom to top of tank through the heater.

Another advantage of this combination heater is that it eliminates the labor and expense of connecting up an independent heater and boiler separately. It is simple, safe, efficient and clean.

The boiler also has tappings for connection to auxiliary heating coil in your stove or furnace if desired. Tank is fully tested to 150 pounds water pressure, and is guaranteed for working pressure up to 85 pounds. Tank is heavily galvanized both inside and out. Can be furnished with burner for either artificial or natural gas. **Be sure to state which is wanted.**

42R1806¼—Tank size, 12 inches in diameter and 5 feet high. Shipping weight, 120 pounds..... **$17.85**

42R1808¼—Tank size, 14 inches in diameter and 4 feet high. Shipping weight, 130 pounds..... **$17.95**

Shipped by freight or express. Not prepaid. For Kerosene Burning Water Heater see page 829.

Double Copper Coil Gas Water Heater

Our Low Price Saves You ⅓ on This High Grade Heater

Note Drip Pan Under Burner

Have all the hot water you want, when you want it! This great heater used in connection with a range boiler will keep you supplied with hot water summer and winter. Heats enough water for bath in twenty minutes. Our unusual low price saves you one-third. Our Easy Payment Plan, described on page 822, makes it easier now than ever to own this great convenience. Has two quick heating coils of ¾-inch copper tubing and cast iron jacket with door; ¾-inch water connection and ½-inch gas connection; 7 inches in diameter and 24 inches high, including burner. Iron pipe threads. Constructed entirely of cast iron and copper, it is very durable. The standard size is recommended where average amount of water is used. Where a considerable amount of hot water is wanted, however, we recommend our extra large capacity double coil water heater quoted below. Burns artificial or natural gas. **Not Prepaid.** Shpg. wt., 31 lbs. **42R1824¼ $5.25**

Heater, same as above, except extra large capacity. Has larger packet and larger copper coil. If you want plenty of hot water and want it quickly, this is the heater to buy. **Not Prepaid.** Shipping wt., 41 lbs. **42R1827¼ $6.95**

These Features Mean Better Service

Made entirely of cast iron and copper—long life is assured.

Standard sizes for use with standard plumbing—easily attached to your plumbing and gas systems.

Double copper coil construction—hot water when you want it and in sufficient quantity.

Large, new type gas burner—quick heat with minimum gas consumption.

This better heater is worthy of a place in your home.

For Coal Burning Water Heaters, See Stove Pages, or Refer to Index.

Hercules Septic Tanks Pay Big Dividends in Health!

The Hercules Septic Tank is adapted for sewage disposal from any building where running water is available. By the natural process of bacterial action it provides a safe, effectual and inexpensive means for sewage disposal and is a most important contributing factor in the protection of your water supply. As health insurance it is one of the best investments you can make.

Sanitary—Economical—Permanent—Odorless

Hercules Septic Tanks are scientifically designed to promote the greatest intensity of bacterial action on sewage. It is the action of the bacteria in the septic tank, together with the nitrification or aeration process which goes on in the tile disposal bed which purifies the sewage and destroys the germs. It is the same process as used in the most expensive sewage disposal plants installed for large municipalities throughout the country. The practicability and proved effectiveness of this process is unquestionable. **In operation our Hercules Septic Tank is absolutely odorless.** Can be installed up to 10 feet from a dwelling and 15 feet of a well.

Costs Nothing to Operate

Our Hercules Tank is a sanitary and health necessity; it is economical to install and to operate and, when once installed, it is a permanent fixture that will continue to function for many years. There are no chemicals of any kind used in our Hercules Septic Tank. **The first cost is the only cost.**

Quality Built From Best Materials

Entire tank and cover are made of 14-gauge high grade copper bearing steel unexcelled for rust resistance. Tank and cover are heavily coated with a rust proofing tar compound. This gives a waterproof coating all over the tank inside and out. 3/16 to ⅛ inch thick. **They are easy to install, too.** No skilled labor is required. Write us and we will help you select an outfit to suit your needs. Our FREE Engineering Service will gladly give you any information you may want.

Standard Steam, Gas and Water Pipe

Use black pipe for heating systems, oil or gas, irrigation or air pipe lines.

Use galvanized pipe for supply and waste pipes on plumbing, drinking water pipe lines.

Good quality evenly rolled stock, carefully welded and free from imperfections. Sizes, ¼-inch to 4½-inch, black and galvanized, in stock at our store. Prices on larger sizes quoted on application. Prices quoted below are for pipe furnished in random mill lengths, about 20 feet 6 in. long, threaded both ends. One coupling furnished with each piece of pipe. If wanted cut to specified lengths and threaded, couplings are not included and an extra charge is made for threading each end of each piece, as quoted in table at right. Allow cost of two threads for each piece of pipe. **Prices subject to market changes.**

Read This Before Ordering Fittings, Valves, Etc.

NOTE—This diagram indicates actual outside diameter of the body of the pipe. The diameter at the end of the thread will measure ⅛ to ⅛ inch smaller.

The sizes of standard pipe and fittings, as given in this catalog, refer to the INSIDE diameter of the pipe. The pipe sizes given for fittings, valves, gauges, etc., refer to the inside diameter of the pipe to which they connect, and not to the diameter of the fitting itself. The outside diameter of a ¾-inch pipe, for instance, is almost one inch so the tapped opening in any ¾-inch valve or fitting measures about one inch in diameter. Many people make the mistake of ordering fittings too large for this reason. The diagram shown here gives exact outside diameter of all pipes from ⅛-inch to 2-inch size measuring from the common point A to point where pipe size is indicated.

SHIPPING WEIGHTS—Shipping weight of pipe fittings varies, according to number ordered and method of shipment. An estimate of shipping weights and freight, express or parcel post charges will be furnished, if desired, upon receipt of a list of fittings in which you are interested.

All Items on This Page Are Shipped Not Prepaid

Malleable Iron Fittings

Pipe Nipples

When ordering state if close and short or long nipple is wanted and whether black or galvanized; also state pipe size. We do not furnish nipples to exact lengths, as our stock is in assorted sizes, but if you will specify lengths wanted we will furnish nipples as close as possible to lengths you specify. Close nipples are about 1½ in. long. Short nipples are 2½ inches long. Nipples longer than 2½ inches are classed as long nipples. Nipples longer than 6 inches will be charged for as pipe cut to length and threaded both ends.

SOIL PIPE AND FITTINGS

It is impractical to ship soil pipe and fittings, lead goods, roof flanges and closets bends by parcel post, owing to the nature of the merchandise and the fact that orders for such goods usually include several similar articles. Therefore the merchandise in this group is shipped by freight or express, not prepaid.

and Hot Water Boiler VALUES!

Heating Systems
Easy to Install

$48.75 AND UP CASH PRICE

Easy Payments as Low as $5.00 DOWN
See Page 822

"I Saved $225.00!" —Writes K. T. Deitz

Read what he says: "I am writing to tell you how pleased and satisfied I am with my new Hercules Hot Water Heating System. Following the instructions was very simple. I figured I saved about $225.00 by installing it myself."

This saving is typical of the savings made on Sears, Roebuck and Co.'s Hercules heating systems. The first cost is amazingly low; by doing the work yourself you save even more. Even if you hire the work done, you can save money. Mr. A. P. Imschweiler writes: "My fuel costs are now only one-third as much as formerly. The lowest bid our local dealers could give was $185.00—which meant a saving to me of at least $75 on my Hercules."

(Addresses furnished on request.)

Why not let us help you plan your heating plant now during the warm weather—and show you how easy it is to install the outfit yourself.

Our Plain, Straightforward Guarantee Is Your Protection

You are not only promised but guaranteed that you will receive materials of the highest quality; that the complete system when installed according to our easy to follow instructions will heat your home comfortably without forcing the fire, and that it will fulfill every claim we make. Back of this guarantee are thousands and thousands of satisfied customers who will vouch for the value and quality of our service and our heating equipment.

Built for Lifetime Service

Scientifically designed for greatest heating efficiency, our Hercules Cast Iron Round Boilers are unexcelled for economical home heating. Hercules Boilers are equal to the best on the market in workmanship, finish and material. They are built to a very high standard, the grates, door castings and other parts being of heavy construction so that the boiler, with ordinary care, will last a lifetime. All doors are ground to a very accurate fit, reducing air leakage to a minimum. Ample clean-out openings have been provided, making the boiler easily accessible for cleaning at all points. There is a liberal size feed door and a very deep fire pot, which makes this one of the most economical heating boilers on the market. The grate bars are of the rocking type with long lever shaking handle. Each boiler has tappings to receive a coil for heating water for domestic purposes.

The illustration shows boiler having three sections above the fire pot. These boilers are also furnished with only two sections above the fire pot, depending, of course, upon the heating capacity required. When writing for our estimates **be sure to state whether round or square boiler is preferred.** Where no preference is stated, square boiler will be figured. The prices, as given below on the steam boilers, include steam trimmings complete. Prices on hot water boilers are for boilers only without fittings. Firing tools include poker and flue brush with handle furnished with each boiler. **Shipped Freight from warehouse in NORTHERN INDIANA. Not prepaid.**

Write for special terms if you wish to purchase a complete heating plant on easy payments.

Boiler Ratings

Rated capacities of heating boilers as listed by manufacturers in trade catalogs make no allowance for heat loss from exposed mains, branch pipes, etc. When selecting a boiler, it is necessary to allow for this, if you are basing your figures on these manufacturers' listed ratings.

It is common practice among the heating trade to take 50 per cent of these listed ratings, as the actual load the boiler will carry. For instance, a boiler on which the manufacturer's rating is 1,000 square feet should be specified where there is not over 500 actual square feet of radiation.

To avoid any misunderstanding about this, we list in our specification tables both the manufacturer's rating and the actual load the boiler will carry. If you know the exact number of square feet of radiation you have to supply, select a boiler of corresponding capacity as listed in the column under "Actual Load," and you can depend upon it that the boiler will be amply large to take care of your requirements.

These actual load ratings are conservative and are guaranteed providing, of course, that the amount of radiation has been properly figured. We strongly advocate ample boiler capacity on any heating system. It is always better to have a boiler a little over size than too small.

When comparing our prices with others, be sure to make your comparison on the basis of guaranteed actual load rating and not manufacturers' trade rating, which, as we have already explained, is usually double what the boiler will actually carry.

Prices and Dimensions—Hercules Round Boilers

Steel Wire Flue Brush

A very effective cleaner for cast iron heating boilers, round or square. Size, 1¾x4½x5½ in. Threaded for ¼-in. pipe handle. We pay the postage.

42R168.....72c

Regulating Dial

Attached to wall upstairs. Chains connect to draft door on heater in basement. Saves going downstairs to open or close dampers. Dial can be set in any position. Pressed steel oxidized copper finish. Outfit includes 25-ft. chain and 4 pulleys.

42R123....We pay the postage.....$1.40

Radiator Air Moistener

Moist air in your home is essential for health and comfort. Our Hercules Air Moistener, filled with water and hung on back of radiator, keeps air moist by evaporation of water. Galvanized sheet metal, gold bronze finish.

42R157.....We pay the postage.....49c

Little Fireman Damper Operator

Easily attached to any Steam, Hot Water or Warm Air Heating System or to Pipeless Furnace.

Opens the dampers on your heating system before you get up in the morning, so that when you arise every room in your house will be warm and cozy.

Just set it like any ordinary alarm clock and it will open the damper at any hour for which you set it. Outfit includes clock, pulleys and 20 feet of chain ready to install, with full instructions. **We pay the postage.**

42R1172.....$4.00

Hercules Heat Regulator Saves Coal

$30.25 Complete

This device will keep the temperature in your rooms regulated to an exact degree throughout the entire winter, and it will open up the dampers on your heating system before you arise in the morning, so that the house will be heated to a warm and comfortable temperature when you are ready to get up. It saves many trips to the basement.

It prevents your rooms from cooling off, as it opens the dampers automatically as soon as the temperature drops below 70 degrees, or whatever you have set it for; and it prevents overheating your rooms, because it closes the dampers as soon as the temperature goes above that degree. It saves coal. **Complete instructions for installing furnished with each outfit.**

42R1174¼—Outfit, complete, ready to install. **We pay postage..$30.25**

AND GET THE BEST FURNACES *In Values*

WARM AIR PIPE FURNACE

CASH PRICE $42.95
Furnace Only 18-Inch Size
Shipped From Ohio

"Every day like a summer day!" says a Hercules owner. "Saved $150.00 on my pipe furnace," says another. All the fresh, clean, warm air you want at far below usual prices. *That's what this great Hercules means in your home.* Seldom, if ever, have we offered our customers such an opportunity to save *more—to save $50.00 to $75.00 over prices elsewhere on the purchase of this great heating plant—to save $100.00 to $200.00 if you install it yourself;* while every season you can save in addition $25.00 to $50.00 on fuel and still have every room filled with a uniform, healthful heat.

Hercules Furnaces Give Real Comfort

But Hercules Warm Air Pipe Furnaces not only mean dollars in your pocket. They mean much more than that—they mean temperature even and pleasant; warm *circulating* air, humid to the proper degree; ventilation that changes the air two to four times per hour; cleanliness that insures no dust, soot and ashes; durability that will last throughout the years; quick heat that comes up when you want it, and a fire you can bank when the weather moderates. In a word, they mean *quality*. No finer furnace of its type is made at any price!

Our Free Engineering Service

Will Enable You to Install This Furnace Yourself! Sears, Roebuck & Co.'s corps of expert engineers are always ready to show the best and easiest way. Anyone handy with tools can follow their simple, clear cut instructions. No expensive plumber or steamfitter needed. Writes one of our customers: *"What surprised me most was the thorough instructions for installation you sent me. I never saw a furnace installed before, yet I installed this one myself with no help. The furnace is a wonder!"*

Compare Hercules Furnaces With Any at Any Price

Hercules furnaces have stood the test of time and fire. Tens of thousands of satisfied users testify to their excellent features. **Extra Large Cast Iron Radiator,** much larger in size than in most furnaces of same size. **Fuel Saving Air Distributor** sprays the air over the fuel bed in proper proportion for most efficient combustion. **Heavy Two-Piece Firepot** means greater durability. It costs more to make this firepot in two pieces, but this better quality construction really is an expense saver. One-piece firepots are likely to crack, due to unequal heat expansion and contraction. **Double Galvanized Casing With Air Space Insulation.** The illustration shows great fuel saving double shell clearly. Prevents loss of heat into the basement. **Hinged Grate** permits easy refiring in case fire is allowed to go out in mild weather. Extra heavy grate bars specially constructed to prevent warping, and allow the right amount of air through to the fire. **Deep Grooved Leak-Proof Joints**—All joints filled with our special furnace cement which expands and contracts with the metal. As tightly sealed against gas, dust and smoke as if the whole unit were one casting. **Large Combustion Chamber**—Size is in correct proportion to the grate area, effecting the proper mixing of air with the gases from the fuel, bringing efficient combustion.

Prices include furnace complete with galvanized top and casing, but warm air pipe, cold air pipe, registers, smoke pipe, smoke damper, etc., are not included. For smoke pipe and smoke damper see below. Write for our low prices on warm air pipe, registers, cold air ducts, etc.

Our New Plan Puts This System in Your Home for Only $6.00 Down!

Think of it! Fresh running water! Complete water service for bathroom, kitchen, laundry, barn and garden. Sold at prices so low that now everyone can have this priceless convenience. Placed in your home for as little as $6.00 down! Then pay as you use! Thousands of home owners have already taken advantage of this remarkable offer. Thousands more will do so within the next few months.

Fresh Running Water Is Now Within Reach of Everyone

There are no two ways about it. A dependable supply of fresh running water is today a necessity. It means added property values. It means better protection from disease, both for yourself and your cattle. It means an end to the slavery of pumping by hand. It is the very last word in household and barnyard convenience. Just turn the faucet and have all the water you need. Fresh, clean, sparkling water right when you want it for the bathroom after a hard day in the field; for the kitchen and laundry; for the garden; for fire protection, and for your stock.

Careful tests by state institutions prove that the average dairy cow produces 3 to 5 pounds more milk per day when fresh running water is handy at all times. On 20 cows that means $365.00 more a year, enough to install this great convenience many times over. Now you can eliminate the unclean, disease breeding outside toilet nuisance. Running water is the first step to modern plumbing. You need water under pressure. You owe your family and yourself these priceless comforts and conveniences. The Ever Ready pumps water from cisterns, wells, lakes, springs or streams. Just the thing for farms, summer cottages, suburban homes, dairies, filling stations, etc.

And now the price is at rock bottom! Now every one can have running water. For not only have our tremendous sales enabled us to lower the price to less than one-half the usual cost elsewhere, but we will place it in your home for only a few dollars down. Could an offer be fairer?

A dded Property Value
B etter Health Protection

At Last! A Water Tested, Beltless Motor

Why We Have Selected the Simplified Rotary Pump

Advantages of Modern Rotary Pumping Over the Old Fashioned Reciprocating Methods

Ever Ready rotary pumps are simple. They pump day after day, month after month without any attention at all. They are absolutely foolproof. No expensive mechanic's services are periodically required. Service is uninterrupted. Will operate safely in any kind of water. Can be started quickly in case of fire as there are no reciprocating parts to sustain shocks or jars.

Best fitted for shallow wells, cisterns, lakes, streams and springs.

Compact. This pump has more powerful performance per square inch of space used than any other.

Rotary pump has greater capacity, higher efficiency than any reciprocating pump of its size made.

Pump is extremely simple in design, having only two moving parts.

Direct connected to motor, there is no belt to slip off or break, won't run on and on without load.

Best fitted for fire protection—many fire engines have this type of pump.

Pump is like a pressure blower in a threshing machine.

Has a wide range of speed, producing greater pressure than ordinary reciprocating pumps.

Tank is above pump—pump will not get air bound, pumping air hour after hour instead of water.

Pump is valveless, no valves to replace or repack—a plumber's job.

Pump has no piston to hammer and pound.

It operates silently without vibration.

No crossheads; no springs.

No leather suction washers to get out of order.

No cumbersome flywheel.

No parts that require frequent oiling.

Built for the hardest kind of service.

Pumps air and water into tank at the same time, thus aerating the water making it fresher and purer.

Can force water against great pressures.

No oil reservoirs to leak and pollute the water.

The Rotary Pump Is Simple!

Merely two meshed gears mounted on short shafts—and running close to, but not touching, the walls of an elliptical casing! As the water is trapped between the casing and revolving gears, it is forced around through a little more than one-half of the circle, where it meets a like quantity discharged from the opposite side. As the discharge is located here, the water is forced through it.

An electric motor that will run under water! Sounds almost impossible! Yet motors of this type can actually be operated completely submerged without either grounding or short circuiting, and have run normally after finally stopping, by being merely dried out! They can be splashed on or flooded, dust or soot covered, forced to work many hours a day, and receive less attention than any other type of motor. It has a high starting force. It uses little current. It is the finest motor that modern technical skill can devise.

HERCULES Deep Well System

For WELLS from 22 Ft. to 200 Ft. DEEP

New Low Prices on Automatic Electric Pump Outfits

Cut to Measure and Ready for Installation

If the water level is over 22 feet below the surface of the ground, select one of the deep well outfits listed below. It will deliver an ample supply of fresh water for general domestic purposes under pressure ranging from 15 to 35 pounds, from wells up to 200 feet deep. It is entirely automatic and gives the same convenience as city water pressure. Just the thing for farms, ranches, suburban homes, country estates, creameries, hotels and apartment houses.

$121.25 Outfit Complete For 50-foot Well

The entire outfit is sturdily built. The main pump frame is completely machined at one setting, insuring perfect alignment of all working parts. Machine cut gears, encased. Splash oiled, a continuous flood of oil pours over gears, shafts and bearings while operating. Bearings are self-cleaning. Oil chamber is absolutely waterproof. One filling provides ample lubrication for months.

Pump rod, plunger and check valve may be easily removed without moving the pump head, or disturbing suction or discharge pipe.

Strong, high grade electric motor is mounted on the pump head, making a compact unit. Powerful twin "V" belts eliminate need for idler pulley, and insure uninterrupted delivery of energy to pump. Double grooved motor pulley, 2-inch diameter; double grooved pump pulley, 16-inch diameter. Auxiliary air pump insures positive air supply to pneumatic tank. Air control check valve shuts off air supply when desired pressure is reached. Pump is also suitable for delivering water to an open storage tank. If a special outfit is wanted, or if pump is to be driven with a gasoline engine, write for **free engineering service.**

Motors furnished under the listings below are repulsion-induction type, 60 cycle, 110-220 volt, A. C., or 110-220 volt, D. C., or 32 volt, D. C. If 25 or 30 cycle motor is needed, a slight extra charge is made. **When ordering, be sure to state the kind of current you have.** You can get this information from your electric light company.

If a larger tank is wanted, state size; also whether vertical or horizontal. Either style is furnished at the same price. Inlet tapping, 1-inch; outlet, ¾-inch (or larger). The cylinder is 2⅝ inches, outside diameter. Give inside diameter of your well casing.

For wells ranging from 22 to 95 feet, select ½-h.p. motor. For wells ranging from 95 to 200 feet, select ½-h.p. motor. Specifications based on use of a 1 13/16x6-inch stroke cylinder. **If your well is deeper or shallower than specified below, add or subtract 38 cents per foot for pipe and rod to prices quoted below. Shipped by freight. Not prepaid.**

42R3618¼—One Working Head only, without motor or other equipment. Tapped for 2½-inch suction, 1¼-inch discharge (tappings can be reduced). Shipping weight, 150 pounds..... **$39.95**

42R3619¼—Deep Well Outfit complete for 50-foot well, with ½-h.p. motor mounted, a 42-gallon galvanized vertical tank, automatic switch, valves, gauges and fittings as illustrated, in addition to frostproof set length, 2-inch galvanized iron suction pipe, 1½-inch wood pump rod with couplings, and a 1 13/16x6-inch stroke brass spring poppet check valve cylinder tapped 2-inch top and bottom. Shipping weight, 505 pounds..... **$121.25**

42R3620¼—Deep Well Outfit, same as 42R3619¼, but with ½ h.p. motor, for 95-foot well. Shipping weight, 695 pounds..... **$142.50**

Heavyweight Lift Pump

$5.95 4-Ft. Set Length

Here is a strictly high grade pump, strong and substantially built, offered at a price usually asked for pumps of much lighter weight. Do not confuse this heavy weight pump with pumps of lighter construction offered at about the price we ask for this quality product. Made up complete with cylinder, pipe and pump rod, as shown. Cylinder comes 4 feet below pump platform. It is sufficiently heavy and strong for use in wells up to 60 feet by adding extra pipe and pump rod.

42R2351¼—With 3x10-inch iron cylinder, 4-ft. set length as shown. Shipping weight, 60 lbs. **$5.95**
With brass lined cylinder **$7.75**

42R2352¼—With 3½x10-inch Iron cylinder, 4-ft. set length. Shipping weight, 65 lbs. **$6.75**
With brass lined cylinder **$8.30**

Prices below are for heavyweight pumps complete with iron cylinder, black pipe and pump rod. **If galvanized pipe is wanted instead of black, add 3 cents per foot.**

Takes 1¼-Inch Pipe

Depth of Well, Ft.	42R2351¼ With 3x10-In. Iron Cylinder. For Brass Lined Cylinder, Add $1.80	42R2352¼ With 3½x10-In. Iron Cylinder. For Brass Lined Cylinder, Add $1.80

40	12.80	13.60
45	13.75	14.55
50	14.70	15.50

For shipping weights, take weight of pump as given above and add 2½ pounds per foot for extension.

42R2355¼—Pump Standard only, without cylinder, pipe or pump rod. Shpg. wt., 40 lbs. **$3.25**

$1.45 Pitcher Spout Pump 3-In. Iron

One of the most popular and serviceable Kitchen Sink Pumps on the market. For wells or cisterns 20 feet deep or less. Handle may be turned in any direction. Tapped for 1¼-inch suction pipe. Order pipe from water to pump.

42R2370¼ — 3-in. iron cylinder. Shpg. wt., 22 lbs. **$1.45**
42R2371¼ — 3-inch brass lined cylinder. Shipping wt., 23 lbs. **$2.10**
42R2372¼—3½-inch iron cylinder. Shipping wt., 23 lbs. **$1.80**
42R2373¼—3½-inch brass lined cylinder. Shipping wt., 24 lbs. **$2.35**

Cistern Force Pump

$4.65 3-Inch Plain Spout

For wells or cisterns 20 feet deep or less. Has solid brass cylinder, valve seat and stuffing nut; bronze pump rod. Gooseneck spout fitted with hose coupling or faucet spout. Tapped for 1¼-in. suction. Top discharge outlet is tapped for 1-inch pipe, for forcing water to elevated tank, etc. Suction pipe not included.

42R2377¼—With plain spout and 3-inch cylinder. Shipping weight, 26 pounds **$4.65**
42R2379¼—With faucet spout and 3-in. cylinder. Shpg. wt., 24 lbs. ... **$5.25**

$9.55 2½x 10-In. **Extra Heavy Windmill Set Length Force Pump**

For wells up to 150 ft. deep. Can be operated by hand, windmill or pump jack. Six-inch stroke. Tapped back of spout for 1¼-inch pipe. Spout has shut off and hose clevis, so that water can be forced to elevated tank or through hose for sprinkling, washing windows, buggies, automobiles, etc. Bottom of cylinder, 4 feet below pump. Stroke, 6 inch.

Takes 1¼-Inch Pipe

42R2392¼—4 Ft. Set Length Pump with 2½x10-in. iron cylinder. Shpg. wt., 100 lbs. **$9.55**
With brass lined cylinder **$11.25**

42R2393¼—Same Pump with 3x10-inch iron cylinder. Shipping weight, 105 lbs. **$9.60**
With 3x10-inch brass lined cylinder **$11.30**

42R2394¼—Same Pump with 3½x10-in. Iron cylinder. Shipping wt., 110 lbs. ... **$10.25**
With 3½x10-inch brass lined cylinder **$12.10**

42R2396¼—Windmill Force Pump Standard only. 6-in. stroke. Tapped for 2-inch pipe or smaller. Shipping wt., 65 pounds **$7.25**

42R2397¼ — Windmill Force Pump Standard only. 10-in. stroke. Tapped for 2-in. pipe or smaller. Shipping weight, 70 pounds **$7.95**

Cock Spout, $1.65 Extra

Back Attachment, $1.50 Extra

Prices below are for pumps complete with iron cylinder, black pipe and pump rod all cut and fitted ready to install in depth specified. For shipg. wt. allow for wt. of pump as given above and add 2½ lbs. per foot.

Depth of Well, Feet	42R2392¼ With 2½x10-In. Iron Cylinder. For Brass Lined Cylinder Add $1.70	42R2393¼ With 3x10-In. Iron Cylinder. For Brass Lined Cylinder Add $1.80	42R2394¼ With 3½x10-In. Iron Cylinder. For Brass Lined Cylinder Add $1.80

If galvanized pipe is wanted on above outfits instead of black, add 3 cents per foot. Outfits quoted above for wells over 25 feet deep have cylinder at bottom of pipe, for wells 25 feet deep and under cylinder is 4 feet below pump platform.

Galvanized Round Steel Pump Rod

Size, 7/16 inch. Not threaded. Shipping weight, per foot, 8 oz.
42R2103¼—Per foot **6c**
Threads, extra, per cut **5c**
Galvanized Pump Rod Couplings To fit above pump rod. **6c**
42R822—Shipping weight, 4 oz. ... **6c**

Set Length Lift Pump

$4.50 4-Ft. Set Length

Medium weight; anti-freezing; for wells up to 30 feet deep. Four-foot set length pump. Six-inch stroke. Takes 1¼-inch pipe. Cylinder comes four feet below pump platform.

While we guarantee this pump to be equal to some competitive pumps offered at higher prices than we ask here, and while we guarantee this pump to be suitable for wells up to 30 feet deep by adding extra pipe, still, considering the small difference in price, we would strongly recommend our extra heavy weight lift pump quoted above as being a more satisfactory pump for general farm service. This medium weight pump is, however, a remarkable value at the price we offer it.

Takes 1¼-Inch Pipe

42R2349¼—With 3x10-in. iron cylinder. Four-foot set length. Shpg. wt., 50 lbs. .. **$4.50**

Large Capacity Tank Pump

Has Brass Valve Seats

For filling thresher tanks, for emptying cesspools, etc., or for any purpose where it is desired to pump a large volume of water. Pumps 50 gallons per minute. Suction limit, 20 feet. A strictly high grade pump. Has brass valve seats, a feature not contained in many competitive pumps. Cylinder, 5 inches in diameter, 5-inch stroke; suction and discharge, 2 in. Has extra connection for discharge to connect 1-inch hose for sprinkling, etc. Shipping weight, 78 pounds.

42R2266¼ — Pump as described **$9.85**

42R828 — 5-Inch Crimped Plunger Leathers. Shpg. wt., 8 oz. Set of two **68c**

Double Acting Pump

A very efficient hand force pump for use where suction lift does not exceed 20 feet. Has brass valve seats and geared head drive. Pumps liquid only, no air. Much used for pumping water to elevated tanks, cleaning, filling and testing boilers and tanks, for fire protection and as a deck pump. Has 1¼-inch suction and 1-inch discharge. Shipping weight, 65 lbs.

42R2187¼ With 3-inch brass lined cylinder **$11.45**

Air and Water Force Pump

Same as 42R2187¼, except that it has brass air pump attachment for use with pneumatic water systems. 1¼-inch suction and 1-inch discharge. 4-inch stroke, 3-inch brass lined cylinder. Suction limit, 20 feet. Shipping weight, 66 pounds.

42R2188¼ — Pump, as described **$12.95**

Well Boring Outfit

Bores wells 25 feet deep, 8, 9, 10, 11, 12, 13 or 14 inches in diameter, or digs post holes quickly and with little effort. Bores through sand, gravel, sticky clay, mud or hard pan. Will dig under water.

Can be used for digging holes for foundation piling for barns, etc. Outfit consists of a new type earth auger, extension rods with malleable couplings for boring down 25 feet, extension blade for increasing diameter of hole and a smooth finish hardwood handle.

Shipping Weight, 50 lbs.
42R1861¼ .. **$6.95**

For Other Post-hole Implements see Hardware pages or refer to Index.

How to Order Your Pump Outfit

Where the vertical water lift does not exceed 25 feet, use a 4-foot set length pump and fit sufficient pipe to the end of the cylinder to extend at least three feet below water level. Use a foot valve for such an installation if possible. Keep end of suction pipe under water, but do not extend it into mud or well bottom. If distance to water level exceeds 25 feet, cylinder should be extended below water-level. This will keep it primed. Lift pumps will only raise water to spout. Force pumps will enable you to sprinkle or deliver water about your premises as required by using pipe to convey it. Consult us regarding any special outfit wanted or any information you may need.

Now! The GREATEST Air Compressor VALUE $105.95 CASH PRICE

Heavy Duty

Garages, Service Stations, Tourist Camps, Machine Shops Save Almost $50.00

SOLD ON EASY PAYMENTS See Page 822

At last! A rock bottom price on a first class heavy duty automatic electric air compressor! Now offered at a price far below that usually asked elsewhere for identically the same machine. **Saves you almost $50.00.** Just the thing for garages, service stations, tourist camps, air doors, spray painting, machine shops, etc. Built to stand the hardest kind of service. Made by a well known manufacturer, its high quality and performance is proved by thousands in daily use!

Sturdy—Durable—Dependable

Operated by a high grade heavy duty repulsion-induction electric motor. Has unusually high start force. Will run heavily loaded for hours without overheating! Motor regularly furnished for 105-120-volt or 210-230-volt circuits, single phase, 60-cycle alternating current. Add $5.00 extra to price for 24-40-cycle currents. **Automatic pressure** switch is set to stop the motor at 150 pounds, and to start it when the pressure falls to 110 pounds. Extra large tank permits the filling of fifteen 30x3½-inch tires to 55 pounds pressure or fourteen 29x4.40 tires to 30 pounds pressure before motor will start. **Tank** is made of seamless steel, 18x40 inches, with capacity of 45 liquid gallons. Automatic safety valve blows when pressure gets too high. Absolutely safe. **Compressor** is of the powerful air cooled single cylinder type, with positive splash lubrication. Has a 2-inch bore and a 1 15/16-inch stroke. Compressor speed of 460 R. P. M. **Special oil and water separator** prevents condensation entering tank. Belt is latest "V" shape type, preventing slipping. Operates quietly and smoothly. No trouble at all. Merely connect the current and forget it. It operates automatically. A machine you can depend on. Twenty-five feet of hose with tire chuck accompany each compressor. **Shipped from CENTRAL INDIANA.**

It Starts Itself It Stops Itself

Night or Day It Never Fails to Supply Air Whenever It Is Wanted

42R4075⅓—Complete outfit, as described, with ¼ H.-P. Motor, Automatic Switch, Pressure Gauge, etc. Capacity, 1½ cubic feet of air per minute. Shipping weight, 350 pounds. **Not prepaid**.....**$105.95**

Pump Cylinders

10-inch cylinders have 6-inch stroke and 16-inch a 10-inch stroke. Cylinders 3½ inches in diameter fitted for 1½-inch pipe; 4 inches in diameter for 2-inch pipe; all others fitted for 1¼-inch pipe. **10-inch** cylinders have one leather on plunger. 16-inch cylinders have two. Brass lined cylinders have seamless brass tubular lining and have brass cage and brass valve in plunger. **Not Prepaid.**

Spiral Earth Augers

For boring wells, prospecting, etc. Auger made of high grade steel with pipe shank. Shank is threaded for standard 1-inch pipe. Auger works inside of 2-inch pipe casing, and as hole increases in depth, casing is driven down following auger. Extra lengths of pipe are added to casing as hole gets deeper, and extra lengths of 1-inch pipe added to shank so that auger may be turned. Length of auger, 26 in.; outside diam., 1⅞ in. Shpg. wt., 7 lbs.

42R1140¼—Not prepaid. $6.30

Little Giant Pipe Holder $2.85

Harder the pull, tighter the grip. For 1, 1¼, 1½ and 2-in. pipe. Dog has corrugated chilled surface. Shipping weight, 29 pounds. **Not prepaid.**

42R1134¼ **$2.85**

Galvanized Foot Valves

Screwed on end of pump suction pipe. Acts as a check valve. Galvanized. Pipe size, 1¼-in. Shpg. wt., 3¼ lbs. **Not prepaid.**

42R858..... **75c**

Rotary Barrel Pump

Hand Rotary Barrel Pump. For pumping gasoline, motor oil, syrup or other liquids out of barrels. Much used for filling gasoline tanks on traction engines, automobiles, etc. Forces liquids 15 to 20 feet above pump. Made of iron. Fits steel barrel or wooden barrel. Has 3-foot suction pipe, 5-foot discharge hose and goose neck. Hose is of special construction. Not affected by gasoline or oil. Pumps 13 gallons per minute. **Not prepaid.**

42R2263¼
Shpg. wt., 65 lbs..... **$14.50**

42R2264¼—Same as above, except with regular rubber hose for water or other liquids, except gasoline or oil **$12.65**

NOTE—When ordering repair parts for pumps please be sure to state casting number of part wanted.

HERCULES Centrifugal Pumps

Simplest and most practical pump on the market for irrigation or wherever a large volume of water is to be handled against a total head not exceeding 65 feet. Must be placed not more than 20 feet above water. Scientifically designed for greatest efficiency. It is a strictly high grade pump in every way. Two smallest sizes have bronze bearings. All other sizes have ring oiled pedestal bearings. Extra long stuffing box reduces wear. Built for high speed which permits belting direct to line shaft, engine or tractor. Power requirements vary with conditions. Our pump engineers will gladly make recommendations for your installation. Complete instructions for installing and operating furnished with each pump. **Write for prices on larger sizes.**

ACME Rotary Power Force Pump

Will force water a horizontal distance of 200 feet and throw a solid stream 20 feet. An excellent pump for raising a large amount of water with minimum amount of power where lift is not over 15 feet and elevated tank into which water is forced not over 110 feet above pump. Reliable protection is case of fire. Driving shaft made long enough to allow use of balance wheel with handle so pump may be worked by hand when desired. Spout threaded for iron pipe at end and also at top where it connects to pump. Can be run at 300 revolutions per minute without injury, although 200 is recommened. High speed permits belting direct to engine. Cannot be belted direct to electric motor. If wanted with balance wheel and handle for hand power, allow $5.50 extra. Prices quoted do not include pipe or belt. If you wish to pump gasoline or benzine, or other such light bodied liquids, be sure to order the special gasoline pump quoted below. **Order by catalog number, and specify capacity of pump desired. Not prepaid.**

FAST COLOR WALL PAPER

Laboratory Tests Insure the Fadeproof Qualities

Stronger than any claims we might make, stands the record of repeated, exhaustive, elaborate laboratory tests. Our chief chemist writes the verdict: "It's Fadeproof, and you can tell our customers we so guarantee it."

WE PAY THE POSTAGE ON ALL WALL PAPER

Now an additional saving for you. The low prices in our catalog are all you pay. Send no extra money for transportation charges as we pay the postage. When comparing prices be sure to consider this additional economy that you can effect when you buy Wall Paper from the World's Largest Wall Paper Store.

Sears, Roebuck and Co.
The World's Largest Wall Paper Store

Bright, Fresh Colors After Years of Service

IN OUR laboratory tests mentioned above, we subjected countless rolls of wall paper to a most ingenious test whereby every sheet was exposed to intensified sun and light rays equivalent to three, four and even five years' service in actual use. The design colors of the paper retained their original bright, fresh appearance throughout the test.

This amazing color trueness in the face of the most exacting and trying conditions to which wall paper could ever be subjected in the home enables us to advertise our wall paper as FADEPROOF and to sell it under the most liberal wall paper guarantee known. (See above at right.) Occasional cleaning will restore the original bright fresh coloring of the pattern even after years of service. Best of all, the colors are absolutely non-poisonous, too, a most important feature where small children are concerned.

WE HAVE been leaders in the wall paper business for many years. We introduced and patented Ready Trimmed Wall Paper, a feature whereby the perforated edge of the pasted and folded sheet of wall paper is torn off as easily as a check is removed from a check book.

Countless home owners took quick advantage of this new feature to become their own paperhangers, the Ready Trim feature removing the last obstacle to easy paper hanging. We have always made our wall paper in our own huge wall paper mill, selling the finished wall paper direct from the mill to the user at prices which save our customers one-half or more. And now our introduction of Fadeproof paper presents one more reason for our wall paper leadership.

NOW A *PROVED* FACT

MAIL POST CARD *for*

FREE SAMPLE BOOK

OUR GUARANTEE
Is the Strongest in the World

We guarantee our wall paper to be Fadeproof, that the design colors will keep their original bright, fresh condition indefinitely, if the paper is cleaned occasionally. We further guarantee that if after hanging two or three strips of any wall paper purchased from us you are not perfectly satisfied with it in appearance, value or for any other reason, you may send back what you have left and we will return the money you paid for the entire lot, including the shipping charges.

Eight Reasons Why

You Should Buy Wall Paper at Sears

1 WE MAKE all our Wall Paper in our own splendid mill.

2 WE SELL direct to the user, adding only one profit to our manufacturing cost. No middlemen's profits figure in our price.

3 WE SAVE you one-half or more on every order for wall paper. We give our customers the benefit of the tremendous saving we make by manufacturing wall paper ourselves.

4 WE INTRODUCED and patented the famous Ready Trim feature, which permits every home owner to hang wall paper most successfully.

5 WE OFFER a most complete line of exclusive designs — patterns for every purpose—prices for every purse.

6 YOU CAN SEE every pattern we sell in the full roll at any one of our many retail stores. There is one near you!

7 WE GUARANTEE our paper to be FADEPROOF! Think of it! Occasional cleaning brings out the original bright fresh coloring of the pattern even after years of service. The paper is impregnated with insecticides, preventing damage by insects after it is hung.

8 **We Pay the Postage!** Your savings are now greater than ever. Remember this extra economy when comparing prices. Send no money for transportation charges as we pay all postage.

We Guarantee to Satisfy You and Save You Money

Seroco Long Life House Paint

Long Service ~ Low Cost

Not Prepaid

$1.80

Per Gal. in 50-Gal. Steel Barrels

THIRTY years' faithful service has proved the dependability of Seroco Long Life Paint. Many million gallons of this reliable paint have been sold during this period to millions of satisfied users. A correct balance of materials has made it the most serviceable paint offered at anywhere near its remarkably low, money saving prices. It is the heaviest bodied ready mixed paint offered today in prepared form. It flows well, brushes easily and dries with full gloss. It meets all average conditions most satisfactorily, having a covering capacity on good surfaces of 250 square feet per gallon, two coats. Made by time-tested and thoroughly proved formulas, it forms an elastic, tough, waterproof and non-porous film which weathers away by gradual chalking, an ideal condition for successful repainting. Constant tests against other more expensive paints only confirm our knowledge of its excellent wearing qualities and its good appearance in use. We manufacture it in our own big up to date paint factory and sell it direct to the user at prices which save you up to one-half over prices elsewhere. We sell Seroco Long Life Paint under the most liberal paint guarantee ever issued. It must make good, or we will. This guarantee is shown at the right.

There Is No Applesauce About THIS GUARANTEE

It Is Backed By the World's Largest Store and Means Exactly What It Says

We Guarantee

to furnish new paint free of charge, ship it to you at our expense and PAY FOR PUTTING IT ON YOUR BUILDING, if Seroco Long Life Paint does not give you the service you have a right to expect when carefully applied according to our directions—two coats to painted surfaces in fairly good condition, three coats to new surfaces and old painted and unpainted surfaces in bad condition—with raw linseed oil and turpentine added as per instructions on the containers, depending on the condition of the surface.

Or, if after applying a portion of Seroco Long Life Paint you are not satisfied in every way, you may send back the remainder, and we will return the price you paid for the entire quantity, including all shipping charges.

We guarantee Seroco Long Life Paint to represent good honest value; that it will make a nice appearing job; will fully protect the surface on which it is applied; is easy to apply and will give you the service you have a right to expect of any paint, regardless of price.

MASTER-MIXED HOUSE PAINT Made to One Standard—The BEST!

$2.50

Per Gallon, in 50-gal. steel bbls., not prepaid.

[A SPLENDID FORMULA] The Product of 50 Years Successful Paint Making Universally Sold at $4.25 Per Gallon Elsewhere

Master-Mixed is a "better made" paint, made for the ever increasing number of home owners who want the very best, who demand extra wearing qualities, extra fine appearance in use, who want a dazzling, permanent white when using white paint—in short, it appeals especially to the great number who do not care to repaint often and who expect a long lived satisfactory paint job when they do paint. This splendid paint duplicates the formula of nationally advertised brands of paint regularly offered through dealers at $4.25 a gallon. We offer it at one-third less! Our tremendously increasing sales prove our customers' appreciation of this exceptional value.

Master-Mixed Paint has unusual opacity or hiding power, brushes easily, spreads we l and dries with a full gloss. One gallon covers 350 square feet of surface in good condition, two coats. Its unusual covering capacity makes it a value far superior to many paints with considerably less covering capacity offered elsewhere at slightly lower prices. It produces an elastic, tough, waterproof and non-porous film which weathers away by gradual chalking, leaving the surface in excellent condition for repainting. Its qualities of long lasting wear, good appearance throughout its life, and its ability to produce a high grade paint job under the most severe conditions, when properly used according to the directions furnished, make it a super paint.

Study the formula shown; we're proud of it. It spells quality through and through. You make no mistake when you choose Master-Mixed for your next paint job. It is sold under the strongest paint guarantee in the world. This guarantee, shown on this page, is the greatest paint insurance policy ever issued. It protects you from unsatisfactory materials, values or results. Behind this guarantee stands the splendid reputation and tremendous resources of the World's Largest Store.

CHINESE GLOSS LACQUER

The Old, Reliable Colored Varnish

A Practical Finish for Old or New Surfaces

WE PAY THE POSTAGE $2.24 Per Gal.

PICTURE your odd furniture pieces perfectly matched in color with the rest of the room furniture—the woodwork and floor refinished to harmonize with the furniture color scheme. It's easy, practical and inexpensive to transform a shabby oak bed or chifforobe into a new appearing walnut color piece that completes a bedroom set of perfect color harmony. A dingy mahogany buffet can be refinished to complete an attractive walnut color dining room set, matching the present walnut finish pieces in a most pleasing fashion. Every room in the home can reflect the charm of tastefully matched furniture, woodwork and floors. Best of all, you get the pleasing effect of new furnishings at surprisingly little cost and effort. One gallon of Chinese Gloss Lacquer will cover at least 600 square feet, one coat. It is easy, too, to apply it satisfactorily. When changing the color of a floor, put on a finishing coat of 30R2723 Extra Durable Floor Varnish (see page 855) to secure the necessary wearing qualities. When covering a dark finish piece of furniture or woodwork with a lighter one, be sure to apply as a first coat 30R2697 Undercoat (see page 855) to insure covering the old finish successfully. Better yet, use this undercoat even before applying dark colors of this lacquer. We sell this splendid color varnish, famous through twenty years of successful use, at remarkably low prices, made possible by manufacturing it in our own modern varnish factory and selling it direct to the user with no middlemen's profits included. It is furnished in six popular wood finishes, listed below and shown in actual colors at the left. For a good brush to use with it, see 30R3038, page 857.

30R2689 Brown Mahogany.	30R2691 Dark Oak.	30R2693 Cherry.
30R2690 Light Oak.	30R2692 Red Mahogany.	30R2694 Walnut.

PORCH FLOOR PAINT
Defies Wear and Weather

NOT PREPAID $2.15 Per Gal.

Seroco FLOOR PAINTS

INTERIOR FLOOR PAINT
Best for Inside Floors

NOT PREPAID $1.90 Per Gal.

YOUR porch floors need a paint that will withstand the trying effects of rain, snow, wind and extremes of temperature successfully and present a lasting, glossy surface under hard usage. Seroco Porch Floor Paint fulfills the most severe requirements. It is a high grade oil paint, made expressly for floor surfaces exposed to the weather. It contains the proper amount of varnish to toughen the paint film. It wears like iron, is practically unaffected by scrubbing, chair or heel marks. Superior to house paint for floor purposes, covering more surface and wearing far better. Two coats will cover about 300 to 350 square feet per gallon; three coats, 200 to 250 square feet. (Use three coats on new or unpainted floors.) Use it for cement as well as wood floors. It is easy to clean and easy to keep bright and attractive appearing. Five appropriate colors, listed below and shown in actual colors at right. For a good 3½ or 4-inch paint brush see page 856.

30R600—Gray.
30R610—Lead Color.
30R640—Moss Green.

KITCHEN, hall, bedroom or playroom floors, stairs, etc., are subjected to the most severe wear—cover them with Seroco Interior Floor Paint. This durable, easy to apply varnish paint dries hard in ten hours. It has a high gloss and good opacity or hiding qualities. It will withstand scrubbing, chair or heel marks most successfully. Washed with mild soap and water when soiled, it will keep attractive and fresh appearing indefinitely. One gallon will cover about 300 square feet two coats, or 250 square feet, three coats. (Use three coats on new or unpainted floors.) Nowhere else will you find as big a value in floor paint. Your choice of eight attractive colors, shown at the left in actual colors and listed below.

Seroco BRUSH LACQUER

15 Minute Color Magic

THINK of it!—*In a few minutes after you apply Seroco Brush Lacquer it is ready to use!* No waiting for it to dry—no fear of dust or careless fingers spoiling its marvelous surface—it hardens like magic to a beautiful, lustrous, colorful, almost indestructible finish. Anybody can apply it and get a perfect job—it dries without a sign of brush marks, laps or checking to spoil your finish. Brighten up those old articles of furniture that do not quite fit in. Save money on new furniture by buying unfinished pieces at a big saving and lacquering them yourself *to your own taste*. Color is in style—brighten up! Choose your colors from these sixteen bewitchingly pretty shades, or mix them to form any tint in the rainbow! It's easy with Seroco, and it's amazingly profitable. We're positive of the saving, and we're equally sure of the quality because we make it ourselves. We furnish full directions.

Seroco GLOSS ENAMEL

A Low Priced, Quality Finish for Walls and Woodwork

WE PAY THE POSTAGE

$2.39 Per Gal.

IT'S SURPRISINGLY inexpensive to give your room walls and woodwork a delightful glossy, porcelain-like effect. Your bathroom, kitchen, pantry and bedrooms will reflect added beauty and good taste when decorated with one or more of the nine dainty shades in which we furnish Seroco Gloss Enamel. Their brightness and cleanliness will be further emphasized by a richness of appearance and wearing qualities you wouldn't believe possible. Professional painters select it for its high quality and low price; home owners, in addition, use it for its ease of applying and washing or cleaning properties. It brushes on smoothly and evenly without brush marks or "laps." One gallon covers about 200 square feet, two coats. Use 30R2654 Undercoat (see below) before applying the white enamel on new surfaces, over dark colors or worn white surfaces or when using any light color enamel over dark shades. Shown in nine attractive colors at the right and listed below.

30R2152—Rich Cream.	30R2162—Ivory.	30R2160—Lilac.
30R2154—Pea Green.	30R2156—Light Blue.	30R2163—Light Gray.

Seroco DECORATIVE ENAMEL

Brightens Old Furniture Pieces

WE PAY THE POSTAGE

39c PER PINT

You can convert odd furniture pieces, iron beds, refrigerators, kitchen, breakfast set or sun parlor furniture into bright attractive furnishings you'll be proud of, by quickly and easily refinishing them with Seroco Decorative Enamel. Eleven appropriate shades to choose from (shown in actual colors at left and listed below) insure a wide range of tints for tasteful, harmonious home furnishing decoration. Unusually economical in use, ½ pint being enough for an iron bed. Be sure to first apply 30R2654 Undercoat (see above) before using white enamel on new surfaces, over darker colors, on worn white surfaces, or when applying any light shade of enamel over a darker shade.

30R2135—Light Gray.	30R2134—Burnt Orange.
30R2139—Dark Green.	30R2133—Light Green.

UNDERCOAT FOR WHITE ENAMEL

Your enameling job will give you the most complete satisfaction when applying white or light colors of enamel, if you first coat the surface with this excellent undercoat or ground color. Quick to dry and produces a splendid surface for enameling. It's cheaper, too, than applying several coats of white or light color enamel to cover up the old surface perfectly. One gallon will cover about 250 square feet, two coats. For a good brush see 30R3044, page 857.

SNOWHITE ENAMEL
Beautiful-Clean-Sanitary
For Walls, Woodwork *and* Furniture

$3.95 A GALLON We Pay the Postage

Pent up sunshine released to pour a flood of joyous brightness and light over the confining walls of your home. Snowhite Enamel is a finish of joy and beauty. The whiteness of snow capped mountain peaks, combined with a hard, smooth, seemingly ever wearing porcelain-like finish, produce a glossy, attractive, easily cleaned wall covering. Woodwork and walls alike become resplendent with added beauty and spick and span cheer when coated with Snowhite. It is everlastingly popular in countless homes where kitchen, pantry, bathroom, bedroom, breakfast room, even the living room, present a picture in white throughout—wall, woodwork and furniture. In dairies, hospitals, bakeries, restaurants, wherever cleanliness and attractiveness are prime requisites, Snowhite is supreme.

Best results are obtained by applying Snowhite over 30R2654 white Undercoat, shown on the opposite page. One or two coats of Snowhite are sufficient when applied over the Undercoat; one gallon will cover about 200 square feet, two coats. By making Snowhite Enamel in our own big modern paint factory and selling direct to the user, we make you a tremendous saving. You cannot find a better enamel elsewhere, even at $2.00 or $3.00 per gallon more than our price. Apply with a good brush (see 30R3044, page 857).

30R2165—Snowhite.

Buy Enamels from the World's Largest Store. We make them in our own big modern paint factory and sell direct to the user at big price savings.

Screen Enamel

A rich glossy green or black finish for the wire and frames of your screens or screen doors. It costs only a few cents per screen to make them look like new for spring, preventing rust from shortening their life. Does not clog the meshes of the screen when properly applied. Use a 2½ or 3-inch brush for applying (see 30R3031, page 857).

30R2175—Green. 30R2176—Black. **$1.55**

For Unfinished Furniture, "Ready to Enamel," See Furniture Pages or Refer to Index Under Furniture.

Bathtub Enamel (Liquid Porcelain)

Makes sheet metal bathtubs or the outside of porcelain tubs attractive and inviting with a porcelain-like finish. It wears exceptionally well and is practically unaffected by hot water. Apply it over White Enamel Undercoat 30R2654, shown on opposite page; also well adapted for use on wood or metal kitchen sinks and drain boards, inside of refrigerators and the outside of porcelain or enameled fixtures. **45c** Per Pint Postpaid

Gold Bronze *and* Aluminum Radiator Enamels

The Finishes of Countless Uses

There is nothing more appropriate for finishing metal fixtures than these gold bronze and aluminum enamels. Use them for radiators, picture frames, chandeliers, statuary, bird cages, iron beds, baskets, wickerware, gas and electric fixtures, room moldings and bric-a-brac. Splendidly adapted for any heated surface, such as trimmings on stoves, boilers, engines, mantels, furnaces, oven interiors or any metal surface subjected to considerable heat. One ½-pint can is sufficient for a radiator of 12 columns, 36 inches high. It dries with a hard, smooth finish. Apply with our special Bronzing Brush, 30R3013, listed at the left.

SEROTONE A SATIN FINISH PAINT

A Superior Inside Wall Finish

YOU will never regret Serotone on your kitchen, pantry, bathroom or bedroom walls or woodwork. Imagine all these advantages combined in the one quick drying finish—so easy to apply, the hard, smooth grained surface of enamel, the deep, soft color tones of kalsomine, wearing qualities you wouldn't believe possible, a surface easily kept bright and clean, and a finish that always produces a good job. It is a desirable compromise for those who wish neither a pronounced gloss nor a flat finish, its satiny finish leaving a smooth, colorful glow. It is furnished in a wide range of desirable tints. One gallon will cover about 200 square feet, two coats. Mix it with our 30R2734 Undercoat (on opposite page) when decorating unpainted walls. Use a 3½ or 4-inch paint brush (see page 856). Eleven popular shades, listed below and shown in actual colors on page 849.

30R2040—Ivory.
30R2041—Buff.
30R2042—Pearl Gray.
30R2043—Cream.
30R2044—Shell Pink.
30R2045—Seal Brown.
30R2046—Sepia Brown.
30R2047—White.
30R2048—Blue Tint.
30R2049—Green Tint.
30R2050—Medium Green.

VELVET Kalsomine

Sanitary · Economical · Easily Renewed

43c Per 4-lb. Package

YOU can finish the walls of a whole room in an attractively colored sanitary decoration for only 43c! Best of all, you can readily wash off the old finish with a sponge when soiled or spotted and quickly redecorate it in any shade preferred. You can put it on in a jiffy yourself and do a good job. You can kalsomine over painted, papered, plastered or wood walls, first applying 30R2736 Wall Size (at the left). Kalsomine is a quick drying, one-coat material, covering wel, showing no brush laps and will not rub off readily. Full directions are furnished for use; one package is enough for the walls and ceiling of the average 10x12-foot room. A stencil border will add greatly to the decorative effect (see page 852). Order your kalsomine brush from page 856. We furnish kalsomine in eleven tasteful tints, listed below and *shown in actual colors on page 849.*

30R2601—Ivory.
30R2602—Buff.
30R2603—Sepia Brown.
30R2604—Green Tint.

SERO-VAR ALL PURPOSE VARNISH

$2.37 One Gallon Postpaid

We are Varnish Headquarters. We sell high quality varnishes at prices that save you one-half or more over prices regularly asked elsewhere.

Sero-Var Is Our Own Trade Mark Registered in U.S. Pat. Off.

Made in our own up to date Varnish Factory, and guaranteed equal in quality to nationally advertised "Spar" Varnishes regularly sold elsewhere at $5.00 to $7.50 per gallon.

Sero-Var is a varnish for all purposes and all temperatures! Sero-Var is truly an exceptionally fine varnish and a value beyond belief. Used within the home, it will give worn furniture a desirable glossy finish, making it sparkle with new life, renew the attractiveness of dingy woodwork, and work wonders with the appearance of hardwood floors, being surpassed only by our Extra Durable Floor Varnish (see opposite page) as a varnish covering for floors. Used outside the home it will give splendid results on doors, porch furnishings, boats, etc. Easily applied, dries hard over night and is absolutely unaffected by water of any temperature or extremes of heat or cold. Sero-Var is clear and transparent, holds its color and does not change the color of the wood. It duplicates nationally advertised "Spar" varnishes in excellence of materials, finish and in wearing qualities. The World's Largest Store offers it to you at a saving of one-half or more. Our "direct from factory to user" policy insures you the biggest values possible. One gallon will cover about 500 square feet, one coat. Apply with a good 3-inch varnish brush (see page 857).

About Varnishes

All varnishes listed on these pages are clear, transparent amber color. They may be used on any kind of wood without changing the color of the finish. For a colored varnish that will change the color of the finish, use our Chinese Gloss Lacquer or our new Brush Lacquer.

Inside Spar Varnish

You cannot find a better interior varnish at any price. Highly resistant to moisture and will give the finest results on any interior woodwork. Pale in color, permitting the grain to show through. Easily applied, requiring two or three days to settle and dry. Dries as a gloss varnish but gives good results if rubbed.

EXTRA DURABLE FLOOR VARNISH the Final Touch for Beautiful Floors

$2.65
1 Gallon
We Pay Postage

Smooth, glistening, unmarred floors add the finishing touch of beauty to a room's attractiveness; dull floors detract from the effect of nicely decorated walls and tasteful furnishings. Our famous **Extra Durable Floor Varnish** completes the spick and span appearance of the home interior. It has an unusual tough, durable film that defeats hard wear. It will keep floors bright and free from marks of heavy wear. Water will not whiten it; it holds its mirror-like luster indefinitely.

The strong, elastic film will not become brittle and show scratches. It is quick drying. It owes its immense popularity to its unusual quality and its ability to withstand successfully the most severe conditions of weather and wear.

You can pay twice our price for floor varnish elsewhere, yet you cannot improve on the quality of our Extra Durable Floor Varnish. To apply, simply clean the floors and put it on with one of our 3-inch varnish brushes. One gallon covers about 600 square feet on oak and 400 square feet on soft pine, one coat.

Orange or Clear Liquid Pure Shellac

Clear Shellac
$3.89
1 Gallon Postpaid

Use clear shellac to preserve the natural color of the wood and orange shellac (about the color of light golden oak) where darker colors may be used. Both are standard heavy bodied shellacs, cut four pounds of gum to the gallon. This produces the ideal consistency for first coating furniture or woodwork before varnishing. Dries thoroughly in two hours or less. We do not recommend shellac as a first coat on floors because of its tendency to chip and show heel marks. One gallon of shellac covers about 600 square feet, one coat. Apply with one of our 2½ or 3-inch flat varnish brushes.

30R2656—Clear Shellac

Seroco Dye Stains

An excellent penetrating wood stain, imparting a rich, natural color to new woodwork, floors or furniture. After applying, it is necessary to coat the surface with white or orange shellac to properly seal the stain; then apply a coat of varnish or wax. Apply it only on new wood surfaces that have not been treated with any other finish. **It should not be used on painted, varnished or enameled surfaces.** On open grained hardwood, best results are obtained by first filling the wood with Seroco Paste Wood Filler (see above). Put Seroco Dye Stains on with a varnish brush. One gallon will cover about 400 square feet.

Safe-Strong

We are proud of the high quality and good reputation of our ladders. Safety and strength are the keynotes of our ladder construction. The rungs are thoroughly tested, seasoned hickory; side pieces sturdy, lightweight, good straight grained, thoroughly seasoned ladder stock. The materials and workmanship used insure good, long, trouble free service.

$2.40 Per Pair Postpaid

Ladder Jacks

This handy attachment permits you to do conveniently painting and repairing jobs which otherwise require the use of a stage or scaffold. Simply hook the jacks in place on ladder rungs at the desired height and put your plank in place. Made of high grade steel and will take planks up to 18 in. in width. Widely used by carpenters as well as painters. The jacks can be hooked to rear of ladder if it is desirable to bring plank closer to side of building. We pay the postage.

Your Car Will Look Like New

Automobile Enamel

You can bring back a large measure of the original attractive appearance of your car at a trifling expense with a few hours' pleasant work. No matter how dilapidated it now appears, regardless of how flat and dull the finish, Seroco Auto Enamel will give it a lasting luster and bright appearance beyond belief.

This splendid enamel is a special paint for automobiles. It flows freely, spreads evenly and stays on. It will not chip, crack or peel. It dries with a smooth, mirror-like gloss, with pure, non-fading colors. You can buy automobile enamel elsewhere at twice our price or more, but you cannot buy another enamel that will give you more lasting satisfaction.

About three quarts are sufficient to refinish the body and gear of the average touring car, two coats. Remove any gloss from the old finish by rubbing it down with steel wool or sandpaper. Complete directions furnished for applying Seroco Auto Enamel. Use a good varnish brush (see 30R3038 and 30R3025, page 857).

For Color Samples, See Page 849.

Buy your Auto Oils and Car Finishing Materials from the World's Largest Store. You save ⅓ or more over prices elsewhere.

Auto Top Dressing

Refinish leather and imitation leather tops with this dressing, making them water-tight and greatly improving the appearance of the car. Dries over night; the finish will not crack or peel. One quart will cover the top of an average touring car, two coats. Apply with a varnish brush (see 30R3031, page 857).

30R3428
Gloss Jet Black 1-pint can. We pay the postage ...41c
1-quart can. We pay the postage.... 64c

Aut-O-Sek
Waterproofs Auto Tops

You can waterproof old leather, imitation leather, mohair, pantasote or canvas auto tops. Apply with a sponge, rag or brush. Unaffected by folding, bending or creasing the top. Dries in 12 to 24 hours; it is NOT a varnish "top dressing." This famous finish produces a rich black lasting luster, not a shiny finish.

SAVE the ROOF! Stop Leaks!

Quick Lasting Inexpensive } REPAIRS

Rufix Guaranteed Roof Paint

SOLD UNDER OUR OWN TRADE MARK

Registered in U. S. Patent Office

Asbestos Fiber Liquid Roof Coating

Black or Maroon

Home owners! A coat of Rufix NOW will protect your roof from leaking and keep its appearance attractive for years to come. You can STOP LEAKS, too, that may have already developed in your roof. Before applying Rufix all nail holes and bad leaks should be filled with our Asbestos Fiber Roof Cement 30R3477, shown at the right. Rufix forms a tough, elastic weatherproof coating, being a combination of weather resisting gums and oils. It is NOT made of cheap coal tar products usually offered at about our Rufix prices. It will not soften even during extremely hot weather. You can readily apply Rufix yourself. To secure best results, use the special Roof Paint Brush shown below. Rufix being somewhat thick to use with an ordinary paint brush. We guarantee Rufix to give service equal to that of the highest priced roof paints on the market or we will replace it without charge. One gallon will cover approximately 250 square feet, one coat, on smooth surfaces. Rough or pórous surfaces require more material.

Made of Genuine Long Fiber Asbestos and Guaranteed Gilsonite Asphaltum

This splendid roof coating will make your roof long lasting and leakproof. It will penetrate every crack, joint, nail hole or rust spot in any flat or steep roof, whether composition, felt, paper, gravel or metal. Comes in thick liquid form, readily spread over the old roof. (Use our Special Roof Brush 30R3170, shown below.) It will not run or sag in hot weather nor crack in cold weather. This roof coating has no superior for damp-proofing exterior foundations and underground steel or wood tanks. One gallon will cover about 65 square feet, applied about one-sixteenth of an inch thick. Any color of this roof coating will give the same high grade service although the color of the red or green coating requires making it on a different formula.

Asbestos Fiber Roof Cement (Not Illustrated)

There is nothing better for patching chimney flashings, holes, gaps or repairing around gutters and skylights. Apply it one-eighth to one-fourth inch thick, depending on the size and the kind of repair. As easy to use as putty. Can be used with excellent results as a covering for the entire roof; ten pounds will cover about 25 square feet of smooth surface. Most conveniently applied over large surfaces with a trowel.

For trowel see Hardware pages or refer to Index.

Asphalt Roof Paint

Second only to our Rufix Paint (see above), for felt or composition roofs, warehouses, iron roofs, trestles, sheds, etc. Better than coal tar type roof paints; often sells elsewhere for $1.25 or more a gallon. One gallon will cover about 200 square feet of smooth surface or 150 square feet of rough surface, one coat. Apply with paint brush.

In figuring roof paint or shingle stain, multiply length of house by the width, then add one-third that amount to get area of roof. Divide by covering capacity per gallon to obtain the number of gallons required.

Unless otherwise stated, we do not prepay shipping charges on items on this page.

Seroco Shingle Stain

You can weatherproof your roofs, shingled walls and rough wood sidings at small expense and make them attractive appearing. This splendid stain contains a high proportion of Creosote Oil, making it an excellent preservative. One gallon covers about 80 square feet of shingles, two coats, or 125 to 150 square feet of fir siding and similar soft woods, two coats. 1,000 4x16-inch shingles can be dipped two-thirds of their length with 2½ or 3 gallons of this stain; apply two coats to obtain a lasting color. **See directions for measuring your roof at left below.** Apply with wide paint brush.

NOTE—Only the Bungalow Brown color can be used on hardwood.
For actual colors of Seroco Shingle Stain see page 847.

Refined Liquid Coal Tar

70c 1 Gallon Postpaid

Protect water tanks, metal fence posts and other metal surfaces against rust with this excellent preparation; widely used by professional roofers for recoating gravel roofs; sometimes used for pruning and tree wound dressing. May be applied cold, but gives best results when heated to a boiling temperature. One gallon will cover about 250 square feet.

Creosote Wood Preserver

93c One Gallon Postpaid

Lengthens the Life of Wood Surfaces

You can make wood fence posts, sills, joists, etc., last much longer by treating them with this splendid Wood Preserver. Use it for treating soft woods, too. Made of pure creosote oil, **recommended by the United States Government as the best possible wood preservative.** It is also a splendid stain and preservative for shingled roofs. We are offering it at a remarkably low price. Do not confuse it with adulterated creosote oils sometimes offered at prices lower than these. One gallon of this preservative will cover 80 square feet with two coats, or will treat about twenty ordinary fence posts to the height of 2½ feet.

High Grade FLY NETS and HORSE BLANKETS

Keep the Flies Away

$2.05 60-Lash

"Missouri Valley" Cotton Cord Waterproofed Nets

These popular nets are used in all sections of the country, the term "Missouri Valley" being merely a trade name for this particular style. They are waterproofed and made with black bars of double woven web, with the lashes sewed through them; yellow lashes in the body and extra lashes across the breast. The body is 5 feet long, the lashes 7 feet long.

10R9082—60-Lash Net. We pay the postage. Each..... **$2.05**
10R9083—70-Lash Net. We pay the postage. Each..... **2.20**
10R9084—84-Lash Net. We pay the postage. Each..... **2.35**
10R9085—100-Lash Net. We pay the postage. Each..... **2.55**

Extra Large Nets. Bars, 5½ feet; lashes, 9 feet long. We pay the postage.
10R9216—84-Lash. Each..... **$3.05**
10R9217—100-Lash. Each..... **3.30**

High Quality Leather Nets

A bargain at this low price. Heavy weight black leather fly nets, for expressing or teaming; consisting of 70 lashes on ⅝-inch bars, 5 feet long; lashes, 7 feet long, pieced on the side bar. Leather nets give long and satisfactory service. We pay the postage. **$4.40**
10R9256—Each..... **$4.40**

$2.50

Our Biggest Net Value

Special Latigo Leather

A 75-lash net of latigo leather, extra well made; the lashes are securely stapled to the leather bars and stitched between two waterproofed strips of webbing. This net usually sells elsewhere for $3.50, but by special arrangement with the manufacturers we are able to sell them at the extremely low price of $2.50. We suggest early buying as we expect an extra large sale on this unusual bargain.

10R9123—We pay the postage. Each..... **$2.50**

"Rosser Brand" Cotton Cord Fly Nets

$2.40 AND UP

Note how closely together are the lashes over the back. This feature practically doubles the efficiency of a fly net, causing it to act with the slightest quiver of the horse's hide. Nearly half our customers buy the "Rosser Brand," because of this greater protection. Construction is of extra quality waterproofed 3-ply cord with hand braided bars in fancy colors and yellow lashes woven through the bars. The end of each lash is wire fastened to prevent its unraveling. There are twice as many lashes over the back as there are around the legs.

10R9180—100 lashes over body, 50 below lower bar. We pay the postage. Each.... **$2.40**
10R9181—140 lashes over body, 70 below lower bar. We pay the postage. Each.... **3.00**
10R9182—160 lashes over body, 80 below lower bar. We pay the postage. Each.... **3.20**

Waterproofed

WE PAY POSTAGE

Enlarged illustration shows lashes woven into bars (not stapled).

10R9258—80 lashes over body, 40 below lower bar. We pay the postage. Each..... **$3.48**

Top and Bottom Leather Nets

$3.48

Nowhere else can you secure a great big heavy general utility leather net such as this at such a low price. Made in top and bottom style with twice as many lashes across back as there are around legs. Bars are 5 feet long, lashes are 7 feet. Lashes are braided into bars (not stapled) making a long lasting durable net.

These ideal covers protect the horse from head to tail and not only repel flies, but keep the horse's back, neck and head cool. Made with a sheet of closely woven cotton duck over the back, reinforced at the hame and terret holes. The cord lashes below are fastened through a woven web bar firmly stitched to the duck. The use of these covers is highly recommended and purchasers are assured of a big saving in price.

10R9051—29-inch duck, 100 inches long. Each..... **$1.70**
10R9052—29-inch duck, 110 inches long. Each..... **1.80**

We pay the postage.

$2.45 70-Lash

Black Cotton Cord Fly Nets, Commonly Called "Rubber Nets"

Waterproofed

Made of heavy weatherproofed 3-ply cotton cord, dyed black. Body is 5 feet long, with wide hand braided bars, and lashes 8 feet long, braided through them so that they will not readily pull out; the end of each lash is wire fastened to prevent unraveling. Extra lashes across the breast. We pay the postage.

10R9228—70-Lash Net. Each..... **$2.45**
10R9229—84-Lash Net. Each..... **2.60**
10R9230—100-Lash Net. Each..... **2.85**

Protection in Rain or Sleet

Our "Big Leader"

These blankets are made by one of the leading manufacturers in the country, whose products are widely known. His label is attached to every blanket. We have sold horse blankets for a good many years and believe these to be among the best we have ever seen. Seldom will you find blankets like these at such low prices. When you get them you will be highly pleased with your purchase. Of this we are sure. That is why we guarantee perfect satisfaction with, and long service from, every blanket we sell. The body of these blankets is reddish brown with a most attractive combination of colors in the heading stripes. They contain sufficient wool to make them nice and warm.

10R9916¼—Size, 80x84 in. We pay postage. Each... **$3.60**

10R500¼
10R501¼

Bark and Oil Tanned Gives 25 Per Cent Greater Strength

We believe NAT-URA-TAN to be the strongest and most serviceable harness it is possible to make. Every hide for this harness is carefully selected and must be extra heavy, tough, pliable and of uniform thickness. Actual tensile strength tests made by a disinterested laboratory showed 25 per cent greater strength for NAT-URA-TAN leather. These tests were made in competition with the highest grade Canadian and American leathers.

Remember This: You cannot get more service from a harness than is actually built into it. Oversize harness means permanent satisfaction. It lasts longer and gives greater and more satisfactory service than an undersize harness that binds and draws with every movement of the horses.

Natural Color

NAT-URA-TAN is a new discovery in tanning harness leather. By this process the vitality of the leather is retained and preserved indefinitely, and fortified against ravages of air, sun, water and dirt. It is treated to withstand ammonia and animal heat which causes black leather to crack and rot. NAT-URA-TAN is a dark natural brown color with no dye or injurious bleaching chemicals used to weaken the strong fiber.

Mr. Wille Says:

Sears, Roebuck and Co.

I am very much pleased with the Harness I bought from you. There is not a poor strap in it. It is nice and soft in all kinds of weather. The Harness is satisfactory. I don't think it can be beat for style and weight. It lays good on the horses. I don't see why it won't wear for many years for the goods is there. Every one that has seen the Harness says it is a real one for the money. I think a harness something like this would cost around $85.00 here, but they don't handle as good a Harness. I know if I need another one some time, it will be another just like the one I bought.

HENRY H. WILLE

(Address furnished upon request.)

All Strap Work Is Full Width and Cut Extra Long

Never have you been offered such an unusual opportunity to secure the very utmost in harness value. Our price for this super strength NAT-URA-TAN harness is less than is usually asked elsewhere for an ordinary medium weight harness. The more familiar you are with harness quality, the greater will be your appreciation of this outstanding value. All strap work on this harness is full width. In fact, we take special pride in specifying that every Sears harness shall be made oversize.

Sears Guarantee Protects You

We guarantee harness to reach you promptly in perfect condition, and to be free from defective materials and workmanship. Any strap proving actually defective during the life of the harness may be returned. We do not limit you to 3, 5 or even 10 years. If after 30 days' trial you are not perfectly satisfied in every respect, simply return the harness and the amount paid, together with all transportation charges, will be returned.

A Heavy Duty Harness

Made to Our Specifications

Here is one of the best work harnesses you can buy regardless of price. It is made to Sears own generous specifications. At the special reduced prices shown here, it is the greatest harness bargain offered anywhere. Our price for this heavy genuine metal-to-metal harness is less than others ask for an ordinary harness.

Fits Horses Weighing Up to 1,800 Pounds

There is not a "skimpy" strap in the entire harness. Compare it strap for strap with harness costing $25.00 more elsewhere and you will find all our straps are full width and by several inches longer—big enough to give an 1,800-pound horse real harness comfort.

10R613¼—10R614¼—10R615¼ 10R616¼

This harness is the same as the large illustration, except that it is made with regular 5-ring style breeching. See table at right for prices. Complete sets only.

Your Horses Deserve Sears Generous Size Harness

The popularity of metal-to-metal harness has grown rapidly the past few years, due to its unusual strength and long wearing qualities. The exclusive metal-to-metal features built into this harness, in combination with VIT-A-TAN leather, makes a set that will give exceptional service far beyond what you would expect from much higher priced harness.

No horse can do his best work in an undersized harness that causes binding, undue chafing or that climbs up when he travels down hill or attempts to stop quickly. Your horses will show their appreciation of our oversize harness in decreased irritability, better temper and steadier work.

Every Sears harness is of generous size, several inches longer than the generally accepted standards. If you could compare our harness alongside competitive brands, you would quickly see the difference. Have us send you this harness or any other harness in the book to try out for 30 days. If you don't find that you've received a real, over-size harness, if you don't find that you've saved $15.00 to $25.00 over prices elsewhere, return it and get your money.

Collars on Easy Payment

If collars are wanted with harness on easy payments, choice of numbers 10R3445, 10R3431, 10R3432, 10R3433, 10R3427, 10R3440, 10R3455 and 10R3465 only will be permitted at cash prices quoted. They may be included with order without any additional down payment. These above collars will be found on pages 862, 863 and 864.

Description and Prices of Parts of Harness Shown in Large Illustration

10R607B—Bridles. Catseye Glass Reflectors

For Motorists or Team Owners

Protect your teams from accident while on the road. Place a white reflector in front and a red one at the rear; also suitable for use as emergency head and tail lights on your car by fastening two white ones to the radiator bar and placing a red one near the tail light. Catseye Glass is scientifically designed to reflect all light reaching it back to the source of light on the same angle. No mirror is used and no colored background, the coloring being in the glass itself. (Mirrors blister and flake off after a short period of exposure to the elements.) Catseye Glass is guaranteed against discoloring or fading. **We pay the postage.**

10R5002—White or front reflector with snap. Each. **$1.17**

10R5003—Red or rear reflector without snap. Ea. **$1.12**

VIT-A-TAN Harness Dressing

Highest Quality at Lowest Prices

That's what you expect when you buy harness and saddlery from Sears, Roebuck and Co.; that's just what you'll get if you make up your order from this catalog. Quality that is reliable results from the manner in which the leather is tanned that goes into the manufacture of our harness, strap work and saddles. Sears famous VIT-A-TAN bark tannage proved the best by countless numbers of our customers, over the 36-year period during which we have been selling harness. Low Cost is made certain by large quantity production, modern methods of manufacture, purchase of supplies for cash and economical distribution.

When Comparing With Others Note Width of Straps and Weight

Bridles—Ring crown style; 1¼-inch crown; ⅞-inch cheeks; Concord blinds; combination double and stitched front and winker brace; ¾-inch noseband; ¾-inch throat latch; flat reins.

Lines—1 inch by 18 feet, well stitched laps; snaps included.

Traces—Three-ply leather end; 1½ inches by 6 feet, 2-row stitched, or 1¾ inches by 6 feet, 3-row stitched; fancy scalloped safe; 1¼-inch bellyband; 6-link heel chains clipped on.

Pads—Extra heavy, 4-inch, double and stitched with 1¼-inch layer, swell shape; 1¼-inch market straps.

Breechings—Three-ring style, heavy folded body with 1¼-inch layer; 1-inch adjustable double hip straps; 1-inch divided backstraps to hames; trace carriers and rump safe; 1⅛-inch side straps. Wide lazy straps with 1-inch billets.

Breast Straps and Martingales—Are 1½ inches wide. Heavy and well constructed.

Hames—Varnished Concord wood, bolt style, heavily steel bound. Spread straps with rings and 1-inch hame straps included.

"New England" Farm Harness—Extra Heavy Strap Work Throughout

Just compare our price on this harness with that usually asked by others, and you will find that we make you a saving of $10.00 to $25.00 and even more per set. Remember, nothing is added to the cost of our harness after it leaves the factory, except our one profit.

The World's Strongest Harness Guarantee

We guarantee to sell you a better set of harness than you can buy elsewhere for the same money. We guarantee it to reach you promptly in perfect condition, and to be free from defective materials and workmanship. Any strap proving **actually defective** during the life of the harness may be returned. We do not limit you to 3, 5, or even 10 years. If after 30 days' trial you are not perfectly satisfied in every respect, simply return the harness and we will return your money, including any transportation charges you have paid.

Bridles—Flat crown style, ¾-inch box loop cheeks; concord (sensible) blinds, round winker braces; spotted front and face piece, round reins; check-up straps.

Hames—Steel clip and staple with brass ball top.

Traces—3-ply 1¾-inch three-row stitched, 6-feet long, clipped to hames, folded bellybands with 1½-inch buckles. Ten-link swivel heel chain with hook bolted on.

Lines—1 inch wide, 20 feet long, stitched laps. Buckle and billet ends.

Breeching—Folded body, 1½-inch layer stitched full length; flange breeching layer loops; 1-inch hip straps and backstraps.

Sidebackers or Jockey Straps—Single strap, 1½ inches wide, chain supports.

Breast Straps—Heavy single strap with leather loops, 1¾ inches wide, snaps and sliders.

Shipping weight, 95 pounds. *Not Mailable. Shipped by freight or express. Not prepaid.*

Dependable Trimmings

"Good Quality and Low Prices"

Two things the buyer is always on the lookout for. The only sure way to get them together is to buy where they are guaranteed to you. This is what buying harness through our catalog means to you: You "take no chances," for prices as low as are consistent with good quality are quoted on every set. If you receive a set of harness that, in your opinion, does not represent the idea here stated—a combining of good quality with low price—we want you to return it, at our expense, and get your money back, together with any shipping charges you have paid.

"White Mountain" Truck Harness

We suggest your careful consideration of this harness; a decided bargain.

How to Measure

Measure horse's neck from top to throat in a straight line. The number of inches will be the size needed. Or measure old collar as illustration shows. The draft is the size around collar at widest part of collar. Correct measurement of collars should be sent when ordering collars.

Length, 8 inches. Wide curved blades of well tempered steel. For clipping the mane, tail and fetlocks. We pay the postage.

10R4815—Each $1.25

Bark Tanned Black HARNESS LEATHER

39c PER POUND AND UP
Postage Paid

Our leather is noted for its strength of fiber and unexcelled wearing qualities. It is the same high grade that we use in our sets of harness and miscellaneous strap work; is tanned by the old bark process, in use for over fifty years, and never fails to give satisfaction. We will send you as near the weight you order as we can and charge for the quantity we send, but we do not cut the sides, back or pieces into straps. We pay the postage.

10R7763¼—Full Sides, weighing from 16 to 19 lbs. each. Lb. 70c
10R7764¼—Full Sides, weighing from 20 to 24 lbs. each. Lb. 72c
10R7767¼—Backs only, weighing from 13 to 16 lbs. each. Lb. 81c
10R7768¼—Backs only, heavy trace leather, weighing from 17 to 19 pounds. Per pound 82c

Leather Bellies. Used for repairing or making light strap work. Pieces weigh from 4 to 8 pounds each.

10R7771—Per pound 39c

Because of uncertainty in the leather market, these prices are subject to change without notice. We give you the benefit of lowest market prices.

Engine Power Sheep Shearing Machine

Can be operated from line or run directly from any engine of ½ horsepower or more. Machine is adjusted to take care of the varying speeds of different engines without changing the pulley. You do not need line shafting, pulleys or any other accessories except belting. Use flat belting, 1¼, 1½ or 1¾ inches wide. The gears are semi-enclosed; lever quickly throws machine in or out of gear, as desired, while in operation. The machine is guaranteed to shear sheep regardless of condition of their wool. All parts are made of steel of high quality, cut and fitted with extreme care. Furnished with a narrow shearing head with three-point type cutter. Two combs and four cutters are supplied with each machine. We pay the postage.

10R4876¼ $23.65

Eclipse Sheep Shearing Machine

$22.75

Consists of a tripod and two-piece upright and has a flexible jointed, ball bearing arm shaft. This machine is furnished complete with the Eclipse ball bearing sheep shearing head, two combs and four cutters. Buy the Eclipse and make sure of getting a machine that for shearing efficiency is most reliable, runs easy and is fully guaranteed. We pay the postage.

10R4880¼ $22.75
10R4883 — Extra Cutter 28c
10R4884 — Extra Comb 93c

Protect Your Buildings Before Lightning Strikes

All items on this page shipped by express or freight only, not prepaid.

Lightning causes more loss by fire on the farm than any other agency, yet practically all fires caused by lightning could be avoided by the use of lightning rods properly installed. Anyone can easily put up his own outfit. No expert needed.

Our lightning rods are made of pure copper wires woven in a manner to give fullest electrical carrying capacity. Copper tube uprights are seamless, full No. 20-gauge with point and lower coupling complete.

Standard cable is suitable for small farm buildings or residences, but for larger buildings requiring three or more groundings, and in sections where storms are especially severe, the use of heavy and extra heavy cables is advised. Tops or points should be placed at ridge ends and corners and not over 25 feet apart; also at chimneys.

Prices of cable include copper clips, nails and connectors. In ordering state whether connectors are wanted for branch line or to connect two straight lines. A complete plain top or point consists of copper tube upright with point and coupler, and galvanized brace stand. The 2½-foot points are especially desirable for residences, but may also be used on barns and outbuildings. Arrow vanes, animal vanes and glass balls are not included with the tops but must be ordered at extra prices shown. A complete lightning rod outfit with cable and tops, weighs, packed for shipment, from ¾ to 1 pound to the foot.

72R3700¼—Standard Copper Cable, 30 No. 18-gauge wires, about ⅜ inch in diameter. Per foot..... **7c**

72R3696¼—Heavy Copper Cable, 32 No. 17-gauge wires, about ½ inch in diameter. Per foot..... **9½c**

72R3695¼—Extra Heavy Copper Cable, 34 No. 17-gauge wires, about 9/16 inch in diameter. Per foot **11½c**

72R3698¼—Complete Plain Top. 4½ feet high..... **98c**

72R3699¼—Complete Plain Top. 2½ feet high..... **80c**

72R3690¼—23-inch vane and animal figure only. **State figure, whether horse, cow, pig, sheep or rooster..** **90c**

Shallow Pit Scales

Heavy Duty Construction

These scales are sealed to U. S. standard and can be used for buying or selling anywhere, or for any purposes for which scales of this type are required. Guaranteed accurate, close weighing and durable.

Recommended for permanent setting, all around heavy duty, and longest service. **These are known as five-lever scales,** the most modern type of heavy scale construction. **Two main levers, one at each end,** extend across the platform and rest on heavy bearing chairs. Another lever extends from each main lever, and carries the weight to the fifth lever, which transmits it to the weight beam. **The great advantage of this type scale** is that the entire lever system always remains stationary, whereas the scales of the hanging lever type, the levers swing with the platform, causing extra wear on knife edges and bearings. Weight beam is of the lastest type, standard compound. No loose weights. Price includes beam box but does not include platform timbers or boards. Complete directions furnished for installing. **Shipped from factory near KANSAS CITY, MO.**

Atlas Pitless Wagon and Stock Scales

$101.00 And Up Cash

Require no pit, but set right on top of the ground. Easily set up, and can be moved from one location to another with little trouble. **They come with full steel frame,** and steel platform joints, ready to put together—all complete except platform boards. **Pitless Scales are designed particularly for farm use and are recommended for their convenience.** No pit, wall, wood frame timbers or platform joists are needed. Simply bolt steel together, hang in scale irons, lay on platform planks and your scale is set. **The lever construction** is on the same principle as our Shallow Pit Scales. We **recommend Pit Scales for all public weighing. When Ordering on Easy Payments Use Time Payment Order Blank in Back of Catalog.**

Two-Way Sulky Plow

For hillside use as well as level land. A practical Sulky Plow that is a combination of two plows, mounted on separate steel beams and each plow controlled by a separate lever. The ideal plow for use in irregular shaped fields. Saves time and eliminates dead furrows. All furrows can be turned one way. **Has all** the up to date features. Built strong to stand strain, yet light of draft and weight. A light pressure on the simple roller bearing foot device raises plow out of the ground, the horses doing all the work. Hand trip in easy reach of operator should he desire to walk in back of plow. Heavy iron frame built to stand strain and long service. Draft is from point to beam. Hitch is low and drops to correct position when bottom is lowered. Large diameter steel wheels have wide tires, staggered spokes and removable dustproof boxes. Seat adjustment which enables operator to regulate landing of plow or width of furrow. Price of plow includes three-horse hitch, which can be quickly changed to two-horse hitch when desired. Jointers are regularly furnished, **but will furnish knife coulters with plows instead if so ordered.** Plow bottoms are general purpose shape, with hardened soft center steel moldboards and steel landsides. Plows are regularly furnished with chilled shares but solid steel shares can be furnished instead. Plows turn a furrow 8 to 10 inches deep and 12 to 14 inches wide. **Shipped from factory near ALBANY, NEW YORK. Not Prepaid.**

Patented Spring Clevis

Eliminates sudden jolts. Avoids breakages.

32R290—Two-Way Sulky Plow. Wt., 610 lbs. **$76.50**
32R291—Right Hand Chilled Share. Wt., 9 lbs. **$0.75**
32R292—Left Hand Chilled Share. Wt., 9 lbs. **.75**
32R293—Right Hand Steel Share. Wt., 7 lbs. **3.60**
32R294—Left Hand Steel Share. Wt., 7 lbs. **3.60**

Two-Horse Steel Beam Hillside or Swivel Plow

Prices include extra Share.

$15.25 AND UP

A great favorite with the Eastern farmer. Particularly designed for hillside plowing, but does excellent work on level land. The plow reverses easily and locks automatically by a foot latch. The shifting mechanism is placed high, out of the way of dirt and trash. Jointer and coulter reverse with the plow. Beam is high carbon steel with extra heavy iron standard and shoe bolted to the bottom. Furnished with either soft center or chilled moldboard; share, chilled iron. By means of shifting clevis and wheel, plow can be adjusted to cut 12 to 14 inches wide and 5 to 8 inches deep. Illustration shows plow with gauge wheel and coulter. These attachments not included in price of plow. Furnished at extra price shown below. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R200—Plow With Chilled Moldboard. Weight, 135 pounds. **$15.25**
32R201—Plow With Soft Center Moldboard. Weight, 130 pounds. **19.50**
32R197—Chilled Share. Weight, 9 pounds. **$1.20**
32R202—Gauge Wheel. Weight, 10 pounds. **1.45**
32R203—Reversible Knife Coulter. Wt., 15 lbs. **2.65**
32R196—Reversible Jointer. Weight, 17 lbs. **2.85**

General Purpose Walking Plows

$15.50 and Up

Prices include extra Share.

Here is an unusually well built plow designed for all around work in all kinds of soils—sod, clay, stony ground, sandy land or black loam. Rigid construction and well braced bottom reduces possibilities of breakage to a minimum. Moldboard has a long graceful roll that always scours. Double beaded forged steel beam, oak handles. Gauge wheel and jointer are extra at prices shown. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R560—12-Inch Walking Plow With Soft Center Steel Moldboard. Wt., 120 lbs. **$17.45**

32R563—14-Inch Walking Plow With Soft Center Steel Moldboard. Weight, 125 pounds. **$18.75**
32R565—14-Inch Walking Plow With Chilled Moldboard. Weight, 135 pounds. **$17.50**
32R561—12-Inch Chilled Share. Weight, 9 lbs. **.85**
32R564—14-Inch Chilled Share. Wt., 10 lbs. **.90**
32R566—Gauge Wheel, Complete. Wt., 10 lbs. **1.95**
32R567—Jointer. Complete. Weight, 20 lbs. **3.00**
32R568—Coulter. Complete. Weight, 15 lbs. **3.15**

Reversible Steel Beam Hillside Plow

Prices include extra Share.

$27.50

A great favorite with the Eastern farmer. Particularly designed for hillside plowing, but does excellent work on level land. The plow reverses easily and locks automatically by a foot latch. The shifting mechanism is placed high out of the way of dirt and trash. Jointer and coulter reverse with the plow. Beam is heavy double beaded steel with malleable iron standard and sub-shoe riveted to the bottom. Moldboard is steel, share chilled iron. Malleable iron frog holds moldboard in proper place and the chilled share also fastens to the frog. By means of shifting clevis and wheel, plow can be adjusted to cut 12 to 14 inches wide and 5 to 8 inches deep. Illustration shows plow with coulter. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R222—Reversible Hillside Plow, with wheel and knife coulter. Weight, 150 pounds. **$27.50**
32R223—Reversible Hillside Plow, with wheel and reversible jointer. Weight, 150 pounds. **$27.85**
32R224—Chilled Share. Weight, 9 pounds. **1.20**

Reversible Hillside or Swivel Wood Beam Plow

$10.95 AND UP

Prices include extra share.

Especially adapted for use throughout the Eastern States. They are intended for hillside plowing and can also be used with good success on level land. When used on hillsides, all furrows can be turned one way, leaving land free from dead furrows. The bottom operates on a swivel and is held in place by a latch. By releasing the latch, the bottom can be instantly reversed from right to left. Beam is provided with a quick adjusted side shifting clevis controlled by a rod extending back to the handles and adjusts the hitch so plow will cut a furrow from 4 to 6 inches deep. Share is chilled iron, insuring extreme hardness of wearing parts. Knife coulter illustrated with plow is extra on one-horse plow, but regular equipment on two-horse plows. Coulter knife automatically reverse with plow on two-horse size, but is stationary on one-horse plow. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R206—One-Horse Plow, 11 inches, with chilled iron moldboard. Weight, 85 pounds. **$10.95**
32R207—Two-Horse Plow, 14 inches, with chilled iron moldboard and reversible knife coulter. Wt., 150 lbs. **19.75**
32R208—Knife Coulter. Weight, 5 pounds. **$1.35**
32R209—Chilled Share for 1 horse plow. Weight, 7 lbs. **.70**
32R210—Chilled Share for two-horse plow. Wt., 7 lbs. **.85**

Gardeners' and Truck Farmers' Combination Plow

$7.95

The regular equipment with this plow includes a moldboard and share, cutting a furrow 10 inches wide; a smaller moldboard and share cutting a furrow 8 inches wide; a special cabbage moldboard and share, and a small plow without moldboard, which bolts direct to standard and makes a superior plow for work in strawberries, cabbages and similar work. The double moldboard and share is furnished as an extra and is useful for opening furrows. The plow is strongly built with heavy iron standard, to which the beam is securely bolted and braced to the handles. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R198—Gardeners' Combination Plow, without double moldboard. Weight, 60 pounds. **$7.95**
32R199—Double Moldboard Attachment for combination plow. Weight, 13 pounds. **$2.00**

COVERERS *and* ROW MARKERS

Disc Hoe or Coverer

$13.75

Not Prepaid.

Complete With Pole.

Ideal for truck gardener, as it can be used for anything planted in rows. Especially adapted for cultivating potatoes, as they can be ridged up with the coverer. The 20-inch discs can be set to throw dirt either toward the plants or away from them. Frame set high on discs preventing breaking or interfering with plants well grown. Handles of seasoned oak. Adjustable in height and also from side to side, allowing operator to walk to one side.

32R540—Wt., 135 lbs. **$13.75**

Shipped from factory near ALBANY, N. Y. Not Prepaid.

Wing Hoe or Coverer

$11.95

Not Prepaid

Shipped from New York Factory

Complete with Pole.

For hilling and covering potatoes; also extensively used for many other crops, such as asparagus, celery, corn, beans, berries, etc. A popular coverer where rocks or other obstructions are prevalent, preventing use of a disc coverer. Frame and handles made of seasoned oak, well braced. Standards are movable on crossbar to allow proper spacing. Wings made of high tempered steel, strong and durable. Wings are adjustable and may be set at any angle of distance apart to 3 feet.

32R542—Weight, 110 lbs. **$11.95**

Row Markers

$17.25

Strongly built, yet light enough for easy handling, adjustable for rows from 28 to 48 inches apart. Runners made of chilled iron with steel wings. Steel wings are shaped to open a sufficiently large furrow and at the same time leave pulverized earth at the bottom of the furrow for the seed bed. Depth of furrow is controlled by the adjustment of frame to the pole, whereby the tilt of the runners is fixed. A reversible gauge marks the Line for the next furrow. Furnished regular with steel handles but will furnish a seat instead when so ordered at same price. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R543—Two-Row Marker, with shafts for 1 Horse. Wt., 115 lbs. **$14.95**
32R544—Three-Row Marker, with pole for 2 Horses. Weight, 150 pounds. **$17.25**

Two and Three Tooth Markers

$11.75

Adjustable for rows from 28 to 46 inches apart. A strong, lightweight marker. Cast iron teeth are separate from holders, and both together open a wide furrow to plant corn, potatoes and other crops. Gauge on both ends guide marker in next row. All wood parts heavy selected hardwood. Gauge wheels extra at price shown. **Shipped from factory near ALBANY, N. Y. Not Prepaid.**

32R545—Marker, with 2 teeth. Weight 55 lbs. **$10.50**
32R546—Marker, with 3 teeth. Weight, 70 pounds. **$11.75**
32R547—Pair Gauge Wheels, complete. Weight, 20 pounds. **$1.75**

NOW You Can Buy DAVID BRADLEY Famous IMPLEMENTS at Unusually Low Prices

Get the "SEARS" Habit

Make this book your financial adviser. Consult it regarding all intended implement purchases and it will save you many dollars. There are no better implements made than the Bradley.

Think of the hours you spend in the field from early morn 'till late at night, earning only a small part of the cash you could save on just one item.

While you have this book before you, write out a list of the farm implements you are going to need within the next few months, and put opposite each item the approximate savings we can make you, then add the savings and notice what a big sum it amounts to.

We own and operate the Big David Bradley Implement Factory which previously sold through dealers for many years, at the customary high dealer's prices. Sears now sells to you direct from this same factory, less the middlemen's profits at factory-to-you prices based on costs still further lowered through our greatly increased production. You not only take no chance, but you save money and get a better, more modern implement when you buy a David Bradley Product.

Buy on Easy Monthly Payments

If you haven't all the money now, our Easy Payment offer enables you to buy the implements you need now and pay for them on small monthly payments.

Your Money Back if Not ENTIRELY Satisfied

We urge you to try out Bradley implements in your own field. Compare them feature for feature. Give them any test you desire. If you do not find Bradley tools equal or superior in design and construction and workmanship, just write us for return instructions and your money will be promptly returned. Besides, we guarantee you substantial saving as well.

And Remember This: A million farmers have bought and recommended our goods to others. Surely a million farmers can't be mistaken.

Freight Rates on Agricultural Implements

Agricultural implements take very low freight rates. From the table below you can tell about what the freight charges will amount to, or your local freight agent should be able to tell you exactly. Or if you will write us we will gladly give you this information. The freight charges amount to very little compared to the big saving you make on our farm machinery. On Plows, Drag Harrows, Rollers, Planters, Cultivators, Mowers and Rakes, the freight rates are as follows:

Freight Rates per 100 lbs. from Philadelphia, Pa., to
Trenton, N. J. 23c
Hartford, Conn. 41c

Freight Rates per 100 lbs. from Syracuse, N. Y., to
Albany, N. Y. 36c
Augusta, Maine 73c
Buffalo, N. Y. 36c
Charleston, W. Va. 71c
Concord, N. H. 57c
Montpelier, Vt. 67c
Oil City, Pa. 51c
Scranton, Pa. 41c

Freight Rates per 100 lbs. from Harrisburg, Pa., to
Altoona, Pa. 48c
Chambersburg, Pa. 30c
Williamsport, Pa. 41c
Lancaster, Pa. 25c

Freight Rates per 100 lbs. from Greensboro, N. C., to
Lynchburg, Va. 57c
Richmond, Va. 70c
Raleigh, N. C. 43c

Unexcelled Repair Service

We can always furnish repairs promptly for any implement ever purchased from us. We maintain stocks at our many convenient stores and endeavor to ship every order the same day it is received. When repairs are urgently needed, telephone or telegraph your orders. **Be sure to give your complete address in each instance.** We guarantee prompt shipment.

David Bradley Famous Garden City Clipper Walking Plows

$14.95 And Up

Sold for Cash Only

Why pay more for any Walking Plow—nothing better in walking plow construction. It's the way Bradley plows are built that has made them the favorite everywhere for almost a century. In addition to the highest quality and correct design Bradley users have the advantage of big savings in price. Try a Bradley in your own field. The correctly shaped bottom turns the soil completely over and covers the trash with the least possible draft. Moldboard, share and landside of hard tempered soft center steel. Shares and moldboard have reinforced points, insuring longer wear. Entire bottom is carefully ground and polished. Heavy steel beam highly arched to clear trash. Jointer is extra at price shown. **Send order to BOSTON, MASS., PHILADELPHIA or HARRISBURG, PA.**

Shipped from PHILADELPHIA or HARRISBURG, PA.

Shipped from Harrisburg, Pa., or Greenboro, N. C.

Does fine work in stubble or tame sod, and as the moldboard, landside and share, are solid steel, with mild or natural temper, it gives good service in stony land. The bottom construction of this plow is one of its special features, the moldboard, share and landside being securely bolted to a steel frog, and outer landside which has an adjustable slip heel. **Bottoms** are perfectly ground and highly polished. **Moldboards** are double shinned on top, insuring great wearing qualities. **Beam** is heavy double beaded steel, highly arched so as not to foul in trashy land. **Handles** are of first quality oak, well braced to beam and adjustable. **Jointer** is extra as price shown. Send orders to PHILADELPHIA, HARRISBURG, BOSTON or GREENSBORO, whichever is nearest you.

Soil Testing Set

"Know the Condition of Your Soil"

Is your soil "sour" or "sweet"?

If your soil requires lime do you know approximately how many tons of lime per acre should be added to correct the acid condition? Do you know what crops or plants are best suited to the amount of acid or alkali present in your soil? Buy this soil testing set and be sure. Set consists of three chemical indicators, test tubes and a chart of colors so that the results can be read directly, by simply comparing colors. The process is very simple. Complete directions are furnished. Merely take a small sample of soil, add a little distilled water and a drop or two of the chemical indicator. Compare the color of the liquid with the chart we furnish. The farmer and gardener who wants to know the truth about the condition of his soil cannot afford to be without this set. It will pay for itself many times.

David Bradley Cast Plow

$7.25 And Up

Price Includes One Extra Share

For use in sandy, gravelly or gritty soils only. Noted for their perfect shape, scouring qualities and light draft. The share and shin (sometimes called cutter shares) are in one piece, so in renewing one you renew the other. Materials used in the bottoms are a special mixture of metals of extreme hardness, yet possessed of strength and toughness. **Beam** is first quality oak, thoroughly seasoned and bolted to slotted braces on the handles, making it adjustable for more or less land. **Handles** are thoroughly seasoned oak, braced by heavy rounds and a steel stay rod. A jointer should be used with 72R175¼ and 72R176¼ plows when plowing trashy ground. Made with slanting landside. The bottom of share measures about 2 inches less than the full cut of plow. Jointer and gauge wheel must be purchased extra at prices shown below. **Shipped complete with one extra share from PHILADELPHIA, PA.**

Plow Easier *and* Better With DAVID BRADLEY

X-RAYS SULKY PLOWS

Illustration shows Combination Coulter and Jointer furnished at extra price shown.

Detailed Construction of Rolling Coulter

A perfectly designed sulky plow with heavy steel beam, quick detachable shares and quickly adjustable clevis. If you desire a plow with all latest improvements, so necessary for perfect work, a light draft plow that operates so easily a boy can handle it, you will make no mistake in buying the Bradley. This improved plow has a high frame with highly arched axles for clearing trash and offered to you for less than you would ordinarily have to pay for a less modern plow. Perfectly balanced high lift, no side draft. Why not try the X Ray in your own field and let it prove every claim we make. You'll find nothing better at any price.

Strongly Built Throughout

Frames—Extra heavy hard steel bars. Strongest ever put on a sulky plow.

Beams—Formed with high arch for clearance, highest quality steel.

Bottoms—General purpose. Famous for perfect work, easy scouring and long wearing. Hard tempered soft center steel moldboard and shares. 18-inch size is Corn Borer bottom.

Shares—Quick detachable "armor plated," patented, of hard tempered soft center steel. A layer of extra hard steel is welded around the top, bottom and sides of the point of a Bradley share, where other manufacturers use only a protecting shin on top.

Wheels—Easy running. Dustproof oiltight hubs, easily greased (one greasing being sufficient for fully 40 acres of plowing). Land wheel, 34 inches; front wheel, 24 inches; solid rear furrow wheel, 19 inches in diameter.

When Ordering on Easy Payments Use Time Payment Order Blank in Back of Catalog. Terms: $10.00 Down, $7.50 a Month.

Extra high hand and foot lift. Convenient lever control.

$53.95 And Up

Send orders to Boston, Mass., Philadelphia or Harrisburg, Pa., whichever is nearest you.

Shipped from HARRISBURG, PA. Not prepaid.

Not Prepaid

Prices are for plows complete with pole, neckyoke, rolling coulter, weed hook and wrench. Evener not included. If needed, see list of eveners at left below for 3 horses. Will furnish a jointer instead of a coulter if so desired. Can furnish combination coulter and jointer instead at $1.50 extra.

Use Famous DAVID BRADLEY PLOWS *Favorites for Almost a Century!*

$15.90

Right or Left Hand

Riding Attachment for Walking Plows

Makes a first class frameless sulky plow out of any wood beam or steel beam plow or middle breaker. It will make your plow run steadily and without side draft, provide a comfortable seat for you and without making the work a bit harder on your team. It can be set for any depth furrow. Levers operate easily. Can be changed from one plow to another. Attachment does not carry plow high from ground and, being tongueless, cannot be backed by the team. By placing the attachment back of a drag harrow and connecting the harrow draw bar by a long pole or 2x4-inch timber placed between the beam clamps on the attachment you have a splendid harrow cart. Made entirely of iron and steel. Wheels are the regular type of riding plow wheels with wide oval tires and dustproof hubs. **The attachment is not intended for use on smaller than 10-inch plows and cannot be used in rod breakers, upon which the beams are too low.** Price is for the complete attachments, everything shown in the illustration, except the plow. **Shipped from PHILADELPHIA, or HARRISBURG, PA., GREENSBORO, N. C. Send orders to Philadelphia, Boston, Harrisburg, or Greensboro. Not prepaid.**

Genuine Improved DUNHAM CULTI-PACKER

Illustrates Culti-Packer with extension attachment. The extension attachment adds 7 feet rolling capacity to any Culti-Packer.

It CULTIVATES PACKS MULCHES

Price complete includes combined horse and tractor hitch. If tractor is used only necessary to drop forecarriage. Or, at prices shown, will ship tractor hitch only, leaving off forecarriage and seat.

DUNHAM'S TRADE MARK

Easy Payments $10.00 DOWN $10.00 A MONTH

Use Time Payment Order Blank in Back of Catalog.

Cash Price **$30.00** And Up

Pulverizes and Packs

Culti-Pack same day you plow. Save tons of moisture, closes up air spaces and makes a perfect seed bed.

Patented Quick Detachable End Wheels

Remove two bolts, take off two end wheels from each axle, lock remaining wheels in position. An exclusive feature that saves time in splitting gangs for straddling row crops and corn. Wheels and brackets are of "Dunite," a hard, tough mixture of iron and steel that resists breakage, wears longer and scours better.

Front wheels, 15 inches in diameter. Rear wheels, 12 inches in diameter.

Cultivates and Mulches

Mulch the surface and break the crust to give corn a quick start in the early growing stages. Quick detachable wheels make this possible.

Rear gang easily raised, adding 68 per cent more weight to front gang, without adding weight to team.

THINK of it! Only $30.00 and up for the well known standard Dunham Culti-Packer, nationally known and formerly sold through dealers at prices from one-third to one-half more than we ask. This is possible only because we have taken over a large part of the output of the immense Dunham factory, and selling this wonderful implement now direct from factory to farmer. The latest and greatly improved Dunham Culti-Packer is a much better machine than has ever been sold in the past. A great many new features have been added. It costs more to manufacture this new machine and only by cutting out the middlemen's profits is it possible to offer this low price. This implement has more different uses than any other tool on the farm and there's hardly a season in the year when you cannot use it profitably.

What the Culti-Packer Is

The Culti-Packer is a combination cultivator, disc harrow, land packer and land roller all in one. A light draft machine for either horse or tractor power.

Makes More Productive Seed Beds at Less Cost

The Culti-Packer gives the ideal soil treatment after plowing. You can culti-pack in one hour, all the plowing done in eight hours. By culti-packing the same day you plow, you can keep tons of moisture in the ground that later you will turn into cash. The Culti-Packer does seed bed work that cannot be done by any other tool or combination of tools. The wheels, like human hands, grind, crush and pack every soil particle. Rear wheels do not trail but split ridges formed by front wheels.

Cultivates wheat, alfalfa, oats, corn, rye, cotton, flax, hemp, beets, trucking, clover, meadows and all other crops. It will roll, pulverize, pack, stir, level, cultivate and mulch the soil in one operation, better than any other tool or combination of tools. Deeper penetration is assured by the new improved shape of wheels. Subsoil is packed in all directions and the lumps pulverized—another exclusive Dunham feature. Automatic weight equalizer—still another patented feature. End brackets evenly distribute weight so both gangs ride every irregularity of the ground. No springs, no levers, no adjustments. Always ready for use in any soil condition. Relieves driver of shocks, makes easier riding and lighter draft. Wheels mounted on 1¾-inch high grade steel axles. Oil-tight and dustproof felt washered bearings with hardwood bushings. Frame is heavy angle steel, bolted solidly to end brackets and turned up to form weight box. Strongly cross braced to heavy 4-inch channel steel pole. Wheels are 4 inches wide. Rear wheels are spaced directly between the front wheels so that the soil is worked every 2 inches and no lumps can escape.

Increases Wheat Yield

Culti-Pack your winter wheat in the spring and increase yield from 5 to 7 bushels per acre. Works wonders on alfalfa and clover sod.

And Now a Culti-Hoe

Makes the Culti-Packer more valuable than ever, giving you a wider range of utility. The frame and axle are the same as on the Culti-Packer, the only difference being in the wheels. Sold complete with all hoe wheels, as illustrated, or with hoe wheels in front gang and Culti-Packer wheels in rear, or hoe wheels in rear and Culti-Packer wheels in front as desired. **Be sure to state which is desired when ordering.** These new hoe wheels fit any Dunham Culti-Packer. You can buy the necessary hoe wheels only at price shown below, and convert your Culti-Packer into a Culti-Hoe, simply by taking your Culti-Packer wheels and inserting the hoe wheels. Or you can make a combined Culti-Packer and Hoe by changing one set of gangs alone. In this way various combinations can be made. Hoe wheels are the same size as Culti-Packer wheels and the same number are required. **Shipped from factory near CLEVELAND, OHIO. Not prepaid.**

32R558—Hoe wheels only, in sets of 10 or more. Weight, 14 pounds. Each..... **90c**

Patented Automatic Weight Equalizer and Pressure Control

Gives flexibility to gangs, permitting them to follow inequalities of soil and crush all lumps. Saves the driver many hard jolts.

Prices shown are for either Culti-Packer or Culti-Hoe.

Be sure to state which is wanted. If Culti-Hoe is desired state whether hoe wheels are wanted in both gangs or with hoe wheels in front gang, and Culti-Packer wheels in rear; or hoe wheels in rear gang and Culti-Packer wheels in front. Shipped from factory near CLEVELAND, OHIO, or BRADLEY, ILL. Not prepaid.

"I Saved $30.00 by Buying a Bradley Tractor Plow" Says F. E. Lee, Jr.

All Steel DAVID BRADLEY TRACTOR PLOW

For Fordson Farmall and Similar Tractors

Easy Payments $10.00 DOWN $10.00 A MONTH

Send orders to Boston, Mass., Philadelphia or Harrisburg, Pa.

Illustrates Combination Jointer and Coulter

A tremendous success last year, and again this year David Bradley leads the light tractor plow field with the First successful variable width furrow all steel tractor plow. A masterpiece in agricultural implement design embodying a new application of the soundest engineering principles. A plow for the toughest plowing. Casting breakages and twisted beams have been eliminated. The adjustable feature permits adjustment of the furrow cut to suit soil conditions or the power of your tractor. This combination of features is found in no other plow and is offered to the American Farmer and at a price far below prices asked for other tractor plows.

Practically All Steel

Our New Process Heat Treated Steel is used at every point of heavy strain. This new special heat treated steel is as hard and tough as steel can be made. The plow is scientifically designed for very light draft and efficient work. It is extremely rugged and solid and will stand up under the hardest and toughest plowing.

The First Successful Plow With an Adjustable Width Cut

Easily and quickly adjusted in your own field without special tools for plowing different width furrows. By only changing position of standards as illustrated below, you can convert the plow from a 2 14-inch to a 2 12-inch cut, using the same bottoms. In addition, by buying the extra 18-inch bottom at price shown, you have either a 16 or 18-inch single bottom plow.

Terms: $10.00 down and $10.00 a month. When ordering on Easy Payments Use Time Payment Order Blank in Back of Catalog. Bottoms and shares sold separately for cash only.

Beams—Extra heavy special steel, guaranteed not to tiwst, bend or break.

Double spring levers in easy reach of operator's seat controls the depth of plowing a half notch at a time from 2 to 10 in.

Wheels—Heavy steel, with staggered spokes, equipped with long distance dustproof bearings. Wheels revolve on a removable sleeve on the axle, preventing wearing out of the axle.

Bottoms—The foot of the special heat treated standard is forged into a frog and soft center steel bottom is built around it. Quick detachable shares.

Length of entire plow, 112 inches. Plow equipped with 15-inch rolling coulters. Dustproof, adjustable chilled bearings. Will furnish jointers in place of coulters if so ordered or can furnish combination coulters and jointer as illustrated above, at $3.00 extra if desired. Be sure to so state on your order.

Shipped from HARRISBURG, PA.

Positive Lifting Clutch

Powerful—simple—troubleproof. Main bearing equipped with roller bearing. A jerk on the trip rope causes rollers to engage the clutch, forcing plow in or out of ground in about 3 feet of travel.

Labor Saving Attachments for Tractor Owners

Combination Side Hill and Safety Hitch for Tractors

When implement strikes obstruction, coupling releases, preventing breakage. Recouples automatically. Adjustable to any tension equal to one to four-plow bottoms. Full 12-in. shift. Easily fitted to all horizontal drawbar tractors. We pay postage.

72R2289¼—For Fordsons. $8.25

72R2290¼—For McCormick and Deering Tractors..... $8.35

Shifting Side Hill Hitch

For plowing on side hills, rolling land, or where an offset is required, as plow can be adjusted to cut an even furrow from the operator's seat without stopping tractor. Same hitch as at left, without safety spring coupling. We pay postage.

72R2294¼ For Fordson only.... $5.50

72R2295¼—For McCormick and Deering Tractors..... $5.65

$4.95 Postpaid

Safety Spring Hitch

Fits nearly all makes tractors. Has malleable frame and steel parts. Adjustable to any load desired. Will handle one to four plow bottoms. Automatically uncouples if plow strikes an obstruction, preventing breakage and damage. Has self coupling feature when backed into. Main bearing has steel roller, which reduces friction and insures accuracy. We pay postage.

72R2291¼.... $4.95

$2.30 We Pay Postage Ea.

Rim Clamp for Tractor Wheels

Nothing like it on the market. For Fordson or McCormick-Deering Tractors.

A simple and strong attachment for fastening one or two extension rims securely to tractor wheel. Solves the problem of attaching or detaching extension rims. Easily removed or put on by simply turning one burr after once set properly to the wheel. Price does not include wheel or extension.

72R2296¼—We pay postage. Each..... $2.30

Safety Spring Hitch for Scissor Bar Plows

Meets practically all needs in a coupling between tractor and implement. Adjustable for two to four bottom loads. Fits all scissor bar plows, many with solid bar, and all straight bar tractors. Has the safety spring release and self coupling features. Electric steel construction. We pay postage.

72R2288¼ $5.45

Power Take-Off and CLUTCH PULLEY for FORDSON

$19.50

Get More Service from Your Fordson

This Power Take-Off and Clutch Pulley combined makes your Fordson Tractor always ready for belt power. Simply shift the lever and you convert your tractor from drawbar work to belt power. Bolts to Fordson in place of foot rest. Spiral gear always in mesh with internal gear of tractor, but clutch throws pulley in or out of gear without stopping motor. You can crank motor without removing belt. Dusttight and oiltight. Built for long wear. Weight, 50 pounds. Sold for cash only. Shipped only by freight or express, not prepaid.

72R2232¼..... $19.50

David Bradley Rotary Harrow Attachment

Plow, harrow and level your seed bed at one operation. Conserves moisture when conditions are most favorable for growth of seed. Easily attached to frame of any make of riding plow.

Saves Time, Money and Moisture

Dustproof Roller Bearings

Runs so easily that it adds practically nothing to the draft of plow. Malleable iron curved blades cut throughout their entire length. Self cleaning, will not clog and they bury the trash well under. They are stationary on axle and axle turns, so each blade does its share of work. Conveniently placed lifting lever. Guaranteed to do satisfactory work in any soil. Prices do not include plow.

Shipped from HARRISBURG, PA. Send orders to Harrisburg or Philadelphia, Pa., or Boston, Mass. Sold for cash only. Not prepaid.

DAVID BRADLEY ROTARY HOE

Here is an ideal tillage tool to eliminate the slow work of the first and second cultivation of your corn. Thousands of farmers testify that they can do as good a job cultivating as with cultivators and even faster than with Tu Ro cultivators. Examine a field of corn which is just coming through and if the field is crusty you will find a large number of missing hills. The plants may sprout but they cannot come through. If you will use a rotary hoe on this field, you will find after two or three days that nearly all the missing hills are through. The rotary hoe breaks the crust and thoroughly cultivates the corn right at the start.

Give Your Deep Drilled Crops a Better Chance

Help your corn, beets, legumes and other deep drilled crops to get a better start by breaking and pulverizing the crusted soil for them and killing the tiny weeds both in one operation, with this new spectacular rotary hoe. It cultivates a strip 7 ft. wide. There are 3 of the hoe wheels, and each have 16 teeth which penetrate the ground, uprooting all the small weeds, without damage to the crop. The malleable iron wheels are 21 inches in diameter, thus for every revolution of the wheels every 5½ feet of ground travel, 496 teeth enter the ground to cultivate and destroy the small weeds. You have to see the machine work to fully appreciate it. It breaks the crust on your wheat, oats and other small grain fields, hoeing the growing crop and destroys the many small weeds that otherwise would grow to rob the crop of nourishment and moisture. It is a marvelous tool for the cultivation of beets when small, soy beans when drilled and mint. Ask anyone who owns one what he thinks of his rotary hoe. Then compare our price with others. The steel axle shaft is 1 inch in diameter and turns at each end, and the center in wood boxings lubricated with hard oil cups. The conveying and depth gauge wheels are made of steel, 18 inches in diameter with a 3-inch tire and are equipped with special replaceable bearings. (See illustration.) The hoe is strongly built of best materials and guaranteed to give you satisfaction. **Shipped from HARRISBURG, PA. Send orders to Boston, Mass., Philadelphia or Harrisburg, Pa., whichever is nearest you.**

For Simplicity and Efficiency

THE DAVID BRADLEY TRACTOR DISC HARROW Leads THEM ALL

"Saved $60.00 on My Tractor Disc Harrow" Says James Franks

Easy Payments $15.00 Down $10.00 A Month

Read What Users Say:

I saved $60.00 and I have never seen a disc that turns so nicely as this one. I have been a customer of yours for a long time and will continue to be.

JAMES FRANKS
(Address furnished on request.)

Shipped from HARRISBURG, PA., SYRACUSE, N. Y., or GREENSBORO, N.C. Not prepaid.

Crossarm trailer connections.

A One-Man Heavy Duty Short Turning Tractor Disc Harrow

$73.95 And Up Cash

Heat Treated Disc Blades

The lately developed heat treated disc blades regularly furnished with the Bradley. As hard and tough as steel can be made. Cutting edge outlasts that of any ordinary disc many times even in stony soils. Cuts trash better. Increases the efficiency and value of any disc harrow.

Can furnish our tractor disc harrows with 18-inch disc blades. If interested write for prices.

Unless otherwise stated all items on this page are shipped by freight or express only not prepaid.

Like Mr. Franks, farmers everywhere state the David Bradley tractor disc harrow is in a class by itself both in design and price. There are many tractor disc harrows offered the farmers today, but regardless of the various designs or price, the Bradley is unexcelled. It is a short turning harrow, a marvel in simplicity yet built strongly to stand the gaff. One trial in your own fields will convince you of its superiority. The Bradley tractor disc harrow is the best designed implement of its kind in the field today regardless of price or make.

The Bradley Has Many Features of Real Merit Not Found in Any Other Harrows:

1—Two long convenient levers control all four gangs, permitting quick adjustments for cutting at various angles.

2—Front bearings are relieved of end thrust wear by large bumper washers and rear gangs by a heavy swivel chain.

3—We use oil soaked maple liners in all bearing boxes. Both front and rear boxes are interchangeable as both front and rear harrows are alike.

4—Front and rear gangs connected by patented crossarm trailer connections from axle to axle, forcing every rear disc blade to split the furrow at all times. The same crossarms force all gangs to cut a uniform depth from end to end.

5—Rope operated oscillating spring steel scrapers furnished extra, have throw-off lever. Ropes to scraper levers not furnished.

Our price saves you one-third or more over that asked elsewhere for other standard disc harrows. This saving is possible by quantity production in our mammoth Bradley Implement Factory, by selling direct without passing the disc through the hands of middlemen who can add nothing except to the price. Put a Bradley in your own field and test it beside any other disc made. Compare every detail of construction and performance. If you are not satisfied that you have the best disc harrow in America and that you have made a big saving, send it back, and we will return your money including the freight charges both ways.

If you have not the ready cash, take advantage of our easy payment terms. Terms: $15.00 down and balance $10.00 per month. Use Time Payment Order Blank in Back of Catalog. Shipped from HARRISBURG, PA., SYRACUSE, N. Y., or GREENSBORO, N. C. Not prepaid. Send orders to Philadelphia, Pa., Boston, Mass., Greensboro, N. C., or Syracuse, N. Y.

Pulverizes the Soil Kills the Weeds

DAVID BRADLEY *Steel Frame* Spring Tooth HARROWS

BIG SAVINGS AT OUR LOW PRICES

Illustrates 72R388¼ With 72R399¼ Steel Handles

$12.50 AND UP

Shows two-section harrow equipped with Special Leveler Attachment furnished at extra price shown. The stiff teeth tend to pull out the partially cut off weeds and vines, crush clods and level the surface behind the harrow. Makes an ideal combination tool. Be sure to specify number of sections in harrow.

You cannot beat this David Bradley Spring Tooth Harrow for deep tillage in stony or stumpy land. It works to a depth of 5 or 6 inches, kills all weeds and grass and makes a deep, mellow seedbed. Bars placed high to give extra clearance for trash. Priced to save you at least one-third over what you would have to pay elsewhere.

Practical Sizes for Every Farm

Thoroughly pulverizes the soil and kills all the weeds. Favorites in truck gardens, orchards, timber countries and stony or stumpy ground. Spring teeth securely bolted to teeth bars, dig deep, thoroughly pulverizing the soil and uprooting all weeds, grasses, etc. Heavy angle steel frames. Teeth of standard design so spaced to prevent clogging. Each section cuts 3 feet wide. All sections are hinged at center. The 1-section harrow is just the size for small gardens and truck gardeners. Cuts 3 feet wide. The 2-section harrow is the size generally used on the average farm. While the 3 and 4-section harrows are designed for tractor use, they can also be used with horses by reversing the levers. Will furnish harrows with special crimped teeth for cultivating alfalfa, or with special pointed teeth for quack grass at 75c per section extra.

Quack grass teeth are made of heavy high carbon steel with points ground and polished. They enter the ground at just the right angle, tearing the quack grass roots loose and dragging them to the surface. Also adapted for destroying Canada Thistle, Morning Glory, Bermuda grass, etc.

The alfalfa tooth has a narrow shank and spearhead point. Works around the alfalfa roots without injury and pulls up all weeds and shallow rooted grass.

Prices include drawbar and hitches as illustrated. Not prepaid. **Shipped from SYRACUSE, N. Y., HARRISBURG, PA., or GREENSBORO, N. C. Send orders to Philadelphia, Harrisburg, Syracuse, Boston or Greensboro, whichever is nearest you.**

One-Section Pulverizer Harrow

$12.95 AND UP

This popular all steel harrow will work successfully in any kind of soil and on flat, rolling or hilly ground. Farmers, truck farmers and cotton growers find them indispensable. The long curving knife blades cut down through plowed-under matter and are very effective for making perfect seed beds. The flat front ends of the blades, together with the floats which are placed between each pair of blades, will completely pulverize all the lumps and clods left after plowing and level the surface of ground, leaving a fine mulch that holds moisture. Depth of penetration of blades may be adjusted by a lever within easy reach of operator. Nothing to wear but the blades and they last many years. Has suitable hitch for clevis. **Shipped from factory in NEW YORK. Not prepaid.**

32R392—One-Section, One-Horse Walking Pulverizer, equipped with 6 blades, 5 floats and handles. Cuts 3 feet wide. Weight, 77 pounds..... **$12.95**

David Bradley All Steel Harrow Cart

$10.95

Why Walk When You Can Ride!

A better cart at a special low price.

Attaches to any style drag harrow, and will save many days' hard tramp. Strongly built. Simple in construction. The two axles are independent of each other and pivot at end of draw bars, which cause the cart to automatically follow the harrow. Does not drift in side hill work. Wheels 36 inches high with 3-inch concave tire. **Shipped from HARRISBURG, PA. Send orders to Philadelphia, Harrisburg or Boston, whichever is nearest you. Not prepaid.**

32R375—Weight, 115 pounds..... **$10.95**

David Bradley Steel Guarded End Lever Harrows

$7.45 AND UP

All items on this page are shipped by freight or express only. Not Prepaid.

Guarded frame prevents catching on trees, stumps, stones or other obstructions. The U-shape steel tooth bars are fastened to the heavy I-beam frame at each end. A very rigid construction. Triangular 7-inch swedged teeth are headed; can't drop out. Single section harrows shipped with draw irons; other sizes shipped complete with drawbar and irons. **Not prepaid.**

Plant YOUR CROP with DAVID BRADLEY No. 16 the CORN PLANTER

CASH PRICE $43.50 AND UP

THE PLANTER THAT CAN'T GO WRONG

You Get the Maximum Yield From Every Hill

ACCURATE DROP FLAT DROP FORCE DROP

The Bradley planter has all the worthwhile improvements. Every detail designed for efficiency and yet with convincing simplicity to avoid trouble. You will make no mistake by buying the Bradley. It is built to stand up under all conditions and will do good work even in the hands of inexperienced operators. Handles all kinds and sizes of seed—a sure drop with no scattering. The planting season is short and you cannot afford to take chances with a worn out or an uncertain planter. Over 50 years of successful planter building experience has enabled the Bradley factory to produce this trouble proof planter.

Here Are Some of the Features of the Bradley

Plates always in time. They cannot be put in wrong.
Positive Drive, no skipped hills.
Self aligning bearings on feed shaft. No binding.
Self centering plunger arm.
Grease cups on main axle.

Cow pea and bean attachment sets in center of seed box.

Deposits seed with the corn. Fertilizer attachment drops all the fertilizer behind the hill of corn.

Planters are adjustable for rows 3 feet, 3 feet 2 inches, 3 feet 4 inches, 3 feet 6 inches or 3 feet 8 inches apart. But all planters are set 3 feet 6 inches when shipped. Can furnish check rower wire with buttons 3 feet, 3 feet 4 inches, 3 feet 6 inches, 3 feet 8 inches, 3 feet 10 inches or 4 feet apart. The Planter fitted for drilling only is furnished with four plates to drill single kernels of corn 12, 17 or 21 inches apart, and one blank plate. With the check rower planter we furnish seven plates to drill single kernels of corn 12, 17 or 21 inches apart, and to drop two, three or four small, medium or large kernels, and one blank plate which can be drilled as desired.

Check Rower Planter furnished with 80 rods planter wire. Can furnish additional wire at 6 cents per rod.

Easy Payments $10.00 DOWN $7.50 A MONTH

Double Automatic Marker

POSITIVE DROP. Large valve space in boot. No scattering.

Terms: $10.00 down, $7.50 a month. When ordering on Easy Payments use Time Payment Order Blank in Back of Catalog.

Shipped from BRADLEY, ILL. Send orders to PHILADELPHIA, PA., or BOSTON, MASS., STORES.

Important—Don't fail to state whether you want concave or open wheels, and height; also distance between buttons on check rower wire. Concave tires shipped unless otherwise ordered. **Not prepaid.**

SIMPLE POSITIVE CLUTCH. Nothing to get out of order.

Tilting Hoppers

Bradley Automatic Double Marker

Same as furnished with planter shown above. Easily attached to any standard built planter. As planter is drawn across field, draft of one marker on the ground keeps other marker close to frame. At end of row turning of team slackens rope, allowing opposite marker to pull in position for next row. **Shipped from Bradley, Ill. Not prepaid.**

32R464—Weight, 29 pounds..... **$3.85**

Planter Wire

For use on all standard planters. Sold in bundles of 10, 20, 40, and 80 rods and with buttons 3 ft., 3 ft. 4 in., 3 ft. 6 in.; 3 ft. 8 in.; 3 ft. 10 in.; or 4 ft. apart. State distance desired between buttons. **We pay the postage.**

72R469¼—Per rod..... **6½c**

Repair Shoes for Corn Planters

Fits all standard makes of corn planters. The original shoe does not have to be removed from the planter, nor any holes drilled. Made of best steel, fit tight and give you as good service as a complete new pair of shoes.

Per pair..... **$1.65**

72R7050¼—We pay the postage.

Corn Planter Gauge Shoe

Adjustable to fit any standard type runner planter. Insures even depth planting in any ground. Shipped from factory with planters or from our store.

72R470¼—We pay the postage.

Per pair..... **$1.80**

Furrow Openers

Offer protection against dry weather as they place seed well down in the moist soil. Insure minimum depth of planting in uneven ground. Attach to runners of any standard runner type planter. Steel discs 11 inches in diameter have chilled bearings. Boxing fitted with compression grease cups. Four discs to the set.

72R7052¼—We pay the postage..... **$5.60**

Unless Otherwise Stated We Do Not Prepay Shipping Charges on Merchandise on This Page.

Double Fan Endgate Seeder

With or Without Grass Seed Attachment

$20.95 At Harrisburg, Pa.

Double Feed. Double Distributing Capacity

Just fasten this seeder to the rear end of your wagon in place of the rear end gate and you can sow small grain uniformly 30 to 65 feet, depending on weight and kind of Seed. This type of seeder has proven very popular in all parts of the country. Simple in construction. Has positive drive fluted force feed. Cannot bridge or clog. No valves. Sows oats in any quantity up to 6 bushels per acre. Large square hopper. Gauge plates can be adjusted and regulated to sow exact number of bushels per acre desired, regardless of whether team works slow or fast. Seeder is equipped with a safety clutch and in starting and stopping there is no sudden jar or strain. Positive lock holds seeder in or out of gear. Price includes large sprocket wheel, and clips for fastening to wheel; also chain for driving. Grass seed attachment has positive force feed. Grass seed and grain may be seeded at the same time or separately. **Shipped from HARRISBURG, PA. Not prepaid. Send orders to Boston, Mass., Philadelphia or Harrisburg, Pa.**

Agitator Endgate Broadcast Seeder

$12.95

Attaches to rear end of wagon, taking the place of the endgate. Sows broadcast all kinds of small seeds and dry fertilizer. Distributes evenly 12 to 40 feet in width, depending on kind and weight of seed. Will sow 100 acres of wheat per day, with team traveling at the rate of 2½ miles per hour. Spring clutch prevents sudden jar or strain in starting or stopping. Price includes large sprocket wheel and clips for fastening to wagon wheel and drive chain. **Shipped from factory in SOUTHEASTERN WISCONSIN. Not Prepaid.**

32R1150—Weight, 95 pounds..... **$12.95**
32R1155—Extra sprocket for wagon wheel. Weight, 15 pounds..... **$2.75**

David Bradley Presser Wheel One Horse Corn Drills

$17.90 With Fertilizer Attachment

A high grade drill in every respect. Will not plant cotton. A universal favorite with corn growers who desire to plant in small quantities.

Has rotary force feed dropping device which is controlled by sprockets made to drop one kernel of corn every 10, 15, 20 or 26 inches. We furnish four sprockets and two plates suitable for dropping large or small corn and a blank plate which can be drilled to plant peas, beans, cane or other seed. By means of slip clutch the drill can be backed without throwing out of gear. The wide presser wheel is provided with a steel scraper. It properly covers every hill. With the exception of the fertilizer attachment which is furnished with the No. 72R453¾ only the drills are exactly the same. The fertilizer attachment sows any quantity of fertilizer desired.

72R482½—Corn Drill. Wt., 90 lbs..... **$13.95**
72R483¼—Corn Drill, complete with fertilizer attachment. Weight, 128 lbs.. **17.90**

BRADLEY *Riding and Walking* Weeders

$38.50

Unless otherwise stated all Items on this page shipped by freight or express not prepaid.

Shipped from Harrisburg, Pa.

David Bradley Steel Frame Riding Weeder and Surface Cultivator

A surface cultivator, weeder and harrow. Prevents crust forming, uproots and kills weeds and grass and produces a surface mulch that holds the moisture in the ground. Does not injure crops. Strongly built and well braced. Made entirely of steel except pole, evener and seat support. Steel wheels, 29½ inches high with 3-inch flat tires. Has sixty-three teeth about 21 inches long bolted securely to frame bars by individual fasteners. Can be removed as desired to straddle rows. Depth of teeth regulated by lever and may be forced into ground or left to float in light soil with only the pressure from the springs holding them. A strong spring working with the lever makes it easy to raise weeder out of the ground.

Teeth are arranged in three rows, and are zigzag so as to cultivate the surface thoroughly for the full width of the machine, which is 12½ ft. **Shipped from HARRISBURG, PA. Send orders to Philadelphia, Boston or Harrisburg, whichever is nearest you. Not prepaid.**

32R597—Riding Weeder. Weight, 345 pounds..... **$38.50**

32R598—Extra Weeder Teeth. Weight, 1 pound..... **28c**

$9.95

Steel Frame Weeder and Surface Cultivator

A wonderful improvement over the old style square or round tooth weeders, and a tool that is growing in popularity every year. The flat spring teeth possess great **elasticity,** create finer mulch and do not injure crops. The frame is made of heavy angle steel and is strongly braced. **Weeder** has thirty-nine teeth, held firmly by individual **fastenings.** Teeth can be removed as desired to straddle rows. **Adapted** for use in any soil. **Shipped from GREENSBORO, N. C., PHILADELPHIA, PA., HARRISBURG, PA., or SYRACUSE, N. Y. Send orders to any of these stores or Boston, whichever is nearest to you. Not prepaid.**

Shipped from Harrisburg, Pa.

David Bradley Leverless Cultivators

Simple, easy to operate, no levers. Improved design, and now made practically of all-steel construction giving greater strength, less repair expense and no needless weight for your team to pull. Farmers of the corn belt are enthusiastic over the simplicity, efficiency and ease of operation of this combination walking and riding cultivator. Axle of the commonly known "rigid type." The lifting springs are adjustable with a hand wheel, as are the gang couplings. Gangs are operated independently by handles and stirrups. The frame can be set to balance with any weight of the operator. Steel wheels, 42 inches high, are adjustable from 48 to 58 inches. **Shipped complete with whiffletrees, pole, neckyoke, handles, shovels and fenders from HARRISBURG, PA. Send orders to Harrisburg, Philadelphia or Boston, whichever is nearest you. Not prepaid.**

$26.40 AND UP

David Bradley Hi-Ball Walking Cultivators

One of the strongest and best Walking Cultivators made. On account of large coil and lifting spring it works as well with heavy as with light gangs and stands up under the most difficult work. It is strictly a balance frame cultivator. This is accomplished by giving the axle a rearward bend to set the wheels well to the rear, thus bringing them underneath the central balancing spring. The steel arches in two sections, the top ends fitting a sleeve casting underneath the pole, permitting adjustment of distance between wheels from 31 to 46 inches. The arch sections are amply strong and will not become loose or get out of position, and there is no danger of lifting spring raising gang from the ground, the method of attaching avoiding this difficulty. Steel wheels 30 inches high with 2-inch flat tires. Complete with shovels, fenders, pole, handles, hang-up hooks, whiffletrees and neckyoke. **Shipped from HARRISBURG, PA. or GREENSBORO, N. C. Send orders to Harrisburg, Greensboro, Philadelphia or Boston, whichever is nearest you. Not prepaid.**

David Bradley Hammock Seat Balance Frame Cultivator

$40.75 And Up At Harrisburg, Pa.

Tongue always level regardless of weight of operator. The comfortable and convenient features make it a favorite with men, women and boys. Gangs are long, making easy shifting. They are pivoted on a common drawbar at front, where distance between gangs is adjusted. Heavy lifting springs in connection with lifting arms allow full play for natural "suck" of plows when at work and provide a quick easy lift. The hammock seat is adjustable forward or backward, or upward and downward; the foot stirrups reverse to top of gang for shorter reach. Balancing lever maintains a level tongue regardless of weight of driver and main arch telescopes, allowing adjustment of distance between wheels from 48 to 58 inches. Wheels are 42 inches high, have staggered spokes set into long dustproof hubs and have 2-inch tires. **Shipped complete with pole, neckyoke, whiffletrees, shovels, and fenders from HARRISBURG, PA. Send orders direct to Harrisburg, Philadelphia or Boston, whichever is nearest you. Not prepaid.**

Terms: $10.00 with order, balance $5.00 a month. Use Easy Payment Order Blank in Back of Catalog.

Buy Extra Gangs

A Gang for Any Soil, Any Crop, Any Season

Gangs shown below fit any Little Jap Cultivator. Protect yourself against possible change of crops or extreme seasons. Prices of extra gangs are shown on opposite page.

Two-Cylinder Rotary Seed Corn Grader

Grade your corn for maximum yield. This grader is a wonder for capacity and precision of grading. Overloading is positively prevented by the screw feed. Its big capacity is accounted for by the deep corrugation of both cylinders, which forces the kernel to stand on edge or on end for different grades ready to pass out the desired opening. **The grader is 30 inches high, 32 inches long and 15 inches wide.** Easy to operate and has a capacity of 10 to 12 bushels per hour. Price does not include measures illustrated. **Shipped from factory in WESTERN OHIO.**

Shipped by freight or express only, not prepaid.

32R7075—Weight, 45 pounds..... **$9.25**

Tie Stake

Every person who owns stock has need for one or more of these tie-out stakes. Heavy steel rod, 21¼ inches long and ⅝ inches thick, has swivel top, which prevents rope or chain from wrapping around stake. Nothing better for staking out stock to graze.

We pay the postage.

New Improved LITTLE JAP CULTIVATOR

EASY RIDING EASY to OPERATE

America's Outstanding Cultivator Value

Combination Cultivator— Pivot Axle or Rigid Axle

The Little Jap has always been one of the most popular cultivators. This because of its convenient handling, easy riding and its interchangeability of any one type of gang, shovel, spring tooth or disc for meeting various soil conditions. This feature has made it a leader in every farm community in the United States. You can buy one of these cultivators and one or more extra sets of gangs shown below and you have a shovel spring tooth, or disc cultivator in one. Now, the Little Jap has been still further improved. We have made it a combination pivot axle and rigid frame cultivator. When used as a pivot axle cultivator you have the features that have made the Little Jap famous; pivot wheels, seat bar dodge and parallel gangs. A slight foot pressure on either gang causes seat bar to sway and gangs to dodge the out of line hills with gangs always parallel. No digging up of valuable hills.

When it is desired to use as a rigid frame cultivator, it is only necessary to remove one bolt in each gang coupling and fasten hook in the seat bar, making it one of the best and efficient flexible gang cultivators. The long handles help make it easy for dodging the out of line hills.

This added feature makes the Little Jap also a walking as well as a riding cultivator. Many operators who find it restful to walk awhile, will appreciate the long handles for guiding gangs as well as the seat that folds out of the way. A cultivator has yet to be built that will do a better, cleaner, closer or more accurate job of cultivating. No cultivator will dodge quicker, get more weeds or avoid out of line hills more completely than the Improved Little Jap. Try one in your own field. You will marvel at its ease of operation and clean cultivating.

Balance Frame. Strong all steel frame, well reinforced, maintains a level tongue regardless of weight of operator. Seat adjustable in any direction.

Levers. The Little Jap has a three-lever control. One lever for each gang to regulate depth of cultivation and a master lever which raises both gangs and keeps cultivator balanced. Weight of operator and pull of horses assist in lifting the gangs. **Axle easily adjusted** for wheel tread suitable for use in cultivating rows, 38, 40, 42 and 44 inches apart.

Short Hitch direct to frame and gangs is adjustable. Makes light draft, keeps shovels in ground and permits cultivating close to fences. **Steel wheels,** 42 inches high with 2½ inch concave tires and heavy staggered spokes. (Can furnish flat tires if desired.) Hubs have long distance bearings with dustproof caps and large space for hard grease. **Shovels.** Hard tempered soft center steel, guaranteed to scour. They cut full width on hillsides or level ground.

Easy Payments $10.00 DOWN $5.00 A MONTH

Practically all steel construction. Greater strength. No needless weight and less repair expense.

$14.50 COMPLETE

Manweight Garden Seeder and Cultivator

Six Complete Practical Tools in One

Has all necessary equipment to serve the gardener from seeding to final cultivation of crops. May be used either as a hill or drill seeder, plow, single or double wheel cultivator or hoe, giving you a combination of six complete and practical tools in one.

The seeder has agitator force feed. Will not clog or crack the seed, and sows all seed in full view of operator. It will drill seed continuously or drop it in hills from 3 to 28 inches apart, accurately planting any kind of seed from the very smallest up to lima beans.

The cultivator has the manweight principle, which is a great advantage over other garden tools. It is propelled by a push bar having a cushioned yoke to rest against operator's body. Out of line hills can be saved and stones or other obstructions easily passed.

Cultivator can be used as either a single or double wheel tool. Wheels are 18 inches high. Equipment of cultivator includes two pairs of cultivator teeth, one pair small plows, one pair blades, one pair rakes, one pair leaf guards and wrench. **Shipped from PHILADELPHIA or HARRISBURG, PA., SYRACUSE, N. Y., BOSTON, MASS., or GREENSBORO, N. C. Send orders to store nearest you.**

One-Horse Steel Cultivator with Lever Expander

$8.45 COMPLETE

Complete with Lever Wheel, Rear Wheel, Depth Regulator, Outside Handle Braces and five 3-inch Cultivator Shovels.

The wide range of adjustments and various attachments make this cultivator a valuable implement for farms and truck gardeners. Lever wheel and rear wheel depth regulator enable operator to control the working depth of teeth. This enables the cultivator to run steadily and relieves operator from strain of holding cultivator, or running too deep and makes easy dodging the out of line hills. Teeth easily raised entirely out of ground to move cultivator from one field to another. Lever expander widens or narrows width of cultivator to suit different widths of rows.

72R6231¼A—Cultivator Complete With Horse Hoes. Weight, 85 pounds..... **$8.45**

72R6231¼B—Cultivator Without Horse Hoes. Weight, 77 pounds..... **6.98**

5 and 7-Tooth Steel Cultivators

With Lever Expander $5.25

Less Wheel

Adjustable from 10 to 26 in. wide from center to center of teeth, outside handle braces. Has 3-inch teeth. Weight, 50 lbs.

72R6204¼—Double Shovel, 6x11 inches. Weight, 32 pounds..... **$3.80**

Two-Row Drill Seeder

$19.95

This seeder needs no introduction to truck gardeners. Has no equal for dependability in sowing lettuce, onions, spinach, beets and similar row crops. Each drill furnished with two seed plates which are quickly adjusted to sow accurately all kinds of seeds. Has a positive chain drive brush force feed. Seeder units are adjustable on the frame so that rows from 9 inches to 30 inches apart may be sown. Wheels, 13-inch diameter, with extra wide 2½-inch tires. Swivel type adjustable marker. Frame entirely of steel. A sturdy, dependable, light draft machine that we recommend for growers who want to save time and labor and want the best.

72R1140¼—Weight, 110 pounds..... $19.95

Make Gardening Easy

"Universal" Garden Raiser

$8.25 AND UP

A handy tool that will make cultivation of your garden easier. No other tool can do the work so thoroughly in one operation. You push it along just like a lawn mower. The revolving eight blades acting upon an underground steel knife that slides along just beneath the surface of the soil cuts every weed and throws them on top of the ground. This action thoroughly pulverizes and mulches the soil. By reversing the position the three shovels can be used. Wheels, 7 inches in diameter. Made in two sizes. The small size will go between very narrow rows. If you have a large garden the 10½-inch is preferred. Weight, 20 pounds.

72R6187¼—With 8½-Inch Wide Cutter Blades **$8.25**

72R6188¼—With 10½ Inch Wide Cutter Blades **$8.65**

Wood Beam Wing Shovel Plow

$4.10

Wings are independent of each other and can be used in any desired position. Blade has adjustable wings, regulated in width by punched brace. Shipping wt., 32 pounds.

72R6201¼.....$4.10

Hand Garden Plows

Push Bar Garden Cultivator

$3.87

Can be used as plow, cultivator or weeder. The plow can be shifted from side to side independently of the course of the 18-inch wheel. Furnished with five cultivator teeth, plow, weeder attachment and wrench. Weight, 25 pounds.

72R6211¼—Complete..... $3.87

Extra Cultivator Attachments

To get the most out of your cultivators keep on hand some of these "Extra" attachments for special kinds of work. Each one you add gives you practically an additional machine. Fit all hand cultivators. These attachments are shipped not prepaid as they are usually ordered with complete garden tools shipped by express or freight.

For Universal Satisfaction — Use BRADLEY SCHOFIELD No.5 POTATO PLANTER

$36.75 And Up CASH

Easy Payment Terms: $10.00 with order, balance $5.00 a month. Use Time Payment Order Blank in Back of Catalog.

Here Is a Bargain in a Potato Planter

Built extra strong throughout and will stand up under heavy soil conditions. Planter is operated by a driver who sits on the hopper, and a boy who sits in the rear and feeds the seed into the conveyor from both sides of the tray, which is kept replenished by sloping hopper bottom. Plants seed at uniform depth. Depth of planting easily changed to vary from 2 to 6 inches. Convenient lever control for raising furrow opener and adjustable covering discs. Steel wheels, 30 inches in diameter, have 3-inch concave tires. Reversible row marker adjustable for different width rows. Fertilizer attachment furnished at extra price puts fertilizer in separate rows so that it does not come in contact with seed. Attachment works off same clutch as planter and is thrown in and out of gear with planter. Has adjustment to regulate amount of fertilizer spread. **Shipped from HARRISBURG, PA., or SYRACUSE, N. Y. Not prepaid. Send orders to BOSTON, MASS., PHILADELPHIA or HARRISBURG, PA., or SYRACUSE, N. Y.**

Spread LIME *and* FERTILIZER *for Greater Profits*

Terms: $10.00 with order, balance $5.00 per month. Use Easy Payment Order Blank in Back of Catalog.

One and Two-Horse Force Feed Lime and Fertilizer Sowers

An all steel sower of unusually sturdy construction. Spreads commercial fertilizers, ashes, lime, marl and pulverized limestone. Hand lever regulates the sowing of any desired quantity. Will sow as little as 250 pounds of dry commercial fertilizer to the acre. The agitator and force feed consists of heavy cast paddles mounted on 1¼-inch square steel shaft axles driven from both wheels. Drive shaft has a center bearing and each wheel drives half the shaft independently of the other half. A clutch in each wheel enables operator to throw out one or both drives. The feed wheels are spread 6 inches apart entire length of hopper, one directly over each discharge opening in hopper bottom. Insures steady uniform feed of any weight material. Hopper holds 10 bushels, has hinged lid and ends. Removable, galvanized screen. Extra large grease cups on bearings. Steel wheels, 30 inches in diameter; 4-inch wide concave tires. Price includes pole. **Shipped from HARRISBURG, PA., or SYRACUSE, N. Y. Not prepaid.**

32R1133—Width of sowing, 8 feet. Weight, 456 lbs. Cash price.... **$47.75**
Easy payment price.....$53.00

One-Horse Lime and Fertilizer Sowers

Similar to above, except has wood hopper and no screen; in addition, has special feature for top dressing for growing plants. All but four openings can be closed, allowing a top dressing on two rows 3 feet apart. Openings for each row are about 6 inches apart, so dressing will fall on either side of plant in the row. Can furnish plate for drilling 3½ feet apart instead of 3 feet if so stated on your order. 3-inch tires. Price includes shafts. **Shipped from factory near PHILADELPHIA, PA.**

32R1154—With Shafts, width of sowing, 6 feet. Wt., 355 lbs. **$41.75**
Cash price.....
Easy payment price.....$46.35

Unless otherwise stated all items on this page are shipped by freight or express only. Not prepaid.

Endgate Lime and Fertilizer Spreader

$29.95

Simply attach to rear end of wagon box instead of endgate and you can spread all kinds of commercial fertilizer and pulverized lime, wet or dry. Material is simply shoveled into hopper from wagon box. No clogging or caking. Installed or removed in a few minutes time. No holes to bore. Has positive worm force feed. Regulator slides permit big range of adjustment for spreading the desired amount per acre. Dry commercial fertilizer can be applied in as small quantities as 150 pounds to the acre. Sows close to the ground. All bearings are on outside, dust and dirt free, easily oiled. Protector board or shield extending below the revolving discs prevents interference with even sowing by wind, cornstalks or other obstructions. Double revolving discs with fins driven by balanced gears insure an even uniform spread up to approximately 20 feet in width, depending on weight and condition of material. Convenient lever control. Price includes large sprocket wheel with clips attaching to wagon wheel; also chain for driving. **Shipped from factory near FORT WAYNE, IND. Not prepaid. Sold for cash only.**

32R1153—Weight, 200 pounds...**$29.95**

Large CAPACITY - Requires SMALL POWER - *Low* COST

Grinds Ear Corn With or Without Shucks

Grinds All Small Grain

Agitator in Hopper Prevents Clogging.

David Bradley Heavy Duty Feed Grinder

A fast grinding mill that requires the minimum amount of power for grinding great quantities of feed. Priced way below what you would have to pay elsewhere for a mill of smaller capacity and greater power requirements. A heavy powerful grinder with numerous heavy teeth shreds cobs and shucks, and crushes the grain into fine particles, then forces them through the burrs where they are ground to the desired fineness. Grinds grain of any kind, either separate or mixed. The new improved burrs (see illustration) grind faster and do better work. Outfit includes one set of coarse burrs for crushing or cracking ear and shelled corn for rough feed, and one set of medium burrs for finer grinding of shelled corn and small grain. At the extra price we furnish special oat burrs, which are also suitable for grinding table meal.

Easy Payment Terms: $5.00 with order, balance $5.00 per month. When Ordering on Easy Payment Terms Use Easy Payment Order Blank Enclosed.

Requires 4 to 6 horse-power engine, operating from 300 to 500 revolutions per minute to give best results. Capacity depends on kind and condition of grain and the speed at which the mill is operated, 10 to 25 bushels of dry ear corn with the shucks, and 10 to 40 bushels per hour of other grains are the average capacities.

Extra Strong Construction

Large sheet steel hopper equipped with agitator, cannot bridge. Heavy 8-inch burrs. A convenient lever regulates fineness of grinding. Heavy coil spring cushions pressure on burrs. Cold rolled 1½-inch steel shaft with end thrust ball bearing. Frame extra heavy, cast in a solid piece, has safety break pins to protect grinder against stones or large objects which might cause breakage. Pulley twelve inches in diameter with 6-inch face. Can also furnish 8, 10 or 14-inch pulleys without extra charge. **In ordering, please state size of your engine pulley and speed.** We will equip the grinder with a proper size. **Shipped from HARRISBURG or PHILADELPHIA, PA., SYRACUSE, N. Y., or GREENSBORO, N. C., not prepaid. Send orders to PHILADELPHIA or HARRISBURG, PA., BOSTON, MASS., SYRACUSE, N. Y., or GREENSBORO, N. C.**

HAMMER KING FEED MILL

Grinds Crushes and Mixes

As Fine as You Want It!

only $67.90

Grinds Any Feed on the Farm

Genuine S K F self-aligning bearings with two rows of heavy balls. Require no attention or adjustment and save power. Enclosed in a heavy cast dust-tight housing.

Cylinder is equipped with 24 chrome nickel steel hammers, so designed that each has 12 sharp cutting edges. Three chrome nickel steel anvils bolted inside the frame or positions best to catch feed from hammers. They help smash the feed and increase efficiency of mill one-third.

Capacity of Grinding When Using 10 to 20 H.-P. Motor Mill Speed, 3,000 R. P. M.

	Pounds per Hour FINE	MEDIUM
Oats	300 to 500	500 to 1,200
Ear Corn	600 to 1,500	1,000 to 3,500
Snapped Corn	500 to 1,400	1,000 to 3,000
Shelled Corn	1,000 to 2,500	3,000 to 8,000
Cornstalks (With Ears)	300 to 600	500 to 1,000
Hay	200 to 500	500 on up

Here is a Hammer Type Feed Mill that will grind corn, shelled, husked, snapped or even with the fodder; oats, wheat, beans, hay and alfalfa, in fact ANY FEED that you want. Burr mill friction is eliminated with a mill of this type. You can grind MORE FEED with LESS POWER. With this mill on your farm you will have no need for buying high priced prepared feeds. The Hammer King mixes as it grinds.

Built Strong to Stand All Strains

The tempered steel hammers, traveling at a speed of over two miles per minute, hit the feed in the air, smashing, battering and crushing it, reducing it to the desired fineness. It is of very rigid steel construction, yet sold at a price far less than others ask. The slant to the Feed Table can be quickly changed by loosening two wing nuts. A feed slide controls the flow of grain into the grinding chamber. The Fordson Tractor should be equipped with a 14-inch pulley. The International 10-20 or Farmall requires a 22-inch pulley on the tractor to operate the Hammer King at the correct speed. We can furnish Rockwood Tractor Pulleys, 14-inch diameter, weight, 32 lbs., for $9.95, and 22-inch diameter, weight, 56 lbs., for $16.50, and ship with mill. To change screens it is only necessary to remove five bolts. **We can furnish extra screens at price shown, with holes as follows:** ⅛-inch or 7/16-inch for corn or grinding alfalfa fine; 9/16-inch for coarse grinding of ear or snap corn. (The 9/16-inch screen is shipped regular with mill unless otherwise specified.) ¾-inch or 1⅛-inch for roughage grinding, corn stalks, alfalfa, cane or Kaffir corn. **Pulley**—4½ inches diameter. Genuine Rockwood fiber. **Shipped from BRADLEY, ILL., not prepaid.**

32R1675—Mill With 7/16-Inch Screen. Weight, 240 pounds **$67.90**

32R1679—Extra Screens (state size). Weight 5 pounds **$2.50**

When ordering please tell us the name of your tractor, speed and size of pulley.

Speed Jack

Makes special pulleys on tractor unnecessary. Solid oak frame. Hardened copper babbitt bearings. Genuine Rockwood pulleys, 6 and 9½ in. in diameter. Shipping wt., 65 lbs. **32R1676 $22.85**

David Bradley Small Grain Grinder

Requires Only 1 Horse-Power Motor

Send orders to PHILADELPHIA, SYRACUSE, N. Y., GREENSBORO, N. C., or BOSTON, MASS.

A general purpose mill which can be used for grinding meal and flour as well as coarse feed for cattle.

Frame—Heavy cast iron, and strongly bolted. **Main Shaft** runs in long babbitted bearings which are lubricated by large grease cups. Easy access to burrs. **Pulley**—4 inches in diameter with 4-in. face, should run 700 to 750 revolutions per minute to give best results. **Burrs**—5¼ inches in diameter; self aligning and mounted in a dust-tight case which has a hand wheel adjustment for fineness of grinding. Hand lever lock-nut securely holds adjustment desired. One set of coarse burrs for grinding shelled corn, oats and other small grains for feed, and one set fine burrs for grinding meal and flour, furnished with each mill. **Capacity**—5 to 15 bushels per hour, depending on fineness of grinding, condition of grain and power used.

Shipped complete with bolting attachment from PHILADELPHIA, PA., GREENSBORO, N. C., or SYRACUSE, N. Y., not prepaid.

First Again!-An All STEEL MOWER

Why PAY MORE for the Ordinary Kind

An All Steel Mower With Non-Breakable Frame

No more broken mower frames, expensive to replace. No more costly delays in cutting your crops. All steel construction — built for longer service All running parts always in perfect alignment.

All Steel Welded Yoke and Front Bar

Heavy front and yoke bar in one piece. Cutter bar is always in alignment. Backlash is reduced to a minimum.

Illustrates Spur Pinion recessed into bevel gear. Easily renewed in less than five minutes, an important feature every farmer will appreciate.

Easy Payments $10.00 DOWN $10.00 A MONTH

Cash Price $64.75 And Up at Harrisburg, Pa.

Vertical Lift, Easy, High, Hand and Foot Lift

The BRADLEY ALL STEEL *PIONEER*

Again the famous David Bradley Implement factory is the first to score a real implement triumph—the first to be on the market with a new and better implement. This time it's our new ALL STEEL Mower with NON-BREAKABLE FRAME. Never before has an implement so modern, so highly improved and so far in advance of similar implements been priced at a figure in such striking contrast with prices elsewhere. Now, for only **$64.75** you can have this easier running, longer lasting genuine David Bradley All Steel Mower for less than you would pay elsewhere for an ordinary mower. Decide today that you will let nothing prevent you from giving this wonderful mower a chance to demonstrate in your own field its ability to do better work and save ¼ or more over prices elsewhere! Bear in mind that this demonstration is to be made at our risk—not at yours.

Note Carefully the Superior Features of the Bradley Pioneer Mower!

Clutch on main axle. Permits a larger jawed clutch. When clutch is out of gear all gears are inactive. The shaft does not turn, but gears turn on shaft. Automatic throw-out on clutch.

Spur pinion recessed into beveled gear pinion. Permits quickly replacing worn out pinions. Every farmer knows that on account of the great gear ratio necessary to produce the proper revolution of knife or pitman, pinions must be renewed. On the Bradley you can easily renew the spur pinion in less than five minutes. Simply loosen shaft support, slide off the gear and renew the pinion. No key or rivet required to hold in place. The two gears fit closely. Spur pinion has square shoulder, fits into recess of bevel gear. This combination gives a 6-inch bearing instead of a 1½ or 2-inch as ordinarily used.

All steel frame. Designed so as to produce greatest rigidity. A non-breakable frame holding all parts in perfect alignment. No more broken frames to replace, an expensive item.

Solid gear case with all gears running in oil. Just like your automobile. All gears enclosed in dustproof case. Self oiling of pitman driving shaft rear end.

Perfectly balanced vertical lift combines in operation with hand and foot lever. This arrangement adapts mower to cutting under all conditions, whether top cutting, light or heavy cutting on level land, cutting along ditches or along hillsides. You can pass unusual obstructions without leaving the seat of the mower and without throwing the mower out of gear.

Pitman—First quality second growth hickory with hinged joint at wristpin, and socket joint at knife head end. Forged steel pitman straps that will not break.

Improved cutter bar suspension and direct hitch eliminates side draft and makes the Bradley one of the lightest operating mowers on the market. Instant adjustment of cutter bar insures perfect register of knife. Cutter bar of high carbon steel, heavily reinforced. Strong, rigid, will not sag. Knife standard design.

Steel Wheels. Heavy steel wheels, 34 inches in diameter with 4-inch wide tires and lugs.

Shipped complete with neckyoke, doubletrees, one extra knife, extra section, extra guard, wrench, punch, cold chisel and oil can from HARRISBURG, PA. Send orders to Boston, Mass., Philadelphia or Harrisburg, Pa.

DAVID BRADLEY *All Steel* HAY RAKES

$33.25 And Up

Easy Payments $7.00 DOWN $5.00 A MONTH

A High Lift Self Dump Rake

It can be dumped by hand if desired or automatically by pressing the foot lever. Owing to the exceedingly light draft the Bradley does perfect work in either heavy, light or tangled hay, alfalfa or clover. The heavy teeth especially adapt its use for raking cornstalks. **The head,** axle, cleaner head and platform are heavy steel. The head is strengthened with a truss rod to prevent sagging. **Steel wheels** are extra strong, 54 inches high, with heavy staggered spokes. They are of the commonly known mountain type, with wide double flanged hubs with removable hub boxes and heavy 2-inch channel steel tires. Ratchets are protected by dump shields, preventing hay from catching and winding. **Teeth** are 7/16 inch in diameter and made of high carbon spring steel, tempered in oil. They have flat points and are fastened to rake head with heavy tooth holders, that will not work loose. Can furnish at extra price shown, a pair of short guard teeth which attach next to the wheels and prevent heavy hay from winding into wheels. **Seat** is large and comfortable and has a strong but easy riding spring. Easy to dump. The driver simply presses the foot lever and the forward movement of the wheels dumps the hay, the horses doing all the work. The teeth return to the ground promptly, easily and without jar. All sizes have combination wood pole and thills so that either one or two horses can be used.

Terms, $7.50 down, balance $5.00 a month. When Ordering on Easy Payments Use Time Payment Order Blank in Back of Catalog.

All Steel Automatic Dump Body

Easy Payments $10.00 DOWN $10.00 A MONTH

Capacity, one or one and one-half yards. An all steel body at the price of a wooden one.

Seat illustrated above for Ford or Chevrolet, built of steel and wood. Cushion of heavy water proof material furnished at price shown below.

Model "A" $74.50 Cash Price

A truck without this body is not complete. With this body your truck becomes a money maker every day. Can be used for any kind of hauling; on the farm, roadwork, hauling building material, gravel, coal, etc. Will soon pay for itself. Entire body built in one piece of No. 10-gauge blue annealed steel, reinforced with heavy angle iron, hot riveted to shell. There are no cheaply welded seams. Automatic gravity dump with shock absorbing springs. Operates on changing pivot, fulcrum principle. Body and subframe in single unit. Weight of body and load are evenly distributed over truck chassis, three-fourths of weight being carried ahead of rear axle. Body does not extend below truck frame, preventing interference with ground clearance. Automatic tailgate, heavily reinforced, opens, closes and latches automatically. Tailgate hinged 4 inches above body so as to allow material to clear immediately. Perfectly aligned, insuring minimum of strain on truck chassis. Absolutely troubleproof. Positive latch, cannot dump without lever being pulled. **All Model A bodies are 72 inches long, 45 inches wide at bottom and 50 inches wide at top. Depth according to capacity ordered, as they can be furnished in either one or one and one-half yard capacity. Be sure to state size on your order.** Model A fits Ford Model A or T., Graham ED, Indiana IIIX or 15X, Federal S29 and S30, Garford, Relay or any Road Builder Stub Chassis. Model B fits Chevrolet only and are 72 inches long, 48 inches wide in front and 51 inches at the rear. Furnished only in 1½-ton capacity, 20¼ inches deep. When ordering **be sure to give name and model of truck and year made. Shipped not prepaid.**

A Real Manure Spreader Bargain

For years farmers the country over have known and purchased through dealers this wonderful spreader with the patented "V" type three-way beaters at prices from $35.00 to $50.00 more than we now ask. They realized that this spreader was well worth almost any price that was asked for it. Now for the first time this spreader is offered at a big saving in price through our method of selling direct from factory to farmer, as we have made arrangements to take over a large part of the output of the factory. New improvements recently made make this spreader even better than ever, and only by cutting out the middlemen's profits is it possible to offer this spreader at our special low price.

Make money by spreading manure on your fields with this Patented New "V" type 3-Way Spreader, the most sensibly designed and most practical spreader you can buy. Embodies all worth while mechanical advantages of the past, combined with many new outstanding exclusive patented features. Real light draft saves the horses. Loads easy, turns short, and can be driven through a barn door for quick loading at the gutter. High speed beaters pulverize manure and gives a **wide three-way 7-foot spread without augers or blowers, lightening the draft beyond belief.** Thirty minutes on the seat of the "3-Way" will convince you that no spreader equals it for good work, simplicity of operation, honest, rugged construction, workmanship and finish, and for easy handling in the barnyard or field. Capacity, 55 to 65 bushels, depending on height of loading.

Patented "V" Type 3-Way Beaters Do the Spreading

Simple, Efficient
Three-Way Wide Spread Attachment

Pivot Wheel, Auto-Steer Front Truck

Manuring Pays Big By Actual Test

University of Missouri results, 4-year average (Bulletin No. 119), show that manured land produced 35 bushels more corn per acre than untreated land, and 20 bushels per acre more than land treated with cowpeas, lime, bonemeal and potash combined.

Ohio Station results, 18-year average (Bulletin No. 305), show that manured land produced 21.3 bushels more corn, 10 bushels more wheat and 1,132 pounds more hay per acre than untreated land.

Read Carefully the "3-Way" Spreader Specifications

Patented "V" Type "3-Way" Beaters used only on this spreader, have ¾x¼-inch chisel pointed steel teeth firmly riveted to heavy angle steel bars. Because the Patented "V" type beaters turn 11½ times to rear ground wheel once and the upper beater being made higher in the center, the load of manure is given a wide spread and pulverized to a fineness almost unbelievable. Adjustments for taking up any wear is provided. Beaters are driven by heavy chain running from sprocket on left rear wheel.

Spreader tight bottom box made of clear yellow pine. Inside length, 9 feet 10 inches; width, front end, 37 inches; rear end, width, 38¾ inches; depth, 17½ inches; height to top of bed from ground, at front, 44 inches, rear, 42 inches. Equipped with heavy steel sills and cross sills.

Endless type conveyor. Heavy steel chains and special T type crossbars carries the load over the solid bottom to the beaters.

Drive of conveyor is of the ratchet wheel design. Positive, strong and quiet.

Levers placed in convenient reach of the driver, well out of the way of loading. Left lever throws beater drive chain in and out of gear. Right lever regulates quantity of manure spread. There are six changes provided.

Ground clearance of spreader under front axle is 16 in.; at rear end of spreader box, 15 in., and large drive sprocket, 8 in.

Wheel base, 7 feet, 9 inches.

Steel Wheels, extra strong, front 26 in. high, 4½-in. tire, and rear, 40 in. high with 5½-in. tire. Front and rear wheels track. Width of spreader at widest point, 70 in.

Shipped from factory in INDIANA.

POWER SPRAYERS

$42.95

Spraying Capacity, 60 Gallons of Liquid per Hour

We include, without extra charge, attachments with this sprayer, so that it may also be used for hand pumping if desired. Supplies two nozzles at 125 pounds pressure. Has 2¼-inch brass pump cylinder, with bronze ball valves and large cast iron air chamber; 4½-inch stroke; 11¾-inch drive pulley. Back geared 4 to 1. Automatic agitator. Accessories include pressure gauge, relief or overflow valve, one 20-foot length of ½-inch spray hose with 3 feet of spray pipe, shut-off cock and nozzle, 6 feet of suction hose with strainer and 6 feet of overflow hose to lead from relief valve back to tank. Outfit furnished for one lead of hose only. Connections are for standard ¾-inch hose coupling which fits either ½ or ¾-inch hose. **If you wish to connect two leads of hose, allow 75c extra for special brass twin hose connection.** Barrel, driving belt, skids or engine not included. For Gasoline Engines see Index for page number. **Shipped from our store. Cash only.**

72R2612¼—Weight, 175 lbs. **$42.95**

Save $50.00 on This Real Power Sprayer

Not a makeshift, but a real high quality sprayer that will give 300 pounds pressure and handle two nozzles or one spray gun at full capacity, or about 5 gallons per minute. Fills every need of the individual orchardist whose requirements do not warrant a large investment. It is sturdily built, everything of highest quality, and will give fine service within its capacity for a long time. Equipped with our famous 1¾ H.-P. Economy Gasoline Engine. Engine can be removed and used for other work out of spraying season. Pump, engine and tank mounted on heavy steel frame for use on any farm truck. The spray gun furnished in place of regular extension and spray nozzle permits much faster work. It is adjustable to do different kinds of work. A slight turn of handle changes the stream from a broad fog-like spray to a medium spray with greater saturating properties; another turn adjusts for a long driving spray which reaches the tops of tall trees, or the stream can be shut off, with no drip or waste.

$177.50

Other Ask $50.00 More

A Complete Outfit

Engine, as above, with drive belt and Idler Pulley Pump, walking beam type, two cylinders cast en-bloc with no leaky gaskets to lose pressure. Brass cylinders with lubricating ring, bronze ball valves with removable brass seat. Bronze plungers. Automatic governor. Brass bushings in suction and discharge. Anti-freezing bronze drain plugs. Agitator with two 3-blade propellors. Tank, 110-gallon; 1½-inch cypress. Suction Hose with strainer. Discharge consisting of 25 feet of ½-inch high pressure spray hose, one 10-foot steel extension with leakproof stop cock, two large disc angle nozzles, and one Y connection. **Shipped from factory near CHICAGO. Cash only.**

"Saved $50.00 on My Peerless Barn Equipment" Says L. S. Langenwalter

Buy Peerless Dairy Barn Equipment

Modern, substantial, simple and practical, and contains all features necessary for cleanliness and convenience. Our stalls and stanchions are extra strong and extra high, giving a greater amount of head room, and more freedom of movement and comfort for the cows than usual. There is no higher quality barn equipment obtainable at any price.

You Can Buy Peerless Equipment on Easy Payment Terms

The prices given on this page are our cash with order prices. If you wish to outfit your barn with Peerless Dairy Barn Equipment but have not the ready cash, write for our Easy Payment Terms.

Peerless Steel Stalls

Peerless Steel Stalls

Built of heavy, 1⅝-inch outside diameter, brazed steel tubing. All parts securely bolted together, with heavy malleable iron fittings. Upright posts stand 5 feet 5 inches high above floor with 5 inches additional imbedded in concrete. The triple bend partitions extend back 42 inches from uprights and 42 inches high from floor, and have flange riveted to bottom to secure them in concrete. Finished in blue gray enamel paint. Can be furnished 3 feet 6 inches to 4 feet wide. State width. Price includes top rail, two uprights, one bent partition, necessary clamps and bolts, and one stanchion with anchor.

READ BEFORE ORDERING

When ordering stalls give us this information: Into how many rows will stalls be divided? The desired width of stalls. Will rows join building wall at one end or both ends? Also furnish a pencil drawing showing number of stalls in each row, the location, size and kind of any posts that may be in the way of the rows and the distance between centers of posts. An extra charge is made for special fittings needed where stalls must be connected to posts.

The stanchion regularly furnished in this stall is our 72R2209¼. We will furnish stalls with our 72R2214¼, shown below at right, if desired, at 35c less per stall. Shipped from factory near CHICAGO. Not prepaid. **$8.50**

32R2264—Model A Stall. Weight, 75 pounds.

Where both ends of row of stalls are independent and do not join the wall of building, one extra section composed of two uprights and bent partition is required for finishing the end of row.

32R2268—Extra End Section. Shipping weight, 25 pounds. **$2.85**

For prices of cheaper single post stalls, and more detailed information about Dairy Barn Equipment, send for our Dairy Barn Equipment Catalog No. C676R.

Our Competition Stanchion

Nothing cheap about this stanchion but the price. It is a strong, well made stanchion that will give good service. As our other styles of steel stanchions represent the highest type of stanchion construction, this new style gives all that you usually get in any stanchion and Peerless quality besides. Made from 1¼x⅝-inch steel U bars, has malleable spring latch and corners. Heavy top and bottom chains, 5 inches long. Set 7½-inch neck space but adjustable for more width. Opens 17½ inches at top. Lined stanchions have the channel turned in and linings set in the channel. Unlined stanchions have the channel outward, giving a smooth surface in contact with cow's neck. Length, inside, 43 inches. The biggest stanchion value obtainable anywhere. Weight, 18 pounds. Shipped from our store or factory near CHICAGO. Not prepaid.

72R2223¼—With hardwood lining..... **$2.25**

72R2224¼—All metal, unlined..... **$1.93**

Detachable Water Bowl

Automatic in action. Requires no attention except occasional cleaning. Attach to either steel or wood posts. A storage tank (elevated a few feet) provides all the pressure necessary or can be connected to city water. Water can be piped from either above or below. When piped from below two ordinary ¾-in. elbows and a short nipple are required. These are not included in the price of the bowl nor are the pieces of pipe and coupling shown above bowl in illustration. Quickly detached for cleaning by removing one bolt, which locks the bowl securely in place. Bowl is cast iron, 10 inches in diameter, and 4¼ inches deep, with rolled edges to prevent splashing. Complete with clamps. Weight, 14 pounds. Not prepaid.

72R2240¼—Bowl for Steel Stalls..... **$2.30**

72R2241¼—Bowl for Wood Stalls..... **$2.35**

Shipped from our store or factory near CHICAGO.

Improved Peerless Steel Stanchion $2.80

Our very best. It is the most practical stanchion you can buy, regardless of price. Sides are heavy steel U bars, the channel turned inward and lined with smooth hardwood strips. The left side is extended around to form the top bar and slides in a malleable iron loop extending from the other side bar. Hinged side bar is thus supported top and bottom, and the cow cannot push against and spring it out of adjustment. Spring latch is protected, but accessible. Opens 24 inches wide at top. Adjustable top and bottom for neck space. Height, inside, 48 inches; chains, 6 inches long. Finished in black japan. Guaranteed to satisfy you in every respect. Shipped from our store or factory near CHICAGO. Not prepaid.

72R2209¼—Weight, 25 pounds..... **$2.80**

For Barns and Silos see Building and Building Material pages, or refer to Index.

Oval Steel Stanchions

Furnished with or without wood lining. Side bars are heavy U bar steel. Lined stanchions have smooth rounded hardwood strips. The channel of the steel U bars, being turned inward, the wood linings are firmly supported by the steel. Unlined stanchions have flat side of the steel U bars turned inward, allowing a smooth, flat surface against the animal's neck. Hinge, latch and top are malleable castings. Adjustable top and bottom for neck space; 48 inches inside. Permits cow to lie down without binding. Chains, 6 inches long. Durably finished in black japan. Shipped from our store or factory near CHICAGO. Not prepaid.

72R2214¼—Steel Stanchion with wood lining. Weight, 21 pounds..... **$2.45**

72R2213¼—Steel Stanchion without wood lining. Weight, 17 lbs. **$2.15**

72R2273—6-Inch Hook Bolt for attaching stanchion to wood frames. Weight, 1 pound..... **10c**

72R2220—Bottom Anchor, for fastening stanchion to concrete curb. (For any chain hanging stanchion.) Weight, 1½ pounds..... **25c**

72R2219—Anchor, for fastening stanchion to wood floor. Wt., ¾ lb. **20c**

72R2221—Malleable Clamp with bolts for hanging stanchion to pipe frame (1⅝-in. outside diameter). Wt., 8 oz.... **25c**

Steel Stall Partitions for Wood Frames

Same as used with our complete steel stalls. If you prefer wood frames you can buy the steel partitions separately. Prices do not include stanchion or framework and are for one partition only. Shipped from factory near CHICAGO. Not prepaid.

32R2270¼—Partition with flange and screws for attaching to frame. Weight, 15 pounds..... **$1.85**

32R2272¼—Flange for wood floor. Weight, 3 pounds..... **45c**

Litter Carriers, Track *and* Attachments

$35.50 Carrier with Automatic Lift

Suitable for any but the largest barns. Quick lift, self lowering, automatic clutch and brake. Run on either rod or I-beam track. BUCKET—Length, 42 in.; width, 24 in.; depth, 16 in. Body is one-piece 18-gauge galvanized steel; ends 16-gauge, reinforced all around with steel angles. Heavy 2-inch steel channel bail, adjustable for height. TRACK WHEELS—Malleable with steel roller bearings. Shipped from factory near CHICAGO. Wt., 215 lbs.

32R1246—Not prepaid..... **$35.50**

HOW to ORDER

For each line of rod track order two Tension Bolts (32R1282) and two End Loop Clamps (32R1281). If track extends to a post, order Anchor Loop (32R1284). If rod track turns a square corner, two independent lines of rod track are necessary, each with tension bolts and end loop clamps; also a Curve or Switch (32R1285). Prices are for Carriers and attachments shipped from factory near CHICAGO.

Merchandise on this page is not prepaid

$27.50 Complete Litter Carrier Outfit

This style for use in barns with low ceilings or doorways. Bucket, 42 inches long, 24 inches wide, 16 inches deep. Galvanized steel, hardwood ends. "Sears Windmill Still Running After 21 Years' Use" Says E. Drexler

All Items on This Page Not Mailable. Shipped by Freight or Express, Not Prepaid.

PEERLESS WINDMILLS

$39.75 Cash and Up

Sold on Easy Payments

Double Gears Double Pinions

Turns in the Slightest Breeze

All parts extra heavy, for long wear. Compare weights. The strongest built windmill stands the storms best and lasts longest. Easily erected. Abundant power. Always on the job regardless of weather conditions. Ball bearing turntable, responding quickly to changes in wind. Working parts run in oil and are enclosed in dusttight case. Built for long service. Heavy galvanized steel windwheel and rudder, correctly shaped and strongly braced. Pump rod has 7-inch stroke. Prices include bedplate, but not pump pole, tower or platform. When ordered without tower we furnish bedplate and spider for four-post wood tower. **If you order windmill without steel tower,** or to go on a wood tower, be sure to order wood pump pole extra, as this is a part of the tower and is not included with the windmill. **Shipped from factory near CHICAGO.**

$7.48 And Up Farmers' Friend Caldron Cooker and Furnace

Full Capacity Guaranteed

For fatter hogs—**give them cooked feed. With one of these handy cookers it is so easy to prepare a healthful, warm feed so necessary for bigger hogs and greater profits.** And there are so many other convenient uses—can be used for rendering lard, scalding hogs, boiling sap, making soap, etc. Jacket has no bottom. Build wood fire on the ground. Jacket is heavy rolled steel plate reinforced at bottom by heavy iron bands. Big size door. Handles for carrying **When ordering jacket only, be sure to tell us the exact circumference of your kettle underneath the flange.** Kettles are fine grained iron with black lead finish inside, giving a smooth surface. Rim of kettle rests on top of jacket so kettle can be easily removed. Coal grates, cover and pipes are extra at prices given below. **Sold for cash only. Shipped from factory in CENTRAL OHIO.**

Improved Steamer and Feed Cooker

$68.90 And Up

Used for a great variety of purposes on the farm, in dairies or creameries, shops, garages, wherever steam is required for cooking feed, scalding hogs, scalding milk cans, heating tanks for all steam cooking, washing or renovating purposes. Very economical with fuel. Will burn coal, wood, cobs, etc. Water completely surrounds firebox, preventing burning out of the body and enabling boiler to generate steam quickly. Will furnish a continuous supply of steam under pressure as long as fuel and water are supplied. Can be set anywhere in a building or outdoors. Shell is made of genuine boiler plate steel, ¼-inch thick, with heads of 5/16-inch fire box steel. No small flues to clog or burn out. Heads are securely welded to shell. Cast iron base and dump grate. Equipped with pop safety valve set at 15 pounds, steam gauge, water gauge, two sets of ½-inch steam pipes with shut-off valves, two try cocks, hand pump and hand pump hose. Diameter of boiler, 17 inches. **Sold for cash only.**

All Year Hog Waterer

Provides fresh clean water for summer and winter. No. 24-gauge galvanized steel, with one-piece cast iron trough extended to form drinking cups at both sides. Flow of water regulated by float valve in bottom. Clean out plug in bottom. Two kerosene lamps included, which set directly under cups; surplus heat circulates between inner and outer walls around main tank, preventing water in tank and cups from freezing in winter. Lamps burn one day or more with one filling. Can be filled by hand, or connected to supply tank with float valve. Holds about 70 gallons. Wt., 137 lbs. **Shipped from factory in IOWA.**

VICTOR No. 17 Poultry Fencing

A Popular Poultry Fence in the Hinge Joint Design

Avoid big poultry losses by confining your fowls with a top quality low priced Victor Poultry Fence. At our low factory-to-you prices, a 20-rod bale costs less than the value of a half dozen hens. It is built to the highest standards of quality and priced at a phenomenal saving. You can pay more, but you can not buy a better fence for poultry, orchard or garden use.

Made of the very best galvanized fence wire obtainable. Closely spaced line wires, only 1 inch apart at bottom, give a close mesned fence that keeps in smallest chicks. Stretches easily and stays firm and erect and needs no top or bottom boards to support it. Make your next fence a Victor and before you've strung up a rod of it, you'll be ready to add your word of praise to the many testimonials we have received. **Shipped in 10 and 20-rod bales. We do not cut bales.** Full 16½ feet to the rod.

Shipped from CHICAGO, ILL., DAVENPORT, IOWA or INDIANA factory. Send orders to Chicago, Ill., or Davenport, Iowa, whichever is nearest.

Top and bottom wires No. 15½-gauge galvanized steel wires; all other wires No. 17.

X-L-ALL No. 14½ Poultry and Farm Fencing

Stay Wires Spaced 6 Inches Apart

A closely woven durable general purpose fencing that is the biggest selling fencing of its kind. An ideal general purpose fencing closely woven to stop chickens old enough to do harm, yet strong enough to stop sheep, hogs, horses and cattle. Continuous length stay wires interlock with line wires and do away with all ties or knots. This feature permits fencing to stretch up perfectly regardless of irregularities of the ground with all strain evenly distributed over all wires of fence. Stretches straight and stiff. No top or bottom boards required to support it. Shipped in 10 and 20-rod bales. **Send orders to Chicago, Ill., or Davenport, Ia., whichever is nearest you.**

No. 11 No. 12 No. 14½

Victor No. 14½ Poultry and Farm Fencing

Stays Spaced 6 Inches Apart

A most popular general purpose fencing in the hinge joint design for which the demand is constantly increasing. One of the best fence values we have to offer. It is a strong, long lasting fencing closely spaced at bottom, being graduated from 1½ inches at the bottom to 5 inches at the top. A splendid fence for poultry, yet strong enough to stop sheep, hogs, horses and cattle; also makes a good garden, orchard and farm fencing. Stretches straight and rigid. No top or bottom boards needed to support it. Made of the best galvanized fencing wire obtainable and is furnished in 10 and 20-rod bales. We do not cut bales.

Shipped from CHICAGO, ILL., DAVENPORT, IOWA, or factory near INDIANAPOLIS, IND. Send orders to Chicago, Ill., or Davenport, Ia., whichever is nearest you. Top wires are No. 11; bottom wires are No. 12; all other wires No. 14½ steel wires, heavily galvanized.

Wood Picket Garden Fence

A practical, strong and durable fence suitable for yards and gardens. Easily erected, can be stretched between posts without other support, or a better way is to lay a 2x4 on top of posts. Fence is stock and poultry proof. It can be stretched over terraces or uneven ground without cutting or kinking. Wood pickets are ½-inch thick 1½ inches wide, and 4 feet long, tightly woven between five cables of heavy galvanized wire, pointed at top and dipped in red mineral paint. Sold in rolls of 50 and 100 feet. **Shipped from factory near CHICAGO, ILL. by freight or express, not prepaid.**

X-L-ALL Poultry *and* Rabbit Fencing

Carload Orders

Make up a carload order of fencing if possible which will make the savings still greater as "carload freight" charges are materially less. You can include with fencing such items as posts, barbed wire, smooth wire and staples. Only 36,000 pounds are required to make a carload. Get your neighbors and friends to include their needs with you, if necessary, and see how easy it is to make up a carload order. Send us a list covering your requirements and let us show you the extra savings that can be made.

One of Our Biggest Fence Values Prices Greatly Reduced

If you could see the thousands of bales of this fence that are stretched all over this country, if you could read even a few of the testimonial letters we receive, you would be as enthusiastic as we are about this fence. For a fence that is lighter than our Poultry and Farm Fence and more durable than poultry netting, this is just the fence to use. And talk about value! You can't find anything better of its kind at the low prices we ask. It is woven from heavier gauge galvanized wire than poultry netting, yet sells for much less. Our X-L-ALL interlocked stay fence has two distinct advantages—it permits a continuous weaving process which cuts the manufacturing cost and saves tie wires. Line and stay wires are firmly woven together and cannot possibly spread, no matter how severely used. Gives a good tight fence on very irregular ground.

Closely spaced line wires at bottom will turn the smallest chicks. Heavy top and bottom wires with interlocked stays to prevent bagging or sagging. No top or bottom boards are needed. **Shipped in 10 and 20-rod bales. Send orders to Chicago, Ill., or Davenport, Iowa, whichever is nearer you. Both top and bottom wires No. 15½-gauge, all other wires No. 18-gauge galvanized wire.**

Diamond Mesh Poultry Netting

YOU CAN'T EQUAL SEARS PRICES

Enormous purchases enable us to again offer the Nation's greatest bargains on first quality galvanized diamond mesh poultry netting. Our enormous purchasing power makes these low prices possible, which are in some cases below wholesale. Take advantage of these unusual offerings. For poultry yards, tennis courts, gardens, stucco work, etc. The galvanized netting, before weaving, is very serviceable and will meet every ordinary requirement. Wherever destructive climatic conditions have to be met, we recommend netting galvanized after weaving, as this process makes it more rust resisting, rigid and durable. Sold only in 150-foot rolls. We do not cut rolls. **Shipped from CHICAGO, ILL.**

Wire Reel and Discharger

$2.15

We pay the Postage

A bargain that fence builders will appreciate. Eliminates all the disagreeable features of single or barbed wire fence building. When taking down a stretch of good wire, instead of a tangled and twisted mess you have a neat roll easily put up again. To release wire from reel it is only necessary to unloosen two thumbscrews. The 7/16-in. round steel hoops, 42 in. in diameter, spaced 9 inches apart, are held together by heavy sheet steel cross-pieces. Reel holds 100 rods of wire and coils or unwinds 12 feet at each revolution. **We pay the postage.**

32R5414¼ **$2.15**

Champion Fence Stretcher

Our strongest and most powerful stretcher. Attaches to fence quickly without use of bolts. Handles long stretches of heavy fence. Two powerful malleable iron, worm gear jacks, self locking at every point. No back action to handles. Angle steel clamp bars 60 in. long with malleable clamps. Furnished complete with two jacks, clamps and stretcher chains with swivel as shown. A single wire stretcher is also included, which can be used as a finishing tool, or for stretching single lines of barbed wire. **Shipped from factory in MICHIGAN.**

32R5380—With Finishing Tool. Weight, 96 pounds..... **$10.45**

32R5381—Single Wire Stretcher and Finishing Tool Only. We pay the postage. ..... **.93**

Peerless Fence Stretchers

A Powerful Stretcher

$5.68

Easily operated and safe. Holds fence tight, cannot slip. Made of malleable iron and steel with long lever giving great power. **Shipped complete with 5-foot hardwood clamps and 8½-foot anchor chain from CHICAGO, ILL., DAVENPORT, IA., or factory near INDIANAPOLIS, IND. Send orders to Chicago or Davenport.**

Windsor LAWN FENCING

This fence makes a dignified, attractive guardian for your property, a perfectly high grade fence that is truly ornamental. Pickets spaced 3 inches apart. Where turning of small chicks is not an important consideration, it will serve the purpose almost as well as a much higher priced closer-woven fence. It represents the very lowest possible fence cost per year, where a real ornamental lawn fence is desired. Made with No. 9½ heavy galvanized upright wires corrugated their entire length. Double cable line wires are made from two No. 13 galvanized wires tightly twisted together, spaced 6 inches apart, except the two top cables which are spaced 2½ inches apart. Our low factory to you prices make this by far the biggest ornamental fence bargain offered by anyone.

We carry in stock for immediate shipment 50, 75 and 100-foot rolls in 36-inch, 42 and 48-inch heights at CHICAGO, ILL., DAVENPORT, IOWA, or INDIANA factory. Send orders to Chicago or Davenport. Special lengths and other heights shipped only from INDIANA factory, and take a few days to prepare. Send orders to Chicago store.

72R5392¼—State height wanted. Not prepaid.

Chain Link Lawn Fencing

Favorite Lawn Fencing

A strong, durable fabric, a remarkably big value at our prices. Line wires are two No. 12½ galvanized wires wrapped around pickets with right and left twists, and are spaced about 8 inches apart, excepting that the two top line wires in the 24-inch and 48-inch heights are spaced about 4 inches apart. The bow top pickets are continuous from top to bottom and are spaced about 5 inches apart. They are formed from two No. 12½ galvanized wires closely twisted together. A single No. 13 galvanized wire is woven into the lower line wires in the different heights, as shown in the illustration, filling the space between the upright pickets, thus making the fabric practically poultry proof and adding to its appearance. **Shipped, not prepaid, from factory near INDIANAPOLIS, IND.**

32R5371—Favorite Lawn Fencing.

Height, inches	24	28	36	44	48
Wt.; per ft., lbs...	1	1¼	1½	1¾	2
Per foot	8½c	9½c	11½c	13½c	14½c

State Height Wanted

Made in Heights From 3 to 10 Feet

This design has proved very popular on account of the small mesh and being unclimbable. We recommend the 36, 42 and 48-inch heights for lawns, gardens, parks, etc. Under certain conditions fencing higher than 48 inches is suitable for lawns, but is especially designed for use wherever a higher fence is required. The heavily galvanized wire used affords complete protection. Stay wires are spiral and run continuously from top to bottom, forming an interlocking 2-inch (non-climbable) diamond mesh. Close enough to turn chickens. **State height wanted.**

Ornamental walk and driveway gates with chain link design fabric can be furnished to match this fencing at prices given below. Shipped not prepaid from factory in CENTRAL ILLINOIS.

32R5395—Chain Link (11-Gauge) Lawn Fencing.

32R5397—Chain Link Single Driveway Gates, 12 feet wide.
Height, 51 inches. Weight, 75 pounds. Each.....$9.95

Imperial Lawn Fencing

Our best design. The double twisted line wires are wrapped around the pickets with right and left twists, providing means for taking up expansion. Line wires are two No. 12½ galvanized wires tightly twisted together and are spaced about 8 inches apart, excepting that the two top line wires in the 48-inch height are about 8 inches apart. The bow pickets overlap at top, adding to their stiffness and strength. These pickets are made of two closely twisted No. 11½ galvanized wires and extend continuously from top to bottom. The bow pickets at bottom extend about 20 inches high, making a very close fabric. Upright pickets are spaced about 5 inches apart. **Shipped, not prepaid, from factory near INDIANAPOLIS, IND.**

Flower Bed Borders

Put up in 25, 50 and 100-foot rolls. We do not sell less than full rolls.

Our ornamental fencing borders make an excellent protection for your flower beds against chickens, dogs, etc., and at the same time add beauty to the beds. Construction same as Windsor Lawn Fencing shown above except that every third picket is extended 6 inches longer to permit placing into the ground as stakes or supports, holding the fence erect.

72R5393¼—Shipped not prepaid from factory near INDIANAPOLIS, IND., or CHICAGO store.

State Height Wanted.	Height	Wt., 100 Feet	Per Foot
	18 in.	78 lbs.	5c
	24 in.	93 lbs.	5½c

OAKLAWN Complete Ornamental Fence

A durable, beautiful fence at a low price. Furnished complete, as shown, or without the braided wire finish. The fabric is the Oaklawn design shown on opposite page. The top railing is made of 1⅝-inch outside diameter pipe. End, corner and gate posts of standard 2-inch outside diameter pipe to be set 24 inches in the ground. Intermediate posts of 1⅝-inch outside diameter steel pipe to be set 20 inches in the ground. Posts should be set in concrete. Can furnish any size gate either single or double. Gates have double action hinges and positive automatic latch. Prices of complete fence include everything required to erect fence with plain rail top or with rail top and braided wire finish, as illustrated, excepting corner, end, gate posts and gates, which must be ordered extra as required at prices shown. All necessary line posts are included in the per foot price of fence. **Add 85 cents per running foot extra for width of each gate required.** When ordering send diagram showing location of gates and corner and end posts. Shipped not prepaid from factory near INDIANAPOLIS, IND.

3½ feet	3 feet	23 pounds	2.50
3½ feet	3½ feet	24 pounds	2.65
3½ feet	4 feet	25 pounds	2.80

Harvard Heavy Close Mesh Fencing

Made in two heights, 50 and 59 inches. For lawns, gardens, tennis courts, stock, poultry, dog kennels, or wherever an extra heavy close mesh fence is required. The diamond shaped meshes 2x4½ inches present a close and effective obstruction to animals—large or small, also make it non-climbable, which is a very desirable feature. The double truss stay wires are wrapped around the line wires and act as braces in every direction, making a firm, solid, smooth and neat appearing fabric. Made of the best galvanized fencing wire the market affords.

Top and bottom wires are No. 10; line wires, No. 13; stay wires, No. 16 galvanized steel wires. Put up in 10, 20, and 40-rod rolls. Shipped not prepaid from warehouse near CHICAGO, ILL.

32R5390—50 inches high. Weight per 100 rods, 1,450 lbs. Per rod..87c
32R5391—59 inches high. Weight per 100 rods, 1,700 lbs. Per rod..99c

Build Your Fence on Sears Steel Posts Will Last a Lifetime

Let Sears Save You Money on Steel Posts

Built of rail carbon steel, the same steel as railroad rails. Possess lightness with strength, stiffness and durability. Take the hard work out of fence building. No holes to dig. Just drive into the ground like a stake. Can be used anywhere, orchards, poultry yards, vineyards, etc. as well as for all farm fencing purposes. Line posts should set about 20 inches in ground.

Now Furnished in Two Styles

Punched oval shape holes ½x⅛ inch, 2 inches apart so your fencing or barbed wire can be fastened with staples. The self fastener style has protruding lugs in which the wires are placed and then simply fastened with hammer as illustrated. Fasteners easily loosened for removing fence.

Fencing easily and quickly fastened by staples.

Simply lay wires in lugs and fasten with hammer.

Big Savings on Quality BEE KEEPERS' SUPPLIES

Buying as we do in large quantities we obtain the lowest prices, and these savings are given to you in the low prices we name. Our entire line of beehives and bee keepers' supplies represents the highest standard of quality. Our hives are made from clear white pine with a smoothness and finish that would be creditable in good furniture. No knots, no splits, no sap. A Sears beehive when put together is correct in all dimensions and all bee-spaces are accurately preserved. Beehives are shipped in flat, and are to be put together by purchaser. Necessary nails and instructions are included.

A crate of five hives, bodies or supers, is not mailable on account of size. Shipped only by freight or express, not prepaid. We pay the postage on single hives and single supers.

Standard Construction at Lowest Prices

Section Honey Boxes

Made of clear basswood, perfect in finish and free from defect. No. 1 or "A" grade, exceptionally high quality. The very close sorting of our "A" grade leaves sections a little darker in color which we offer as No. 2 grade. Sold only in full packages as listed below. **We pay the postage on packages of 100 and 250. Crate of 500 is not mailable on account of size and is shipped only by freight or express, not prepaid.**

Scalloped Sections

72R3524¼—No. 1 Scalloped Sections. Size, 4⅛x4¼x1⅞ inches.
Per package of **100. We pay postage.. $1.18**
Per package of **250. We pay postage.... $2.65**
Per crate of **500.** Wt., 36 lbs. **Not prepaid.. 4.75**

72R3530¼—No. 2 Scalloped Sections. Size, 4⅛x4¼x1⅞ inches. **Not prepaid.**
Per crate of **500.** Weight, 35 pounds... **$3.95**

Plain Sections

72R3526¼—No. 1 Plain Sections. Size, 4¼x4¼x1½ inches.
Per package of **250. We pay postage... $2.43**
Per crate of **500.** Wt., 30 lbs. **Not prepaid.. $4.30**

72R3522¼—No. 1 Plain Sections. Size, 4x5x1⅝ inches.
Per package of **250. We pay postage... $2.28**
Per crate of **500.** Wt., 31 lbs. **Not prepaid.. $3.95**

Parker Foundation Fastener

For fastening comb foundation into section boxes.
72R3532—We pay postage.... 31c

Wax Comb Foundation

We offer only the best, **sweet, clean, genuine Weed process foundation, made from pure domestic beeswax.** Carefully filtered and moisture extracted by vacuum process. Tough, clear and easily worked by the bees. We recommend the use of full sheets, as it eliminates an excess of drone comb and overproduction of drones. This permits bees using all their energy in producing honey. Medium Brood Foundation Sheets are about 7⅞x16¾ in., and run 7 sheets to the pound. Thin super foundation sheets are 3⅞x16¼ in., and run about 28 sheets to the pound. **We pay the postage.**

72R3528—Medium Brood. Per pound.... **73c**
5 pounds **$3.43**
72R3529—Thin Super. Per pound..... **81**
5 pounds **3.83**

Junior Foundation Fastener

Uses a hot plate in melting the edge of foundation in fastening it into comb honey sections. The foundation is cut up to desired size. Sections are folded by hand or with hammer and placed over form block. A piece of foundation is slid along the form block to hot plate, which is then pulled back and the melted edge then dropped to center of section where it sticks fast. Alcohol is used in lamp to avoid soot. Price includes lamp.
72R3533—We pay the postage..... $1.50

Queen Excluder or Honey Board

Generally used with extracting hives, to be placed over the frames to confine queen. Wood bound with wood strips and wire spacing. Seven wires in each strip. Smooth wire passages do not injure bees' wings. **We pay the postage.**
72R3554—8-Frame Size..... 60c | **72R3555—10-Frame Size..... 65c**

Double Bee Escape

To be placed in the center of a honey board. Place the escape in a board and slip between super and hive and the next morning your bees are out of the super. **We pay the postage.**

72R3558—Without Board..... 16c
72R3559—With 8-Frame Board..... 54c
72R3560—With 10-Frame Board..... 60c

Dovetailed Bee Hives

Crates of 5, 8 or 10 frame hives shipped not prepaid.

The wood cover hives are fitted with Hoffman frames which are pierced for wiring, excelsior style wood cover and reversible bottom. Foundation starters and division board not furnished. The metal roofed double cover hive has telescoping sides, which fit down over the hive, and an inner wood cover which can be used as an escape board.

Supers or upper stories are not included. To make 1½-story hives, you must also order the style of super desired, or you can make full depth 2-story hives by ordering the hive bodies we list below.

	Wood Cover Wt.,Lbs.	Price	Metal Cover Wt.,Lbs.	Price
72R3501¼—Crate of five 8-Frame, 1-Story Hives.	110	$8.75	130	$11.15
72R3508¼—Crate of five 10-Frame, 1-Story Hives	130	9.85	160	12.25
72R3498¼—Single 1-Story, 8-Frame Hive. Wood Cover. We pay postage				2.50
72R3499¼—Single 1-Story, 10-Frame Hive. Wood Cover. We pay postage				2.70

Hive Bodies

Complete with frames but without cover and bottom. The Jumbo hive body has the same dimensions as the standard 10-frame except that it is 11⅝ inches deep, standard being 9 9/16 inches deep. No division board or foundation starter furnished. Nails and tin rabbets are included. These bodies may be used as brood chambers or as a full depth upper story to make a full 2-story hive for extracted honey.

72R3480¼—Crate of Five 8-Frame Standard Hive Bodies. Weight, 65 pounds..... **$4.98**
72R3481¼—Crate of Five 10-Frame Standard Hive Bodies. Weight, 70 pounds..... **$5.70**
72R3482¼—Crate of Five 10-Frame Jumbo Hive Bodies. Weight, 84 pounds..... **6.98**

Supers for Comb or Extracted Honey

The supers for comb honey are 4¾ inches deep and fitted with scalloped section holders, scalloped separators, follower board and flat springs. No sections or starters are included, except that sections are included with the single supers. 4¼x4¼x1⅞-inch scalloped sections only can be used with this furniture.

Supers for extracted honey are 5⅝ inches deep and are complete with 5⅜-inch shallow frames. No wax foundation is included.

72R3504¼—Crate of Five 8-Frame Supers for Comb Honey. Without sections. Weight. 33 pounds. **Not prepaid. $3.20**
72R3509¼—Crate of Five 10-Frame Supers for Comb Honey. Without sections. Weight. 36 pounds. **Not prepaid.. $3.45**
72R3490¼—Single 8-Frame Super for Comb Honey. Includes twenty-four 4¼x4¼x1⅞ sections. **We pay postage..... $1.25**
72R3491¼—Single 10-Frame Super for Comb Honey. Includes twenty-eight 4¼x4¼x1⅞ sections. **We pay postage..... $1.35**
72R3512¼—Crate of five 8-Frame Supers for Extracted Honey. With frames. Weight, 36 pounds. **Not prepaid.. $3.30**
72R3516¼—Crate of five 10-Frame Supers for Extracted Honey. With frames. Weight, 40 pounds. **Not prepaid.. $3.90**
72R3492¼—Single 8-Frame Super for Extracted Honey. With frames. **We pay postage..... 98c**
72R3493¼—Single 10-Frame Super for Extracted Honey. With frames. **We pay postage..... $1.12**

Tinned Steel Wire

For frames when full sheets of foundation are used.
72R3595 1,400 feet. **We pay postage.. 35c**

Cappings Extracting Baskets

Fit any make or size Reversible Extractors; also made for our Back Lot Extractors. They hook over the reel between the comb pockets. Easily put in or taken out. Pour cappings in baskets half to three-quarters full, turn a half minute, and all the honey is thrown out, and the wax saved without melting. From 3c to 6c worth of honey saved from each frame. Unfilled sections can be extracted. Heavy galvanized wire mesh, strongly bound. **Sold in pairs. We pay the postage.**
72R3466—For Reversible Extractors..... $3.30
72R3467—For Back Lot Extractors..... 3.20

Hand Section Press

For putting together one-piece section honey boxes. Presses the dovetailed ends together squarely without breaking corners.
72R3538—We pay postage..... 52c

New Excelsior Wire Bee Veil

Extra Quality

Comfortable and durable. Open mesh skirt lets in air and breeze. Does not blow against face. Wire face completely around; with deep front and narrow back. Strong khaki top with elastic cord. Long tie cord for shoulders and waist.
72R3541—We pay postage.. 86c

Bristle Bee Brush

Made of black horsehair bristles. Soft and pliable. **We pay postage.**

72R3521¼—Crate of 100 Deep Hoffman Frames. Wt., 45 lbs **$5.10**

Swarm Catcher

Galvanized wire cloth—metal binding. One or two frames dry comb can be fastened inside to attract bees. Pole not furnished. **We pay postage.**
72R3571¼ $1.88

Drone Trap and Swarm Guard

For exterminating drones and preventing loss of swarms. Openings permit the worker bees to pass but the drones and queen cannot, and are compelled to pass to the upper compartment or trap. Trap has wire spacing through which bees pass without injury. **We pay the postage.**
72R3549..... 67c

"Back Lot" Honey Extractor

Serves every purpose of the small bee keeper; also handy for large producers for extracting partly filled combs, or where foul brood combs have been treated with Hutzelman's Solution, a few minutes' use will save the solution. Will extract honey frames, both sides, in 2½ minutes. Don't have to remove comb until honey is all extracted from both sides. It leaves the honey cells intact and sucks them clean of honey. Made of heavy galvanized steel throughout. Ball bearings; heavy rigid comb pocket; removable wire screens; open way honey gate. Will last a lifetime. **Shipped only by freight or express, not prepaid.**

72R3474¼—Single Frame Pocket. 9⅝x16 inches. Weight, 30 pounds..... **$ 8.25**
72R3477¼—Two Frame Pockets, 9⅝x16in. Wt., 35lbs. **11.35**
72R3478¼—Two Frame Pockets, 12x16in. Wt., 40 lbs **15.20**

Improved Reversible Honey Extractors

Has no throw-out clutch, the gears are always in mesh, which means NO MORE BROKEN GEARS. The Improved Comb Baskets are made of heavy galvanized steel. The wire screen against which the combs rest can be easily removed for cleaning. Cans are galvanized steel, strongly bound. Three guy rods furnished with each extractor, with turnbuckle and screw hooks, to hold machine and prevent vibration. Entire construction heavy and rigid, and will last a lifetime. Cans are galvanized steel, strongly bound. No. 15 is 21 inches in diameter; No. 17 is 24 inches in diameter. **Shipped from our store or Ohio factory. Shipped only by freight or express, not prepaid.**

72R3475¼—No. 15 2-Frame Extractor. Comb pockets, 9⅝x16 inches. Wt., 95 lbs.... **$23.85**
72R3476¼—No. 17 2-Frame Extractor. Pocket 12x16 inches. Weight, 120 pounds..... **$29.25**

"For Successful Hatches I Use and Recommend The SUPER HATCHER—America's Still Leads

Read What CLYDE RALSTON Says

Sears, Roebuck and Co.,
Gentlemen:

For successful hatches I use and recommend the Super Hatcher. This incubator costs much less than many that are not nearly as good. It will produce big hatches of strong, healthy chickens, ducks and turkeys, with less labor and expense than any incubator I know of.

CLYDE RALSTON,
RALSTON FARM
PETERSBURG, N. D.

$20.75 CASH

250-EGG SIZE

Superior in many ways to incubators selling for $50.00 or more elsewhere

Our Super Hatcher GUARANTEE

The Super Hatcher guarantee is one of complete satisfaction. You take no risk when you buy a Super Hatcher. If any incubator purchased from us fails to give perfect satisfaction, write us promptly. We guarantee to make it entirely satisfactory or it may be sent back and we will return the purchase price, including any transportation charges you have paid.

Super Hatcher Leads—*The Facts Tell the Story*

MORE SUPER HATCHERS are sold each year than any other incubator of like capacities. One **Super Hatcher** sells another—nearly every poultry raiser knows a neighbor who owns one—and so **Super Hatcher** users multiply. **Super Hatcher** success was built on refinements and improvements constantly added. That is why if you want **Super Hatcher** quality and **Super Hatcher** results you will find them only in the **Super Hatcher.** Success comes through experience. Both are built right into the **Super Hatcher.** There is none better than the **Super Hatcher.** It hatches every hatchable egg. It produces hardy, vigorous, fluffy chicks. It is economical in use of oil. Its heat retaining construction, with sensitive, reliable regulator keeps the right temperature throughout the hatch.

Buy a Super Hatcher. Hatch your own chicks and make more money from your poultry than ever before. You get better chicks at lower cost and have fewer losses. You prevent the spread of chick diseases from contaminated flocks. You get your chicks when you want them.

Automatic Egg Turning Device in Each Tray

By one easy movement you turn every egg, thus saving time and labor, and avoiding cracking of eggs.

The Super Hatcher saves all the heat. California redwood case; double walls, 1¾ inches thick, with dead air space between.

The New Filler Cup makes it easier to fill the heater. Prevents overflow. Keeps air out of tank.

Super Hatcher Firsts

The first to use the three-ply laminated top and bottom which cannot split, warp or pull apart.

The first to use the thick heatproof fiber board to insulate the top.

The first incubators for individual use to be equipped with mechanical egg turning device.

The first popular price incubator built to comply with Fire Insurance Underwriters' requirements.

The first to use the encircling leg clamps.

The first high quality scientically perfected incubator ever sold at such low prices.

Why take chances with inferior incubators built to imitate the Super Hatcher? Get the original! They cost no more.

How the Super Hatcher Is Made

California Redwood case; thick double walls, 1¾ inches thick, with dead air space between. Nicely finished with one coat mahogany stain, two coats varnish.

Three-ply laminated panel wood top—will never check, warp or split.

Inner top of thick fiber insulation, with dead air space between upper and lower tops. No heat can get through.

Newly designed heater, utilizes all the lamp heat. Copper hot water heating tank.

Big heavy non-leakable lamp holds 2 quarts. Brass burners, the best made.

Strongly formed egg trays, every one equipped with egg turning device. Saves time and eggs and improves hatches. Size of trays and capacities designed for greatest ease and convenience in handling.

Ample nursery space underneath egg trays. Automatic reliable regulator maintains uniform temperature.

Newly designed filler and expansion cup make it easy to fill tank, prevent overflow and keep air out of tank.

New encircling leg clamps give solid support and prevent legs splitting off or loosening.

Tight fitting doors with double glass, drawtight fasteners and strong hinges.

Each incubator complete with thermometer, egg tester and instructions for operating.

Hatch Your Chickens the Electric Way

Electric Super Hatcher

$16.95 155-Egg Size

Sold for Cash Only

The convenient, cleanly, labor saving advantages of electrical operation are now available in the Super Hatcher.

Electrically heated and automatically controlled, the time and work of hatching are reduced to almost nothing.

You turn on the switch, set the thermostatic control to the right temperature, and the machine thereafter takes care of itself.

They are economical, too. Current is used only as required to maintain the right heat. When this point is reached the regulator cuts off the current, and it only flows when more heat is required. Thus electricity is consumed only a part of the time.

The heating element is durable and efficient. For 110-volt alternating current only.

The case construction of the Electric Super Hatcher is the same as the oil heated machines. Underwriters label not used.

Egg trays are equipped with egg turning device. Complete with thermometer, egg tester and simple instructions for operating. Shipped from factory near CHICAGO.

32R3090—155-Egg Capacity. Weight, 95 pounds..... $16.95

"Your Coal Burning Brooder Holds Temperature 18 Hours WITH ONE FILLING"

New Idea Coal Burning Brooder

Easy to Regulate—Most Economical With Fuel

Specially Designed to Burn Either Hard or Soft Coal

Big Fire Pot

The Finest Coal Burning Brooder You Can Buy

Says Mrs. E. Whittenburg

$10.45 And Up

The Peer of All Even at Double the Price

Shipped from factory near CHICAGO by freight or express, not prepaid.

The New Idea was designed to overcome the difficulties encountered where it is necessary or more economical to burn soft coal. Many brooder stoves have indirect draft passages, where the smoke and gases must pass around baffle plates extending over nearly the entire top of the fuel chamber, and cannot be operated successfully with soft coal. They quickly clog with soot and tar, and will even require frequent cleaning out when hard coal is burned.

The New Idea Stove burns either soft or hard coal. It is practically self cleaning. No indirect draft, or flat surface to catch soot and tar. The draft is direct through the fuel bed to the smoke pipe, yet the fire is held under perfect control, even under high winds. Draft openings so nicely proportioned and balanced that the stove once regulated will run on one filling for 10 or 12 hours with little or no attention.

The New Idea is a great heater, but it gives a gentle heat, because the heat is under perfect control, and the newly designed body shape and broad canopy distributes the heat uniformly. The big fuel pot gives reserve capacity for extreme weather.

The New Idea burns the gases, which in many stoves pass out unburned and are wasted. Thus your fuel goes farther in the New Idea. Stoves are strongly made of cast iron with rocking grates, and galvanized hover or canopy. Old grates easily removed and new ones put in without taking stove apart.

Sensitive brass wafer thermostat regulator controls the fire and regulates the heat. Prices include ashpan, cord and pulleys for raising and lowering hover. All sizes take 4-inch pipe.

Compare the New Idea

With the best and biggest brooder stove you ever saw. Even though another stove may cost you twice as much, it cannot give any better satisfaction. The chicks you save with the New Idea will pay for the stove.

32R2992—No. 1. With 44-Inch Diameter Hover. For 300 to 500 chicks. Height, 18 in.; diameter, 13 in.; grate, 8-in. diameter. Weight, 75 lbs. **$10.45**

32R2993—No. 2. With 54-Inch Diameter Hover. For 500 to 1,000 chicks. Height, 20 in.; diameter, 15 in.; grate, 9-in. diameter. Weight, 90 lbs. **$13.75**

32R2994—No. 3. With 64-Inch Diameter Hover. For 1,000 to 1,200 chicks. Height, 21 in.; diameter, 16 in.; grate, 10-in. diameter. Weight, 125 lbs. **$17.45**

Sold separately for cash only.

Read What Mrs. Whittenburg Says:

Sears, Roebuck and Co.
Sirs:
I have been using the coal brooder I bought from you and am well pleased with it. It is easy to operate, and I have had no trouble of any kind with it. I like the shape of stove, as the coal does not hang to the sides. I have been using a cheap grade of coal but can hold a good temperature for 18 hours with one stove full of coal. I would not try to raise chicks now, without one of these brooders.
MRS. ELMER WHITTENBURG.
(Address furnished on request.)

Shows our new combination check draft damper and baffle plate, one of the outstanding improvements of recent years in brooder stoves. It gives perfect control of the fire, operated automatically by the brass wafer thermostat. Check draft opens on to a curved baffle plate which curves upward into the pipe collar, but only partly reduces the direct draft and still leaves the smoke passage unobstructed. The thermostat opens the check draft damper, which then bears against the movable damper inside the stove, and reduces the side of the smoke passage, but still leaves the passage clear. Entire upper part of fuel pot is left unobstructed and, having no cold smoke chamber or flat baffle plates, the gases and tar are burned.

Imperial Coal Burning Stove Brooders

Successfully Used by Hundreds of Thousands of Poultry Raisers

New Double Draft Check and Damper Controls

$9.25 And Up

No Better Brooder at Any Price

Imperial brooders are equipped with the new double draft check and damper control which, with the positive sensitive thermostatic regulator, gives perfect control of the fire and makes it easy to keep uniform temperature. At the top of the stove is the usual check draft, as used in nearly all brooder stoves. At the bottom is an air intake valve. Both are connected to the thermostat regulator in such a manner that when more heat is needed the intake opens and the check draft closes. Fire is closely controlled, and yet is quickly responsive to any need for more heat, with the result that under ordinary conditions ample heat is provided with a small fuel consumption. The double draft and check control is especially helpful toward the satisfactory burning of soft coal. Imperial Stove Brooders are strongly made of cast iron, have rocking grates, and hovers of galvanized steel. Burn either hard or soft coal. Shipped from our store by freight or express only, not prepaid.

72R2995¼—42-Inch Diam. Hover. For 300 to 500 chicks. Height, 18 inches; diameter, 11 inches; grate, 9 inches; 4-inch pipe collar. Weight, 80 pounds **$9.25**

72R2997¼—60-In. Diam. Hover. For 1,000 to 1,200 chicks. Height, 24 inches; diameter, 13 inches; grate, 11½ inches; 5-inch pipe collar. Weight, 130 pounds **$15.45**

Over 1/3 Million in Use

Little Brown Hen and Big Gray Hen

INCUBATORS

The recognized leaders of their class for many years. Other small capacity incubators have come and gone, but these incubators continue to give real service to poultry raisers. Such success can only be based upon real value, service and quality. Durable, all metal. Hot air heated, they easily maintain even hatching temperature under any ordinary conditions. Simple in construction, safe and easy to operate.

Famous for the Strong, Healthy Chicks They Hatch

Double insulated walls and top, felt lined nest, safety lamp with highest quality brass burner, positive brass wafer thermostat regulator. Complete with high grade tested thermometer, moisture pan and simple instructions for operating.

Little Brown Hen

Brooder Thermometer

White enameled with black markings. Magnifying tube, with red column. Can be suspended or attached to a block of wood, and used with any of our brooders. Length, 6 in; width, 1½ in. We pay the postage.
72R3017 Each.... **55c**

Cozy Hovers

Made of metal, nicely enameled, with double outing flannel curtains. To be used in a room, shed or box. When set in a substantial box they make an excellent outdoor brooder. Lamp and burner especially designed for safety and economy in use of oil are contained in a closed compartment so no fumes can enter hover. The cage is a very desirable attachment. It is made of heavy galvanized screen with sheet metal top, and can be spread to allow room for chicks to exercise, or closed tight at night to protect them from rats, cats and other rodents. We pay the postage on the 50-chick hover. The 100-chick hover is not mailable. Shipped only by freight or express, not prepaid.

Non-Freezing POULTRY WATERERS

For Year 'Round Use

Our non-freezing poultry waterers supply fresh, pure water, without the aid of lamps, even in the coldest weather. A necessity for heavy egg production and the health of the flock. Outer and inner walls are galvanized steel, packed with heavy insulation between. Will keep water from freezing 12 hours or more in winter, and will keep water cool in summer. Cone shaped top prevents roosting.

Standard Type Non-Freeze Waterer

The popular standard type. We sell more of these than any other type. Lay on side to fill. We pay the postage.

72R3134¼—2-gallon Each..... $1.69
72R3135¼—3-gallon. Each..... 1.98
72R3136¼—5-gallon. Each..... 2.35

Top Fill Non-Freeze Waterer

This waterer has a separate telescoping inner tank. To fill or clean you simply lift out this inner tank and fill the container from top. Strictly sanitary, and the most convenient non-freezing fountain to fill and keep clean. Costs only a trifle more. Holds 5 gallons. We pay the postage.

72R3144¼—Each..... $3.15

Low Priced Poultry Waterer

Inexpensive, but good. A very popular style. The pan is crimped to provide for a close fit and easy drinking. The top is flat for easy filling and cleaning. All galvanized. We pay the postage.

72R3217¼—1-gallon $0.69
72R3218¼—2-gallon ..... .80
72R3219¼—3-gallon 1.09

Keeps Water Warm in Coldest Weather

Combination Poultry Fountain and Heater

Keeps water warm in coldest weather. Heater has brass burner. Oil reservoir holds kerosene to burn about one week. Simple and safe. Heater can also be used for brooding small chicks, sprouting oats, etc. Fountain can be used separately if desired. Galvanized steel.

72R3143¼ — Complete, 5-gal. capacity. We pay the postage $2.87
72R3145¼ — Heater only. We pay the postage $1.60

Running Board Coops

$2.65

Something every poultry raiser needs. For in addition to getting your poultry to market quickly and in good condition, this coop may be used as parcel and vegetable carriers; also used for breaking broody hens. Made of very heavy galvanized wires welded at intersections. Two strong wood decks. Height, 24 in.; width, 12 in.; length, 40 in. Collapsible and on account of size shipped folded flat, insuring delivery to you in perfect condition. Easily put together. Not mailable. Shipped only by freight or express, not prepaid. Weight, 20 lbs.

72R3341¼..... $2.65

Mason Jar Fountains

For Chicks or Fowls. Glass jar is not included. We pay the Postage.

SANITARY ODORLESS TOILETS

"Handee" Indoor Closet

Many state boards of health recommend this kind of toilet for its convenience, privacy, germ destruction and fly prevention. It abolishes the outdoor privy in schools, country hotels, summer resorts, camps, etc. Closet of sheet steel. Has snug fitting hardwood top, not easily split, mahogany finish seat with hinged cover. Outside container nicely enameled. Has inner removable galvanized container of 6-gallon capacity. Contents are disinfected by the chemical. Furnished complete with six 11-inch lengths of 3-inch enameled ventilating pipe, two elbows, one wall collar, one toilet paper holder, one roll toilet paper and one gallon of "Handee" Improved Liquid Chemical. Simply add ¼ cup of chemical to 2 gallons of water, and closet is ready for use. One gallon of chemical sufficient for an average family for about six months.

8R4054¼—Gallon. Not mailable and therefore shipped only by freight or express. Not prepaid.

Septo—The Sanitary Tank Closet

We offer you the ideal indoor closet for which you have been looking. No disagreeable emptying by hand, no unsightly outhouse, no nauseous odor, just a convenient self-draining odorless indoor toilet. This is a home refinement which is appreciated not alone for its convenience and health protection, but also for its enhancement of the home in which it is installed. The Septo Tank Closet is designed to meet the requirements of sections where there are no sewers and also for lake and summer cottages, small industrial homes, country hotels, summer resorts, etc. A strictly high class toilet convenience at a cost lower than that of an outhouse. And at this low cost you are able to provide your family with convenience and protection which the old-fashioned privy could not possibly afford.

The Principle of the Septo Closet

The sewerage passes from the bowl directly into the steel tank, where it is liquefied and sterilized by the combined action of chemical and agitator. When full the tank is emptied into a drain connected with a cesspool (an upturned barrel with holes bored in side serves admirably) and a new charge of chemical put in.

Safe, Convenient and Inexpensive

The illustration here shows how the outfit will appear when actually installed. Nothing to show in the room but a neat enameled sheet closet fitted with a genuine "Never Split" mahogany finish seat, and gray enameled vent pipe. Tank which fits under the floor is made of heavy gauge steel and has a capacity of 28 gallons. Has independent agitator which cannot get out of order. Drain valve in bottom of tank is easily operated from top of tank. Equipment consists of specially constructed steel hopper with mahogany finish seat, one 28-gallon tank complete with drain valve, agitator, 8 feet of 4-inch pipe, wall collar, roof safe, skirt pipe, ventilator, toilet paper and holder, and 5-pound can of chemical.

NOTE.—We have a complete circular giving full information. Send for it if desired.

8R4055—Septo Closet. Complete with 5 pounds of Septo Improved Powdered Chemical. Shipping weight, 135 pounds..... **$29.85**
Not prepaid. Shipped from factory in CENTRAL MICHIGAN.

Septo Improved Powdered Chemical. Especially prepared for use in our Septo Tank Closet. Will liquefy sewerage in your closet, kill disease germs and abolish odors. Use only with Septo Toilet. Cannot be used with "Handee" Toilet or similar types. Shipping weight, 9 pounds.

8R4056¼—5-pound can. Chemical only. Not prepaid.. **98c**
Not mailable and therefore shipped only by freight or express.

SEARS PRICES on All STOCK FEED and TONICS ARE Always LOW

REPUTATION MINERALS FOR HOGS, CATTLE AND SHEEP

Reasons for Feeding

1—Furnishes the main essential elements principally lacking in corn and small grains, bone, structure and tissue building materials, without which stock cannot possibly flourish.

2—Mineral supplements are absolutely necessary with the modern methods of early and rapid marketing and the intensive feeding of prepared grains and feeds which are low in mineral content.

3—Most pastures and yards have been depleted of minerals, and it is necessary now to supply them in this form.

4—The saving made in other rations will more than defray the cost of mineral supplements. Less food necessary per 100 pounds gain.

5—Provides better digestion, better stimulation, better finish and larger gains. Helps prevent abortion and objectionable eating habits.

Our New Improved Formulae for 1929 are the result of latest 1928 developments in animal feeding. Not guesswork, but the results of numerous experiments with actual stock. Approved by leading authorities. Each ingredient of fine quality and the equal of those used in mixtures sold at much higher prices. Our low prices are made possible through elimination of expensive advertising and salesmen's commission. **Shipped direct to you by freight or express, not prepaid, from our factory in INDIANAPOLIS, IND., or KANSAS CITY, MO.**

Catalog numbers starred (*) are not mailable and therefore shipped only by freight or express, not prepaid.

What Minerals Are

1—A complete scientific combination of minerals necessary for the satisfactory production of bone, hair, hoofs, tissue, flesh and blood.

2—The results of far reaching thorough investigations and experiments which have proved their importance and necessity in animal feeding and breeding.

3—Not some patent stock tonic, but a mixture of essential minerals balanced in the correct proportions.

4—Endorsed by leading agricultural colleges and feed experts for successful hog and stock raising.

5—Contain calcium, lime and other ingredients which are unequaled bone builders, iodides which prevent goiter and hairless pigs, and other tonic constructive elements.

For Dairy Cattle

New Improved 1929 Formula

The addition of molasses adds to the palatability of the mixture. The new iron-cop mineral blend and bone derived calcium sulphate are most essential. The need for proper minerals in the daily rations of cattle cannot be overestimated. Iodides are essential to prevent big losses of new born calves through goiter or weakness.

Formula: High calcium limestone, 30.97 per cent; spent bone black, 30 per cent; common salt, 20 per cent; hardwood ashes, 5 per cent; tobacco dust, 1 per cent; glauber salts, 3 per cent; sulphur, 0.50 per cent; potassium iodide, .03 per cent; iron-cop mineral blend, 1.10 per cent; bone derived calcium sulphate, 6.40 per cent; cane molasses, 2 per cent. Shipped only by freight or express, not prepaid.

For Bigger and Better Hogs

New Improved 1929 Complex Mixture

Iowa Modified

We do not hesitate to recommend this fine mixture. The addition of iron-cop mineral blend and bone derived calcium sulphate make this formula one of the finest. It contains all the essential elements together with tonics, laxatives and potassium iodide so essential for preventing hairless animals and goiter. The 5 per cent of meat meal makes it more palatable and more easily eaten.

Formula: Spent bone black, 25 per cent; high calcium limestone, 34.97 per cent; common salt, 14 per cent; sulphur;, 1 per cent; copperas, 0.50 per cent; glauber salts, 6 per cent; hardwood ashes, 5 per cent; meat meal, 5 per cent; potassium iodide, .03 per cent; iron-cop mineral blend, 1.50 per cent; bone derived calcium sulphate, 7 per cent. The Ideal Food Contains Minerals

Reputation PIG MEAL FOR QUICK GROWTH

Protein, 25%; Fat, 5%; Fiber, 8½%

A concentrated food, fed the same as milk, containing just the right percentage of animal and vegetable proteins, fat, starch and minerals to be a real milk substitute and fit the needs of infant pigs. It contains none of the so called home grains or carbohydrate feeds. You have an abundance of these on your farm. Reputation Pig Meal is a reliable, inexpensive food, easily prepared. It provides for the growth of muscle, bones, skin and hair. Gives your pigs a good start in the right direction. Reputation Pig Meal is not an experiment but a safe, reliable, dependable food. Shipped from stock.

8R805¼— 25 pounds. (We pay postage)..$1.35

Stock Feeding Molasses

Black Strap Molasses for Stock Feeding

Molasses is an energy producing food. It is an appetizer, conditioner and mild laxative. When used with roughage or in a slop, these feeds are made more palatable and digestible. Increases the milk flow in cows. Hogs and steers gain weight more rapidly. Sheep and cattle in the feed pen should be given a ration of molasses. It is used to replace part of the grain ration. It has been found that when replacing not more than half the corn in a ration, molasses has slightly more feeding value, pound for pound, than corn alone. Each barrel about 54 gallons. Shipping weight, 700 pounds. Will not spoil or freeze in winter. **Not prepaid.**

*8R838⅓—Per Barrel from Chicago..... $12.98
*8R836⅓—Per Barrel from Cedar Rapids, Iowa.....$12.98

The Complete Ration, A Milk Substitute

Reputation CALF MEAL

Protein, 18½%; Fat, 4%; Fiber, 4%

Raising calves on whole milk is neither profitable nor necessary. Take the young calf away from the mother at five or six days of age and feed it Reputation Calf Meal, the ideal baby calf food. In this way you can raise the calf on an excellent diet of prepared food and still sell the cow's milk. Reputation Calf Meal is made to produce results. It is milled from the choicest ingredients. Its quality is uniform, inexpensive and reliable. Calves prefer it to other feeds. Shipped from stock.

*8R801¼—100 lbs. (Not prepaid). $3.98

Sprayer Values

Unless otherwise stated, we pay the postage on all Sprayers, Dusters, etc., listed on this page.

Furnished complete with 6¾-gallon open top reservoir. A strong pressure can be developed with this outfit. Good for spraying cold water paint, etc. An excellent fire pump. Cylinder is brass. Vacuum cup agitator keeps solution well mixed. Has 8 feet of three-ply ⅜-inch hose, stop cock and large misty spray nozzle with heavy brass strainer. Sprayer, filled, is easily carried. Height over all, 33 inches. Shipped from CHICAGO, ILL., PHILADELPHIA, PA., HARRISBURG, PA., SYRACUSE, N. Y., GREENSBORO, N. C., or BOSTON, MASS. Send your order to nearest store. We pay the postage.

42R924¼.....$7.25

Hercules Hand Sprayer

A Highly Efficient General Purpose Sprayer for the Home and Garden.

Compressed air type. Has brass ball check valve and is furnished with angular and straight stream nozzle. Continuous spray. Solid brass pump and reservoir. Capacity, 1 quart.

42R926—Postpaid.....$1.05

42R928—Sprayer, same as above, except that it has tin pump and tin reservoir. Capacity, one quart. Brass spout and brass screw ferrule in tank. We pay postage.....**70c**

Bamboo Poles

For spraying tall trees. Connections are made to a seamless brass tube which extends through center of pole, light and strong. Shut-off cock at lower end; brass drip deflector at top. ¼-inch pipe threads. Length, 8 feet. Sent freight or express; not prepaid. Shpg. wt., 5 lbs.

42R943¼.....$2.65

Forces whitewash into corners and crevices where disease germs lodge and which cannot be reached with brushes. In whitewashing chicken houses infested with lice you can do the work from a door or window, thus avoiding the discomfort of being covered with chicken lice or dirt from head to foot. For spraying sheep and cattle it is especially efficient, as it forces the liquid through to the hide, where it is really wanted. Has 6-foot iron spray pipe with ¼-inch brass shut-off cock and brass spray nozzle, extra brass nozzle for straight stream work, rubber suction hose with screen attachment, and 8 feet of ⅜-inch special high pressure spray hose. We pay the postage.

42R901¼.....$7.75

Little Giant Sprayer

This handy sprayer is made entirely of brass. Has variable nozzle. Excellent for spraying fly oil or other heavy mixtures. Front end of tank is provided with brass filler plug. Bronze ball valve. Size of pump cylinder, 14½x1⅝ in. Tank, 8x5 in. Two brass nozzles furnished for spraying straight ahead or at an angle. Capacity, 2½ quarts.

42R902—We pay postage.....$1.75

Galvanized Extension Tube

Galvanized iron, 8 feet long, for spraying tall trees. Threaded both ends, with one coupling. ¼-inch pipe thread. Sent freight or express; not prepaid.

42R1415¼—Shpg. wt., 7 lbs...65c

For Spraying or Whitewashing

Hercules Portable Compressed Air Sprayer

Spray your fruit trees, vines, berries, potatoes, cotton and vegetables with this fine portable sprayer. Just the thing to make whitewashing and poisonous spraying easier. Must not be confused with cheap competitive sprayers made to sell at a low price. No better spray pump than this is made or sold by anyone. Has latest improved quick acting lever cam pump lock. Throws fine mist or coarse spray. Furnished complete with 2 feet of ⅜-inch heavy spray hose with non-kink guard, and automatic adjustable cock equipped with lever shut-off and strainer. 3¾ gallons of liquid can be sprayed with three charges of air. Heavy gauge galvanized steel tank with interlocked and riveted seam. Tank is 7½ inches in diameter and 20 inches high. Easily carried by shoulder strap sling. Total capacity, 4 gallons. Pump cylinder is of 2-inch seamless brass tubing with all brass valve and brass valve spring. Entire pump easily removed by turning quick acting cam lock. Has 2-foot brass extension pipe and elbow for spraying under leaves. We pay the postage. Shipped from CHICAGO, ILL., PHILADELPHIA, PA., HARRISBURG, PA., SYRACUSE, N. Y., GREENSBORO, N. C., or BOSTON, MASS. Send your order to nearest store.

ONLY $8.15 COMPLETE

High Speed Crank DUSTER

Regular $13.50 Value Elsewhere!

This machine represents the very latest developments in dry powder dusters, yet it sells for a remarkably low price. A regular $13.50 value elsewhere; we are offering it far below usual prices. It is universally used by all tobacco growers and is exceptionally well adapted for disinfecting garden vegetables of every description, shrubbery, tobacco plants, cotton, berries, melons, cabbage, etc., and for the control of the boll weevil with calcium arsenate. Sprays anything in powder form. Dust is pulverized and forced into the discharge pipe where it meets the current of air and is completely atomized insuring uniform distribution of the materials. In use the duster hangs in perfect balance at the operator's side and can be used all day without physical discomfort or fatigue. It is remarkably free running and easy cranking. Gears are encased as shown. Will cover two rows at a time as fast as operator can walk and is adjustable for rows of different widths and for tall trees, small trees or bushes. With this duster the operator can cover from six to eight acres of tobacco, cotton or vegetables per day. Furnished with four 15-inch tubes, two nozzles, one Y connection, two elbows and carrying strap with snaps.

Dust compartment has capacity of 8 to 10 pounds.

42R910¼—We pay the postage.....$8.15

Hercules Hand Pump Duster

Simple, effective and efficient. Every stroke of the pump produces a powerful air blast that completely breaks up the powder into fine dust, which penetrates the foliage of plants treated. Adjustable powder valve can be quickly set to control delivery of dust in either large or small volume. Suitable for all dusting materials such as used for beans, potatoes, cotton, tobacco, melons, cucumbers, cabbages, onions, etc.; also for dusting fruit trees, shrubbery, etc. Made of heavy tin plate, enameled. Capacity, about 3 pounds. Length, without fittings, 19 inches.

42R925¼—Complete with two 16-inch curved tubes and two nozzles.

We pay the postage.....**$2.35**

Portable Compressed Air Sprayer

$4.00

Unexcelled for Spraying Grapevines, Berry Bushes, Fruit Trees, Cotton, Potatoes, Whitewashing, Etc.

Gives continuous spray. A few minutes' pumping charges the tank. Three gallons of liquid can be sprayed with three charges of air. Capacity, 3 gallons. Galvanized iron tank, 7 inches in diameter by 20 inches high, tested to 60 pounds pressure. Has 2 feet of ⅜-inch hose, 2-foot brass extension pipe with angle nozzle and brass shut-off cock. Pump cylinder, 2-inch seamless brass tubing, 14 inches long, with rubber valve and brass valve spring. Brass extension pipe enables you to direct the spray up under the leaves and you can spray small trees or high bushes. Spraying calendar and instructions furnished with each sprayer. We pay the postage. Shipped from CHICAGO, ILL., PHILADELPHIA, PA., HARRISBURG, PA., SYRACUSE, N. Y., GREENSBORO, N. C., or BOSTON, MASS. Send your order to nearest store.

42R936¼.....$4.00

BALL BEARINGS Now Available

MONEY cannot buy, modern skill cannot produce a better, more modern or more efficient cream separator than the New Ball Bearing De Luxe Economy King. To celebrate our 25th anniversary of cream separator manufacture, we offer you the utmost in modern design—a ball bearing separator so frictionless that the bowl will spin 12 to 15 minutes (50,000 to 60,000 revolutions) after the handle is released.

This is the Economy King Separator which for many years has passed every conceivable skim milk and butter fat test in competition with the world's highest priced separators. It is now provided with four ball bearing units, one at each end of the bowl spindle and one at each end of the pinion gear shaft to make it as near frictionless as is humanly possible.

What is our price for this ultra-modern machine? Not $75.00 to $135.00 as you would suppose, but only $46.50 to $37.75, prices that seem impossible to those not acquainted with the economies of our direct factory selling methods.

Skims the Cream to the Last Drop

The De Luxe Economy King Ball Bearing Cream Separator skims to the last drop under all conditions. It gets practically every particle of cream from all grades of milk, warm or cold, whether delivering 15 per cent or 55 per cent cream. The cream after being cleaned and aerated is in better condition than the original whole milk. There is no churning or frothing.

The loose disc skimming bowl, accurately machined to watch-like precision and scientifically balanced, does its work perfectly—skims to a trace day after day for many years. You cannot buy a closer skimming or more durable separator than the Economy King, because there isn't a machine anywhere, regardless of price, that will skim closer or give more years of efficient service. Read the enthusiastic testimonial letter on this page in which one customer says that his Economy King, after 11 years of use, passes the same skim milk test as a brand new high priced machine. Indisputable facts of that kind outweigh any amount of argument. If you are debating which separator to buy, this letter should enable you to decide in favor of the Economy King without hesitation.

Read About This Test

Dear Sir:

A salesman for a nationally known separator insisted on leaving us a new machine to run our skim milk through, claiming that we lost enough cream in a year to buy his separator, which was $100.

We ran about 24 quarts through our Economy King, then through his machine. We ran 12 quarts through his machine, then through ours. Both samples tested with a Babcock tester showed so little butterfat in either that they couldn't test it. ***Pretty good for a 1917, Economy King against a new 1928 high priced machine I think.***

J. H. PRATT.

(Address on request)

Easy to Run and to Clean

No separator compares with the New De Luxe Ball Bearing Economy Chief for ease in turning and quiet noiseless operation. Our positive splash oiling system bathes every bearing in oil, increases durability and insures frictionless operation for practically an entire lifetime of service. The bowl lifts out as shown below in the fourth illustration and the discs are quickly transferred to a heavy wire disc washer for fast, easy washing.

Durable and Long Lived

Nearly 1,000,000 Now in Use

We've improved, refined and perfected the Economy Separator for 25 years until we have it to the point where with the care any good machine must have, it will last a lifetime. Many Economy Kings that have been in use for 10 to 15 years skim as close today as the highest priced competitive machines.

8 NEW IMPROVED FEATURES *of the*

FOUR Ball bearings of finest chrome steel of flinty hardness. Each bearing a complete unit of 7 to 9 balls spaced equally distant to prevent friction. All balls and parts are accurate to the ten-thousandth part of an inch.

PINION Shaft operates at both ends on ball bearings and is continuously lubricated by splash oiling system. Runs practically without friction or wear.

NEW Pail Shelf adjustable in height for small or large vessels. When skimmings are small a small pail saves cream usually wasted on sides of a larger vessel. Prevents splashing of cream.

TURNABLE Supply Tank can be easily swung aside even when filled. Faucet raises automatically to clear the feed cup.

BOWL Vise placed so supply tank can be turned aside, bowl removed, taken apart and reassembled without lifting tank filled with milk.

Masters of Friction

in the Famous *Economy King* CREAM SEPARATOR

250-LB. SIZE
$46.50
CASH PRICE

100%

of the Cars That Finished in the Gruelling 500-Mile Automobile Classic at Indianapolis May 30, 1928, Rolled on Ball Bearings

A true sphere is the strongest shape for a given size that is known to man. It is also the most frictionless. "Nothing rolls like a ball," and no bearings roll like ball bearings. Every racing car finishing in the Indianapolis Speedway Classic last year was not only equipped with ball bearings, but the same make of ball bearings as those in the New De Luxe Economy King Ball Bearing Cream Separator. The addition of ball bearings, our latest improvement, is further evidence of our constant alertness and untiring vigilance to have the Economy King always representative of the very best in separator construction. It explains why almost a million Economy Separators have been purchased throughout the best dairying sections of our country. It also explains why we are able to guarantee this machine practically without limit.

GUARANTEED FOR LIFE

Every Economy King Separator is guaranteed against defects for the entire life of the separator. Any part proving defective at any time will be replaced free of charge. We also guarantee safe delivery. Every machine is fully tested before leaving the factory. You are absolutely assured of receiving a perfect, brand new separator.

30 Days' Trial—10 Months to Pay!

Try the Economy King in your dairy 30 days at our expense. Test it beside the highest priced separators. Test it for ease in running, for mechanical perfection and for ease in cleaning. And, above all, test the skim milk from both machines by the Babcock test. If the Economy King isn't at least the equal, if not the superior of the high priced machine, then return it and get every penny of your money. If the Economy King proves its worth, which it will if set up and operated according to instructions, you can pay for it in easy monthly payments, or in cash and receive the benefit of our lowest cash price.

Order Today—$5.00 Brings You Any Size Machine

A $5.00 down payment brings you any size Economy King Separator on trial. Pick out the size machine you need and send us your order today. Order a size large enough for your growing herd. The larger size will more than pay for its additional cost in saving of labor and skimming time. It takes only a minute to write our your order. Do it right now, before you lay this book aside. Just hand your letter and a $5.00 bill to your postman who will get a money order and enclose it for you. Your separator will be shipped promptly after we receive your letter. Do this today.

ECONOMY KING

Ball bearings at both ends of bowl spindle provide a practically frictionless support for the bowl. Entire lower spindle bearing removable in a minute or two. Bowl spins 12 to 15 minutes or about 50,000 revolutions after handle is released.

Equalizing Buffer Spring surrounds the upper bowl spindle bearing. Long flexible equalizing fingers cushion the bowl, aiding it in centering itself. Buffers protect bowl and springs from heavy shocks.

Enlarged Glass Disc Oil Indicator, placed above oil level and kept always clean by splashing oil. Clearly visible while operating, even in poor light. Quickly removed for replenishing lubricant.

Specially Hardened METALS Insuring LONGER LIFE

Latest Development in High Speed Parts

Now Built in All Standard Model

Economy King CREAM SEPARATORS

Manufacturing High Grade Carbon Steel for the Economy King

30 DAYS' TRIAL

Our Standard Model Economy King Cream Separators are built of the finest materials and with the greatest care and accuracy. All shafting is of hard high carbon steel gears are accurately cut and bearings are of special hardened anti-friction alloys designed to give long wear and little friction. An automatic oiling system floods all bearings with oil while running. Deep oil grooves perpetually clean the bearings from dirt and grit—keep them well lubricated and insure years of service.

Many Special Original Features

Patented oiling indicator, seamless no-splash supply tank, patented wide range cream regulation, reinforced cream screw lug and large easily regulated cream screw are other special features. In every way our Standard line of separators are equal to, if not better than, other makes of separators sold at $25.00 to $35.00 higher than the prices we ask.

Frankly, however, they do not compare with the new De Luxe Ball Bearing Economy King Cream Separators described on the preceding pages. They do not have the chrome steel ball bearings, turnable supply tank and handy bowl vise on the front of the frame, the adjustable pail shelf and the other original features of the New Improved Separator which we have just perfected. They do not turn as easily as our anti-friction ball bearing models and will not give as many years of service. For these reasons we advise our customers, if possible, to buy a De Luxe Model Ball Bearing Machine of the size best suited for their needs, as although the first cost is somewhat higher, a De Luxe Ball Bearing Separator is cheaper in the long run.

If, however, your herd is small and you do not care to invest the cost of a De Luxe, our Standard Model will give you better satisfaction than other separators sold at much higher prices. It is a superior close skimmer of warm or cold milk. Skims its full rated capacity. Gives you a smooth, purified cream of any desired density. Easily handled and cleaned.

30 Days' Trial

Try the Standard Economy King. Expect just as much from it as you would from machines costing $25.00 to $35.00 more elsewhere. Check its construction, point by point, with higher priced separators. Have the skim milk tested. If you are not thoroughly satisfied in every respect, we will promptly refund your money.

The New and Improved ALL ELECTRIC BALL BEARING *Economy King* SEPARATOR

RUNS ON BALL BEARINGS

Operates From Farm Lighting Plant or Local Power

Just think of it! Ball bearings! Electric drive! All for the price you would pay elsewhere for a hand operated separator. Turning the easiest running separator continuously for a half hour may be tiresome. Now, you can separate with electric power at a trifling cost and be fresh for other work that you can't do with power.

The New Economy King Power Driven Separators are our regular Ball Bearing Models featured on pages 916 and 917 equipped with electric drive. Carried in stock in only two voltages; 32 volts direct current for operating from farm lighting plant or 110 volts alternating current for operating from your local electric light line.

Heavy duty motor designed to stand heavy starting load. Encased to prevent injury from splashing milk. Mounted on a bracket below drip shelf and so connected to drive pulley that it does not interfere with hand operation. If power is off, belt can be slipped off pulley and separator run by hand.

When you order, be sure to give voltage and say whether you have direct or alternating current. If alternating current, give the number of cycles. If different than those listed below, send us full information and we will quote special prices. Electric motor drives supplied at reasonable prices for the dairy size Economy King you are now using.

Buy at These New Factory-to-You Prices

Specify Electric Current You Have When Ordering

Economy Power Drives and Accessories

Economy Flexible Power Drive

$12.95 AND UP
We Pay the Postage

The best way to carry on dairying successfully is to use power. A power driven separator does not cost very much more than a hand turned one, when you figure the labor and time saved.

To the left we illustrate one of the most remarkable devices that has ever been invented to enable you to drive your separator from a line shaft or a gasoline engine direct. This Economy Flexible Power Drive has exclusive features which are protected by patents controlled by us. It enables you to run your separator from your gasoline engine as smoothly as by electricity, because it absorbs all the shock and jerk of the engine explosion by means of a flexible steel spring shaft and delivers an even flow of power to the separator. A pulley mounted on a rocker arm applies the power gradually in starting and stopping the machine. This outfit includes an extended pinion shaft for separator, to which driving pulley is attached. **We pay the postage.**

23R782½—Flexible Drive for our Economy King Nos. 12, 14, 26, 32 or 34. Each..... **$12.95**

23R786½—Flexible Drive, especially equipped to be attached to our 16, 18, 36 or 38 Economy King Separators. Each..... **$13.25**

Shipped from our store.

Friction Clutch Pulleys

Applied by removing crank and replacing it with the pulley. To be used with a countershaft and cannot be belted to a gasoline engine direct, as engine runs too fast. **We pay the postage.**

23R1135¼—For Economy King Nos. 12, 14, 24, 26, 32 or 34. Size, 14 inches in diameter, 1½-inch face..... **$4.15**

23R1130¼—Pulley for Economy King Nos. 16, 18, 36 or 38. Size, 14 inches in diameter, 2-inch face.. **$4.50**

Give size of separator used when ordering.

Shipped from our store.

Milking Machine Tubing

High grade red rubber Milking Machine Tubing, with extra heavy non-collapsible wall, especially compounded to resist the oil of the butter fat in the milk. Will stand up perfectly under Board of Health requirements, which include sterilization of the tubing after use in water heated to 170 degrees and allowed to cool. Sizes to fit all milking machines. **State length and size wanted.**

Catalog No.	Inside Diameter	Thickness of Wall	Per Foot	
23R862	7/32 inch	5/32 inch	16c	WE PAY THE POSTAGE
23R864	5/16 inch	11/64 inch	21c

Frost's Teat Cups

$4.90
We Pay the Postage

A splendid invention for use with the Hinman, Ford, Duplex Visible, Burton-Page, B. L. K. and Clean Easy, or any pump type milking machine with only one tube to the teat cup cluster. Massages the teats from the top downward, just as is done in hand milking or identical with the action of the calf's mouth in feeding. This action keeps the teats in splendid condition by its gentle, squeezing action as the suction is applied. It gives all the advantages of the most expensive, double tube pipe line milker, with but a single tube to the milking cluster. Milks faster and cleaner than any solid cup. Sanitary and easy to take apart, clean and assemble. Does not require cord or surcingle to hold it on the cow. Sent on 30 days' trial and your money returned, if not satisfied. **We pay the postage.**
23R963—Per set of 4..... **$4.90**

REMEMBER, in comparing prices, that we pay the postage

REPAIRS

We realize the importance of special service to any customer who needs repairs for his separator. Repairs cost you nothing if they come under the terms of our lifetime guarantee. If, however, it is necessary to replace a part that has given out through natural wear or a part broken through accident, we supply the needed piece promptly and at a very low price. We carry a stock of repairs for Economy King separators at Chicago, Ill., and another stock at the factory. In addition, we have complete repair shops at both Chicago, Ill., and Buffalo, N. Y., where we are equipped to do bowl repairing and balancing and Economy King repairing of all kinds.

In the Instruction Booklet we supply with each separator, you will find a repair list showing a picture of each part, together with a price list, which makes it very easy to order just the part you need.

Beautiful Memorials *at Prices Much Lower Than Elsewhere*

Deeply seated in the heart of nearly everyone is the desire to mark the spot where rests a loved one who has passed on. How calloused or unthoughtful is he who permits the remains of a loving mother or father, a sister or brother, or a little child, to rest in an unmarked grave with nothing to distinguish that hallowed spot from the commonplace surface of the earth indifferently trampled by man and beast.

Time alone can heal the pangs and grief of parting, but in the midst of sorrow, great comfort will be gained by consecrating the spot, where sleeps the departed, with a beautiful and lasting memorial. Many beautiful and artistic memorials are shown in our beautifully illustrated monument catalog, a wide variety of sizes and designs from the simplest markers to the most imposing family monuments. We disregard the large profits usually considered necessary in this line and sell at the same narrow margin of profit as other goods on which we have no handling expense. Consequently, our prices are very low.

We use only the finest and most enduring materials. Our monuments of Vermont Marble, Barre Vermont Granite and American Red Granite are admired wherever placed because of their beauty of material, pleasing design and skillful workmanship. Write today for our Free Monument Catalog C574R. It will aid you in selecting a suitable memorial at the price you are planning to pay.

SEND TODAY FOR THIS FREE CATALOG C574R

Does the Work of 6 Men!

Economy Portable Log Sawing Outfit

Saws Hard or Soft Wood

The Economy Drag Saw Outfit is complete with a 1¾ horse-power Model X Economy Engine of the very latest type, mounted on a 9-foot hardwood frame, with a 5-foot saw blade and band type wheel friction clutch. This clutch enables the operator to start the engine without starting the saw, or to stop the saw without stopping the engine. It also prevents damage to saw in case of binding. The two all-steel wheels, 18 inches in diameter, with 3-inch tires, are mounted on swivel axles that can be easily changed, so the outfit may be drawn from one place to another or moved from cut to cut along the log. Saw blade is 5 feet long, made of high grade saw steel and is filed and set, ready for use. Length of stroke, 20 inches; saw operates at 170 strokes per minute.

Engine will operate saw successfully on any log from 8 inches up to 3 feet in diameter in either hard or soft wood. Saw is held by guide, which holds the saw rigid while outfit is being moved. A truss rod extends full length of the frame, strengthening the outfit and preventing vibration. The anchor hook holds outfit to the log, is easily handled and prevents slipping. Standard No. 51 binder or shredder chain is used for driving saw, as chain drive is very flexible and easy to handle.

Exhaustive tests show that one man can cut through a 2-foot log in two minutes, while it requires two men ten minutes to cut the same log with hand crosscut saw. Outfit will pay for itself in a very short time, as it will saw as much wood in one week as three men would handle in four weeks with hand crosscut saw.

Engine can be removed from the saw frame and used for pumping water or any other work. Pulley furnished at extra price for this purpose. Weight, complete, 410 pounds. Crated for shipment, 505 pounds. Complete with full instructions. Should not be used with engines weighing over 300 pounds. **Shipped complete from factory at EVANSVILLE, IND.**

23R2242⅓—Economy Portable Drag Saw Outfit, including engine and 5-foot saw. Shipping weight, 505 pounds..... **$88.50**

23R2243⅓—Drag Saw Outfit only, with saw and friction clutch, but without engine. Shipping weight, 265 pounds. **Be sure to give horse-power of engine and size of engine shaft;** also size of key way in shaft. (Engine shaft must not be more than 1½ inches in diameter).....**$48.75**

23R229⅓—5-Foot Extra Saw Blade for Economy Drag Saw Only. We pay the postage.....**$4.70**

23R404⅓—4x4-Inch Pulley to run other machines extra. Weight, 10 pounds. **Not prepaid**.....**$1.25**

Electricity for Only a Few Cents a Day

$124.00

Outfit consists of latest type 4-cycle air cooled, magneto equipped engine flexibly coupled to a special wound 110-volt direct current generator mounted on cast iron base. Simple and complete. Ready to run. Nothing to get out of order. No complicated mechanism to adjust. Any woman or child can start it and operate it. Will run up to 10 standard 25-watt electric lights or washing machines, curling irons and many small appliances, except electric irons. Every set guaranteed. Complete instructions included. **Shipped from SOUTHERN MINNESOTA factory.**

23R240⅓—Electric Light Plant. Shipping weight, 175 pounds....**$124.00**

Complete wiring sets for electric lighting have been specially designed for use with the SEEBRITE. They are priced low. It is easy to do your own wiring. Complete instructions with each set. Send for Wiring Circular No. C9300R.

Speed Governing Line Shaft

Complete with speed governor and clutch control. Can be used with any engine up to 3½ horse-power, to run the cream separator, churn, washing machine, pump jack or any small machine, as the speed governor takes care of variations in speed of engine and size of engine pulley. It can be set permanently for any desired speed, or can be increased or decreased as desired. Full instructions with each outfit. **Shipped from factory in NORTHERN IOWA.**

23R321⅓—8-Foot Shaft, Speed Governor, one 4-inch, one 6-inch, two 8-inch pulleys and two hangers, mounted on 8-foot wood base. Weight, 115 pounds **$20.75**

23R322⅓—12-Foot Shaft, Speed Governor, one 4-inch, two 6-inch, three 8-inch pulleys and three hangers, mounted on 12-foot wood base. Weight, 150 pounds **$25.75**

NOTABLY LOW PRICES on Portable Engines and Pole Saw Rigs

$189.00 AND UP

Many of Our Customers Pay for Their Outfits by Sawing Wood for Their Neighbors

These Saw Rigs are complete, ready to saw wood, consisting of a Model X Economy engine of the very latest throttling governor type, with Wico High tension magneto and regular cast iron pulley, an all steel bent channel truck with pole and an all steel tilting saw frame with belt tightener securely fastened and braced to the back of the truck, saw blade and belt. Saw frame is easily removed when it is desired to use the engine for other work. The truck is of special drop frame construction. The engine sits close to the ground. While this construction is more expensive, it reduces the possibility of overturning when being moved over rough ground and reduces vibration. Best type and strongest engine truck built. Axles are solid steel, 1⅝ inches in diameter, reinforced with 3-inch I beam. Wheels are all steel, 24 inches front, 32 inches rear with 4x3½-inch grooved tire. 5-inch steel channel frame, 8½ feet long.

Sawing Outfit Complete

23R4583⅓—Portable Sawing Outfit, with 6 horse-power engine, 10x6-inch pulley, saw table, 26-inch saw and belt. Shipping weight, 1,695 pounds **$189.00**

Horse Power

Being Delivered by Famous ECONOMY Engines in Use Today

THE WORLD FAMOUS
1¾ H-P
MODEL X Economy
THE MOST POPULAR FARM ENGINE

Often Saves the Wages of an Extra Man

Our New Model X Engine prices are so low that in most cases it is cheaper to use a New Economy than to try and get along without it.

You can buy an Economy Engine for less than it costs to board a hired man for a few months. It's a tireless worker, always on the job and won't quit work till you shut it off. It doesn't eat when it isn't working and even the largest size will run all day at a small cost for fuel. Put a New Economy Engine to work on those tedious jobs you've been doing by hand, using precious time that you could put to better advantage elsewhere. Let it pump water, run the separator, the churn and the washing machine; shell corn or saw wood.

Buy Your Engine on This Easy Payment Plan

You do not need to be without an engine just because you do not happen to have all of the money now. Order on our Easy Payment Plan, use the engine and let it help pay its own way.

60 Days' Trial—Guaranteed for Life

You positively cannot afford to decide on any engine until you have first tried the New Model X Economy. You do not obligate yourself in any way when you ask us to send you this engine for trial. But you do play fair with yourself.

Right now, before you turn this page, write out your order, including our price or the small down payment, for the size Economy Engine you need and we will send the engine to you to try out for 60 days in competition with any engine of the same size regardless of price. If you are not convinced that the New Economy Engine will make you a substantial saving, if it does not develop more than its rated power, if it does not prove itself equal or superior to other engines, and of equal horse-power, ask us for return instructions, send it back, and we will return your money and all transportation charges you have paid.

These Specifications Show Why 200,000 Users Chose the "Economy"

Forged Steel Crankshafts, Accurately Ground, Piston With Three Perfectly Fitting Rings

Strong Cast Iron Filler Pipe With Large Opening and Hinged Cover; Brass Screen Inside

Splasher Partition Aids Circulation and Prevents Water Splashing Out

HERE'S the biggest and best engine bargain offered anywhere. This dependable high grade engine has all the new features shown and described on the opposite page. This powerful 1¾ Horse-Power Economy Engine turns hard farm jobs into easy ones, and saves time and labor every day in the year. Develops more than its full rated horse-power and does more work than a dozen men working continuously. Belt it to the washing machine, let it pump water for the stock, run the separator or a small saw. Make it do those irksome, time consuming chores and practically all the hard drudgery around the farm—those routine jobs that take up a lot of time and keep one from more important work. It can be used to operate almost any machine usually run by hand, taking away much of the hard manual labor. This enables you to give more time to planning your work, cultivating and harvesting your crops, caring for your stock, and other important work that cannot be done by power, thus developing the largest profit from your farm.

Decide now to put one of these modern farm aids to work for you and help the entire family. Built in the same, honest way as our larger Model X Economy Engines and of the same highest quality materials. Comes mounted on wood skids. Guaranteed to satisfy you and to do all we claim for it. Sixty days' trial on your farm will prove every claim we make. You take no risk. Write out your order now.

Shipped from EVANSVILLE, IND. Shipped by freight or express only, not prepaid. Send your order to our Chicago, Ill., store. For prices on larger sizes see price table at left below.

CLUTCH PULLEYS

For Small Engines

Adapted for attaching to crankshaft of 1¾, 2½ or 3½ Horse-Power Economy Engines, replacing regular solid pulley. Can also be used on other engines which have crankshafts of 1¼ to 1⅝ inches in diameter.

These handy pulleys disconnect power from machinery at any time. Make cranking the engine easy, start the load without jerk or jar and make it possible to stop machinery without stopping engine; also do away with the need of tight and loose pulleys. If used on an Economy On other engines, give diameter of crank-Engine, give horse-power when ordering. shaft extension. **Shipped from our store. Sold separately for cash only. We pay the postage.**

Salt water.....$117.75

WE SAVE YOU 1/3 *on* PUMP JACKS *and* OUTFITS

Center Drive Clutch Jack

$5.70 Our Famous Clutch Jacks operate from any position and may be placed on the floor, wall, ceiling, a post or simply clamped to any single or two-pipe pump standard. Gear ratio, five to one, with 13-in. pulley giving about 35 strokes a minute with ordinary small engines. Strokes, 5, 7½ or 10 inches. Pumps well with 2-in. cylinder up to 200 or 250 feet deep. Hard oil cups for all bearing parts. Positive clutch replaces tight and loose pulleys and clutch shift lever can be operated by the foot or, if jack is on wall or ceiling, just attach a cord to it. Hardwood pitmans with crosshead. Shipping weight, 85 pounds.

23R338⅓—"FAMOUS" Center Drive Clutch Jack..... **$5.70**

23R372⅓—Special Clamp necessary to attach to Horizontal Pump. Weight, 1 pound. **30c**

Shipped from factory in SOUTHERN MICHIGAN

Double Back Geared Jack

For use with electric motors or engines on very deep wells, where slow speed is required. Will handle a 2-inch cylinder or less on wells up to 350 feet deep, back geared, sixteen to one, with three strokes, 5, 7½ and 10 inch. 13-inch Center Drive Pulley with clutch for starting and stopping. Pulley should run about 560 R. P. M., with electric motor to run pump 35 strokes per minute. With engine for deep wells pulley should run about 480 R. P. M. running pump 30 strokes per minute. Will fit any pump standard up to 4 inches in diameter. Gears completely covered with steel gear guard. **Shipped from factory in SOUTHERN MICHIGAN.**

23R339⅓ — Double Back Geared Center Drive Clutch Jack, with steel gear guard. Shipping wt., 100 lbs..**$8.25**

23R371⅓—Clamp for attaching jack to handle when used with horizontal pump. Wt., 1 lb..... **65c**

Self Oiling Worm Drive Jack With Enclosed Gears

$7.80

Pump Not Included

The worm drive gearing of this efficient jack is completely enclosed, protecting it from ice, snow and dust and also preventing catching of fingers or clothing in the gears. Three-quarters of a pint of good transmission oil poured into the gear case lubricates all gears in a bath of oil. Change the oil every six months! No other attention required. Jack is back geared sixteen to one, with 4-inch tight and loose pulleys for engine drive, or a 10-inch single pulley for electric motor drive. Pulleys have 2¼-inch face. We recommend using our 1¾ Horse-Power Economy or similar small engine, or ½ Horse-Power Electric Motor, 5, 7½ or 10-inch stroke. Pumps wells with 2-inch cylinder up to 200 to 250 feet deep. Pumping water by hand is a time wasting, back breaking job. The small Economy Engine shown on page 923 belted to a pump jack will supply plenty of water for thirsty stock and for household use at a very low cost. Shipping weight, 85 pounds. **Shipped from factory in SOUTHERN MICHIGAN.**

23R334⅓—Worm Drive Jack with 4-inch tight and loose pulleys for gasoline engine drive.....**$7.80**

23R335⅓—Worm Drive Jack with one 10-inch pulley for electric motor drive.....**$7.85**

Double Gear Pump Jack

23R330⅓

Jack 23R330⅓, at right, fits any hand or windmill force pump so that pump can be operated by hand or with engine. Handles wells up to 200 feet deep with a 2-inch cylinder. The Jack 23R331⅓, as shown below, is used to operate a horizontal pump, a clamp being furnished to fasten around the handle of the pump. It can also be used to operate a three-way pump or as an overhead jack. **Shipped from factory in SOUTHERN MICHIGAN.**

23R330⅓—Double Gear Jack, for wells up to 200 feet deep. Shpg. wt., 90 lbs..... **$6.50**

23R331⅓—Double Gear Horizontal Jack, with hand clamp and stand support. Shipping weight, 95 pounds..... **$7.60**

$6.50

23R370⅓ — 11 feet of 2-inch Rubber Belt, with fastener to use with pump jack. Weight, 2 pounds..... **$1.50**

Both jacks are back geared five to one, with three strokes, 5, 7½ and 10 inches, equipped with 13-inch tight and loose pulleys, 2-inch face. Should run about 175 revolutions per minute, operating the pump about 35 strokes a minute.

Pump Not Included

23R331⅓

Hand Engine Trucks

If you have several jobs for an engine you should have a hand truck to move the engine from one place to another. The 23R35⅓ trucks, as illustrated, are all steel, painted red and have holes drilled and bolts furnished ready to fasten engine to truck. Can be used for any engine up to 6 horse-power by boring new holes to fit.

23R2⅓

$3.40

The 23R2⅓ truck has front and rear bolsters to bolt to engine base. Frame not included, as engine base acts as frame. Bolsters, 15 inches wide; wheels, 8x1½ inches.

23R35⅓

The 23R35⅓ truck has an angle steel frame, 36 inches long; 1⅜-inch solid steel axle, 30 inches wide; steel wheels, 14 inches in diameter with 2½-inch tires; for use with our 3½ and 6 horse-power engines.

23R2⅓—Engine Truck, without frame, for engines weighing up to 400 pounds.

We pay the postage.....**$3.40**

23R35⅓—All Steel Hand Truck for any 2½ to 6 horse-power engines. Shipping weight, 118 pounds.....**$12.50**

Shipped from NORTHERN ILLINOIS factory.

Direct Connected Gear Driven Pumping Outfits

These outfits consist of a 1¾ Horse-Power Economy Gasoline Engine with Wico Magneto, 4x4-Inch Pulley and Pump Jack, fastened by four cap screws to the base of the engine so that the jack with babbitt bearings is driven by machine cut gears, instead of a belt, with four strokes, 5, 6, 8 and 10 inches, running pump about 40 strokes per minute.

The vertical jack shown at right is built to clamp around the body of any ordinary hand or windmill force pump, and is furnished with long iron pipe pitman rods and crosshead. Will handle up to 300-foot well. Width, over all, 22 inches; length, 45 inches.

The horizontal jack shown below at left has a stand that holds the outer end of the jack and short rods with a clamp to fasten to the handle of any force pump. Width, over all, 22 inches; length, 59 inches.

Engine can be detached from the jack and used for other work. Shipping weight 385 pounds.

Vertical Type

$59.65

Pump Not Included

Highest Grade Guaranteed

We Guarantee

Oriental Slate Surfaced Asphalt Roofing for 17 years. If it does not give satisfactory service for a full 17 years, we will allow full credit for each year less than guaranteed. This applies to material only and not to application or nailing.

For example: If on July 1, 1928, you bought 20 rolls of 17-Year Guaranteed Roofing at $2.05 per roll—total cost $41.00—and on July 1, 1942, this roofing proves defective (giving 14 years' service), we will then allow the equal of 3 years' service, or a credit of $7.23 on a new order for roofing.

ORIENTAL
SLATE SURFACED ROOFING
The Super Asphalt Roll Roofing

If you want to save money re-roof now! Don't wait longer! The World's Largest Store is now quoting low prices on Oriental Slate Surfaced Asphalt Roofing. You get high quality, guaranteed service at the greatest possible saving. Many brands of roofing that do not give nearly as satisfactory service as Oriental are still selling for $3.00 to $3.50 per roll. Estimate the amount of roofing you will need at once and send us your order today.

Guaranteed for 17 Years

Our Guarantee for Roofing is the outgrowth of over 25 years' experience in the manufacture and sale of ready roofing by the World's Largest Store. It is with the knowledge of high and long lasting quality that we can guarantee our roofing for a longer period, because our roofing lasts longer than we claim.

Sears, Roebuck and Co. were first to guarantee ready roofing for a term of years. Our first guarantee was for 12 years. The weight of our Oriental Roofing when first guaranteed was only 80 pounds per roll. Yet customers have written that this roofing lasts much longer. We have gradually improved the quality and increased the weight of our roofing until it now weighs 85 to 90 pounds per roll, and with each change in quality we extended the number of years in our guarantee. Now Oriental Slate Surfaced Asphalt Roofing, one of the best prepared roofings made, is guaranteed for 17 years! Right now, there are more than one million roofs covered with Sears, Roebuck and Co.'s roofing.

It Protects Your Home From Fire

By using Oriental Slate Surfaced Asphalt Roofing instead of wood shingles, you can save about 12 per cent on your fire insurance in your locality. This roofing is listed as standard by Underwriters' Laboratories.

Heavy - Durable - Weatherproof

Extra heavy and durable. Snowproof and sunproof. Rain only washes it clean. Good in every climate. Better than wood shingles. Can be laid over old shingles, saving the expense and dirt in tearing them off. Suitable for buildings with a roof having a pitch of 1½ inches or more to each running foot. **Has a beautiful red or green slate color that will not fade. An excellent value!**

Weight, per Roll, 85 to 90 Pounds

Including nails and cement. Contains 108 square feet and will cover 100 square feet of roof surface, all in one piece.

Oriental Slate Surface Roofing is shipped by freight or express only, NOT PREPAID.

For New Roofs

Oriental Slate Surfaced Asphalt Roofing, complete with 1-inch large headed galvanized roofing nails and cement for laps. Roll covers 100 square feet. **Not Prepaid.**

48R2163—Red.
48R2162—Green.
Guaranteed 17 years.

$2.05 Per Roll

For Over Old Shingles

Complete with 1¾-inch large headed galvanized roofing nails to lay over old shingles and cement for laps. Roll covers 100 sq. ft. Not Prepaid.

48R1479—Red.
48R1476—Green.
Guaranteed 17 years.

$2.15 Per Roll

CAUTION! When Choosing Slate Surfaced Roofing, Buy Only Roofing With 2-Inch Water-tight Lap Joint. If slate or pebbles lie between the two layers of roofing, the joints will loosen up and leak.

Shipped freight or express **NOT PREPAID. For shipping point nearest you see page 927. Inside back cover shows other beautiful colors of Oriental Slate Surfaced Roofing.**

EASY *to* FIGURE YOUR NEEDS

There are only two things to do to figure how much roofing or shingles to buy. (1) find the number of square feet in your roof; (2) divide by number of square feet in roll or bundle to find the number of rolls or bundles you need.

For Gable Roofs like figure A, multiply the length (22) by the length of rafters (15), to get (330), the number of square feet on one side of roof. Multiply by 2 and you have (660) the total number of square feet on both sides of the roof. Next divide by square feet in a roll (100) or bundle (50), to get quantity (7 rolls) or (14 bundles) you need.

For Hip Roofs as in figure B, multiply the length of the roof (20) by the shortest distance from the peak of the roof to the edge (12). Now divide by 2 to get the number of square feet on that side (120). For square roof, multiply by number of sides (4) to get total area (480), divide by 100 to get 5 rolls needed or divide by 50 to get 10 bundles. If roof is not square find area of each side separately.

For Dormers and gables as in figure C, multiply the length (6), by the longest rafter (8) and divide by 2 for area of one side (24); multiply by 2 for total (48) sq. ft. Order 1 roll or 1 bundle of shingles.

Order roofing packed with 1¾-inch nails if to be laid over old wood shingles. Use 1-inch nails for roofing applied directly to sheathing. For asphalt shingles order nails separately. We will be glad to estimate for you, if you will send us the dimensions of your roof.

Roofing Quick Shipments

Listed as Standard by Underwriters' Laboratories

After blowing a stream of hot blast flame against this roofing, and testing it for construction, durability, pliability, thickness, weight, fire resistant properties, strength, uniformity, insulation, etc., **the Underwriters' Laboratories considered it sufficiently fire resisting to recommend it for approval.**

Then, after exposing this roofing to an extreme heat by keeping it within a few inches of a large piece of cast iron, heated to a white heat and, at the same time, blowing a hot blast against the roofing for a considerable length of time, **the Underwriters' Laboratories again considered it sufficiently fire resisting to recommend it for approval, for low insurance rate and safety**

BEST-OF-ALL
SMOOTH FINISH ROOFING

The Most Roofing for the Money!

Leading roofing experts say: "This is the best smooth finish roofing made." Its long life and low price make it the most economical smooth finish asphalt roofing you can buy. Outwears wood shingles, or tar roofing. Made in three weights, medium, heavy and extra heavy. Each weight is tested for thickness, weight, flexibility, strength and color. Lay it right, over roof boards or your old wood shingles. Just the thing for homes, sheds, garages, factories, farm buildings and warehouses. Heavy and extra heavy grades are listed as standard by the Underwriters' Laboratories—saving you at least 12 per cent on fire insurance.

Highest Quality Materials Used

Made from highest grade materials we can buy. Every roll made to our own tested and tried formula. The blending of the asphalt is controlled by our special process and by actual test lasts longer than the years specified in our liberal guarantee. Only thick, heavy roofing felt, best grade asphalt and other quality materials are used. It is double coated and surfaced, giving a black, smooth finish. Absolutely weatherproof! Will not melt or evaporate; elastic, pliable and tough. Free from odor. Will not discolor rain water. Each roll contains 108 sq. ft., and will cover 100 sq. ft. of roof surface.

Guaranteed 14 Years

Manufactured from select material. We believe them to be the best building paper values you can buy. **All building papers and felts shipped from our store.** Ask for samples.

TARRED FELTS

Tarred felt is one of the best kinds of building paper for lining floors and for use between sheathing and siding. Used under stucco and brick veneers; also for gravel roofs. Made of carefully selected felt, thoroughly saturated with redistilled American coal tar. **Not prepaid.**

48R3050—Tarred Felt. 250 square ft. per roll. Wt., per roll, 60 lbs. **$1.95**

We recommend this for all first class jobs, because it is the thickest. Used extensively for roofing temporary buildings. It makes an excellent insulating felt and should be used under all floors.

48R3054—Tarred Felt. 400 sq. ft. per roll. Wt., per roll, 60 pounds. **$1.95**

Tarred Felt, medium thickness. This thickness of tarred felt is used for gravel roofing where several layers are specified. It is not as thick as 48R3050, but is very satisfactory where a medium grade of work is required.

48R3055—Tarred Felt. 500 square feet per roll. Wt., per roll, 60 lbs. **$1.95**

DEADENING FELT

Deadening Felt between floors and walls deadens annoying sounds; also used under linoleums and rugs. Made of good grade soft pliable felt. Adds much to the warmth and value of your building. All rolls 36 inches wide and cover 450 square feet. Take advantage of this low price and order now. **Not prepaid.**

48R3004—Heavy Deadening Felt. Shpg. wt., per roll, 50 pounds..... **$2.10**

48R3006—Extra Heavy Deadening Felt. Shpg. wt., per roll, 75 pounds..... **3.25**

RED ROSIN PAPER

Used everywhere under siding and between floors, as lining for freight cars, crates, boxes and barrels. Saves contents from dust and dirt. Makes dwellings warmer and drier. Rosin sized. We recommend Leader Brand as the thickest, toughest and most durable, but Competition Brand is a fair grade. Each roll 500 square feet.

48R3000—Leader Brand, 36 in. wide. Wt., 40 lbs. Per roll, not prepaid.....**90c**

48R3007—Competition Brand, 36 in. wide. Wt., 20 lbs. Per roll, not prepaid.....**45c**

Blue Plaster Cardboard

Less than one-half of a cent a square foot for our Fulton Brand Blue Plaster Cardboard. Used as a low priced material for ceiling and above wainscoting; also used in buildings where a low cost interior finish is desired. Good for lining garages and poultry houses. Keeps out wind and cold.

A heavy paper, about the thickness of ordinary cardboard with smooth surface. Made only in "A" grade from carefully selected stock. Strong and durable. A pleasing shade of blue. Easily put on with ordinary large headed tacks or 6-oz. bill posters' tacks. For sheathing purposes it would be hard to obtain a warmer, stronger or tougher material. Rolls are 36 inches wide.

48R3012—Blue Plaster Cardboard, 250 square feet per roll..... **75c**
Wt., per roll, 30 lbs.

48R3013 — Blue plaster Cardboard, 500 square feet per roll..... **$1.48**
Weight, per roll, 60 lbs.
Not Prepaid.

As Low as 75c Per Roll of 250 Sq. Ft.

WIRE HANGER 48 R 3170

All articles on this page shipped freight or express, not prepaid.

OUR SLIP JOINTS NEED NO SOLDERING

All the joints for the fittings shown on this page fit together with a slip joint connection which requires no solder and does not leak, no matter which way the water runs. Neither experience, nor extra effort are needed to give you an excellent tinsmiths' job at a big saving in time and money.

Our Galvanized Steel is furnished in EXTRA HEAVYWEIGHT (U. S. Standard 26-gauge) and HEAVYWEIGHT (U. S. Standard 28-gauge). We recommend the EXTRA HEAVYWEIGHT which is 20 per cent thicker and gives at least twice the wear with very little extra material cost.

Patent Slip Joint Eaves Troughs

Furnished with the slip joint connection that will fit at either end of each pipe no matter which way the water runs.

No bother about right hand or left hand eaves trough. Just order the number of pieces you need and put them on.

Heavy Weight, U. S. Standard, 28-gauge, Galvanized Steel.

48R1279—State width wanted.

Width across top or size, in.	3½	4	5	6

Per 10-foot length	43c	55c	65c	78c

Inside Corner Miter 48R3309 — Outside Corner Miter 48R3310

Extra Heavy Gauge Eaves Trough Corners or Miters

Furnished only in EXTRA HEAVY 26-gauge galvanized steel, because more strength is required at corners of eaves trough, where ice and snow are likely to collect. Use with 28 or 26-gauge eaves trough. Complete with slip joint connection that fits at either end of the corner, so that it can be connected with either right or left hand eaves trough. **State width and whether you want outside or inside.**

	48R3309—Inside.	48R3310—Outside.

2-V Crimped **32c** PER 5-FOOT SHEET

3-V Crimped **50c** PER 5-FOOT SHEET

RESIST FIRE, LIGHTNING AND HAIL

Protect your buildings against the elements. Our galvanized steel roofing and siding is sunproof and windproof—Resists fire, lightning and hail. It will not split, warp, crack, curl or be blown off. We guarantee every sheet.

We furnish two thicknesses as follows: Heavyweight 28-gauge and extra heavyweight 26-gaugs. EXTRA HEAVYWEIGHT 26-gauge is fully one-fifth heavier than heavyweight 28-gauge. We recommend the extra heavyweight 26-gauge as it costs but a trifle more and wears twice as long. Roofing described as "painted" is given one coat on both sides and requires additional paint. Use galvanized steel for seashore territory.

Corrugated Steel Roofing

Sheets actually measure 26 inches wide with a covering width of 24 inches on account of the side lap. Allow from 4 to 6 inches for end laps, depending upon the pitch of roof. For siding, a 2-inch end lap is sufficient. Allow for side laps to cover 100 square feet of surface; this does not include the end laps.

Prices of 2½-Inch Corrugated Steel Roofing; NOT PREPAID.

Here's Better Insulation!

Tucks in between joists—is placed over sheathing or under floors.

No More Large Coal Bills
No More Sweltering Summers
When QUILTITE Protects You

A cold, draughty home is not only uncomfortable, but unhealthful. It is also very expensive to heat. Check the wasteful escape of heat through your roof, especially. That is where your greatest loss occurs. You can save 35 per cent on your fuel bills here alone. You can avoid the discomfort and wasteful expense by insulating with QUILTITE. Savings in fuel bills alone will soon reimburse you for the outlay.

Weather and Sound Proof

QUILTITE is made of a layer of chemically treated hair, interwoven and fitted together to form a uniform hairfelt. This hairfelt is then sewed between two layers of heavy waterproof paper made especially for the purpose. The paper cover protects the hairfelt and acts as a deflecting surface for sound and heat. The finished product provides the most efficient sound deadener and heat and cold insulator ever offered the public. QUILTITE is vermin-proof, everlasting, fire resistant and easy to install. It is made ½ inch thick. Generally speaking this thickness is recommended for heat and cold insulation of roofs or ceilings and for sound deadening of floors and partitions.

Acts Like a Bed Quilt

QUILTITE—An all purpose blanket type building insulation. Consists of a ½-inch layer of felted hair and fiber sewed between 80-pound waterproof asphalt building felt. The covering of building felt protects the insulating fibers and acts as an ideal deflecting surface for sound. "Quiltite" is equally efficient as a heat and cold insulation and sound deadener when applied to ceilings, outside walls and roofs where insulation is most needed. Keeps cold out in winter and insulates against heat in summer. Saving in fuel pays for insulation in a short time. Easily applied in frame construction, brick veneer, stucco on metal lath or tile and brick walls. May be placed between studding or applied to outside of studding beneath sheathing. Instructions for applying will be sent with each order. Furnished in rolls 36 inches wide and 50 feet long, weighing 75 lbs. **Shipped from MILWAUKEE, WIS., or NEWARK, N. J.**

Comes in Rolls—Easy to Apply

48R3201—Per roll containing 150 square feet. Shipping weight, 75 pounds. **Not prepaid**..... **$7.50**

We guarantee you will be entirely satisfied with Quiltite. It will add to your comfort the year around. Send for sample.

Goodwall SHEET PLASTER

Goodwall Sheet Plaster is a fire resisting gypsum rock composition plaster of even thickness between two sheets of heavy cardboard. These cardboards are so saturated with the fire resisting gypsum composition that they make Goodwall Sheet Plaster far more fire resisting than regular lath and plaster.

Here Are Its Many Advantages

It enables you to do a better job for less money and can be applied by yourself.

It is equal in service and strength to a lath and plaster wall.

It does away with lath stains and hair cracks.

It deadens sound as effectively as lath and plaster.

It is vermin-proof and can be painted, papered or kalsomined.

It can be covered with a plaster coat of any thickness, but ⅜ of an inch hard plaster for first coat and ⅛ of an inch top coat finish for second coat will be sufficient to make a smooth and seamless wall.

It is dry. No need to wait for weeks to drive the dampness out.

It is clean. No muss and dirt when you apply it.

It cuts out cost of lath; none needed with Goodwall Sheet Plaster.

It will not break when being nailed.

It can be cut with a saw, or broken with a clean edge by scoring the cardboard on both sides with a knife, breaking where scored.

Quick delivery at low freight charges from many shipping points; GRAND RAPIDS, MICH., OAKFIELD, N. Y., FORT DODGE, IOWA, GYPSUM, OHIO, SWEETWATER, TEXAS, or PLASTERCO, VA.

Order by Catalog No. 48R3027—Not Prepaid

Size, In.	Thickness In.	Sq. Ft., per Sheet	Shpg. Wt., Crated per Sheet	Per Sheet
32x 48	⅜	10⅔	20 lbs.	$0.22
48x 72	⅜	24	52 lbs.	.82
48x 84	⅜	28	60 lbs.	.96
48x 96	⅜	32	69 lbs.	1.09
48x108	⅜	36	77 lbs.	1.23
48x120	⅜	40	86 lbs.	1.37

Plaster stays on tighter than on lath. For best results we recommend a ⅜-inch coat of hard plaster for first coat and a ⅛-inch top coat of finishing plaster described at left below. Wall paper may be applied directly to Goodwall without plastering. Goodwall is easy to apply—cuts and nails like lumber.

AS LOW AS 22c PER SHEET AND UP

Specially Prepared Hard Plaster
(For First Coat)

Shipped in good strong bags with sheet plaster. Quantity required to cover 100 sq. ft., ⅜-inch coat, 150 lbs. **Shipped from GRAND RAPIDS, MICH., OAKFIELD, N. Y., FORT DODGE, IOWA, GYPSUM, OHIO, PLASTERCO, VA., or SWEETWATER, TEXAS. Not prepaid.**

48R2999—Per **100**-pound bag.....**65c**

Specially Prepared Top Coat Plaster

For second coat. Shipped in good strong bags with sheet plaster. If you want a real white finish order our white top coat. Quantity required to cover 100 square feet, ⅛-inch coat, 50 pounds. **Shipped from GRAND RAPIDS, MICH., OAKFIELD, N. Y., FORT DODGE, IOWA, PLASTERCO, VA., or GYPSUM, OHIO. Not prepaid.**

48R2997—White Top Coat.
Per **100**-pound bag.....**$1.45**

48R2995—Joint Finisher. Per 5-pound package.....**80c**
Five pounds will fill the joints on 500 square feet of sheet plaster.

NAILS—One pound will be required for 12 sheets of Goodwall Sheet Plaster, 32x48 inches. Ordinary 3-penny nails can be used, placed no more than 4 inches apart. **For Nails see Hardware pages or refer to Index.**

WINDOWS, FRAMES, SASH,

Description

GLAZED WINDOWS AND SASH—Made of CLEAR SOFT WHITE PINE, seasoned and kiln dried, carefully machined and sandpapered. Glazed with good quality clear glass held in place with zinc diamond points and good putty. WINDOW SCREENS ARE DESCRIBED and priced separately on page 452.

WINDOW FRAMES—We use a very high grade of lumber in our frames. The workmanship is perfect. **OUTSIDE CASINGS ARE 1⅛ INCHES THICK, made of Clear Cypress, a wood best suited to withstand the elements and which takes paint readily.** The pulley stiles, parting stops and blind stops are made of clear yellow Pine. Furnished with steel pulleys. Frames are rabbeted or grooved and finished ready to nail together, without sawing. Stud opening should be 6 inches wider and 5 inches higher than opening size of window. Frames are packed to secure lowest transportation rates. Easily put together.

Easy to Order Windows and Frames from the tables. The column of sizes under the heading of "Size of Glass" shows the size of glass in inches in each sash of the window, and all the prices on the same line in the other columns refer to windows or frames to fit this particular size. For example: Take a two-light window, glass size 24x28 inches; the size of the opening in the frame for this same window is 2 feet 4 inches wide by 5 feet 2 inches high. The price of a window this size glazed single strength is $1.91. Price of a pulley frame for this size window is $2.95. Weight of window is 22 pounds.

All items of Millwork including doors, windows, frames, moldings, porch work, window screens, combination doors, etc., listed on these pages are **shipped direct to you from our own factory in OHIO. You pay freight only from Ohio.**

MODERNIZE YOUR HOME at LOW COST

With These Attractive Built-In Features

THE maximum of beauty, comfort and convenience built into both new and old homes is the modern tendency. Fine cabinet work and built-in conveniences do much to make a house—a home. We show built-in features for your kitchen, dining room and bathroom.

All our cabinets are manufactured in our own factory by expert cabinet makers. We have been especially careful in selecting the design and materials. Distinctive features, such as **lipped drawers, lipped doors, rounded corners and edges** make canning easy.

Our unit system of kitchen cabinets provides many combinations. A few are pictured here. A number of units can be ordered and we will supply a single counter shelf to connect them. **Be sure to state if single counter shelf is wanted.**

All cabinets made of clear Yellow Pine (unless otherwise stated). Carefully machined and sandpapered. **Complete unit includes fronts set-up, lipped doors and counter shelves all 1⅛ inches thick, bread board, backs, and all hardware.** Unfinished, no paint or varnish. Shipped ready to put together. Drawers lipped ready to install. Everything cut to exact size. Erection plans sent with each case. Carton packed to secure the lowest transportation charges, sealed against dust. Easily put together. Shipped by freight or express only from our factory in **OHIO, not prepaid.**

Utensils and dishes in Cabinets not included

63R9512—Ceiling Wall Unit or Upper Section. Width, 3 ft.; height, 4 ft. 6 in.; depth, 12½ in. Includes cap mold, wood panel back, three adjustable shelves and all hardware. Shpg. wt., 120 lbs. **Not prepaid.** Each..... **$14.35**

63R9509—Counter Unit or Base Section. Width, 3 feet; height, 2 feet 10 inches to top of counter shelf; depth, 1 foot 6 inches. Includes wood panel back, 1⅛-inch counter shelf and all hardware. Shipping weight, 150 pounds. **Not prepaid.** Each..... **$12.95**

63R9516—Hanging Wall Unit or Upper Section. Width, 3 feet; height, 3 feet over all; depth, 12½ inches. Includes cap mold, panel back, two adjustable shelves, and all hardware. Shipping weight, 100 pounds. **Not prepaid.** Each..... **$10.35**

Send Your Order *to* Chicago - *Save Freight*

Note the fine selection of yellow pine and cypress on this page. Yellow pine, the best authorities agree, including U. S. Government experts, is stronger than soft woods, such as spruce, tamarack, Norway pine and similar structural woods. Cypress is one of the best woods known for outside of building because of its wonderful weather and time resisting qualities.

All of our lumber is finished to standard sizes.

Hardwood Flooring

Clear Grade Oak or Maple Flooring, our highest grade. All flooring furnished in standard lengths only.

How to Lay Hardwood Flooring

Lay dampproof paper or tarred felt between hardwood flooring and subfloors. See Index for Building Papers. Nail ⅜-inch flooring every 8 inches with fourpenny casing, nails, 1-inch every 10 inches with eightpenny flooring nails; 2-inch face flooring is counted 2½ inches wide; 2¼-inch face is counted 3 inches wide. Order one-third extra for tongue and groove.

Weight, per 100 Square Feet, 100 Lbs.

ENJOY THESE Honor Bilt Modern Home CONVENIENCES

I Saved $1,000.00

Sears, Roebuck and Co.
Gentlemen:
Now that my home is complete, I feel that I owe you a letter of appreciation, for the excellent service and consideration shown by your sales office and expressly for the commendable service and interest shown by your field man.
This is the first home I have built, which is the "Oakdale," on which all the carpenter work I did myself with the aid of some friends.
I believe anyone could build one of your ready-cut houses, as all the seemingly difficult things proved simple.
The savings to me on the house was $1,000.00.
Yours truly,
A. HATCHMAN
(Address furnished on request)

OWN A HOME OF YOUR OWN

A Comfortable Bungalow With 4 ROOMS and BATH

The Fairy MONTHLY PAYMENTS As Low as $15

A New Way to Build *and* Save $500.00 to $2,000.00

MAKE your life's dream come true. Begin that charming home you've planned on building "Some day" NOW with the money you pay for rent. Enjoy the comfort, the freedom and the independence of living in a home all your very own, where your children can play in safety. If you are paying rent, you are buying a home for your landlord. Now you can buy one for yourself and family. We can help you do it easily the "Honor Bilt" Way.

Payments as Low as $15.00 to $85.00 per Month

Let US show you how, if you have a building lot and a little cash, we can help you build a fine "Honor Bilt" Home of your own and save $500.00 to $2,000.00. You can pay for this home in easy monthly payments. Our direct-from-factory-to-you prices are surprisingly low, only $520.00 to $4,810.00. Think of it! For only small monthly payments you can buy an "Honor Bilt" Modern home of your own with all modern conveniences.

44,200 "Honor Bilt" Homes Now in Use

We've brought greater happiness to over 44,000 customers by helping them build and finance their own homes, homes that would have cost them considerably more money if built the ordinary way. "Honor Bilt" Homes are easy to build! Over 33,500 of these home owners did the carpenter work themselves. Careful cutting and fitting at the factory saves skilled labor and insures stronger, more solid construction. "Honor Bilt" Homes are solid, durable, warm and permanent.

You Get a Better Home

and save money because with every one of the thousands of homes we build each year each customer gets positive assurance of the following:

1 EXPERT ARCHITECTURAL SERVICE, which eliminates costly, unsightly mistakes and insures a better planned and more enjoyable home.

2 HIGHEST GRADE MATERIAL—the best that money can buy. Bright, new, dry No. 1 framing. Clear Cypress, "the wood eternal," for all outside finish and siding. Lumber, millwork, plumbing, heating, lighting fixtures, hardware, paint, etc., everything except masonry materials, comes to you from our large mills near you at big savings.

3 A SAVING ON TIME, MATERIAL AND LABOR by our modern methods of cutting and erecting on money saving, skyscraper construction principles. Minimize freight, eliminate cutting and fitting time, and insure a better job whether built by your contractor or yourself. Over 33,500 "Honor Bilt" owners built their homes with very little outside help.

4 YOU PAY NO EXTRAS. Prices include everything you need for a complete home, except for masonry materials, as specified, and includes expert service until your home is complete.

We Guarantee a Satisfactory Job

"Honor Bilt" Homes are backed by our $105,000,000.00 resources and our experience covering 25 years of building operations. We guarantee you not only a real saving, but a better built home in every respect.

New Book
Shows You How to Profit by

OUR READY CUT METHODS

BEFORE you build a new barn or any other farm building, get this new book. It explains fully how our expertly drawn plans, with the best materials sent direct to you from our mammoth mills with all timbers already cut and fitted, enable you to save time and money on barns, corn cribs, hog houses, poultry houses, by the same principles used in our "Honor Bilt" homes.

With all heavy timbers delivered cut to fit and marked, you can easily build your own barn with very little outside help, and get a perfect job in every respect. All doors, sash and other millwork come ready to install, without further work on your part.

$925.00 "General Farm" Barn—"HONOR BILT" Size, 28x46 Feet.

We Loan Money to Build

IF you own well located land free from debt, we will loan you money to build your barns complete and pay for them in monthly payments on the same basis as a home. This feature enables you to secure the best financing without additional expense or trouble.

$932.00 "Timber Frame" Barn—"HONOR BILT" Size, 28x42 Feet.

$953.00 "Cyclone" Barn—"HONOR BILT" Size, 32x38 Feet.

Satisfaction Guaranteed

1 LOWEST PRICES on all materials, sent direct to you from our mills and factories nearest you.

2 BEST MATERIALS for each purpose—Cypress or Yellow Pine for siding, Yellow Pine for framing, cut as specified, ready to build in the shortest time.

3 EXCELLENT ARCHITECTURE and the complete sets of plans which have enabled thousands of our customers to do the work themselves without mistakes.

4 QUALITY MILLWORK from our factories including factory made doors and windows ready to fit into place.

5 ENOUGH MATERIAL including shingles, paint and all hardware necessary to complete the building. NO EXTRA MATERIAL TO BUY! No extra charges, and a guarantee of satisfaction in every respect.

Better Construction

Skyscraper construction saves money and builds a better barn because the material comes ready-cut to fit in places shown;—

(A) All large timbers are notched, fitted and numbered to place.

(B) Doors are ready made, ready to hang in place with modern hardware.

(C) Windows and other millwork arrive complete ready to install quickly and easily.

THIS BOOK FREE

IT contains 48 pages of plans and illustrations of a wide selection of modern designs for all kinds of farm buildings. It shows how our ready-cut methods have enabled thousands of farmers to build better barns by our skyscraper method, aided by the best Easy Payment Plan and, at the time save considerable money.

IT'S EASY to MEASURE for CLOTHING

Our Clothing is Carefully Made According to Correct Size Standards

You do not need to order larger sizes than we specify. Our descriptions tell you the size range and you can order with the assurance that, if your size is listed, we guarantee the garment will fit you. Our sizes are obtained by securing the average of thousands of men, women and children in each size, and we believe are the most accurate in the country.

Men's, Young Men's and Youths' Clothing

How to Take Measurements

Stand in your natural way, breathe regularly and do not expand chest; also take everything bulky out of your pockets.

Chest. Take measurement over vest. (A) Measure all around body at chest, close up under arms, snug but not tight. Tape measure should be over shoulder blades at the back.

Waist. If you wear a belt, take it off and take your measure over trousers all around body at waist. (B) Your waistline is just above hip bones. Feel sides for location of hip bones.

Inseam. This is to show length of leg. Stand straight and draw trousers well up in crotch. Measure from close up in crotch to bottom of trousers, to length desired. See line marked C-C.

Give These Measurements in Your Order

Suits. Give chest and waist measures and length of inseam; also height, weight and age.

Coats of All Kinds, Jackets, Raincoats and Overcoats. State chest measure taken over vest; also height, weight and age.

Vests. Give chest and waist sizes; also height, weight and age.

Trousers (Both Dress and Work) and Overalls. Give waist size and length of inseam; also height, weight and age.

Women's, Misses' and Juniors' Coats, Dresses, Knickers, Blouses, Raincoats, Etc.

How to Take Measurements

Actual Bust Measurement (D). For any garment be sure to measure over very largest part of bust with dress or blouse on. Tapeline in back must run on shoulder blades and not below them.

Actual Waist Measurement (E). This measurement is very important when ordering knickers and skirts. Please do not allow extra. Give actual tape measurement, over dress or blouse.

Actual Lower Hip Measurement (G). This means very largest part of figure below waist. Do not "allow." We will make all necessary allowances. Measure over dress or skirt.

Length of Garment. For dresses, coats or raincoats, measure down back from neckline to hem, as shown in small diagram J to K. For skirts measure down front from waist, as shown F to H.

Height and Weight. Knowing your height we can use the very best judgment in sending you the proper dress, coat, suit or knickers. Give weight, also, to obtain best possible fit.

Tell Us This—Do you like to wear your garments loose fitting or close fitting? See space for answer on order blank.

You will be delighted to learn how easily and quickly you can be correctly fitted when above information is given to us. Our years of experience enable us to determine from these measurements exactly what size garment will fit you. **Always pull tape close but not tight. Do not allow. We will make all necessary allowances. Give each measurement as stated in description of garment you're ordering.**

Boys' and Girls' Clothing

GIVE AGE SIZE. To find AGE SIZE, take the chest measure, then consult scale of sizes below.
Before ordering a boys' or girls' garment it is necessary to know the chest measure in order to know the proper AGE SIZE to order, as boys of the same age will usually vary greatly in size, and the same with girls. For example, a boy of only 10 years of age may be as large as the average boy of 12, or, on the other hand, he may be as small as the average boy of 9 years. Girls of the same age also vary in size. These size scales show the average chest measure of boys and girls of each age.

Boys' or Little Fellows' Knee Pants, Suits, Overcoats, Raincoats, Mackinaw Coats, and Blouses

How to Measure Chest: See L on figure. Measure all around body at chest over his shirt or blouse. See that the tape measure is well up under arms, and that it is over shoulder blades at the back. See size scale for age size to order. If your boy's chest measure is 24 inches, order age size 5, or if it is 30¼ inches, order age size 14.

In case the measure is between two of the measurements given at left order the age size for the next larger chest measure.

For example: If your boy's chest measure is 28½ inches, order age size 13.

BOYS' SIZE SCALE

Boys' Chest Measure, Inches	Age Size to Order

29	13
30¼	14
32	15
33	16
34	17

Boys' Long Trousers and Long Trouser Suits

How to Measure

For suits, measure boy's chest, waist and inseam as shown on figure at M, N and O-O. For trousers, measure waist and inseam only (N and O-O). Our boys' long trousers and long trouser suits are sold according to age, size and measurements. The table below shows you the measurements of the different age sizes. For example: If your boy's chest measure is 27 inches, waist measure 25½ inches and inseam 23 inches, order size 10. If you find that your boys' measurements do not agree with age sizes given in the table, send us the chest, waist and inseam measurements and state height and weight and we will send a garment that will fit him.

Age Size to Order	5	6	7	8	9	10
Chest Measure, In.	24	24½	25	26	26½	27
Waist Measure, In.	23½	24	24	24½	25	25½

Waist Measure, In.	26	27	27½	28	29	30
Inseam Measure, In.	24	25	26	27	28	29

Girls' or Children's Dresses, Blouses, Middles, and Raincoats

How to Measure Chest: See P on figure. Measure all around body at chest over her dress or blouse. See that the tape measure is well up under arms, and that it is over shoulder blades at the back. See size scale for age size to order.

If your girl's chest measure is 22 inches, order age size 3, or if it is 31 inches, order age size 12.

In case your girl's chest measure is between two of the measurements given at right, order the age size for the next larger chest measure.

For example: If your girl's chest measure is 26½ inches, order age size 8.

Digitized by Google

IT'S EASY TO ORDER
From the World's Largest Store

Use either pen or pencil, and write in any language—we can read it.

It's Easy to Measure and Give Sizes.

See other side of this sheet for order blank and spaces in which to put your sizes. More order blanks will be mailed on request.

It is very simple to order any kind of wearing apparel from us. You take no risk at all. *We Guarantee to Fit and Please You.*

Men's Sweaters

A Roomy Sweater Will Give You Better Service.

Size to Give and How to Measure—Your proper sweater size is 2 inches larger than your actual chest measure. To find what size to order, measure all around body at chest over vest at C, as illustrated. Be sure tape measure is over shoulder blades at back. To your actual chest measure add 2 inches. For example, if your actual chest measure is 42 inches, order a size 44 sweater. This applies to all men's sweaters, jerseys and knit sport coats.

For directions about ordering boys' and youths' sweaters, see pages where they are described in this catalog. Refer to index.

Men's and Youths' Underwear and Athletic Garments

Give Chest and Waist sizes.

How to Measure—Measure all around body at chest over shirt at A, as illustrated. Be sure that the tape measure is over shoulder blades at back.

Measure all around body at waist over pants at B, as illustrated. Waistline is just above hip bones.

HATS and CAPS

Men's, Boys' and Children's Hats and Caps

Give Hat Size after measuring head as illustrated. In table below you will see hat size that corresponds to your measurements. **How to Measure**—Measure head as illustrated placing tape measure all around head.

	If Head Measures Inches	Hat Size to Order Is
Children's Hat Sizes, 6¼ to 6⅞	19½	6¼
	19¾	6⅜
Boys' Hat Sizes, 6⅝ to 7⅛	20⅛	6½
	20½	6⅝
	20⅞	6¾
	21¼	6⅞
	21⅝	7
Men's Hat Sizes, 6¾ to 7¾	22	7⅛
	22⅜	7¼
	22¾	7⅜
	23⅛	7½
	23½	7⅝
	23⅞	7¾

For sizes on Baby Boy Hats, see pages where they are described in this catalog. Refer to Index.

Women's Sweaters

A roomy sweater will give you better service. Your proper sweater size is 2 inches larger than your actual bust measure.

How to Measure—To find what size to order, measure all around body at bust over blouse or dress at F. **To your actual bust measure, add 2 inches.** For example, if your actual bust measure is 38 inches order a size 40 sweater. **This applies to all Women's Sweaters.**

For Children's and Misses' Sweaters, give age size.

Women's and Misses' Underwear

Including Knit and Muslin Union Suits, Shirts, Vests, Nightgowns and Bathing Suits. Give Bust Size.

How to Measure—Measure all around body at bust over blouse or dress at D, being sure that tape measure is over fullest part of bust in front, as illustrated. Be sure also that tape is over shoulder blades at back.

Knit Drawers

Give Hip Size.

How to Measure—Measure all around body at hips at E. Take this measurement over the skirt. This measurement should be taken about 6 inches below the waistline.

Men's and Boys' Shirts

DRESS SHIRT—**Give neck size.**

WORK SHIRT—**Give neck size,** but if you want your work shirt full and roomy it is best to order a half size larger than actual neck size. For example, if your regular neck size is 15 in., in ordering a work shirt it is better to order size 15½.

HOW TO ORDER OTHER ARTICLES

See pages where they are illustrated and described. Refer to Index.

Babies' and Children's Bonnets

Give Size, found by measuring the number of inches around face, as indicated at left.

How to Measure—Place tape measure around baby's face as illustrated from point below ear on one side to same point on opposite side. The number of inches indicated will be the size you want.

If you select a bonnet quoted according to ages, just state age of your child.

For sizes on Baby Boy Hats, see pages where they are described in this catalog. Refer to Index.

HOSIERY

Men's, Women's and Children's Hosiery

The scales at right show the sizes of hosiery to be worn with corresponding shoe sizes. For example, if you are ordering men's socks and the shoe size is 6½ or 7, order size 10 socks.

Or, if ordering women's stockings and the shoe size is 3, 3½, 4 or 4½, order size 9 stockings.

Order children's and Infants' sizes in the same way.

Scale of Sizes for Men's Socks

If size of shoe is this	5½ to 6	6½ to 7	7½ to 8	8½ to 9	9½, 10 to 10½
Size of sock to order is this	9½	10	10½	11	11½ to 12

Scale of Sizes for Women's Hosiery

If size of shoe is this	1 to 2½	3 to 4½	5 to 6	6½ to 7	7½ to 8
Size of hosiery to order is this	8½	9	9½	10	10½

Scale of Sizes for Infants' Hosiery

If size of shoe is this	1	2	3	4 to 5	6 to 7	8 to 8½
Size of hosiery to order is this	4	4½	5	5½	6	6½

Scale of Sizes for Small Children's Hose

If size of shoe is this	4 to 5	6 to 7	8 to 9	10 to 11	12 to 13
Size of hose to order is this	5½	6	6½	7	7½

Scale of Sizes for Large Children's Hose

If size of shoe is this	1 to 2	3	4	5 to 6	7	7½ to 8
Size of hose to order is this	8	8½	9	9½	10	10½

Corsetry

Because there are so many different styles of corsets today, we give instructions for sizing with each description. Refer to the corset section in this catalog for instructions easy to follow, so your exact size can be had.

Maternity Corsets

Give your waist measure (in your present condition) without corset, at waistline at hollow of back, and deduct 2 inches (for lacing) where special instructions are not given in description. Your corset size is just 2 inches less than actual waist measure in your present condition. (See H above).

Brassieres and Bandeaux

Give Bust Size. How to take bust measure. Measure over your undervest. Place tape measure around body, under arms, over fullest part of bust, pull snugly, not too tight, and give us your measurement in inches. **If your bust measures 35 inches, order size 36; all brassieres are made in even sizes only.**

GLOVES

Give Glove Size.

How to Measure Hand—HOLD HAND OUT FLAT WITH FINGERS TOUCHING, THUMB RAISED; draw ordinary tape measure close but not tight, all around hand, as shown in illustration (do not include thumb). The number of inches shown by this measurement is your correct glove size.

Sizes for Gloves are as follows: Women's Sizes in Fabric Gloves: 6, 6½, 7, 7½, 8, 8½.

Women's Sizes in Unlined Kid Gloves: 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8.

For Glove sizes for Children 5 to 14 years of age: GIVE AGE OF CHILD.

LINOLEUM

It's Easy to Order Linoleum the Sears Way

Our way of pricing linoleums in our catalogs makes it simple to order them. We now price both felt base and linoleum by the "running foot" instead of by the "square yard" as most dealers still do, although many of them have adopted our plan as introduced by us several years ago.

Here we have compiled an Economy Chart that enables you to cover your entire floor at absolutely the lowest price. Simply measure the length and breadth of your room and consult the chart for amount of material needed. In compiling this chart, we have laid out each room size in the most economical manner with as few seams as possible. If the size of your floor is not listed, send us a diagram and remit money for next largest room size listed. We will then ship the correct yardage and refund the difference. Should there be any doubt in your mind as to the proper measurements of your room, send us a diagram and we would be glad to estimate, free of charge, just how much material will be needed.

Size of Room Feet	Running Feet Needed According to Width: 6 Ft. Wide	9 Ft. Wide	12 Ft. Wide	Size of Room Feet	Running Feet Needed According to Width: 6 Ft. Wide	12 Ft. Wide
6 x 9	9	6	..	11x11	22½	11
6½x 9½	10½	..	..	11x12	22½	11
7 x10	12½	..	7	11x13	25	13
7½x 9	11½	7½	..	11x14	27	14
7½x10½	14	..	7½	11x15	28½	15
8¼x 8¼	13	8¼	..	11x16	31	16

HAVE A BEAUTIFUL ROOF

Guaranteed for 17 Years SAVE $50 to $100

Oriental Hexo Vari-Color Shingles

GUARANTEED 17 YEARS *Listed as Standard by Fire Underw. iters*

PUT THIS POPULAR GUARANTEED roof on your new house! Use it to reroof your old one. Have a better looking roof—permanent, fire resisting, fadeless. These beautiful new varicolored slate surfaced asphalt shingles are the choice of thousands of owners of high grade homes. Each bundle of Shingles contains equal portions of five shades of slate and when laid the colors blend beautifully into a Red or Green tone. This Extra Heavy Asphalt Shingle Roof is the best roofing investment you can make. It assures you a definite saving. Guaranteed for **17 full years!** Listed by the Underwriters' Laboratories. You can save from $50.00 to $100.00 on a single order. Gives a double layer of insulation and protection. Lay it right over the old shingle roof. Defies all weather conditions. Packed in bundles. Every bundle contains enough shingles to cover 50 sq. ft. of roof surface. Weight, per bundle, 80 pounds. **Not Prepaid.**

48R486—Per bundle—GREEN TONE **$2.35**

48R487—Per bundle—RED TONE illustrated above **2.35**

Saved $57.28 on His Order!

Sears, Roebuck and Co.,

Gentlemen:

We received our order of 100 bundles Hexo Shingles, 10 rolls flashing, 125 lbs. nails and 2 rolls roofing delivered to our station for $271.79; and the trucking from station and my time was less than $10.00.

I am enclosing the bid we received that was your nearest competition, for $339.08, so you see we saved $57.28. We think that worth while. Thank you for your service.

Yours truly,

EDWARD S. HILL

ORIENTAL VARI-COLOR INDIVIDUAL SHINGLES

Guaranteed 17 Years—Listed as Standard by Fire Underwriters

BEAUTIFUL color effects can be secured with these fine Heavy Varicolored Individual Slate Surfaced Asphalt Shingles. Each shingle is done in a single shade of slate, the same as the Heavy Hexo Varicolored Strip Shingles above, except for size and design, and when laid blends into a red or green tone. You get **triple insulation and protection** with **these** shingles—three thick layers over the whole roof. Lay them right over your old shingles. Shingles to be laid 4 inches to the weather. Shipped in bundles containing enough to cover 25 square feet of roof surface. Actual and shpg., wt., per bundle, 60 lbs. **Not Prepaid.**

48R2924—Green tone **$1.50**

48R2925—Red tone **1.50**

SAMPLES

We guarantee that you will be satisfied with our roofing, but if you prefer to see samples before sending your order, ask for Free Roofing Samples 8573R. See pages 926 to 931 for other roofing material.

Oriental 4 in 1 Strip Shingles

GUARANTEED 17 YEARS *Listed as Standard by Fire Underwriters*

NEW Shingles with beautiful blended color—the natural tints of slate crushed and embedded in the surface—blended to the soft tones so desirable in high grade homes. Far longer life; fadeless; fireproof. Oriental Slate Surfaced Heavy Strip Shingles end all roofing expense the day they are laid. **Guaranteed for 17 years,** but built to last much longer. Listed by the Underwriters' Laboratories. Offered at prices so far below usual cost that you can actually save $50.00 to $100.00 on an average roof. Easily laid at low cost, saving you even more! Made in two sizes. The 12½-inch size gives a triple layer of protection over the whole roof; the 10-inch a double layer. Lay them right over your old roof—four shingles at a time. Shipped in bundles, the 12½-inch size containing enough shingles to cover 33 square feet and the 10-inch size containing enough shingles to cover 50 square feet of roof surface. Shipping weight, per bundle, 82 pounds, 12½ inch size, 100 lbs., 10 inch size. **Not Prepaid.**

48R1291—12½-inch size. RANDOM BLEND **$2.20**

48R2933—10 -inch size. RANDOM BLEND **$2.80**

ORIENTAL RANDOM BLEND INDIVIDUAL SHINGLES

Guaranteed 17 Years—Listed as Standard by Fire Underwriters

THIS new Random Blend Individual Slate Surfaced Asphalt Shingle is the last word in roofing material. There's nothing like it to give your home a smart, up to the minute appearance. Each shingle is surfaced with crushed slate blended in beautiful natural colors of red, green and buff. Fireproof; permanent; guaranteed for 17 full years. Priced far below what you'd have to pay elsewhere for similar quality. Identically the same material as the 4-in-1 Strip Shingles at the left, except for size. To be laid 4 inches to the weather. Shipped in bundles containing enough shingles to cover 25 square feet of roof surface. Actual and shipping weight, per bundle, 60 lbs. **Not Prepaid.**

48R2929—Random Blend **$1.45**

Order Nails Separately

One and one-quarter pounds of 1-inch NAILS required per bundle to lay on roof boards; 2 pounds 1¾-inch nails required per bundle to lay over old shingles. See page 931 for nails.
